JOHN E. McCOY
Village Attorney.

January 31, 1941.

Mr. Arthur F. Spellerberg,
Village Collector,
Lombard, Illinois.

Communications, cont: (John E. McCoy.)

Dear Sir:

Answering your request on behalf of the Village Board of Lombard for an opinion will state that after studying the statutes and special assessment act I find that under Section 86 of the Local Improvement Act the act authorizes the issuance of bonds in denominations of $100 or any multiple thereof, and I find nothing which would prevent the city giving to a property owner who has a thousand dollar bond, securities smaller in denomination than the original thousand dollar bond as long as the denominations are not less than $100.

On this theory, I believe that the Village may take up a thousand dollar bond and issue ten $100 bonds in place thereof, as it is not prohibited anywhere that I can find. Neither is there a direction stating how the bonds shall be issued in any particular manner other than before-mentioned.

In the case at bar the risk, it seems to me, is being taken solely by the bondowner. Therefore, it is my opinion that the Village should proceed as outlined to help liquidate the terrific indebtedness which we now have and in any legal manner possible.

Yours very truly,

John E. McCoy.

A motion was made by Trustee Fleege and seconded by Trustee McClendon that the above communication and opinion be received and placed on file. Motion carried.

A PROCLAMATION

THE BOY SCOUTS OF AMERICA

The Boy Scouts of America, incorporated February 8, 1910, and chartered by Congress June 15, 1916, is celebrating its anniversary from February 8 to 14, 1941, during the Boy Scout Week. In the past three decades the nearly 9,000,000 former or present members have rendered notable service to our community and our nation. In times of distress from floods, hurricane, tornado and other disasters they have demonstrated the effectiveness of organized boy service. During the period of economic stress they contributed in many ways to the relief of suffering, and they have rendered noteworthy service in flood areas.

The Scouts have also contributed to a deeper appreciation by the American people of the higher conception of good citizenship.

Therefore, I, J.C. Alderman, President of the Village of Lombard, do hereby recommend that the citizens of Lombard do whatever they can to observe Boy Scout Week and give their support in strengthening the work of the Boy Scouts of America, particularly through the DuPage area council which administers the Boy Scout program in this community.

I earnestly recommend that our civic organizations, our churches and our schools cooperate in carrying out a program for a definite recognition of the effective service rendered by the Boy Scouts of America, in order that the work of the Boy Scout program may be extended to a larger proportion of the boyhood of this community.

The Boy Scout movement offers unusual opportunity for volunteer service. It needs men to serve in various capacities as leaders of boys. I hope that all who can, will, through the organizations with which they are connected, enlist for such personal service. Anything that is done to increase effectiveness of the Boy Scouts of America will be a genuine contribution to the wellfare of this Community, the State, and the Nation.

A motion was made by Trustee Fleege and seconded by

Regular Meeting of Lombard Village Board, cont. Feb. 3, 1941.

Trustee McClendon that the preceeding Proclamation designating the week of February 8th to the 14th as Boy Scout Week, be adopted and published in the "Lombard Spectator" issue of February 6, 1941, under the hand of the Village President and Seal of the Village. Motion carried.

Letter from Lombard Chief of Police Groote, advising that Walter Smith, having just been released from the Kane County jail, after serving a fifty day term, on the counts of leaving an accident and driving while under the influence of liquor, should have his Scavenger License revoked and not allowed to drive his truck in Lombard, as his chauffer's license was revoked for one year. The President of the Lombard Park Board, Harold Schaible and Park Commissioners A.E. Miller and Charles Michaels met with the Board to discuss a Village Recreational Program and to ascertain what cooperation could be counted on from the Board of Village Trustees. It was the consensus of opinion that the towns people would not be in favor of a tax to take care of a Recreational Program at this time so the funds would have to be raised by other means. The Park Board commissioners said they would be willing to donate $250.00 from the proceeds of the Lilac Festival and a half of the savings made if the gates could be manned gratis by one of the Village organizations. The also agreed to turn over all the profit on the sale of catalogs if some group would sell them making no charges for its services and providing a sinking fund to purchas more catalogs. Itcwas decided that a planning commission would have to be formed to approve of spending of funds. The Village Board thought it could match the Park District's offer. President Schaible stated that members of the school board, district 44, were planning to attend the Park Board meeting the next evening and then it would be found out what that taxing body would do.

A motion was made by Trustee Smith and seconded by Trustee Goddard that the meeting adjourn. Motion carried.

Meeting adjourned at 9.20 o'clock P.M.

At this time the newly elected officers were sworn in. President Alderman swore in Clerk Hubert E. Mogle and he in turn swore in the following:

Harry D. Fleege, Village President
Newton Bean, Village Trustee
Robert M. Buchanan, Village Trustee
Arthur V. Carpenter, Village Trustee
Raymond A. Sines, Police Magistrate
Evelyn Miller, Library Trustee
J.K. Lachman, Library Trustee

Official Commissions and identification cards were given the above officers.

President Alderman turned the gavel over to the incoming President, Harry D. Fleege and then made a short address summing up his experiences on the Village Board and welcoming the new President and other elected officers.

President Fleege now took over the meeting, introducing the new members and calling for short talks from each. Past Trustees Henry Potwin and William Tronvig being present were also introduced.

President Wm Paara of the Lion's Club was called forward to present President Alderman with a beautiful framed token of appreciation from the Lion's Club and the Village of Lombard. Incoming President Fleege received an honorary membership certificate in the Lion's Club and given the well wishes of this organization through Mr. Paara.

The following letter was received from retiring Trustee Harvey B. Lucas, who could not be present:

Mr. J.C. Alderman and Members of the Village Board:

I deeply regret that I am prevented from being with you tonight to welcome the incoming officials of our Village. However, I would like to express to the Citizens of Lombard my deep appreciation of the privilege of having been trustee for the past six years. This office has been a source of great pleasure in that it has given me an opportunity of meeting and knowing many people who otherwise I,perhaps, would never have met.

To each member of the Board I also want to extend my thanks for the many hours of pleasant association. I have never been privileged to "sit in" with a finer group of men whose interests have been so utterly unselfish and who have given so generously of their time in behalf of all of Lombard.

To the operating personnel - the people who, after all, are responsible for the smooth conduct of the many municipal functions, I am also greatly in debt; but for their wonderful cooperation, we could not possibly have maintained Lombard's enviable reputation.

I have been more directly in contact with the street, police and fire department during most of my term in office, and I firmly believe that, as departments, or man for man, they would be hard to equal. Thanks again, boys, for making the path so much easier for me.

Last but not least, much credit, as well as my personal esteem, goes to Mr. Alderman (Jerry to all of us) for the exceptional leadership he has given us. His keen mind, coupled with his outstanding executive ability and, above all, his extreme kindness, has endeared him to all of us and cleared the way at times, obstacles which were seemingly insurmountable.

In closing I want to congratulate our new officials on their election to office. Having served on the Board with Mr. Fleege for the past six years, I know he has qualities and ability that make for a good President. Combined with the experience of our remaining members Messrs. Smith, McClendon and Goddard, as well as Mr. Mogle, our incomparable Village Clerk, and the enthusiasm and ability of our newly elected members, Messrs. Bean, Carpenter and Buchanan, I know we can look forward to a highly successful administration.

Yours sincerely,

Harvey B. Lucas.

A motion was made by Trustee McClendon and seconded by Trustee Smith that the above letter be received, entered in these minutes in full and placed on file. Motion carried.

Regular Meeting of Lombard Village Board. May 19, 1941.

The meeting was held in the Village Council Chambers and called to order at 8 o'clock P.M. by President Harry D. Fleege. Present:

President Harry D. Fleege
Trustee Ross T. McClendon
Trustee George Goddard
Trustee Edwin F. Smith
Trustee Arthur V. Carpenter
Trustee Robert M Buchanan
Trustee Newton Bean
Arthur F. Spellerberg, Clerk Pro Tem

Minutes of May 5, 1941 were read. The word "believe" was omitted in the letter of Harvey B. Lucas, fourth paragraph. (See page 172.) A motion was made by Trustee McClendon and seconded by Trustee Bean that these minutes be approved as corrected. Motion carried.

Minutes of the Special Meeting of May 12, 1941 were read and on motion of Trustee McClendon, seconded by Trustee Smith and carried, approved as read.

Minutes of the Special Meeting of May 14, 1941 were read. In Ordinance No. 405, page 177, two of the sections were numbered "Section 2." These were changed by pen. A motion was made by Trustee McClendon and seconded by Trustee Smith that these minutes be approved as corrected. Motion carried.

Mrs. McGinnis, of South Columbine, complained that on account of highway 53 construction their sewer outlet was damaged and requested relief. Supervisor George Potts reported that this was not County work and should be corrected by the State Department. The matter was brought to the attention of the Board by a letter dated May 12, 1941, from the Health Officer, Dr. T.R. Marquardt advising that stagnant water collected at the rear of the McGinnis home. Supervisor Potts will take the trouble up with the State Department. It was further referred to the Health Committee for investigation.

Mr. Edward Chase and Mr. George Potts were present to request a reapportionment of the Joseph Knippen property on South Finlay adjoining Hickory Street extended, on the south, now occupied by a Mr. Johnson, Mr. Knippen's son-in-law, asking that the lot on which the home is located be separated from the rest of the plot and then he would pay up all delinquent specials connected with the home, but not anymore. By this plan the balance of the property would revert to the State if the specials were not paid. Trustee McClendon suggested that Mr. Knippen donate a strip 33 feet wide on the south of Hickory which with what the village owned would permit opening Hickory to Vance Street. Then the village would consider reapportioning the rear of the property so that the lots could be made to front on Hickory and sold, thus clearing up the delinquent specials on that part. Mr. Knippen could then pay the specials on his property fronting on Finlay. The problem was referred to the Village Attorney, Village Engineer and the Streets and Alleys Committee for investigation. Mr. Johnson will also consider the proposition.

Report of the Superintendent of Maintenance, Charles Oetke:

Water department: In checking the water meters, ten were found to be beyond repair. The owners were notified to purchase new ones.

Street Department: Grading of streets is being carried out at the East, South and West Sections of the Village. The corner of Ridge and Potomac was raised with clay fill, new culvert pipe installed and gravel replaced. New roads are being opened up in the Lilac Lodge section, including Lodge Lane and South Broadway. North Chase regraded in cooperation with the Township.

Regular Meeting of Lombard Village Board, cont. May 19, 1941.

Superintendent of Maintenance Report, concluded:

Forestry Department: 280 trees were planted in the Sewer Disposal Plant grounds for replanting later in the village.

Fire & Police Department: A new 40 foot ladder was received and installed on the No. 1 Fire Truck.

A motion was made by Trustee Goddard and seconded by Trustee Bean that the report of the Superintendent of Maintenance be received and placed on file. Motion carried.

A motion was made by Trustee McClendon and seconded by Trustee Smith that this report be received and placed on file. Motion carried.

Committee reports:

Trustee McClendon, of the Finance Committee, brought up the matter of the Meade, and Public Service Suits against the Village, stating that he would like to have information concerning them, but as the Village Attorney, John E. McCoy, could not be present due to the fact that he was just recovering from sickness and had taken a few days away for rest, the cases could not be explained, at this time.

A motion was made by Trustee McClendon and seconded by Trustee Goddard that the Public Service representatives be called before the Board for a meeting to discuss the suit, same to be held in the Village Hall Wednesday evening, September 17th, at 7 o'clock. Motion carried.

Four different petitions, signed by approximately 400 Lombard citizens, were presented requesting the Board to vote against and defeat the enactment of the proposed milk ordinance, entitled "An Ordinance for the Standards and Regulation of Milk Products, stating the ordinance would be detrimental to the best interests of Lombard. From the discussion that followed it was evident that the petitioners did not understand the nature of the ordinance nor its importance, so the matter was held up until Mrs. Kohler, of Kohler & Kohler, milk analysis chemists, of Villa Park, could drive over and explain just what it all meant. After Mrs. Kohler had discussed the need of such an ordinance and answered numerous questions, the petitioners seemed more satisfied. The ordinance is still being studdied and will be brought before the Board later.

The following petition with reference to the Meade suit against the Village, was presented:

To The President and Board of Trustees of the Village of Lombard, Lombard, Illinois:

We the undersigned citizens and taxpayers of the Village of Lombard, Illinois, for themselves and on behalf of all other taxpayers of said Village who may join in this petition later do respectfully represent to this honorable Board as follows:

That on the 18th day of August, 1941, a judgment in the amount of Two Hundred and Seventy-Two Thousand ($272,000.00) Dollars was entered in the Circuit Court of DuPage County, Illinois, case number 22090 entitled John E. Erickson et al. vs. Village of Lombard, a municipal corporation.

That it appears from the record in this proceedings that Leonard Mead is the attorney for the claimant bond holders and that John E. McCoy is the attorney of record for the Village.

That Leonard Mead, while not the attorney of record in the various special assessment proceedings involved in this litigation, was in fact the attorney for the Village, and that at the time these various special assessments were in the process of being levied John E. McCoy was a law partner of Leonard Mead's.

That the judgment entered against the Village in this case was based on stipulations, proofs, and exhibits, and that there appears nowhere in the records of the Village any authority given John E. McCoy to make any stipulation of any kind, whatsoever, on behalf of the Village, and that the record of the case which leads to this judgment discloses no evidence of a serious contest, and that your petitioners have been informed and believe that the resulting decree is in fact a consent decree wholly unauthorized and un warranted by the facts involved.

Your petitioners represent that they have little knowledge of special assessment proceedings and such legal matters as have led to the rendering of this judgment against the Village and have had little time or opportunity to familiarize themselves with the facts involved and the law applicable thereto, and your petitioners believe that in the preparation of an adequate defense against the claims of various bond-holders asserted in these proceedings, it will be necessary to make an extensive examination of the court files in this case and the books, records, and files of the Village of Lombard and the County of DuPage, and that it will further be necessary to retain the services of competent attorneys and auditors in connection with such investigation and examination.

Your petitioners further represent that a large part of the judgment rendered against the Village represents interest charges wholly unwarranted and totally unsupported by fact or law, and that many of the diversions of funds alleged consists of monies paid on account of the original contracts involved and the liquidation thereof, and are in fact actual credits to the Village and not diversion recoverable by judgment.

Your petitioners further represent that an adequate defense of the claims of the bondholders requires full knowledge of all of the facts involved from the inception of the various improvements to date and the diligent and vigilant assertion of said facts, and that the record in the case resulting in this judgment fails to reveal diligence and a vigorously asserted defense.

Regular Meeting of Lombard Village Board, cont. Sept. 15, '41.

Petition on Mead suit, concluded:

Wherefore, your petitioners request this honorable body to retain attorneys for the immediate purpose of filing such papers as may be necessary to prevent the decree entered against the Village from becoming final at the end of the present term of court (September 18, 1941), and to further employ expert counsel and auditors, and to take such other steps as may be necessary to bring about the vacation of the decree entered and a substantial reduction in the claims asserted therein.

Signed:

Edwin Chase, 145 South Main street, Lombard, Illinois
Chas E. Ries, 125 South Main Street, Lombard, Illinois
Carl F. Kleck, 406 South Craig Place, Lombard, Illinois
Albin O. Horn, 126 South Grace Avenue, Lombard, Illinois
Charles Tamburino, 430 South Craig Place, Lombard, Illinois
Arthur K. Mills, 153 South Lombard Avenue, Lombard, Illinois

A motion was made by Trustee McClendon and seconded by Trustee Goddard that this petition be received and placed on file. Motion carried.

WHEREAS, there exists among the taxpayers of the village, doubt, speculation, and apprehension as to the justice of the decree rendering said judgment as evidenced by a petition of said taxpayers addressed to this Board on September 15, 1941, and

WHEREAS, this Board feels that the interests of the Village of Lombard, its citizens and taxpayers will be best served by the employment of expert council to take all steps necessary or expedient to further defend the Village in the above mentioned litigation, and

Regular Meeting of Lombard Village Board, cont. Sept. 15, 1941.

Mr. Steger, who lives adjoining the Filling and Service Station on South Main Street made a complaint that the Service Station was so noisy and the air so foul his family could not sleep comfortably. Exhaust fumes at certain times are blown in his bed rooms. As this section is zoned for business there was not much the Board could do for Mr. Steger, and he was so informed.

Trustee Carpenter had received several bids for decorating the Village Council Chambers and found them all to be quite high, in fact too high. He was advised to send them to Mrs. Sidney Griffin, President of the Lombard Women's Club, which organization requested the decoration.

RE: Public Service Co. vs. Village of Lombard.

This will acknowledge receipt of your letter and a copy of your bill of complaint. To say that I am surprised is speaking mildly.

I understood that you were filing a suit against the Village of Lombard, which is your privilege, but as to its being a friendly suit this is the first time I have heard anything about it, and as far as I am concerned there is nothing friendly about it. I shall take every legal step possible to defeat the suit and I shall file my own answer. It is my personal belief that in a good many years of practice

Letter from Chas. H. Cress, Lombard, dated September 23, 1941, requesting the Village to permit him to pay off warrant 122 with warrant 88 bonds and coupons. In that warrant 122 is a supplimental to warrant 88, Mr. Cress thought this action could be taken. Village attorney McCoy, however, informed the Board that so far as he knew there was no law covering this and he advised the Board to give it more consideration. Another letter from Chas H. Cress, Lombard, dated October 6, 1941 with reference to interest charges on bonds. Mr. Spellerberg is of the opinion that the bonds which are payable in the year 1942 are dated October 1st and therefore accrue interest only from October 1st of each year. Mr. Frank Wardecker, one of the attorneys retained by the Board to assist Village Attorney JohnyE. McCoy, in connection with the Meade suit against the Village was present to report on the history of the case and recent develop-

ments. He said in brief, that to continue with the case he would have to have more cooperation from the Village Attorney and free access to all Village records; that the case was moved up from October 8, 1941 to the 21st of October for a final hearing, and that the present defense records were not in first class order.

Village Attorney McCoy said he was willing to cooperate but that he could not turn over his own personal files and have them taken out of his office, but that Mr. Wardecker could use them at his office in his presence.

Mr. Wardecker then introduced Mr. L.C. Munroe, of Lombard, to throw some new light on the suit. Mr. Munroe said that a few years back a complete audit was made of the Lombard bond records by the Reconstruction Finance Corporation of the Federal Government, in connection with a Chicago Bank investigation, and that the information was available for defense use. He then introduced Mr. John P. McElligot, a certified public accountant, who made this audit for the Reconstruction Finance Corporation, in 1933.

Mr. McElligott presented a detailed explanation of his audit. He said, with reference to Warrant 88, construction of the large sewer, that the final estimate of improvements was presented to the Board of Local Improvements February 24, 1930, and showed that there was still some $17,000 in unfinished work to complete. February 25, 1930 a certificate of completion was filed with the County Clerk. April 18, 1930 the Engineering Service Corporation of Aurora, wrote a letter to Dowdle Brothers directing them to complete the work. April 21, 1930 an order was entered in court approving final certificate of completion. Payments after that indicated out right that Dowdle Brothers had been overpaid in interest and bonds and that several other large payments were made to the Engineering Service Corporation after the final certificate had been filed. In fact, it was the opinion of Mr. McElligot that the final certificate was a fraud on the Village of Lombard.

Mr. Charles Cress took the floor and stated that he and two other gentlemen - Trustee McClendon later stated that he was one of them - went to the home of Judge Fulton to find out about the judgment decree against the Village of Lombard. The case is being tried before Judge Fulton. He said that the judgment decree if not vacated, would be final and that there would be no recourse but appeal. He himself holds judgment only on the audit of the account.

Due to so many new facts being brought up about the case at this time it was suggested that the Board dispense with the services of the Village Attorney as well as those of Mr. Wardecker and Maloney, and hire new council.

A motion was made by Trustee Goddard and seconded by Trustee McClendon that the Board dispense with the services of John E. McCoy as Village Attorney. Roll call:

AYES:	Trustee	Goddard

NAYS:	"	Carpenter

This being a tie vote, President Fleege cast the deciding vote, NAY, and the motion was lost.

Attorneys Frank Wardecker and David Maloney were still retained as associate council, in the Meade case only.

On motion of Trustee McClendon, seconded by Trustee Buchanan the meeting adjourned at 12.10 o'clock A.M. October 14, 1941.

Mr. Richard Menz, a member of the Lombard Beautification Committee reported that a number of shade trees set out by the Committee had been damaged and he would like to have permission to replace them from the Village tree nursery. A motion was made by Trustee McClendon and seconded by Trustee Buchanan that the request be granted. Motion carried.

Mr. Menz further recommended that the Village hire a professional tree man to inspect and take care of the damaged and diseased trees of the Village. Also, box elders should be removed from the terraces where they were raising the curbs or walks.

Mr. Frank Wardecker, Attorney, hired by the Village to assist Village Attorney McCoy in the defense of the Mead suit

asked to be heard at this time. He said in brief that he was satisfied the decree was bad in the amount of several thousand dollars and suggested that President Fleege appoint a committee of four members of the Board to meet with Mr. Mead and see if a compromise could not be worked out. He further requested the Board to require Village Attorney McCoy to turn over to his custody all the files and data concerning the Mead suit held by Mr. McCoy so that he could defend the Village more ably, in this suit. Mr. Wardecker gave as his opinion that the Public Benefit decree was bad to the amount of $25,000 and he was satisfied from the records that in the principal amount of bonds claimed the decree was bad to the amount of approximately $70,000.00, adding if the decree is vacated November 7th, 1941 and we are allowed to introduce added proof and make defenses we can reduce the decree to upwards of $50,000.00. In conclusion he asked to be informed as to what had happened in the case since the last hearing to vacate before Judge Fulton. He, himself had met with Messrs McElligott, Spellerberg and Maloney to work on the case but never with Mr. McCoy, who was unavailable at those times.

Mr. Charles Cress, an attorney, stated that he thought the three attorneys, Messrs Wardecker, Maloney and McCoy, should get together if the suit was to progress satisfactorily.

Trustee Buchanan said he thought the Village Board capable of handling the case and made a motion that the village cut expenses by dispensing with the special attorneys, Messrs Wardecker and Maloney, and continue with Village Attorney McCoy. There was no second so the motion was lost.

President Fleege reported that he had met with Mr. Mead and Mr. Weinert, an accountant in the employ of Mr. Mead, when Mr. Mead approached him with reference to a compromise, saying he would deal with no one else but President Fleege. As a result of these meetings President Fleege submitted the following correspondence, and offer of Mr. Mead, in the form of a Resolution, for the consideration of the Board:

Dear Sir:

This is to confirm our previous conversations with your Village Attorney, Mr. John McCoy, that upon payment by you in the sum of $6,424.00, the undersigned will assign, or cause to be assigned to you or to any person whom you may designate, all claims, cause of action, credits or other rights now due to the undersigned upon special assessment bonds of the Village of Lombard described in and involved in the law suit now pending in the Circuit Court of DuPage County, Illinois, entitled Blanchard Securities Company vs. The Village of Lombard #41-280 which had become due upon the bonds described in said complaint up to January 31, 1938 in accordance with the audit of that date. In other words, in consideration of the aforesaid sum there will be assigned to you not the bonds themselves or the total unpaid balances on said bonds but only such sums which had become due up to January 31, 1938 and which should have been paid and which have not been paid by reason of various diversions of special assessments funds and for such sums judgment would have been entered in favor of the holders of said bonds in the above entitled law suit.

This offer is made upon express condition that said sum shall be paid within thirty days from the date hereof and upon the expiration of thirty days from the date hereof this offer shall be null and void and of no effect whatsoever.

This offer is also subject to the rights of any persons owning the bonds involved in said law suit to withdraw the same from the control of the undersigned. In such case only such bonds as remain under control of the undersigned will be assigned as aforesaid.

Mr. Mike Steger again appeared before the Board to have something done about the garage nuisance adjoining his residence on South Main Street. Village Attorney McCoy reported that he had investigated the situation and found that the garage came under Class D zoning restrictions; that it was originally built for garage purposes only, and that no permit had been granted to the owner to change the garage into a repair shop. Although the present zoning restrictions would allow a repair shop, the owner must first obtain a permit to make such a change. He was of the opinion that Mr. Steger had a just complaint.

A motion was made by Trustee McClendon and seconded by Trustee Buchanan that notice be served on the owner or tenant operating the repair shop to stop using the garage as a repair shop, ~~greasing or oiling station~~. Motion carried.

Trustee McClendon, a member of the Finance Committee, asked the following question of Village Attorney McCoy, with reference to the settlement of the Mead suit, requesting that it and the answer be made a part of these minutes:

Question: (Trustee McClendon) Do you believe that we are creating an increased diversion on Special Assessment Funds to the extent we are increasing the liability of the Village by using unearmarked special funds in the hands of the Village Treasurer where said funds have been recovered from sureties, closed banks, surety bond companies and interest on these funds by paying part of said funds to the extent of $40,000.00 on judgments obtained for diverting special assessment funds, said funds being lost in closed bank, which were not earmarked by the Treasurer in said bank, etc., at the time of deposit?

Answer: (Village Attorney John E. McCoy) I do not thing we are increasing the Village liability one iota over what it already is.

Trustee Goddard, Chairman of the Light & Water Committee presented the report from the Public Service Company showing street light breakage for the months of August, September and October, 1941. The lights were in the outlying districts of the Village. There were 5 broken in August, 7 in September and 14 in October.

A letter was received from the Illinois State Council of Defense, Chicago, dated December 18, 1941, signed by Mr. Murray M. Baker, Vice Chairman, stating that Mr. Wm. V. Sayner, who lived at 62 North Lincoln Street, Lombard, had been appointed a Reserve Captain and could assist the local defense board in its defense program. A letter was received from the Governor of Illinois, Dwight Green, dated December 26, 1941, requesting the Village Board to send Superintendent of Police Richard Groote and any other Village representative it thought suitable, to attend the Governor's Civilian Defense Meeting to be held in the Centennial Building at Springfield, Tuesday afternoon at 1.30 o' clock, December 30, 1941. Trustee McClendon said he could go with Superintendent Groote.

Superintendent of Maintenance, Charles Oetke, brought up the matter of protecting the Village Water supply. His idea was to surround the South side supply tank and the central pumping station at East St. Charles Road with a seven or eight foot cyclone fence and have them flood lighted at night. He estimated that there would be required about 936 lineal feet of fence with four and twelve foot gates. The Darby Company of Aurora estimated the cost at $1,408.00 with five weeks or more for delivery. The American Steel Wire Company estimated the cost for a seven foot fence at $1,210.00 and an eight foot fence at $1,248.00. The Darby figure was for an eight foot fence. The cost of the lighting material would be in the neighborhood of $138.00 not counting installation. The American Steel Wire Company promised two to three week delivery with a priority application.

Mr. Oetke was authorized to get in touch with the Village Engineer and have specifications drawn for the fencing and lighting and have advertisement for bids published in the Lombard Spectator, issue of January 1, 1942, with the specifications as a basis.

Communications, continued:

Report of the Department of Public Health, Springfield, Illinois. Samples of water taken from the public supply December 18, 1039 showed that the water was safe to drink. However, the sample taken from the reservoir at discharge to the mains showed a slight contamination. This might have been due to some small sanitary defect. The Department was also in some doubt as to whether the 84 foot well would continue to yield a safe water because it penetrates limestone, which in this area is creviced and might permit pollution to travel long distances with no purification.

A motion was made by Trustee Lucas and seconded by Trustee Smith that new samples be sent in from the reservoir to check against those of December 18, 1939. Motion carried. (The Village Superintendent of Maintenance, Chas. Oetke, reported that this had already been done.)

Statement from the Western United Gas Company, showed excess consumption of gas over the free franchise allowance - 1600 therms - of 2,845.60 therms from January 9, 1939 to November 7, 1939. A motion was made by Trustee Fleege and seconded by Trustee Goddard that this statement be received and placed on file. Motion carried.

Two letters dated December 20th and 28th, 1939, were received from the Chevrolet Motor Division with reference to the Village police car difficulties with the final ultimatum that the repairs required were purely of a maintenance nature and therefore not their problem. A motion was made by Trustee Lucas and seconded by Trustee Goddard that these communications be referred to Mr. Oetke, Village Superintendent of Maintenance and then filed. Motion carried. (Mr. Oetke reported that the Police car was now in working condition.)

Letter from the Lombard Lion's Club dated January 2, 1940, signed by Rev. Joseph A. Gehrig, President, suggesting that the Main Street approach to Lombard from the south be widened. A motion was made by Trustee Lucas and seconded by Trustee Dieterich that this letter be received and referred to the Streets and Alleys Committee, and to the Village Engineer Deuchler, with a note over the signature of Trustee Lucas, requesting his reaction. Also that the letter be acknowledged expressing the appreciation of the Board in calling the matter to its attention and advising that as soon as the Village Engineer can make an inspection the Lion's Club will be given information as to what can be done. A PROCLAMATION
BOY SCOUTS OF AMERICA

A PROCLAMATION

THE BOY SCOUTS OF AMERICA, incorporated Feb. 8, 1910, and chartered by Congress June 15, 1916, is celebrating its anniversary from February 8 to 14, during Boy Scout week. In the past three decades the nearly nine million former or present members have rendered notable service to our community and our nation. In times of distress from floods, hurricane, tornado and other disasters they have demonstrated the effectiveness of organized boy service. During the period of economic stress they contributed in many ways to the relief of suffering, and they have rendered noteworthy service in flood areas.

The Scouts have also contributed to a deeper appreciation by the American people of the higher conception of good citizenship.

THEREFORE, I, J. C. ALDERMAN, PRESIDENT OF THE VILLAGE OF LOMBARD, do hereby recommend that the citizens of this village do whatever they can to observe Boy Scout week and give their support in strengthening the work of the Boy Scouts of America, particularly through the DuPage council, which administers the Boy Scout program in this community.

I earnestly recommend that our civic organizations, our churches and our schools cooperate in carrying out a program for a definite recognition of the effective service rendered by the Boy Scouts of America, in order that the work of the Boy Scout program may be extended to a larger proportion of the boyhood of this Community.

The Boy Scout movement offers unusual opportunity for volunteer service. It needs men to serve in various capacities as leaders of boys. I hope that all who can, will, through the organizations with which they are connected, enlist for such personal service. Anything that is done to increase the effectiveness of the Boy Scouts of America will be a genuine contribution to the welfare of this community, the state, and the nation.

In witness whereof I have hereunto set my hand and caused the seal of this community to be affixed.

Done this 23rd day of January, in the year of our Lord, one thousand nine hundred and forty.

(Seal) (Signed)
J. C. ALDERMAN,
President of Village
Board of Trustees.

A motion was made by Trustee Lucas and seconded by Trustee Dieterich that the above Proclamation be approved and published. Roll call:

She was informed that this could not be done without changing the Village Ordinance and that the Zoning Board of Appeals would have to pass on the matter, which would require advertising and a public hearing. It was decided that the Zoning Board would meet with the Village Board, Thursday evening February 15th, at 7.30 P.M. to discuss revision of the Zoning Ordinance.

Trustee Smith suggested that now would be a good time to start sidewalk repairs taking advantage of the already approved W P A Project. It was suggested that Village Engineer Deuchler write the W P A Headquarters at Rockford advising that the Village was ready now to go ahead with the project.

With reference to changing the approach on East St. Charles Road over the C & N W Railroad tracks inorder to lessen accidents at this point and also to better the one from the south on Grace Street, Village Engineer Deuchler had made a careful survey of these two problems and presented his data and sketches at this time with recommendations. He suggested a wider arc on the St. Charles Road approach and curbing on the East side of the Grace Street approach. He informed the Board that the County Highway Department would take care of the curbing. A motion was made by Trustee Lucas and seconded by Trustee Smith that the improvements as outlined by Mr. Deuchler be carried out. Roll call:

However, he had written to the Village President September 27, 1938, Chief Groote, July 12, 1939 and contacted Mr. McCoy several times to the effect that this was a dangerous crossing and that the Village should ask for gates, but nothing had ever been done. Letter from Dr. T.R. Marquardt, Village Health Officer dated July 25, 1940 stating that there have been many complaints lodged with him concerning out door toilets. He further suggested that these people should not be allowed to live in homes with out side toilets and that the owners should be ordered to connect such homes with the sewer. A motion was made by Trustee Lucas and seconded by Trustee Fleege that this communication be referred to the Sewer Committee for investigation. Motion carried.

Committee reports:

President Alderman stated that the Reed Cafe case had again been brought before the Liquor Commission and again turned down. He was of the opinion that the case would be taken to higher courts. If this turned out to be the situation and the Village had to stand the expense he thought the present license fees should be increased. Compared with surrounding towns our license fee is the lowest in proportion to the population and number of taverns. He submitted the following figures:

Town	Population	No. of Licenses	Fee	Stores
Naperville	5,118	8	$400	$200
West Chicago	4,000	4	250	
Forest Park	14,900	50	500	
Lombard	7,025	4	300	100

Mr. Schmidt of East St. Charles Road was present to ask the Board, for himself and neighbors, to give them a road outlet to Highland Avenue. He was told the matter would be investigated.

R E S O L U T I O N

Note: This Resolution and following agreement were declared null and void at the meeting of Apr. 21, '41. See page 160 for action.

WHEREAS, the Village of Lombard has become much involved in litigation and there is actually one judgment on record at the present time in the amount of $197,973.23 against the Village of Lombard for sums lost in banks, money converted, public benefit not paid on account of bonds etc., and other claimants are in the process of filing suit wherein the Village of Lombard would become indebted to various persons in the sum of upwards of $400,000.00 to pay which there would have to be levied on the taxpayers of the Village of Lombard heavy taxes to pay the said judgments, in addition to interest which would run into thousands of dollars per year, and

WHEREAS, the President and Board of Trustees have certain sums in the possession of the Village and certain bonding powers which if used according to a certain contract which is before the President and Board of Trustees for action will reduce the Village's liability to approximately $121,000.00 and cause the Village to recoup from various sources large sums of money, and thus relieve the Village of the terrific burden of taxation which would otherwise arise, it is deemed expedient therefore, that the President be authorized to sign a contract as hereinafter set out, a copy of which is hereto attached and made a part of this resolution.

BE IT RESOLVED by the President and Board of Trustees of the Village of Lombard in special meeting assembled that the President and Clerk of said Village are authorized to sign an agreement between the Village of Lombard, as party of the first part, and John E. McCoy as party of the second part, a copy of which agreement is hereto attached and made a part of this Resolution, and the Clerk is hereby authorized to place the attest of the Village upon said contract in addition to signing the same.

A G R E E M E N T

WHEREAS, the Village of Lombard, a municipal corporation has become involved in much litigation brought by various special assessment bondholders and owners for moneys lost in banks, through bank failures, for money converted to the use of the Village which

should have been applied on payments of special assessment bonds, for bonds and indebtedness and interest thereon arising out of special assessments laid in and around surrounding Village property for payments charged to public benefits, for which the village is liable which has been collected and used by the Village in payment of bills, etc. and accrued bills for electric light and power over the years, and interest on various conversions, etc., and

WHEREAS, the sums for which the Village has become liable, which sum has been audited and is admitted by the Auditor-collector of the Village, and

WHEREAS, the total amount with interest is upwards of the sum of Four Hundred Thousand Dollars, ($400,000.00) and

WHEREAS, some of these judgment creditors have actually obtained a judgment against the Village and others are proceeding to obtain judgments for various amounts, all of which are admittedly owed, the President and the Village Board of Trustees of the Village of Lombard feel that it is necessary that this liability and burden of debt about to be placed on the Village of Lombard be should be settled or compromised in some manner which will relieve the taxpayers from tremendous burdens of paying these huge sums of money and interest thereon by purchasing or causing to be purchased the various claims now outstanding against the Village of Lombard, namely, the before mentioned sum being upward of Four Hundred Thousand Dollars.

WHEREAS, there are numerous creditors and each creditor is pressing for payment and each creditor is endeavoring to secure the largest sum possible for himself and in order to reach any sort of agreement and protect the Village in a manner so that the creditors now owed by the Village cannot accept payment of what sums of money they can now obtain and then later sue for the balance still owed them, and to allow the Village to settle, compromise or buy the various claims before-mentioned with the sums of money available by the Village in the various funds which can be used for the purpose before-mentioned, it is the belief of the President and Board of Trustees that this can only be done by entering into a contract as hereinafter set out, because of the fact that this matter must be totally set in the hands of one party and negotiated with full authority to act and because of the fact that every creditor is endeavoring to obtain advantage for himself and because of the fact that there is only a certain sum of money available by way of the Village's credit or funds on hand which is so much less than the claims that there is grave doubt whether they can be settled at all, and the following method is believed to be the only possible way that settlement can be made, and

WHEREAS, if the Village can settle the before-mentioned claims with the various sums of money as hereinafter set out, in the future the Village will be entitled to all public benefits payments received by the Village in the place of those whose claims against the Village are being purchased and inaddition thereto to the various sums of money which would have been payable to the before-mentioned claimants out of future payments still to come into the Village because of over-payment on bonds not hereinvolved but which the Village has paid, and because of the fact that the Village has special assessment bonds on property owned by the Village. All of the foregoing opportunity of recoupment from public benefit money and moneys to be paid in the future etc. as before-mentioned will be lost unless the Village of Lombard by its duly constituted authorities enter into a contract as hereinafter set out, which will not only settle obligations of the Village for a small percentage of the money due and owing to the various claimants, but in addition thereto the Village will actually receive back in the future more cash benefit than the Village will have to advance, and hence this contract will redown to the benefit of the Village to the amount of at least $150,000.00 or upward, the Village standing in the place of the creditor and receiving moneys in full payment where the said Village has paid out much smaller sums to obtain said claim.

WHEREAS, it is actually admitted by the Village that there is now due and owing to the various creditors of the Village of Lombard the following sums, the said sums being hereinafter set out as follows, always taking into consideration that the Village is entering into the contract as herein stated will have to issue its bonds in the approximate sum of $121,000.00 and will have to pay in full all public benefit to bondholders of the Village who are not involved in these claims before the said bond issue of $121,000.00 can be made.

	$397,047.34

(The above figures were estimated by bond counsel and is subject to revision when complete principal and interest requirements are determined and may vary several thousand dollars either way. The above interest figures are approximate, as they vary from day to day and are subject to revision by the attorneys who have to approve a bond issue.)

	$176,703.06

WHEREAS the latter mentioned amounts must be used to settle the claims of the Village of Lombard, compromise and relieve the Village of all liability, and

WHEREAS, the President and Board of Trustees of the Village of Lombard feel that John E. McCoy, hereinafter mentioned as the party of the second part, is the only person who can possibly bring this about, and

WHEREAS, it is necessary that someone carry forth the before-mentioned compromise and have full authority to make agreements, buy, negotiate, etc. with the various creditors so that the Village may make the settlements before-mentioned,

IT IS HEREBY AGREED by and between the party of the first part, namely, the Village of Lombard, and the party of the second part, namely, John E. McCoy, that if the party of the second part will enter into negotiations with the various claimants hereunder and obtain, purchase and buy in his own name for a valuable consideration the various claims before-mentioned and cause the same to be wholly satisfied, made null and void on the books of the Village of Lombard, and that there shall be no further liability by the Village on account of the various claims as heretofore listed, the said bonds being shown by the various numbers under Schedule as set forth in the decree in the case of John E. Erickson et al. vs. Village of Lombard, Circuit Court Case No. 22090, as prepared and approved by the lists made by the Village Collector of the Village of Lombard in the Albers, City National Bank, Blanchard and Dowdle claims, and as shown by the Village books in the case of the Public Service Company of Northern Illinois, the said various decrees and lists before-mentioned being made a part of this contract by reference thereto and by the list and figures prepared by the Village Auditor-collector as relating to bondholders entitled to public benefits who are not involved in any of the other claims, the said party of the first part will cause to be issued the sum of $121,000.00 in bonds at the rate of four and three-fourths per cent (4¾%) interest per annum, said bond issue to be retired over a period of twenty years at suitable rate of retirement per year, which before-mentioned bonds be sold to John E. McCoy for $121,000.00 cash money, the said bonds being sold to the said John E. McCoy at their face value of $121,000.00 and which $121,000.00 shall be paid over to the Village of Lombard in cash money, it being understood that the constitutional debt limit of the Village is to govern the amount of the above bond issue.

IT IS FURTHER AGREED by and between the Village of Lombard and the beforementioned John E. McCoy that simultaneously with or at the time of the payment before-mentioned to the Village of the said sum of $121,000.00 the Village of Lombard in return for the settlement of all the before-mentioned claims and after and upon proper indorsement on bonds and the giving of the necessary papers to relieve the Village of all liability of the before-mentioned claims will pay over to the said John E. McCoy the sum of $166,464.53 and the before-mentioned special assessment bonds heretofore set out as being available to settle these claims at the par value of $34,128.43 in bonds.

The said money in the sum of $121,000.00 and the $34,128.43 in bonds are to become the absolute property of the said John E. McCoy, this to be done simultaneously with the satisfying of all claims before-mentioned, except that there shall be turned over to the Village in cash money by the said John E. McCoy whatever sum is required by the Village to pay the public benefit on the bonds owned by bondholders who are not involved in any of the claims being settled under this contract, which the Village agrees shall be paid to the parties owning bonds and entitled to public benefit who are not involved in these claims.

IT IS FURTHER AGREED that the said John E. McCoy shall take care of all legal expense, satisfaction of judgments, indorsements on all bonds, make proper assignments to the Village of Lombard of all liability which he may acquire and which shall become the property of the Village of Lombard, and that when this transaction is completed the total liability of the Village of Lombard shall be the sum of $121,000.00 on the bond issue issued as before-mentioned as far as this contract is concerned being in no way related to other bonded indebtedness of the Village.

IT IS FURTHER AGREED that the Village of Lombard will cause to be passed an ordinance issuing said bonds in the amount before-mentioned and will when requested by the said John E. McCoy cause such ordinance to be passed for said bond issue, said bonds to be turned over to the before-mentioned John E. McCoy at a valuation of one hundred cents on the dollar face value, it being understood that that is the purchase price that the said John E. McCoy is paying for the said bonds.

IT IS FURTHER UNDERSTOOD AND AGREED that in the event ~~of~~ the said John E. McCoy cannot carry out this contract within the period of six months from date hereof that this contract is null and void and not binding on either party hereto, it being understood that it is possible that the said John E. Mccoy may not be able to carry out this contract, but he hereby is given the period of six months in which to carry the same through and deliver as before-mentioned, unless he informs the Board prior to this time that he is unable to carry out this contract.

IT IS FURTHER UNDERSTOOD AND AGREED that this contract is separate and apart from any other service rendered by the before-mentioned JOHN E. McCOY to the Village and that this contract is drawn with the one purpose, of obtaining a settlement of the many claims and judgments heretofore listed and is in no way connected with legal services rendered prior to this time in defending these suits or to be rendered in the future regarding these claims and suits if this contract is not carried out.

IT IS FURTHER UNDERSTOOD AND AGREED by and between the parties hereto that these figures are approximate and are subject to change if it is found that they are incorrect (it being understood and agreed that the principal sums are correct, but the variation may be in interest due because of the figuring of the principal sums as of February 1, 1938, and that the adjustments meant are adjustments on the Village books as to amounts, not as to the amount to be paid John E. McCoy for settlement of the claims) and adjustment made in the various sums pertaining to amounts claimed by various claimants, and that each day's delays is causing further interest to be accrued and further liability, and that time is the essence of this contract both on the part of the Village of Lombard and John E. McCoy, and both shall do everything necessary to expeditiously carry out the purposes herein set forth.

IT IS FURTHER UNDERSTOOD AND AGREED that the special assessment bonds heretofore referred to as available to settle the before-mentioned claims are worth but a fraction of their par value.

IT IS FURTHER AGREED by the parties hereto that in order to assure the successful culmination of this project designed to relieve the Village of this tremendous indebtedness acquired prior to and through no act of the Present Board of Trustees, during the life of this contract no other person whatsoever shall be entitled to act in any way regarding the settlement of these claims, that the said John E. McCoy is absolutely free to carry on his negotiations with the various creditors as he sees fit without intervention by any member of the Board or employee of the Village, and any inquiries regarding anything pertaining to the settlement of these claims will be referred to John E. McCoy, and no information will be given to anyone making inquiries by anyone connected with the Village of Lombard except John E. McCoy.

IT IS UNDERSTOOD that the President and Board of Trustees in entering into this contract are relying upon the said John E. McCoy because of his very special knowledge of the facts in this complicated case and his past record and ability in protecting the interests of the Village.

IT IS FURTHER UNDERSTOOD AND AGREED that this contract is not assignable and that the said John E. McCoy will report to the President and members of the Board of Trustees from time to time or at any time upon request the progress of the negotiations being made and accomplished under this contract.

Mr. Sylvester, 322 South Elizabeth, Lombard, appeared before the Board to request permission to make a two family home of his property, as there was more ground than 2/6th of an acre. Mr. Chas. President Alderman informed Mr. Bainbridge that the Trustees had been so busy on other matters and furthermore wished to consider a new Building Ordinance which had not yet been drafted, that they had not had time to further discuss it. Mayer, Secretary of the Lombard Building & Loan Association was present to discuss with the Board the reason a permit was refused his Association to add an extra room and a bath with sewer connection, to their property at 349 South Brewster, when they had been ordered to make a sewer connection and install an inside toilet. He was informed that the sewer permit would be granted, but that the enlargement constituted an ordinance violation. There were numerous residents present, living near this property who objected to the enlargement, also.

Mr. J. Smith, asked the Board, at this time, if something could not be done to stop speeding on Grove, Elizabeth and North Main Streets, suggesting that the Lion's Club or American Legion might be willing to offer the services of several special police until the trouble could be eliminated. He was informed that the Village Police would give these streets more attention and thanked for his interest.

Mr. Phillips, of 256 East Harrison, was present to inform the Board that in that he did not own the property where he lived the notice to install a sewer connection into the house could not apply to him.

Mr. Ross Miller, of West Harrison Street, also told the Board that he could not install a sewer connection because of the cost and furthermore the house in which he and his family lived, was not worth modernizing. He asked permission to remain until Spring and then he would move out entirely. He was given two weeks extension and the matter referred to the Health Committee for investigation.

A motion was made by Trustee Lucas and seconded by Trustee Smith that the recommendation of the Fire and Police Committee be accepted effective as of January 1, 1939. Roll call:

Trustee Lucas, reported that the Firemen grossed around $600.00 from their New Year's evening dance and that the Fire Department and Fire and Police Committee wished to express their thanks to Mr. Lloyd Whitbeck for furnishing them such excellent publicity in "The Lombard Spectator."

Trustee Lucas also informed the Board that the reason why the street maintenance department was unable to sprinkle cinders on the icy streets during the holidays was that the Wander Company of Villa Park, which supplys the Village with cinders, had closed down to take inventory and consequently produced no cinders.

At this time, Trustee Smith, Chairman of the Health Committee, brought up the matter of Garbage Disposal for Lombard and presented the following report of cost as experienced by the Village of Villa Park:

Expense of Garbage Collection
in Villa Park

(concluded next page.)

AAH074

Expense of Garbage Collection in Villa Park

	For one year
Wages for driver and helper	$ 2,080.00
Extra man	240.00
Gas and oil to operate trucks	420.00
Cost for disposal of garbage @ $2.00 per ton	720.00
Truck repairs	100.00
Total	$ 3,560.00

A new law allowing villages to assess two mills for garbage collection was passed in 1936 and made a law in 1937. This does not include the cost of a truck which would have to be added to the appropriation nor does it include compensation insurance or truck insurance of any kind.

Also presented for the consideration of the Board was Villa Park Ordinance No. 346 Defining Garbage and the Manner of Handling Thereof with copies of Pick-up notices and red refusal slips, when the garbage did not conform to regulations.

Trustee Smith pointed out that the Annual Clean-up Week would be done away with and this money applied to the yearly expense. If the plan of Villa Park is carried out there will be two days each week when rubbish is collected and one day for garbage.

Village Superintendent of Maintenance, Oetke, stated that there were many places in and around the Village which could use rubbish for fill and that the garbage could be handled at a fertilizer plant north of Lake Street near Addison or else delivered to a farmer near by to be used for hog feeding purposes. The fertilizing plant would charge $2.00 a ton for receiving garbage from the village delivered to the plant and the farmer asked $1.00.

Trustee Potwin informed the Board that the collection of garbage and rubbish by the Village could not be started before the Spring of 1940 as an appropriation would have to first be considered in the Spring of 1939 when the yearly budget is planned. However, it was pointed out that if desired the village would have to start and so the sooner the better. Trustee Smith, Chairman of the Ordinance Committee, was requested to present an Ordinance covering Garbage and Rubbish disposal at the next regular meeting if possible or as soon thereafter as convenient.

Minimum service charge of $5.00 set for thawing pipes

Trustee Fleege, Chairman of the Light and Water Committee, informed the Board that the matter of thawing out frozen service pipes for the residents of Lombard was becoming a very serious and expensive problem. It seems that people will not protect these pipes because they know they can call on the water department to thaw them out. Superintendent of Maintenance, Oetke, informed the Board that other towns made a charge for doing this work ranging from $5.00 to $15.00. A motion was made by Trustee Fleege and seconded by Trustee Smith that a minimum charge of $5.00 be required hereafter for each thaw out, and that notice be given both in the local paper and with the water bills when mailed. Committee reports:

Trustee Potwin, Chairman of the Finance Committee, had had letters of inquiry sent to different towns and villages near by with reference to the handling of garbage and its cost. He read some of the replies and then turned the information over to the Ordinance Committee to study and assist it in drawing up a suitable Ordinance for Lombard. Garbage

Trustee Lucas, Chairman of the Fire and Police Committee, reported that Police Officer John Biehl had been confined to his home for the past six weeks and was still there, and Officer Emile Greinke had been sick at home for three days. It had been necessary to swear in several substitutes.

Trustee Fleege, Chairman of the Light and Water Committee, had also sent out inquiries to the surrounding towns and villages to find out if they were requiring a deposit when water was turned on in homes where a newcomer had just moved in. Lombard has been

Committee reports, concluded:

charging $5.00 and quite a number of people were asking for the return of the deposit. The Village is now holding around $4,000 of water deposits, collected since the ordinance was passed July 1935. It was the opinion of the Board that ~~that~~ the deposit should still be required, as there was hardly any delinquency in accounts at the present. It was pointed out by Trustee Potwin that around $10,000 had been charged off the books, of delinquent water accounts, prior to the requirement of the $5.00 deposit.

Trustee Smith, Chairman of the Ordinance Committee, reported an Ordinance being drawn up for the Forestry Department, which would be submitted for approval soon.

Trustee Fleege, Chairman of the Village Property Committee, reported that he had a communication from Mr. Elmer Moos, Recreation Superintendent of the W P A Recreation Project in Lombard, asking for a donation of five tons of coal to be used at the Green Valley School and the use of the two store rooms under the steps of the Village Hall, in addition to the rooms now occupied by this project, in the former Police quarters. Trustee Fleege was requested to investigate the matter and report back with his recommendation.

Trustee Lucas, Chairman of the Public Relations Committee, reported that he had had a request for the use of s suitable plot of village ground for an archery court. Request submitted by Myrtle Anderson, 420 South Stewart Avenue, Lombard. Grounds at the Disposal Plant were suggested and Trustee Lucas was requested to inform Miss Anderson to get in touch with Mr. Menz and Mr. Oetke.

Report of the Village Forester, Richard Menz, for the period of February 6th to February 20th, 1939:

A number of the property owners along North West Road were present to find out what progress had been made in obtaining sewage disposal for them. Village Engineer Deuchler could not be present, so very little information could be given them except to advise that Mr. Deuchler had inspected the territory with a State Engineer and should be able to report at the next meeting.

Mr. Charles Bainbridge, President of the Zoning Board of Appeals, informed the Board that at the request of property owners along St. Charles Road, west of Lincoln Street, he had issued a public notice which was printed in the February 2nd and 9th issues of the "Lombard Spectator", that the Zoning Board would hold a hearing at the Village Hall, February 16th 8 o'clock P.M. to discuss the matter of changing the classification of property from Class "C" Light Commercial, to Class

"A", "B", or "B-1". Class A is ordinary single resident homes; "B" is two apartment buildings and "B-1" is for two or more family apartment buildings. The hearing was held and most of the property owners or their representatives were present. After considering the discussion at this meeting the Zoning Board recommended that the property along St. Charles Road on the North side from Elizabeth Street to West Road and on the South side from Elizabeth Street to Edson Street extended, be reclassified as Class "B-1"- two or more family apartments and single family residence; that the property from Lot 11, in Block 1 of Anderson Burke's Subdivision, west on Glenbard Avenue to the Village limits be reclassified at Class "A" - single resident property. This would effect only the north side of the street as the C & N W Railroad runs along the south side. The other property from Lincoln Street to Elizabeth - both sides of the street, and from the "Point" on Glenbard Avenue to Finley Road - both sides, remain Class "C", or Light Commercial. These changes were agreeable to all those present at that meeting.

In conformance to the above changes requested in classification a motion was passed by the Zoning Board that an Ordinance be drawn up covering these changes and submitted to the Village Board, with the recommendation that the present Village Zoning Ordinance be amended accordingly. Following is the Ordinance presented by the Zoning Board of Appeals with the suggestion that it be passed and placed in effect before the new assessment rolls were made up starting April 1st, 1939:

TO:

Hon. Henry Horner, Governor of the State of Illinois
Hon. John Stelle, Lieut. Governor of the State of Illinois
Hon. Hugh W. Cross, Speaker of the House of Representatives
Hon. Representatives and Senators of the 61st General Assembly:

WHEREAS, it has come to the attention of the President and Board of Trustees of the Village of Lombard that there is now pending before the legislature of the State of Illinois a bill commonly known as House Bill #690, which bill if enacted into law provides that all the water departments and electric light plants owned by the various cities and villages over the State of Illinois shall be transferred to the jurisdiction of the State Commerce Commission, and

WHEREAS, by the said transfer before-mentioned the various cities and villages will be absolutely under the domination of the State Commerce Commission, and

WHEREAS, said transfer before-mentioned is a great blow at home rule for the various cities and villages of the State of Illinois, and

WHEREAS, the citizens of the various towns, cities and villages of Illinois are greatly aroused under this attempt to do away with local government as to electric light plants and waterworks of the before-mentioned house bill, and

WHEREAS, under the said Bill #690 the City of Chicago is exempt from domination by the Commerce Commission, and

WHEREAS, but a short time ago a great hue and cry of scandal and political spoils was raised by the citizens of Chicago when a bill was passed allowing private parties to acquire the City of Chicago waterworks, and

WHEREAS, the hue and cry was such that the legislature had to repeal the bill allowing the acquisition of Chicago waterworks by private parties,

BE IT HEREBY RESOLVED by the President and Board of Trustees of the Village of Lombard for and on behalf of the citizens of Lombard that it is the belief of the President and Board of Trustees and the citizens of Lombard that the passage of House Bill #690 would lead to a hue and cry by the citizens much more vociferous than would the passage of the bills allowing the water works of the City of Chicago to be acquired by private citizens.

BE IT FURTHER RESOLVED that it is the belief of the President and Board of Trustees of the Village of Lombard and its citizens that the passage of House Bill #690 is a great blow at Home Rule and a deep injustice to the citizens of the Village of Lombard and to the towns and cities which would lose their waterworks and electric light plants through the passage of said bill; that the said waterworks and electric light plant

have been bought and paid for by the citizens of the various towns and villages and all benefits thereunder go to the people who have bought and paid for the said utilities and that at the present time the people, through their own vote, may remove or cause to be changed anything that they do not like by direct election.

WHEREAS, under the jurisdiction of the Commerce Commission no such right would remain in the people who bought and paid for the utilities and who are entitled to all benefits therefrom, and

WHEREAS, because of the above, the President and Board of Trustees and citizens of the Village of Lombard vigorously oppose the passage of this proposed bill and request that each and every one of you do all in your power to prevent the passage of such House Bill #690.

With reference to the Old Barn on South Main Street, and objectionable toilet and open well, complained about by numerous people from that vicinity at the last Board Meeting, Trustee McClendon reported that the barn was being kept in neat condition and would stand for a good many years; that it was being used as a storage house and he could see no reason why it should be raised if the owner did not so desire. As to the toilet and open well it was suggested that the first be torn down and the latter filled. No motion for definite action taken, but it was understood that these suggestions would be carried out.

Trustee Goddard left the meeting at this time.

P R O C L A M A T I O N

By the President of the Board of the Village of Lombard, Illinois:

WHEREAS: The traffic accident situation in Illinois is such that it is of vital concern to each of our citizens, and

WHEREAS, Statistics show that approximately 90% of all traffic accidents result from the indifference, negligence, ignorance, and discourteous conduct of motorists and pedestrians: and

WHEREAS, The traffic fatality record for the first six months of 1939 has shown an alarming increase over the same period of 1938 largely because of the improper attitude of drivers and pedestrians; and

WHEREAS, The only means at the command of local and State authorities of overcoming this deplorable condition are education and enforcement;

Now, therefore, I, Jerome C. Alderman, President of the Board of Trustees of the Village of Lombard, in support of the State wide campaign being conducted by the Illinois State Safety Commission, do hereby proclaim and designate the week beginning Sunday, August 27, 1939, as

November 17, 1939.

Hon. President & Board of Trustees,
Village of Lombard, Illinois.

Gentlemen:

With reference to your agreement with Mr. E.L. Gates, County Superintendent of Highways, of DuPage County, on the matter of contributing $5,000 from the Village's share of Motor Fuel Tax receipts, I wish to advise you that the accumulation of receipts from November to and including April, will be necessary for this payment, based on past collection experience. I would suggest a Resolution be passed some time in February or March, for the retirement of this obligation since the contract for the construction of this work has not been consumated to date, and therefore these funds will not be required by the County before that time.

As per your suggestion, I will prepare this resolution for your passage at the above mentioned time.

Very truly yours,

G.H. Deuchler
Engineer for the Village of
Lombard.

Statement from The Western United Gas & Electric Company, dated November 30, 1937, shows 771.20 therms of gas used by the Village of the 1600 therms allowed by the franchise agreement, from December 7, 1936 to November 15, 1937, leaving an unused balance of 828.80 therms. Under date of December 22, 1937, President Alderman wrote the General Electric Company advising that the Electric Eye which they installed to regulate the lighting system of Lombard, had never given satisfaction. He requested that something be done by the company at once to make the Eye work. A letter was received from the General Electric Company, dated December 29, 1937, stating that as a result of all their investigation of this installation they could never find anything wrong with the light itself, but they had recommended that its location be changed. They now further advise that in addition to the location the voltage regulation was uneven and that this be taken up with the Public Service Company, for adjustment. Also the company desired that the eye be sent into the factory for a test. A motion was made by Trustee Potwin and seconded by Trustee Lucas that the letter be received and referred to the Light and Water Committee. Motion carried.

Trustee Lucas, Chairman of the Fire and Police Committee submitted a report of the Chief of Police, Groote, giving a resume of activities carried on at the Police School, which started November 15, 1937 at Wheaton. The cost of the schooling was paid by the DuPage County Policee Association, and was directed by Mr. R.G. Clarke. Such subjects as First Aid, Finger-printing, Jiu-jitsu, Physical Combat, Law of Arrest, Legal Evidence, Incendarism and Arson, Fire Arms and Fire Arms identification, Bombing and explosions, Recovery and Preservation of Evidence and Interrogation of Witnesses, were presented by expert teachers from Northwester University, City of Chicago and City of Evanston. Twenty-five officers of DuPage County attended the school and Lombard officers were represented at every class. Total cost $900.00. In that this school activity was promoted by the initiative of the Police Department itself and at no cost to any of the villages or cities of DuPage County and in that Chief Groote is President of the DuPage County Police Association, Trustee Lucas thought that the Police Department should be highly commended for its participation in such work. The other Trustees of the Board most heartily concurred in this expression of praise. A motion was made by Trustee Lucas and seconded by Trustee Potwin that this report be received and copies made for each of the Trustees and President and that one copy be placed on file. Motion carried.

Trustee Schermerhorn, Chairman of the Streets and Alleys Committee brought up the matter of running Meadow Avenue through to Route 53 as an arterial highway and widening Parkside Avenue between Main Street and Park Avenue, the funds to be taken from the Motor Fuel Tax Fund. Trustee Fleege, Chairman of the Village Property Committee, requested permission for Mr. Brunning to use the office of the Police Magistrate on a Friday evening to conduct a Health School, which is part of the government recreation program. Permission was given, providing the night did not conflict with the regular use of the room by the Police Magistrate.

A communication under date of December 31, 1937, signed by Elmer A. Moos, W.P.A. Recreation Superintendent, was submitted by Trustee Schermerhorn, in which Mr. Moos requested permission to display in the village hall corridors, an exhibit of the handicraft work done by people taking advantage of this branch of the Recreation Work. DUPAGE COUNTY HIGHWAY DEPARTMENT

Wheaton, Illinois.

Eugene L. Gates
Superintendent

January 17, 1938.

To the Honorable President
and Board of Trustees of
The Village of Lombard, Illinois.

Gentlemen:

We are contemplating the paving of St. Charles Road from Edson Avenue west to the Swift Road with Portland Cement concrete roadway and putting a black top on it from Swift Road west to Five Corners, Glen Ellyn, during this year. Re Paving St. Charles Road from Edson to Glen Ellyn.

As the greater part of this concrete pavement is in the Village of Lombard we would like to have the Village engineer check our grades and alignment and confer with us regarding all underground structures before we turn our plans in to the State Department for approval.

It is our intention to put in a 20 foot pavement and possibly you will want to widen this with your own funds and put on a curb and gutter, at least as far west as State Bond Issue Route 53.

Of course in our construction work we can only build a road using grades that we would generally use in the Country and put in dirt shoulders and ditches to carry the water. This is not suitable inside of a village and we would like to establish our grades and figure our excavation so as to leave the road in a suitable condition for you to widen and construct curb and gutter if you care to do so.

Will you please let me know whether you care to go ahead with widening this year or not and also will you please ask your engineer to confer with me regarding this project.

Yours very truly,

E.L. Gates
Superintendent of Highways

A motion was made by Trustee Fleege and seconded by Trustee Schermerhorn that the above letter from Mr. Gates be referred to the Streets and Alleys Committee and a copy mailed to G.H. Deuchler, Village Engineer of Lombard. Motion carried.

Report of the Village Forester, R.L. Menz:

Checked up on trees which may be effected by the proposed widening of Parkside from Main to Park. One on the N.E. Corner of Park and Parkside - an elm - although close to the road line should be saved. Very fine tree, but requires some attention. No other trees effected.

Mr. Chas. Michaels, Lombard Park District Commissioner, was present and offered a check for $60.00 as the Park District's share for legal services in connection with the starting of suits against delinquent tax payers. The two school districts - Nos. 44 and 45 - and the Village of Lombard are the other parties interested. Mr. McCoy, Village Attorney, stated that ten delinquent tax payers of the list of 125 first submitted against whom legal action was to be taken had already paid their taxes rather than be brought before court.

Mr. Ernst Hammerschmidt reported that there were no street lights burning on St. Charles Road east of Charlotte Street. Light and Water Committee will investigate.

The W.P.A. Recreation representatives of Lombard had made a display of the work done in manual training, sewing and painting, by the children at the Spring Valley and Westmore Schools, in the Council Chambers. It was all very interesting. Mr. Moos, the Superintendent, gave a short talk as well as Mrs. Duffie, regarding the W.P.A. Program and thanked the Village Board for its cooperation. A motion was made by Trustee Lucas and seconded by Trustee Fleege that a vote of appreciation and approval be given the Representatives of the W.P.A..Recreation program. Motion carried. Mrs. Duffie also announced the President's Birthday Dance to be given at the Lincoln School Saturday evening January 29th, for the benefit of infantile paralysis sufferers who are unable to obtain medical aid.

A motion was made by Trustee Schermerhorn and seconded by Trustee Lucas that the meeting adjourn. Motion carried.

Regular Meeting of Lombard Village Board, concl. February 7, 1938.

With reference to the meeting of the Uniform Motor Vehicle Law Commission at the Morrison Hotel, January 20, 1938, notice of which was sent the Village Board by the Illinois Municipal League requesting that a representative be sent from Lombard - (See page 92) - Trustee Smith attended in place of Trustee Lucas and gave the following summary:

Discussion covered

1. Problem of heavy truck traffic over residence streets causing excess repairs,
2. Confining of heavy trucking to State Roads,
3. Limiting trucking to responsible owners,
4. Regular inspection of trucking equipment,
5. Length of time a driver should work daily,
6. Responsibility of municipalities for truck accidents on State Aid Streets, in suits,
7. Locations of trucking terminals necessitating use of village streets for business.

The Commission of Uniform Motor Vehicle Laws was endeavoring to obtain sentiment regarding the above problems from the various municipalities with the intention of drawing up laws and submitting them to the legislature for action.

Village Forester Menz reported that several instances had come to his attention where heavy trucks were driving over the curbing without first placing protective planking. The matter will be watched by the Police Department and other village officials.

A motion was made by Trustee Potwin and seconded by Trustee Lucas that the meeting adjourn. Motion carried.

Report of the Village Superintendent, Charles Oetke, for period February 7, 1938 to February 21, 1938:

Water Department

Switch board in #1 Pump house relocated and moved. Booster and suction pump and motor have been cleaned and painted.

It has been found that the cause of stopped meters in many cases has been the backing up of hot water furnaces, or boilers.

Riser pipe to old water tower has developed a bad leak and should be repaired.

Street Light Department

Electric Eye on #2 pump house working fairly well, except on bright moonlight nights.

Cable from Parkside Avenue to Maple Street on Lombard Avenue found broken in three places. Temporary cable installed in trees until old one can be replaced, or repaired.

Street Department

Following streets repaired with cinders: Taylor Road between Hammerschmidt Avenue and Stewart Avenue and part of Stewart Avenue from Taylor Road south. Also Meadow Avenue from Route #53 to Mr. Wilson's driveway.

Sweeping of cinders and rubbish from streets in the business district accomplished. These cinders used to help repair above streets. A new steel and a fibre broom have been made for the sweeper.

Several cave-ins over the sewers were filled in on LaLonde and Harding; Fairfield Avenue between Washington Boulevard and South Broadway; Brookfield and West Road.

Motor grader engine overhauled, valves ground and partly painted. Tires which were removed from #2 fire truck - heavy duty tires - are now in service on the grader.

Police & Fire Department

Police car kept in good shape. New ignition points will soon be needed however.

Several repairs made on #1 and #2 Fire Trucks.

Sewer Department

Mr. Deuchler recommends that the Village install a flow meter at the sewer plant so as to have a check on the amount of sewage pumped.

Mrs. Harry C. Perry, of 234 Willow Street, Lombard, was present to follow up her letter of February 12, 1938, requesting the village to repair Willow Street so that they could get out with their car. She was informed that as soon as the frost was out of the ground repairs would be made to Elizabeth Street. As to repairing the street to the East, the village did not have the available funds and moreover the records show that Mr. Perry is the only property owner on the street who has paid his taxes of recent. In back taxes the others owe around $15,000.00. Her letter was referred to the Streets and Alleys Committee.

Mrs. Lindholm of 20 East Ash Street, was also present to make a complaint regarding the dumping of refuse in the alley back of her home and to have the alley closed if possible. Trustee Lucas, a member of the Streets and Alleys Committe said he would look into the matter at once.

A motion was made by Trustee Fleege and seconded by Trustee Lucas that the meeting adjourn. Motion carried.

Report of the Superintendent of Maintenance, Charles Oetke, for the period February 21, 1938 to March 7, 1938:

Street Department

Cinders spread on streets at slippery corners, three times using nine yards; motor grader repaired and painted; several bad holes on St. Charles Road, Harrison Street, Glen Oak Road and West Road repaired; Austin Western Street Sweeper taken apart for repairs.

Water Department

Deep well pump, booster pump and pipes in #1 Pump House have been cleaned and painted; check valve in #2 pump house repaired - this valve allowed the two storage tanks to empty back in the reservoir but refused to operate. Since this happened a gauge has been installed on the walls of the Police Station but does not function properly. A separate water line should be made to make this gauge work properly. The water has been tested and found to be satisfactory and safe to drink.

Sewer Department

Due to several complaints of sewerage backing up in basement at Maple & Grace Streets the sewer line was cleaned and checked and found to be in good condition. The trouble was found to be in their own basements. The back-up valve had become wedged shut and would not operate. #1 agitator was found clogged - cleaned and put back in operation.

Street Light Department

The new ornamental cable was received and placed on Lombard Avenue due tp two bad pieces of cable. Necessary repairs made and section now in good order. Electric Eye is to be sent back to the General Electric Company as unsatisfactory and for a refund.

Police Department

Fire hose used on the fire at 112 North Meyers Road was scrubbed and hung on rack to dry; fire station floor cleaned and waxed; police car washed, greased and oil changed, also generator cleaned and new brushes installed and reset.

A motion was made by Trustee Schermerhorn and seconded by Trustee Dieterich that the report of the Superintendent of Maintenance be received and placed on file. Motion carried.

Report of the Village Forester, Richard Menz, for month of February:

The Asphlund Tree Expert Company, under contract to the Public Service Company of Northern Illinois, finished a 26 day tree trimming job on Monday February 28, 1938. They cleaned service lines in and about approximately 2,340 treesand took out forty dead ones, ten being in parkways. One especially bad box elder at about 16 West Maple Street was taken out as a special favor and saving to the Village of not less than $28.00. About sixty loads of wood in mixed sizes was given to poor people.

Incidently, a satisfactory arrangement was made to have the 75 year old tree at the northeast corner of Parkside and Park Avenue, trimmed free of charge. Cabling of three large branches and cavity work on three infected places will be done at half price, the village to furnish only materials such as disinfectant, shellac, expansion paper for cement, wire rope, screw eyes, etc. This work is done by one of their best tree-surgeons at $1.00 per hour during spare time and should not cost more than $13.50 exclusive of materials. Another free lance tree man wanted $35.00, and it is worth that much too.

The Bell Telephone Company trimmed 85 trees on South Edson Avenue and took out seven. On South Main Street they trimmed 22 trees and too out 3 at no expense to the village.

As a result of careful and close supervision twice each day by your village Forester the Village has for the first time in many years received the best kind of tree trimming from the above named public utilities. While the monetary value of this work is worth about $3,818.50 - 2,447 trees @ $1.50 per tree plus removal of 15 trees at $8.00 and one tree at $28.00 - the greater value lies in the effect it has on our population when it is pointed out that if they wish to enjoy electricity, telephome communication plus beauty as reflected in property value they must be expected to do their part by supporting future tree planting plans one hundred percent.

Village Forester also took trip to Hinsdale to discuss forestry plans of that city with their forester and also had conferences with three foresters of other towns.

A motion was made by Trustee Potwin and seconded by Trustee Fleege that the report of the Village Forester be received and placed on file. Motion carried.

Communications:

A letter dated March 5, 1938, was received from Mr. Ted Schmidt, living at 747 East St. Charles Road, complaining of its condition and asking for repairs.of St. Charles Road at that point. Dear Sir:

We would like to put in a bid for the auditing of the books of the Village of Lombard for the fiscal year ending February 28, 1939.

Being a resident of Lombard and the owner of two homes there, it would be some satisfaction to audit the books of my home town, especially as I have had considerable experience in municipal accounting, having audited the County Treasurer's books, the South Park Board, (before the consolidation), the City of Berwyn, Town of Cicero and many smaller municipalities.

We would be pleased to do the work as follows:

Cash audit of the books such as you receive at the present time Four quarterly audits	$115.00 each	$460.00
Complete audit of all books Four quarterly audits	$250.00 each	$1,000.00

Should be pleased to discuss the matter with you further if the above proposition is acceptable.

ILLINOIS INSPECTION BUREAU

309 W. Jackson Blvd.

Chicago

March 10, 1938.

Hon. J.C. Alderman, Village President
Lombard, Illinois.

Dear Sir:

RE: Lombard, Illinois Fire Protection.

We recently made an inspection of the fire fighting facilities of Lombard to determine the fire protective value of the improvements made in the water supply system, fire department, and other facilities considered. It was found that these changes have removed a considerable portion of the deficiency previously existing, and our present grading is such that, after complete compliance with the following recommendations, a 6th class grading, one better than 7th, that now in effect, will result.

Fire Department

1. The contemplated plan of providing proper pumping facilities for the Dodge hosektruck should be carried out. Pumping equipment should, if possible, be of 500 g.p.m. capacity, but if

this cannot be done a minimum of 400 g.p.m. will be acceptable. The old Brockway pumper should be maintained in as satisfactory a condition as possible so that its small capacity may be available to supplement the equipment recommended above. It is our understanding that ultimately the Brockway pumper is to be replaced by a modern pumping engine of satisfactory capacity.

2. At least two of the call men should regularly sleep at the fire station so as to be readily available for response to all night alarms of fire. It is our understanding that this arrangement is at present being considered.

3. Provide a modern 40 foot extension ladder with proper facilities for carrying same to alarms of fire.

It is understood that compliance with the above recommendations will enable Lombard to receive the benefit of a 6th class grading, provided that no other changes of consequence occur prior to the completion of these improvements.

ILLINOIS INSPECTION BUREAU

By C.W. Soderstrom, Manager.

A motion was made by Trustee Lucas and seconded by Trustee Smith that the report of the Illinois Inspection Bureau be received and referred to the Fire and Police Committee. Motion carried.

A letter was received from George Elmund of Elmhurst, dated March 9, 1938, submitting a bid on the General Electric Mazda Lamps under a contract. A contract of $150.00 would entitle the village to a discount of 20% on standard packages and 15% on broken packages. A motion was made by Trustee Smith and seconded by Trustee Lucas that the letter be received and referred to the Light and Water Committee. Motion carried.

A statement was received from the Western United Gas Company, dated January 31, 1938, with reference to the Annual free allowance per franchise agreement of 1,600 therms. From December 7, 1937 to January 12, 1938 there were 1,560 therms used leaving only 4 therms. It was thought that there must be some mistake in this report so a motion was made by Trustee Lucas and seconded by Trustee Dieterich that the matter be referred to the Auditor-collector for investigation. Motion carried.

A letter was received from T.W. Gray, living in the Morningside subdivision, Lombard, stating that there were several manholescovers missing which made the streets dangerous to travel. A motion was made by Trustee Lucas and seconded by Trustee Dieterich that the letter be received and referred to the Sewers Committee. Motion carried.

The following agreements were submitted by W.S. Darley & Company of Chicago, for the approval of the Village Board, covering the purchase of Fire Department equipment:

DUPAGE COUNTY HIGHWAY DEPARTMENT

Wheaton, Illinois

April 2, 1938.

Village of Lombard
Lombard, Illinois.

Mr. J.C. Alderman, President.

Dear Sirs:

In making our plans for the improvement of St. Charles Road in the west part of your village, 80.0 feet of right-of-way width is required. This road is only 66.0 feet wide and in discussing it with the state officials they advised me that they will waive to 80.0 feet width of right-of-way inside the village providing your village passes an ordinance requiring any new buildings to be set back at least 40.0 feet from the center of our new road.

I believe this section is zoned for residential purposes and probably the set-back line should be 50.0 or 60.0 feet instead of 40.0.

Mr. Deuchler was present with us when we had this discussion and I think if you will confer with him he could undoubtedly advise you as to the proper distance for this set-back line.

I would like to have three copies of the ordinance if you see fit to pass this.

Yours very truly,

E.L. Gates
Superintendent of Highways

A motion was made by Trustee Lucas and seconded by Trustee Dieterich that the above letter from Mr. Gates be referred to the Village Engineer, G.H. Deuchler and the Ordinance Committee for further study and preparation of a suitable ordinance. Roll call:

PETITION

To the President and Board of Trustees,
Village of Lombard, Lombard, Illinois.

We, the undersigned owners of property set opposite our names respectfully petition your Honorable Body to construct or arrange for construction of a retaining wall and sidewalk along the new State Highway, Route No. 53, which has been constructed, or is in the course of construction on the West side of our premises.

This is made necessary by the fact that the original road in front of said premises, which was Columbine Avenue, has been cut down by the operations of the State Highway construction to a point varying from one foot to five feet below the grade of our respective properties. This is a serious damage and one which will result in constant washing and inability to hold the soil on the lots, and the further fact that the Highway is there will make it dangerous unless a sidewalk is constructed between the Highway and the properties which we occupy.

Any assistance that can be given in this matter either directly or through the Highway Department will be very much appreciated.

H.A. Hover, 99 Columbine Ave.
Charles Moore, 97 Columbine Ave.
Loren G. Kelly, 95 Columbine Ave.
P. Bennie Jeppson, 91 Columbine Ave.

A motion was made by Trustee Fleege and seconded by Trustee Dieterich that the above petition be referred to the Village Engineer, G.H. Beuchler, Village Attorney McCoy and Trustee Lucas for investigation and recommendation. Motion carried.

The Village Forester, Richard Menz, reported that the Special Tree Survey in connection with the proposed W.P.A. tree rehabilitation project was now completed. About five tons of materials were used.

A survey was made of the corner of Meyers Road and St. Charles Road in regard to the high lilac bushes obstruction. The west view at this corner showed that this hedge is at least six feet on Village right of way. Mr. Fred Schneider was so notified and agreed to remove this hedge this Fall.

The C & G W Chief Engineer, Mr. Groth, was contacted in regard to the Meyers Road Crossing. He assured me that the crossing would be rebuilt with steel rails and concrete this week. Also the cement walks on both sides of Meyers Road would be built on their right-of-way at the same time.

Regular Meeting of Lombard Village Board, concl. July 5, 1938.

Several ladies of West Harding Road were present to complain of the large number of out door toilets in the neighborhood. They were informed that these were not permitted in the village where water was in and that the matter would be referred to Trustee Dieterich, Chairman of the Sewers Committee to investigate and report.

Several citizens from Columbine Avenue wished to know if there would be a sidewalk and retaining wall along Route 53 which touches on their properties. They stated that workmen on the job advised them there would not be. President Alderman advised the Streets and Alleys Committee to again take up this matter with Village Engineer, Deuchler.

Post Master Collings, through Mr. Ernest Hammerschmidt asked of the Board if it were possible to gravel Woodlawn between Columbine and Broadview so that the people in that section could have access to rural delivery. Mr. Hammerschmidt was informed that due to lack of funds the Village could not do this at present. If however, the people concerned wished to purchase the gravel the village would do the grading.

A motion was made by Trustee Fleege and seconded by Trustee Dieterich, that the meeting adjourn. Motion carried.

Meeting adjourned at 9.20 o'clock P.M.

Charles Road advising him to be present at the Special Board Meeting of July 11th and report on the progress of the sidewalk under construction at the East of his property, on Elizabeth Street, and that if nothing was being done the Village intended to proceed under a special assessment. Bresident Alderman requested the Clerk to issue notice of a Special Meeting to be held in the Village Hall, July 11th, at 8 o"clock P.M. sending notices to all Trustees and the Board of Local Improvement members.

Mr. George W. Perry, of West Road was present to request the Village to write the C & G W Railroad to have all trains whistle for the crossing at West Road. He was informed that the Board had only recently requested this road not to whistle so long and loudly while going through Lombard on complaint of other citizens. However, it was admitted that this crossing was dangerous and should at least have swinging lights. Village Attorney McCoy was instructed to notify the C & G W regarding lights and also file a petition with the Illinois Commerce Commission. Mr. Perry also complained that three families were living in his section in a tool house, garage and an uncompleted home, none of which conformed to the propert restrictions of that neighborhood. He was informed that the family living in the tool house had moved back to Chicago until a home could be built on the property; that the family in the garage was starting to build a home and that the man in the unfinished home was doing all the work himself and consequently required more time. This report was submitted by Building Commissioner E.A. Birr who further advised that he was following all three projects. Another complaint of Mr. Perry was that something should be done with reference to the many stray dogs running loose in his neighborhood without licenses or muzzles. He was told that the dog catcher - as soon as the Village could find one - would be notified of this situation.

Miss Anna Stafford of West Ash Street whose home is next to Mr. Carl Rask was present to complain that Mr. Rask was conducting all his paint business from his home and that the many trucks around his home was most annoying to the property owners. She reminded the Board that this was resident and not business property. The matter was referred to Trustee Lucas, Chairman of the Fire & Police Committee to investigate.

On or about June 21, 1938, a crew of men employed by the Western United Gas Company were at work relaying pipe lines on West St. Charles Road, east of Columbine. While cutting the ditch the six inch power digger of necessity cut through the roots of oaks, leaving the ends all chewed up and badly mangled. The foreman of the crew was absent but I gave his assistant a message to have him call me up.

On June 28th, I inspected the trees again and found the roots covered with dirt. This time I contacted the foreman of the crew, Mr. A.H. Doty, and asked him why he did not call me up. His excuse was that he had been SO AWFULLY BUSY with other matters. Moreover, he originally did not know whom to see in the Village at the time, for permission to cut the roots.

A motion was made by Trustee Lucas and seconded by Trustee Dieterich that the matter be referred to Trustee Smith to collaborate with the Village Forester and send a proper communication to the Western United Gas Company. Motion carried.

Bertram Rathje, Wheaton Attorney, appeared in the interest of satisfying a $500 village of Lombard judgment, now frozen to a small piece of property in Addison, inorder to clear a secondary claim of his client, The Addison Farmers Mutual Insurance Company. He informed the Board that his client was ready to write a check for as much as $100.00, and hoped that this would be acceptable rather than wait for the possibility of collecting the entire $500.00. The matter was referred to the Chairman of the Finance Committee, H.A. Potwin, and Village Attorney McCoy, to discuss in detail with Mr. Rathje and make a recommendation.

A motion was made by Trustee Potwin and seconded by Trustee Lucas that the meeting adjourn. Meeting adjourned at 9.05 P.M. the motion being carried.

Mr. John E. McCoy,

Dear Sir:

We have not previously answered your letter concerning the restoration of the pavement on Vance Street, as we had hoped to have a representative confer with your superintendent of streets to ascertain his exact wishes.

You may rest assured that we will fulfill our obligations in this matter in the near future.

Report of the Village Forester, Richard Menz, for period June 6th to June 20th, 1938;

Emergency tree repair at 5 East View Street during heavy windstorm. Taken care of by Robert Jameson who temporarily used his own tree chain. Would like to use chain, and tree will have to be permanently repaired. Cost estimated $6.75 to $7.50.

Broken catalpa tree on Martha Street just north of View Street. Hangs down and tips touch street. Should be removed. Forester would like to have instructions from proper village authority as to disposal of tree. Tree is a menace to traffic.

Forester noticed that many cars, do not have Lombard license, which are parked by citizens who go into Chicago.

At the Flower Show held in the Lincoln School June 11th and 12th by the Lombard Garden Club, the Village Forester had a very interesting display of tree specimens showing butchery, decay rot, bleeding and burning by electric wires. State Department of Agriculture, Division of Plant Industry also loaned Mr. Menz, for the purpose of display at this show, 12 glass enclosed cases with samples of plant diseases and borers and a matched set of large panels illustrating latest methods of fertilizing shade trees,

Four trees repaired personally by the Forester on west grove street for a new resident. Tree limbs overhanging street.

Tree survey of Village about 95% complete and will be submitted within next week for further study by special committee appointed for finding ways to finance the W.P.A. Project.

Matter of direction signs for Lilacia Park during Lilac Season being considered by Forestry Department. Wish to eliminate nailing signs to the trees. Several ideas will be developed.

Mr. Menz states: "I have served in the capacity of Village Forester one year. It has been extremely busy. Much has been accomplished towards putting the department of forestry on an equal basis and same level of recognition with other departments of the Village. A year ago I started with high hopes and enthusiasm. Disappointments of the past year have given me more wisdom and the determination to carry on to the very best of my ability so that Lombard's next Forester and the citizens especially may point with pride to better shade trees and an appreciation of the pioneer spirit of one who values trees as things that live and breathe as every human."

IN THE MATTER OF A MEETING

HELD IN THE VILLAGE HALL

JULY 25TH., 1938, AT 7:30 P. M.

BETWEEN

MEMBERS OF THE VILLAGE COUNCIL
AND
MR. WILLIAM M. WALLACE

INDEPENDENT CONTRACTOR UNDER THE

LANDIS AWARD EMPLOYERS ASSOCIATION.

- - - - - - -

PRESENT:

MR. JOHN E. McCOY, Attorney for the Village.

MR. J. C. ALDERMAN, President;

MR. H. E. MOGLE, Clerk;

MR. H. B. LUCAS;

MR. EDWIN SMITH;

MR. H. A. POTWIN;

MR. H. D. FLEEGE;

MR. ARTHUR A. BENNETT, Sheriff.

))

MR. ALDERMAN: Come to order, please. I asked you to come here as we have this proposition with Mr. Wallace and I want you to get in on it. Mr. Wallace set forth what he is up against here at the last meeting, on Friday, and I asked him to bring out the notes he made on that last meeting, so he will read those so you can kind of get the drift of what it is

all about, for the benefit of some of the Board that couldn't be here. Mr. Wallace will set forth what he said in his address to the Board.

MR. WALLACE: I appeared before the Board last Friday night, showing I made an attempt to erect two houses. A building permit was issued June 13th and on the following day I attempted to start work and found the Union had picketed this job. In view of the fact I had no contract agreement with the Union and had not been in any disagreement with them, their action was unjustified. I came here with clean hands to build these houses as an open shop contractor. My affiliation with the Landis Award Employers Association is that of a non-union independent contractor. For the past 17 years I have had no interference from a mob and always had the co-operation of the Teamsters Union. The difficulty arose between the Building Trade Council and myself when I refused to operate my business as a building contractor which caused them to refuse the delivery of material; realizing that,I had made other plans to secure material and that material was brought to Lombard by a non-union truck driver with privately owned trucks. I think the start at first was with Heibel and his truck in attempting to make delivery. When he arrived at the building site he was surrounded by not less than 100 men who called themselves pickets. Legally a picket is a man or

men who advertise their position and what was being done by carrying signs. This was not done but they acted strictly in defiance of the police and the sheriff's office and refused the delivery of material to the building site. They were driven off. The Constitution of the United States guarantees me the protection of my life and property. The street being a public highway could not be monopolized by a mob or stop any citizen in his lawful pursuit of his duties. I could go on for a long time and tell these experiences. We have appealed to the police and the sheriff but never came to the point where we could unload material or that I felt or the men felt safe in the protection of their lives. I want to be legal and lawful in my business and I then applied for a temporary injunction in the Circuit Court and that is where we are now. It will be disposed of as soon as the Court can do so and until that time I propose to operate. My other course is first to ask the Village of Lombard for protection, and if the Village does not have that power I thought perhaps the Sheriff of the County had, to have the material brought there under the protection of the County as against destroying property and the lives of my workmen. Realizing the size of the Village force, police force, I thought it may be possible we are going to require more police power, so I have gotten in Lombard 15 residents--

I think you will find them all respectable people, who will act who will act as policemen and I can add to that list many more names if that is necessary, if the local force cannot do the work.

Then there is also forming in DuPage County a Vigilante Committee who are very much disturbed about the conditions.

MR. ALDERMAN: The situation in Wheaton, has that been cleared up?

MR. WALLACE: Yes, and I understand the contractor there decided to return to the Union.

MR. ALDERMAN: I thought that was the Landis Award.

MR. WALLACE: It was until a couple of days before. Nevertheless 90% of the construction there was finished.

MR. ALDERMAN: There was no opposition there.

MR. WALLACE: No opposition.

MR. ALDERMAN: Mr. Powers (?) called me one day and said he was bringing some material out and was beaten up.

MR. WALLACE: All that is documentary evidence in connection with the temporary injunction.

MR. ALDERMAN: The sheriff did clean that up?

MR. WALLACE: The sheriff was there.

MR. ALDERMAN: Have these men at any time disobeyed the orders of the sheriff or police?

MR. WALLACE: Both.

MR. ALDERMAN: I understood,-- the police have informed me

that they could drive trucks up there, and these men, I understood you to say, backed away.

MR. WALLACE: What men backed away?

MR. ALDERMAN: The pickets.

MR. WALLACE: The pickets at no time backed away; temporarily they might have backed away. The men have the right to picket me but they can't destroy my property or attack my men.

MR. ALDERMAN: Absolutely not. You mentioned the other night you had not reported the men who have been injured.

MR. WALLACE: That is all a matter of affidavits. I am not in position to run down to the police department every time something happens.

MR.ALDERMAN: Did they see these men beaten up?

MR. WALLACE: I can't say they saw these men beaten up but they did see this man Heibel attacked through the window.

MR. ALDERMAN: You did mention it was seen by the sheriff.

THE SHERIFF: There was no man beaten in any way in my presence.

MR. ALDERMAN: We will give you all the protection we have.

MR. WALLACE: In view of what I have stated, absolute proof can be made. I want to proceed with that construction, not only there but with several others in town; also in Wheaton and other parts in the County.

MR. ALDERMAN: I think the thing to do is to go ahead. I

do not believe you will see any rough stuff. You at least (addressing the Sheriff) are prepared to put men in there?

THE SHERIFF: In a moment's notice. I can form a posse, if necessary.

MR. ALDERMAN: You always have the radio?

THE SHERIFF: Yes, according to what time of day it is. Up to two o'clock in the afternoon and from two to six I have four, and after six four more.

MR. ALDERMAN: Mr. Wallace, your men would only work in the day time any how?

MR. WALLACE: From eight in the morning until four in the afternoon.

MR. ALDERMAN: I don't wish any money spent-- we have not the money and you haven't.

MR. WALLACE: I have none; it should not be necessary.

MR. ALDERMAN: Up to date we cannot see any reason to put on any greater force. We could put on the entire force in the day time and have nobody at night. I don't think that a safe thing to do. We do not have robberies here and other disturbances but it is not the right thing to do-- the police off at night and put them on during the day. In my opinion you ought to go ahead and see what happens. I am satisfied between the police force and the Sheriff you have little to fear, from what they tell me. How many trucks have been in there?

MR. WALLACE: There have been two non-union trucks. I have put several other trucks on. When I started this work a contract existed between the Alexander Lumber Company and myself. These material houses we contracted with, the essence of the contract was the delivery of their material. They were unable to deliver and it was up to me to buy material and use my own trucks, so there were four trucks on, and all these trucks, with my own trucks they had no right to stop.

MR. ALDERMAN: They have no right to stop any truck.

MR. WALLACE: The pickets had the right to surround the trucks to see if you have a Union truck.

MR. ALDERMAN: That is all. They can deliver, they can dump their material.

MR. WALLACE: I believe the Chief of Police would say they can unload the material, but they were not allowed to. The mob got around the truck and surrounded the building site and forced the drivers to leave the site.

MR. ALDERMAN: This property title is in your name?

MR. WALLACE: Yes, sir-- on theway to be recorded now.

MR. ALDERMAN: You have a loan transferred?

MR. WALLACE: It will be-- these two houses.

MR. ALDERMAN: We would like to have you return that so we can tell the Board everything is in order. You said in here the other night that they got in trouble over it.

MR. WALLACE: I had no more trouble than the Village Board.

MR. ALDERMAN: We have to have a look at these things. You mentioned last Friday night that a fellow left thie job and went to beat up some fellow in Downers Grove. Who did you refer to?

MR. WALLACE: I have a copy of a letter the contractor wrote to the Government.

MR. ALDERMAN: Your statement was that a fellow left this job and went over to beat a fellow up and came back.

MR. WALLACE: Yes, they knocked him out.

MR. ALDERMAN: He was out on bail?

MR. WALLACE: No, he was not out on bail. I have a report of that matter at the office.

MR. ALDERMAN: Do you know of your own knowledge that is a fact?

MR. WALLACE: It is the truth. I also know the contractor did go to Washington to seek the aid of the Federal Government.

MR. ALDERMAN: Was that not this fellow Crider?

MR. WALLACE: I don't know.

MR. ALDERMAN: Wasn't that in the Federal Court?

MR. WALLACE: Yes, it was.

MR. ALDERMAN: Wasn't it before this affair happened?

MR. WALLACE: No, it was about three weeks ago.

MR. ALDERMAN: Since June 14th?

MR. WALLACE: Yes, that was after he received a telegram sent by Peirce.

MR. ALDERMAN: I understood it was before that.

MR. WALLACE: No.

MR. ALDERMAN: These names you have here -- as far as you are concerned I don't see why you need anybody out there. Some names here I don't know, except they are local men. They are fellows who couldn't use their heads and would do you more damage than anybody else.

MR. WALLACE: I don't want that kind.

MR. ALDERMAN: You know a fellow who carries a gun, they can search him at any time.

MR. LUCAS: Are your deputies twenty-- eighteen to twenty?

THE SHERIFF: No, sir.

MR. ALDERMAN: We don't want anybody in that neighborhood-- we don't want to have a crowd because of women, in the day time -- Heaven only knows what might happen.

MR. WALLACE: We have 18000 members in our employ and about 300 contractors. It would be very easy for us to get 500 of these employees to drive out to Lombard, just come out in a mob-- which they are itching to do.

THE SHERIFF: And you are itching too.

MR. WALLACE: No, I would not do it, I would not allow my men to come.

MR. ALDERMAN: You can swear a warrant out any time.

THE SHERIFF: Mr. Wallace came up and showed me the names of some men who beat them up.

MR. WALLACE: Why wasn't a warrant taken out?

THE SHERIFF: You have had your say, you have not spoken the truth. You are trying to make me out a liar.

(Here a mixed-up controversy occurred which was impossible to report correctly on account of certain physical conditions.)

CHIEF GROOTE: Mr. Wallace made the statement I arrived with two officers, which is not true. I was there alone. Mr. Cressay made the statement the alley was blocked, which is not true, it was clear.The alley was clear, and was so all day long. There were flat tires on that truck.

MR. CRESSAY: This was Monday morning.

THE SHERIFF: It was not Monday when I was there.

MR. CRESSAY: The happenings I mean occurred on Monday morning.

THE SHERIFF: Mr. Wallace makes the statement that this man Heibel was struck in front of me. That is not true. There was no one struck in my presence that Saturday morning when I was there. A man came by and called him by his name "Bill, take the load back". Finally I went away. I asked all the men to get on the other side of the street, which they did. When Mr. Groote came there he arrested him for driving over the curb. I did not see Mr. Wallace

there maybe he was, but to say that man was struck in my presence is not so.

MR. WALLACE: I was at the intersection of the sidewalk, possibly 16 feet away.

THE SHERIFF: I was there.

MR. WALLACE: You were there also. Probably there were 35 or 40 men surrounding the truck and this man defended himself with something. You wanted the warrants sworn out.

THE SHERIFF: I want to say this: If the police department can't handle the situation call me for extra men and I willtake it up with the Supervisors.

MR. ALDERMAN: You were always willing and ready any time, were you not?

THE SHERIFF: Absolutely; that is my business. I don't want people running around lying. If there is not anything further for me I ask to be excused.

MR. ALDERMAN: You had better wait a while. (Addressing Mr. Wallace) I do not see any reason for your needing any help there. Let me ask you something: When you speak of 500 of your men, are these men awaiting your orders?

MR. WALLACE: Not at all. I don't want to do that. Do you feel I have a right to bring trucks there and to operate, and that they can be blocked and stop the delivery of material on that street?

MR. ALDERMAN: If it is necessary to have the police there

they will be there. On the other hand we don't want you to bring fellows in there.

MR. WALLACE: I said that could be done; I said that as a remark, not as a threat. If I did not want to co-operate I wouldn't take this to a court of last resort or come to this meeting.

MR. ALDERMAN: I just want to check it up. We don't want to take chances on anything like that happening.

MR. WALLACE: I submitted these names at your request.

MR. ALDERMAN: We will go over these names. Mr. Lucas is the Chairman on that Committee.

MR. LUCAS: I have been sitting here and listening to both sides of the question-- the other side as well as your side and the first thing that comes to my mind-- I presume this young lady is an active participant there, isn't any official or contractor, I don't know what capacity she is in, but I would like to have corroboration of some of the statements I have heard, asking somebody to hit her and jumping up and down and calling a man names and so forth and saying if he were a man he wouldn't be doing anything of that kind. Did you hear anything like that Mr. Bennett?

THE SHERIFF: No, as a matter of fact I didn't see her there.

MR.LUCAS: If the reports were true it isn't ladylike;

I don't know why it was necessary. Probably you can explain.

MR. WALLACE: There has been some remarks to the mob-- a couple of unwise remarks which I spoke to her about, but for the purpose of her being here, it did become necessary to complete our injunction and take affidavits on the job at which time she was available. And there also seems to be a feeling against Hanson (?), a fellow worker inthe Association. I assure you neither of these two will appear before this Board from now on.

MR. LUCAS: I only know Mr. Wallace is self appointed.

MR. ALDERMAN: Mr. Wallace is the only one we recognize.

MR. LUCAS: I was just curious; it seemed so unusual. I didn't know you were interested financially (addressing Miss _____).

MR. WALLACE: I want to be co-operative and for that reason any objections brought up by the other side I will eliminate.

MR. LUCAS: It gives a bad impression and leaves a bad taste in the mouth with everybody.

MR. WALLACE: As far as Miss _____ is concerned, I was there at that time, when the mob surrounded that man who hit at them after they had hit him. I do know at that time Miss _____ stood by the running board. She did stand by the running board and spoke about hitting that man. What she said I don't know.

CHIEF GROOTE: We are talking about a week ago at the picket line.

(Here the woman in question made incoherent remarks).

MISS _____: I have had no quarrel with any of them. The only reason I got on the truck was to protect that man when the police wouldn't do it. That man was struck by a lever.

THE SHERIFF: Let that man take out an injunction and take it to court.

MR. ALDERMAN: If at any time anybody gets injured at least get it on the record so we will have something with which to back you up.

A VOICE: This we have time and time again. You have no Lombard vehicle license.

MR. ALDERMAN: You are from Cook County, are youtnot?

MR. WALLACE: My office is in Cook County.

MR. ALDERMAN: We have this checked Cook County license. We don't want Cook County in our County.

MR. WALLACE: I am willing to eliminate myself from this job.

MR. ALDERMAN: We don't want you to do that. The thing is to get started. We will look this over and if we feel you need more help we will give it to you. Mr. Bennett has given us that guarantee. He is the law enforcing office of the County.

MR. WALLACE: Every time we called the Lombard police they always came.

MR. POTWIN: What do you want?

MR. WALLACE: I just want the trucks to bring in material. The site has not been clear.

CHIEF GROOTE: That is not true. They were told to get on the sidewalk and they did. We told the driver "you can back into the alley and deliver your load". Bennett took him out of town.

MR. WALLACE: The first time it happened this mangot on the truck --

CHIEF GROOTE: Saturday morning.

MISS _____: June 25th.

MR. WALLACE: That truck made several attempts to get in there.

CHIEF GROOTE: You made the statement several times the men were all mistreated. That is not true. I did not see a man lay a hand on any man.

MR. WALLACE: Your car passed and there was not less than 30 men that surrounded them and beat hell out of them.

MR. ALDERMAN: Where?

MR. WALLACE: Martha and Ash.

MR. ALDERMAN: Why didn't you make complaint?

MR. WALLACE: I was not there to see.

MR. ALDERMAN: Who was there?

MR. WALLACE: One of my workmen.

MISS _____: The man who was the victim-- four men jumped on him and beat him up.

MR. ALDERMAN: The only way I see out of this thing is for you to get to work and if somebody gets beaten up bring him in so we can get a look at him.

MR. WALLACE: I will be there on that job. We had a load on Grace to throw in the dump--

THE SHERIFF: Did you ask the Sheriff to escort that load?

MR. WALLACE: I was not on the job that day.

MR. ALDERMAN: The Sheriff will escort your loads, that is his business.

MR. WALLACE: That is fair enough.

THE SHERIFF: I have never refused to escort his load.

MR. WALLACE: It should not be necessary to escort my load.

MR. ALDERMAN: If we are going to break the proposition we have got to at least try to do something about it.

MR. WALLACE: I had asked for protection from the Sheriff at the start.

MR. ALDERMAN: If you get a bad name on this you will have a tough time to get in any town. We want to see you get along.

MR. WALLACE: I realize that.

MR. ALDERMAN: You can't have anybody around there like the Union fellows, working their clothes out searching,

and there can't be anybody carrying a gun around and maybe shooting his associates up or something.

MR. SMITH: I never had a gun in my hands yet.

MR. ALDERMAN: I don't say you did. Officers will always search anybody who is said to have a gun.

MR. WALLACE: I never knew an officer to search any one.

MR.McCOY: It strikes me that Mr. Wallace wants what you are willing to give him.

MR. ALDERMAN: To appoint ~~xxx~~ a deputy is one of the most dangerous things you can get into. We have fellows here in our own employ who get into an automobile, go to a fire, get on the left side of the street, etc.; it is a hazard to everybody on the street. It is a dangerous proposition. We will look these fellows up and if it becomes necessary we will put them on. I went over there recently several times. There haven't been so many there, and I also went to the alley and didn't find any there.

MR. LUCAS: There were seven cars there to-day.

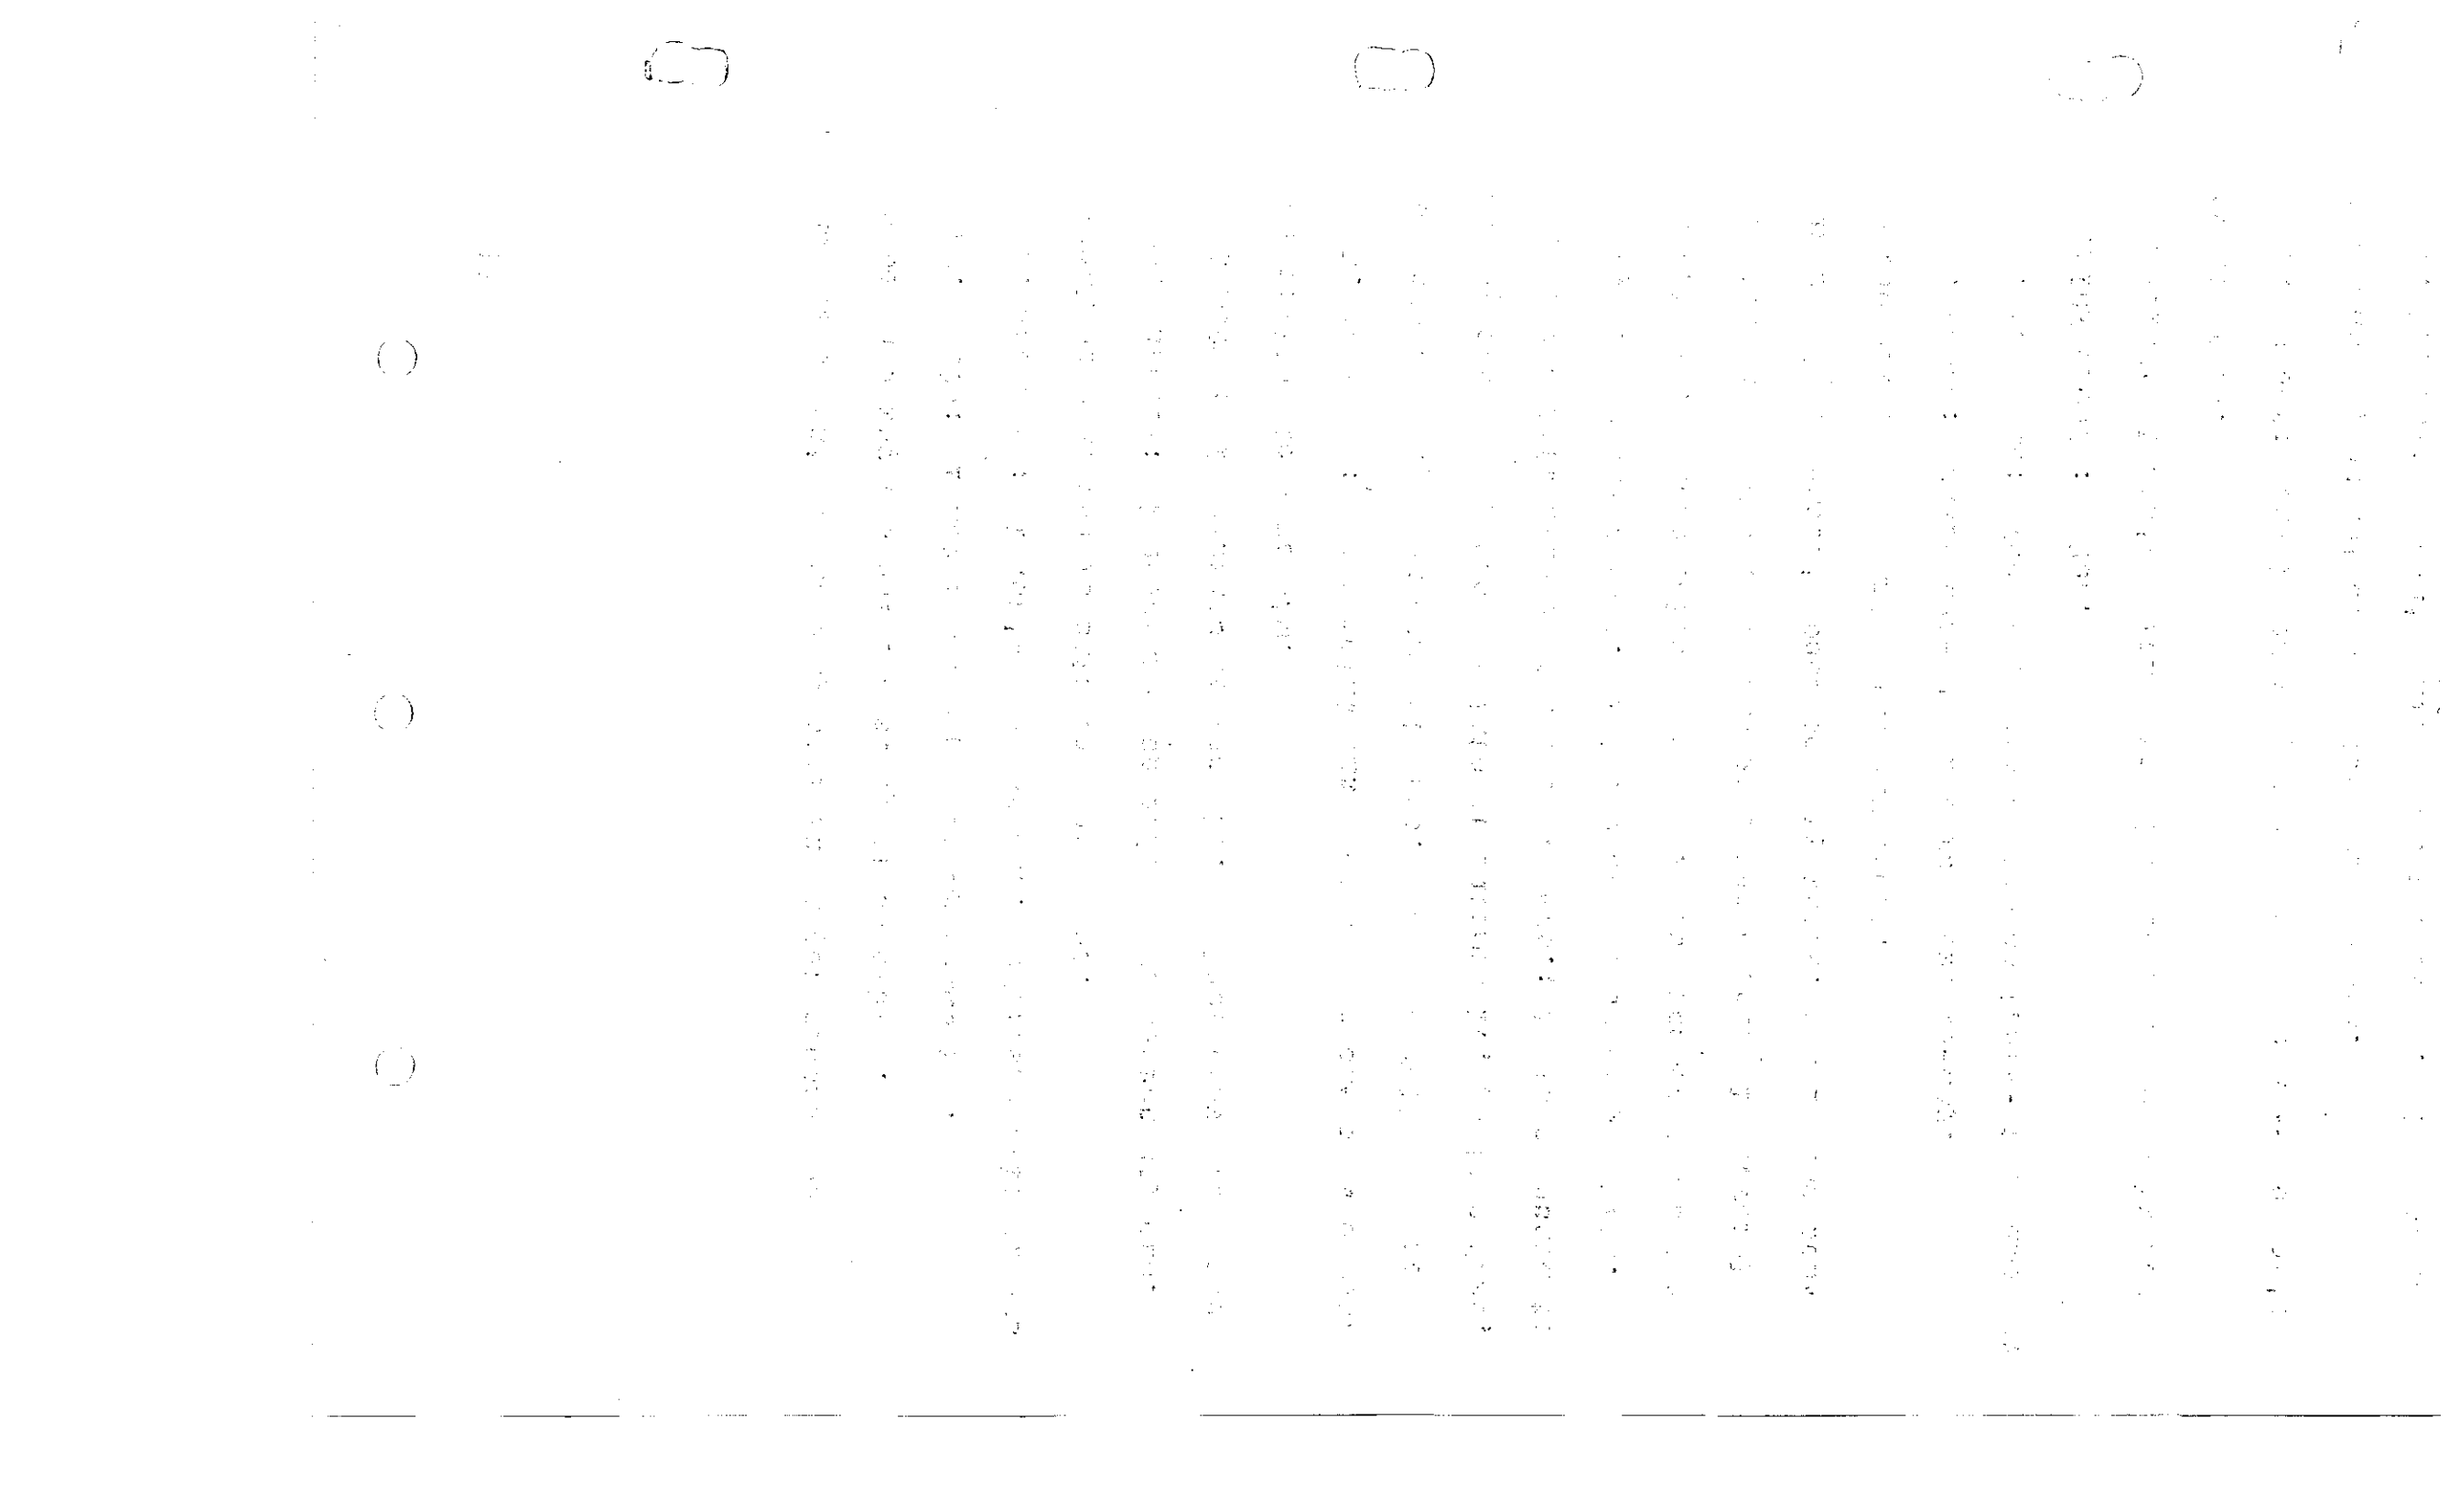
MR. ALDERMAN: You are keeping tab on that-- the numbers?

CHIEF GROOTE: Yes.

A VOICE: I don't think many of these men are qualified as deputies.

MR. MC COY: May I ask if you can get a bond -- we won't put a deputy on unless they are well bonded.

MR. WALLACE: I don't think that necessary. If that be



necessary I will stand the expense of it.

MR. ALDERMAN: When do you start?

MR. WALLACE: I start there Wednesday morning.

MR. ALDERMAN: What time-- eight o'clock?

MR. WALLACE: I will be there at eight if the weather is right. They come in at eight-thirty. Then we get gravel from that time one

MR. ALDERMAN: I thought you were through excavating.

MR. WALLACE: Only the first one.

MR. ALDERMAN: Where is the next one?

MR. WALLACE: Right behind it.

MR. LUCAS: Did Judge Fulton review your evidence?

MR. WALLACE: It is set for another day.

MR. LUCAS: You said something last week about listening to their evidence.

MR. WALLACE: We filed a Bill and they filed one-- substantially their answer was affidavits. When we filed our bill our attorney read the Bill to the Court with supporting affidavits and the other side started to read theirs and got up to where they are now, it is set for August 2nd and the injunction suit may have several weeks to go.

MR. ALDERMAN: Do you see any reason, any members of the Board --

MR. LUCAS: Do you think you can handle the situation with the Sheriff?

CHIEF GROOTE: I think we can.

MR. ALDERMAN: Did these people refuse to obey your orders at any time?

CHIEF GROOTE: No, sir, not at all.

MR. ALDERMAN: Did they ever refuse to obey the officers?

CHIEF GROOTE: No.

MR. ALDERMAN: Your loan won't go through until the property is settled?

MR. WALLACE: The loan will go through. I doubt if there will be anything until Wednesday morning.

MR. ALDERMAN: We will see how you make out. Is that agreeable to everybody? In the mean time we will look over this list of names and see what it looks like.

MR. LUCAS: Who prepared that list?

MR. SMITH: I got the list up.

MR. ALDERMAN: We will be there Wednesday morning. If there is no further discussion we will entertain a motion to adjourn.

It wasmoved and seconded that the meeting adjourn.

Special Meeting of Lombard Village Board. July 25, 1938.

The meeting was held pursuant to notice for the purpose of bringing about a settlement of a difficult labor situatiom existing on a Landis Award Contract at Ash and Martha Streets, Lombard, and to discuss whatever other business might come before the Board. It was called to order in the Village Council Chambers at 8 o'clock P.M., by President Alderman. Present:

President Jerome C. Alderman
Trustee Harvey B. Lucas Trustee Harry D. Fleege
" Edwin F. Smith " Henry A. Potwin
Clerk Hubert E. Mogle

Present, besides the Board, were County Sheriff Arthur Bennett, Chief of Police Groote, and Mr. Wm. M. Wallace contractor in charge of the Landis Award Building contract at Ash and Martha Streets.

Mr. Wallace stated that it was impossible for him to continue with his contract unless he was furnished police protection, as so far he was unable to have supplies placed on the grounds because of union labor picketing and opposition to deliveries. Trucks that had been escorted to the building site by Sheriff Bennett's men would not unload the materials upon arrival and so returned to their yards with the loads. Mr. Wallace further stated that if the Village or County could not furnish sufficient police he would be willing to pay for them if they were deputized, and submitted a list of fifteen Lombard men from which the police officers could be selected.

Sheriff Bennet and President Alderman did not think additional police would be required and promised Mr. Wallace that he could continue with his contract without further interruptions. Mr. Wallace stated that he would again start work Wednesday morning, July 27th, at 8 o'clock A.M. President Alderman, Trustee Lucas, Chairman of the Police Committee and Chief of Police Groote informed Mr. Wallace that they would all be present Wednesday morning to see that there was no trouble.

Special Meeting of Lombard Village Board. July 29, 1938.

The meeting was called pursuant to notice for the purpose of discussing further developments of the W.M. Wallace Landis Award Contract and to take care of such other business as might come before the Board. It was held in the Village Hall and brought to order at 8.25 o'clock P.M. by President Alderman. Present:

President Jerome C. Alderman	
Trustee Harvey B. Lucas	Trustee Harry D. Fleege
" R.E. Dieterich	" Henry A. Potwin
" Edwin F. Smith	Clerk Hubert E. Mogle

Mr. Wallace and Sheriff Arthur Bennet were also present to advise the Board as to what was being done by them.

Mr. Wallace wished to furnish twelve retired policemen of the Chicago Police Department to be paid by him but deputized by Sheriff Bennett, to protect his building project. He was informed that no one could be deputized as a police officer in DuPage County unless he had been a resident of this county for the past year.

Sheriff Bennett said he would give Mr. Wallace all the protection he needed but it would be necessary for him to call the sheriff when ever truck escorts were required. Mr. Wallace said that would cause him a great amount of trouble as it would almost be necessary for him to establish an office and install a phone at the building site. He preferred a body of deputies to be on hand all the time and if Chicago retired police could not be used, any selected by Sheriff Bennett or the Village Board of Lombard would be satisfactory.

The hearing on an injunction will be decided in the Wheaton Court August 2nd - Tuesday - or if not decided postponed or continued. It was finally decided that Mr. Wallace would hold up work until after the hearing on the injunction and another Board meeting would be held Tuesday August 2nd to discuss further plans of his continuing with his contract.

Report of the Superintendent of Maintenance, Charles Oetke for the period April 4, 1938 tp April 18, 1938:

Street Department

Due to severe snow storms both the snow plows were put back in service. Practically all streets were made passable by Saturday noon April 9th. The plowing of snow required the combined efforts of the entire Maintenance Crew working from 5.00 A.M. to 10.30 P.M. several days. As per instructions of the President of the Village, snow was also plowed from the walks.

The street sweeper was put in operation, and refuse was swept from the business section. During this sweeping further adjustments were found to be necessary. Same are being made at this time.

The concrete pavement replacement at the Bowman Dairy Plant has been completed.

Water Department

Reading of water meters has been completed in #1 Section.

Due to the deep well pump motor armature rubbing on the field coils same had to be dismantled and sent to Westinghouse Electric Company on Tuesday evening. The reason for this was found to be an oval shaped bearing on the bottom of the armature shaft. The Wstinghouse Electric Company checked and repaired the motor that same night and notified the Village that the motor was ready to be picked up on Wednesday noon. Our own truck was sent for same during the severe snow storm, and it required five hours to make the trip from Chicago to Lombard. The motor was put back in operation on Thursday by 3.00 o'clock.

Two new water taps were made in the last two weeks.

Street Light Department

Ten new bulbs and glass were installed this last week. Of this seven installations were due to rocks and snow balls being thrown through the lamps. The police department has been notified of this.

Sewer Department

The dead end sewer on Greenfield which was partially blocked was cleaned by flushing. Basin covers which were dropped in the basins by parties unknown were replaced both in the Westmore and South Lombard sections.

Fire & Police Departments

The #1 Fire Truck was dismantled and sent to W.S. Darley & Co. for installation of new fire pump. The #1 truck was received from W.S. Darley & Co., on Thursday of last week, and on a careful check up was found to be incomplete. As per instructions same was returned to W.S. Darley. The old Chevrolet truck is serving as #1 Fire Truck during this change.

The Police Car has been greased, oil changed and checked weekly.

DIVISION OF HIGHWAYS
Elgin, Illinois

April 11, 1938.

Mr. G.H. Deuchler,
Engineer for the Village of Lombard,
48 North Park Avenue,
Lombard, Illinois.

Dear Sir:

Confirming our telephone conversation, and in reply to your letter of April 5th, wish to inform you that we have written Mr. Otto for information as to his plans for proceeding with the completion of the pavement on S.B.I. Route 53 and Glenbard Avenue but as yet have received no reply.

I gathered from our telephone conversation that if provision could be made to complete the paving on the west lane of Route 53 continuing what was built last year that this would help considerable in the matter of handling traffic entering Lombard during the lilac season.

I feel sure that Mr. Otto will plan on completing this pavement as the first work to be done, but am rather pessimistic in his ability to have the pavement ready for traffic before possibly the 10th of May.

I can assure you we will make every effort to provide as much as possible for the handling of traffic during this period.

Very truly yours,

C.H. Apple

District Engineer.

Report of John E. McCoy of work done and results of forclosure proceedings. (Excerpt)

Special Meeting of Lombard Village Board, cont. May 9, 1938.

Report of John E. McCoy, re foreclosure proceedings, concl.
(Excerpt)

The result of the suit at the time I am stepping out and just before any motion for receivers is made is that there has been in actual cash collected the sum of $4,858.01; there will be paid within the next few days, to my knowledge, through deals pending, the sum of $1,817.54, minus whatever the penalties amount to. There are also promises to pay which I believe will be carried out within the very near future this sum amounting to $5,498.78. Undoubtedly, as soon as the motion for a receiver is made a large number more of these property owners will come in and settle their claims. That will be up to the State's Attorney, as it is his case from now on.

My fee for starting the above proceeding will be $350.00.

Details of report on file. A motion was made by Trustee Potwin and seconded by Trustee Lucas that the report of Mr. Mccoy be received and placed on file. Motion carried.

Report of the Superintendent of Maintenance, Charles Oetke, for the period of May 2, 1938 to May 16, 1938:

Street Department

Sweeping of paved streets has been completed. Approximately 99 sweeper loads were picked up or 49½ yards. Sweeping of the streets in the business section will continue every Saturday morning.

Due to a badly worn key way on the universal joint of the drive shaft of the sweeper, it was necessary to rebuild this joint. All repairs to same have been completed. New sweeper broom is being built at this time.

Repairs to holes on the following gravel streets have been made using the excess gravel left by the State at the sewer plant: Brookfield near West Road, Finley, Maple and south Brewster.

Five new street barricades have been built per orders of Mr. Lucas. Also a directional sign was painted and placed at Roosevelt Road and Stewart Avenue during Lilac Week as per instructions of Mr. Lucas.

Third Avenue and Maple Street have been graded.

Sewer Plant

On the last two Fridays orders were received that curb manhole covers were missing in the Lilac Lodge section of Lombard. The first Friday six covers were replaced and last Friday four covers were replaced.

Filter beds at the Sewer Plant have been cleaned.

The road in the Sewer Plant has been regraveled using the gravel left as fill at the sewer plant.

Street Lighting Department

The ornamental street light top at Lincoln and Grove Street which was damaged by car side-swiping same was repaired and replaced.

The electric eye has been taken down, crated, and shipped to the General Electric Company at New Jersey.

Eleven ornamental street light bulbs were replaced, and birds nest were removed from five street lights and the broken glass replaced.

One water leak repair was made. Three new water meters were installed. Forty-five collections were made. One new water tap was made at Meyers and Division.

Fire and Police Department

The #1 Fire Truck has been received from Darley and Company. The several tests made did not prove satisfactory due to several items. One was poor carburetion. Another was bad compression. Mr. Lucas was informed, and as per his instructions, the following were carried out: New rings were installed on the pistons. New carburetor was installed. The head was cut down 1/16 of an inch for higher compression. Darley and Company has been notified of the changes made, and they will make a preliminary test on Wednesday of this week.

April 28, 1938.

Mr. President and Members of the Lombard
Village Board,
Lombard, Illinois.

Gentlemen:

I am sorry my work prevents me from attending this important meeting. However this letter will put me on record as to my sentiments in regard to the Lombard Fire Department.

We have labored for two years and spent several thousand dollars in complying with Underwriter's requirements which have given Lombard a higher rating and a general reduction in fire insurance rates.

We cannot permit these mechanical improvements to be nullified by the lack of interest of several members of the department. This is definitely shown by their attendance records at fires, drills and meetings and their conduct at fires.

Several of these men are charter members and Lombard owes them a very great deal for their work in building up this department. But you cannot put out fires by pointing past records at them.

I do not censure those who have lost interest, bevause many things happen that make it difficult to always do our duty. But those who cannot cooperate to the fullest extent with the present policies of the department should voluntarily step out.

I ernestly recommend that: the by-laws be changed to provide an honorary membership for those who can no longer keep up an active membership. This will permit them the same social interest they now enjoy, without any active responsibility.

The dismissal of members who have been on probation for misconduct.

The Department be reduced to twelve men, to be made up as far as practical from the regular employees of the village. These men already bear the burden of overtime emergency repairs and the regular care of equipment.

Also fewer officers and more "buck privates."

It is high time to stop "horsing around" so let's take the necessary steps right now to put the human part of our Department on a par with our mechanical equipment.

Sincerely yours,

C.Schermerhorn
Fire and Police Committee

Regular Meeting of Lombard Village Board, cont. August 1, 1938.

Committee reports:

Trustee Potwin, Chairman of the Finance Committee, advised the Board that the budget would still be short around $4,700 by the end of the year unless something was done to raise funds. He asked for a meeting of the Trustees the latter part of the week to discuss ways and means.

Trustee Lucas, Chairman of the Fire & Police Committee, advised the Board that there was a shortage of around $94.00 in the funds of the Fire Department, [redacted]. He made a motion that the Village Attorney notify the Bonding Company to replace this shortage. The motion was seconded by Trustee Smith and carried. See page 211, 2nd ¶

Trustee Lucas commended the Police Department on its initiativeness in taking up target practice and reported that the officers were all becoming expert shots with the pistol. However, as the cost of ammunition was paid by the officers themselves he recommended the purchase of a 38 calibre pistol with a 22 bore to be used in target practice. The cost of shells would then not be so burdensome. He thought he could get one at cost. The Board concurred in this recommendation.

With reference to the saving of the trees on Parkside Avenue between Main and Park Streets, the roots of which were cut when the new paving was placed, Trustee Lucas stated that the Village Forester had recommended that in addition to the treating of the roots, which was done under the supervision of the Forester, they should also be fertilized. A motion was made by Trustee Lucas and seconded by Trustee Smith that about $20.00 be allowed for fertilizer for this purpose. Roll call:

Mr. McCoy informed the Board that the injunction proceedings on the Wallace building contract had been continued two weeks as there was not enough evidence at the time to grant it. The hearing was held August 2nd, 1938, before Judge Fulton at Wheaton. He also stated that the property on which Mr. Wallace was building now belonged to Mr. Fred Zerhoot and not Mr. J.P. Fallis under whose name the building permit was issued.

Mr. Wallace stated that he would take out a corrected permit within the next few days as the property was now owned by Mr. Zerhoot, although the original owner was Mr. Fallis. He was told there would be no charges in having the permit changed.

Although the injunction was continued, Mr. Wallace said that he intended proceeding with the building project Thursday morning August 4th and would keep Sheriff Bennet and Chief of Police Groote informed of truck movements so that escorts would be available.

Sheriff Bennet stated that he would give Mr. Wallace all the protection he desired but that he must have cooperation.

Miss Anna Stafford of West Ash Street, Lombard, was present to again complain that Mr. Carl Rask was using his residence as a place of business contrary to zoning restrictions. Mr. McCoy informed Miss Stafford that he had made an investigation in her neighborhood and could find no one else objecting to Mr. Rask's conducting of his paint business from his home. He further stated that so far as he could learn all that Mr. Rask

does is to drive in and out of his garage with equipment which he has stored there and there is nothing the Village can do about that so long as he does not become a nuisance to the neighborhood. Mr. McCoy advised Miss Stafford to file a complaint with Police Magistrate Barth or take the matter up with the State Attorney at Wheaton. She said she had been to see both officals and could obtain no satisfaction.

THE AMERICAN LEGION
Dept. of Ill.

August 2, 1938.

Mayor J.C. Alderman,
Lombard, Illinois.

My Dear Mayor:

As Commander of the Department of Illinois American Legion, it has come to my attention, that in increasing numbers, the children of veterans of the World War, are appearing in the various courts of the State in Juvenile charges.

Because, the American Legion is the only organization devoted exclusively to all the veterans of the World War, I have requested the 774 posts in this State to cooperate with the Law enforcing officials in each community.

It is my hope, that a member of each local post may be delegated to cooperate with you to the end, that each juvenile offender whose father fought to preserve this government, have a friend in court and a sympathetic hand to guide them back to the way of righteousness.

May I ask your opinion of this movement and your cooperation in case of your approval.

Sincerely yours,

Leonard Applequist
Dept. Commander

A motion was made by Trustee Smith and seconded by Trustee Fleege that the above letter be received and referred to the Public Relations Committee. Motion carried. Trustee Lucas, chairman of this Committee said he would answer the letter personally.

Committee Reports:

Trustee Potwin, Chairman of the Finance Committee was not present but had left a type written communication with the Clerk to be read. Matters concerned collection of back taxes, appointment of receivers and establishment of new insurance rates. As President Alderman had left the meeting and Trustee Dieterich was not present the communication was ordered held over until the next regular meeting of the Board.

Trustee Fleege, Chairman of the Light & Water Committee, brought up the matter of street light being broken and suggested that the local newspaper give the subject publicity. Mostly plain vandalism.

Village Forester, Menz, called attention to the Fourteenth National Shade Tree Conference which will be held in St. Louis, Mo. at the Coronado Hotel, August 30, 31, September 1, 2, 1938. Such subjects as City Forestry Problems, Tree Surgery, Tree Moving Practices, Shade Tree Insects and Diseases and Pruning will be discussed by experts. Mr. Menz would like to attend but did not feel that he could stand the expense and the Village also had no funds for this purpose.

Trustee Lucas, Chairman of the Streets & Alleys Committee, presented a letter written to him by the Westmore Improvement Club, showing that it had spent $55.19 for materials with labor donated, in placing street signs throughout Westmore. ~~The Club stood this expense~~. The Board members were very much pleased with this evidence of Civic pride and the Clerk was instructed to write the Club a letter of appreciation. The Village is to stand the $55.19 for materials in making the forty signs.

Special Report of Trustee Potwin, Chairman of the Finance Committee, with referance to falling off of receipts of back taxes.

" " "

Being concerned with the falling off of receipts of the back taxes and the lack of any knowledge as to the status of the suits which were filed by Attorney McCoy, Mr. Henry Tefft, Chairman of the Finance Committee of District 44 and myself called on Mr. Russel Keeney (DuPage County States Attorney) on Monday evening, August 8th.

He reported that to date there have been a number of payments and others, he believed, were making arrangements to pay, but to date there was only one case in which the county treasurer had been appointed receiver. He promised to make a complete report and to forward it to me within a few days, but to date it has not been received.

When asked if he had filed any other suits in the Village of Lombard, he said "no, only those where the property owners had come in and requested him to do so, so that they might receive a rebate of the penalties upon payment of their taxes." When further questioned he said that he had filed some suits but that they were all in the Village of Elmhurst, that they had been filed upon request of the Village having received the consent of the County Board as to specific properties. He stated that he was bound to take any action which the County Board might direct and that if we would get the consent of that Board, he would be glad to file suits against any properties which they might direct.

We questioned him about the mode of having a receiver appointed under the Skarda Act, and he informed us that if we could get the approval of the County Board at their September session as to specific properties, he would ask for the appointment of receiver at the time that the properties were offered for sale, which will be some time during the month of October. In this manner receivers can be appointed without the delay and cost necessary in filing foreclosure suits.

Mr. Tefft and myself have undertaken the job of compiling such a list but it will require that before it is finished that the properties will have to be checked in Wheaton for the correct amount of unpaid taxes, checked at the DuPage Truste Company for the proper owner, and checked at the premises to find out whether or not the properties are being occupied by the owner or tenants. This will mean that we will have to hire some outside help which at the most I do not believe should exceed $100.00 and which I believe can be prorated between the taxing bodies benefited thereby. We are starting with a list of several hundred pieces of property which, as of last September, owed more than $200.00 in back taxes.

From the results which Attorney McCoy reported as a result of his suit I feel that it will be well worth the Village's proportionate share of these expenses to take this action.

A motion was made by Trustee Lucas and seconded by Trustee Smith that the Chairman of the Finance Committee be empowered to make this investigation - as outlined above - the cost not to exceed $100.00 and that the County Treasurer be appointed receiver. Roll call:

AYES: Trustee Lucas
Trustee Dieterich
Trustee Smith
Trustee Fleege
Trustee Potwin

Motion carried.

With reference to the Fleet Insurance Policy, carried by the Suburban Auto Company of Lombard, Trustee Potwin stated that the cost of renewing the policy for another year would be over $600.00 as against $400.00 last year. The reason for this increase was that a new State Law has required the filing of all auto insurance rates by the companies of Illinois and as a result of a general meeting of these companies they decided that the previous rates were too low. All the Sub. Auto rates will therefore be increased. It was thought by Trustee Potwin that a cheaper rate could be obtained, but the Board was of the general opinion that the policy should be renewed in The Suburban Auto Company. Final decision was delayed for further investigation.

Trustee Potwin further informed the Board that he had had a talk with Mr. Freeman of the Illinois Inspection Bureau and was told that the Bureau had received notice that the Village of Lombard had accepted the W.S. Darley pump and thus fulfilled their requirements. His next step, or rather the step of the Bureau, would be to send investigators to Lombard to inspect industrial or commercial property together with the property exposed to the business district and reclassify them. This new rate would then apply to the entire Village, as of date of publication and any insurance written after that date would be on the new rate and any insurance in force then could be cancelled and reinsured at the cheaper term. However, this will require some time, but Trustee Potwin said he would follow the matter.

No deputy weighmaster so appointed shall serve as deputy weighmaster or attend to such scale unless and until he has been so registered and the required fee paid, and all appointments of deputy public weighmasters shall expire on December 31st next following their appointment.

Each public weighmaster appointing any deputy weighmaster shall be answerable for any and all acts of such deputy weighmaster in connection with the weighing of any commodity over the scale or scales of such weighmaster; provided, that such responsibility on the part of the public weighmaster shall not relieve the deputy weighmaster of liability for his own acts. Any public weighmaster shall have the right, at any time after the appointment of any such deputy weighmaster to cancel such appointment, and upon such cancellation, such public weighmaster shall immediately notify the Village Clerk that the appointment of such deputy has been cancelled, and thereupon such deputy shall cease to have any authority to act as deputy weighmaster.

Section 6. **Scale—how provided.** Each public weighmaster licensed under the provisions of this article shall provide his own scale, which shall be of a kind or pattern approved by the State Inspector of Weights and Measures, and each such public weighmaster shall keep his said scale properly adjusted and repaired at his own expense. It shall be the duty of each public weighmaster to have such scales inspected by the State Inspector of Weights and Measures at least once every six months and oftener when required by the Village of Lombard.

Section 7. **Change in Location of Scales.** Public Weighmasters or deputy weighmasters shall by virtue of their licenses, be entitled to weigh only over the scale or scales designated in any such license. Every public weighmaster acquiring a new scale or scales after the issuance of his public weighmaster's license and desiring to weigh over such scale or scales, shall notify the Village Clerk of the location of such additional scale or scales and thereupon such new location shall be entered by the Village Clerk on the original application for public weighmaster. If any public weighmaster changes the location of any scale, he shall immediately notify the Village Clerk and secure a transfer of such license for such new location, which shall be issued by the Village Clerk without further bond or license fee; provided, however, that any public weighmaster shall have the right, at any time after the appointment of a deputy weighmaster by him, to assign such deputy to weigh over any scale or scales owned by him, the location of which is set forth in his license application or his supplementary license application.

Section 8. **Shall Weigh all Commodities Tendered for Weighing.** Public weighmasters owning scales suitable for weighing commodities loaded in wagons, trucks, or other vehicles, shall weigh any commodity, produce or articles of merchandise loaded in any wagon, truck or other vehicle when requested so to do by the person bringing the same to the scale of such weighmaster; public weighmasters owning scales suitable for weighing commodities in amounts or quantities less than load lots when not contained in any wagon, truck or other vehicle, shall weigh any such commodity when requested so to do by any person bringing the same to the scale of such weighmaster.

Section 9. **Attendance—Reimbursement.** Each public weighmaster shall be present at his scale, either in person or by deputy, at all reasonable times during the day, except Sundays and public holidays; provided, however, that if requested so to do upon any day preceding any such Sunday or public holiday, the public weighmaster shall be present or cause a deputy weighmaster to be present at said scale on the succeeding Sunday or public holiday; provided, further, that the person or firm requesting such weighmaster to be present at his scales on any Sunday or legal holiday shall be required to deposit with such public weighmaster the sum of Ten Dollars, which sum shall be the minimum reimbursement to such weighmaster for his services in weighing commodities over his said scale on any Sunday or public holiday.

Section 11. **Seal of Weighmaster.** Each such public weighmaster shall procure a seal at his own expense round in form, not to exceed one and one-quarter (1¼") inches in diameter and of a type similar to a notary public seal. The seal of a public weighmaster shall show his name around the upper half of the die and his title and the words "Lombard, Illinois" around the lower half thereof. The deputy weighmaster shall use the seal of the weighmaster by whom he shall be appointed, but certificates issued by him hereunder shall bear his signature as deputy weighmaster.

Such seal shall be stamped over the weights set forth therein upon each certificate issued by such public weighmaster or deputy weighmaster. No deputy weighmaster shall on any weight certificate use the seal of any weighmaster except the one by whom he has been appointed, nor shall any deputy weighmaster act as deputy for any weighmaster except the one by whom he has been appointed, nor shall be be authorized to weigh or issue certificates for any weighing done on any scale other than those the locations of which appear on the license application of the public weighmaster appointing him or such additional ones as may be installed after the application has been made, as provided for in Section 7.

Section 12. **Weight Certificates.** Each public weighmaster shall issue a weight certificate, signed by him or his deputy, under his official seal, which certificate shall state thereon the following: the commodity, produce, article or articles weighed; the date, the name of the weighmaster or deputy weighmaster who did the weighing, the name and address of the person, firm or corporation for whom the weighing was done, the name of the driver of the vehicle bringing such commodity, produce, article or articles to the scales, or, if the same be not contained in a vehicle, the name and address of the person bringing same to the scales, where contained in a vehicle, the kind of vehicle and the name and address of the purchaser or consignee of the commodity weighed when the commodity is loaded in a vehicle, the total or gross weight of the commodity weighed and the conveyance in which it is loaded, together with the driver and any other person who may be on the vehicle when weighed, and of the horses, if a horse-drawn vehicle and the horses are weighed; the tare weight or the weight of the vehicle, including the driver and any other person who may have been on the vehicle when weighed while loaded and including the horses if they were weighed when the loaded vehicle was weighed; the net weight of the commodity, produce, article or articles contained in such vehicle, or the net weight of the commodity, produce, article or articles when not contained in a vehicle at the time of weighing. In no case shall any public weighmaster state in his certificate the tare weight of any vehicle until after he shall have weighed the vehicle in such manner as to secure the weight as specified herein; provided, however, that in the case of a divided load, by which is meant a load containing more than one order for the same or different purchasers or consignees, no penalty shall be imposed under this ordinance by reason of the fact that the tare weight shown on the weight certificates is only the original tare weight of the vehicle and equipment before loading if in such case each order has been weighed separately and the net weight of each separate order or delivery is correctly shown on the weight certificate and such correct net weight is delivered. The weight certificates shall remain at all times on the vehicle conveying the commodity until it is delivered to the purchaser by the driver at the place where the commodity is to be delivered and before any of it is unloaded.

Section 13. **Records to be Kept.** Each public weighmaster shall keep and preserve a carbon copy of each weight certificate issued which collectively shall be an accurate record of all weighing performed by him or his deputies. Such weight certificates shall be numbered and all certificates must be accounted for, and the records shall be retained and preserved by such public weighmaster for a period of at least two years after the weighing is performed. Such records shall be open to inspection by the Village Clerk and his deputies and to members of the department of police.

Section 14. **Street Scales Prohibited.—Exception.** No persons shall use or keep any scale within the Village for weighing any commodity, produce, article, or articles of merchandise of any kind whatsoever for fee or reward, except public weighmasters who shall have complied with the provisions of this article, and no person shall use or keep any scale in any public place, street or alley within the Village unless duly authorized so to do by the President and Board of Trustees.

Any fine imposed against such public weighmaster or deputy weighmaster may be enforced against his surety under the bond furnished by such weighmaster or deputy weighmaster.

Section 16. **Fine for Requesting False Certificate.** Any person, firm or corporation that shall request any public weighmaster or deputy weighmaster to weigh any commodity, produce, article or articles of merchandise falsely or incorrectly, or that shall request a false or incorrect certificate of weight, shall be fined not less than ten dollars, nor more than two hundred dollars for each offense.

Section 17. **Certificate to be Delivered or Posted Before Vehicle Can be Unloaded.** Every load of any commodity, produce or other article or articles of merchandise sold in load lots by weight, delivered by wagon, truck or other vehicle within the Village, shall be weighed by a public weighmaster; a certificate of weight for each such load, issued by such public weighmaster, shall be delivered by the driver or person in charge of the wagon, truck or other vehicle used in the delivery, to the purchaser or consignee of such load, or to his or their agent, at the time of the delivery, and before any of the commodity, produce, or other articles of merchandise is removed from the vehicle, or such certificates shall be delivered to the Village Clerk or any of his deputies upon his or their demand. When delivery is made, in case no person is present to receive such commodity, produce or other article or articles of merchandise, and if the purchaser or consignee, or his or their agent, cannot be located, then the memorandum or certificate of weight hereinbefore provided for shall be posted conspicuously at the place of delivery, before any of the commodity, produce or other article or articles of merchandise is removed from the vehicle.

Section 18. **Certificate Not to be Altered.** No person shall alter any certificate of any weighmaster or deputy weighmaster, or use or attempt to use the same for any other load or parcel than the one for which the same was given, nor, after the weighing and before the sale and delivery of any load or parcel, diminish the quantity thereof.

or articles of merchandise sold in load lots by weight sold or delivered by such person, firm or corporation or by any person directly or indirectly interested with such person, firm or corporation in the operation of its public scale, it shall be the duty of such person, firm or corporation delivering such load and of the driver or person in charge of the vehicle used in the delivery thereof, upon the request of the consignee or purchaser, to convey such load to some other public weighmaster's scale in the Village of Lombard selected by such consignee or purchaser and permit the weighing of the gross weight of such load, and after the delivery of such load, to return forthwith with the vehicle and equipment used in the delivery thereof to the same scale and permit the ascertaining of the tare weight for the purpose of verifying the net weight of such load as shown by the weight certificate, but only on the following condition:

(1) that if such person, firm or corporation delivering such load or such driver or other person in charge of the vehicle used in the delivery thereof, so demands, such load, in addition to being weighed on the scale thus selected as aforesaid, shall be weighed on the scale of the public weighmaster where it was originally weighed.

Section 20. **Conditions for Re-Weighing of Commodities not Owned by the Weighmaster.** In any case where the person, firm or corporation selling or delivering any load lot of any commodity, produce, article or articles of merchandise sold in load lots by weight has not as a public weighmaster weighed such load lot, and has caused such load lot to be weighed by another person, firm or corporation licensed as a public weighmaster, and is not interested directly or indirectly with such public weighmaster in the operation of such public weighmaster's scale or scales, it shall be the duty of the person, firm or corporation delivering such load and of the driver or person in charge of the vehicle used in the delivery thereof, upon the request of the purchaser or consignee, to convey such load to some scale selected by such purchaser or consignee, and permit the weighing of the gross weight of such load, and after the delivery of such load, to return forthwith with the vehicle and equipment used in the delivery thereof to the same scale and permit the ascertaining of the tare weight for the purpose of verifying the net weight of such load as shown by the weight certificate but only on the following conditions:

(1) that if such person, firm or corporation delivering such load or such driver or other person in charge of the vehicle used in the delivery thereof so demands, such load, in lieu of being weighed on the scale thus selected as aforesaid, shall be weighed on the scale of the public weighmaster where it was originally weighed.

(2) that the scale thus selected shall be a public weighmaster scale which has been duly licensed by the Village of Lombard.

Section 21. **Fine for Obstruction of Re-Weighing.** Any person, firm or corporation selling and delivering or attempting to deliver any load lot of any commodity, produce, article or articles of merchandise that has been re-weighed on the scale of the public weighmaster on which it was originally weighed at his, their or its request, who shall refuse or fail to allow said load to be delivered to the destination it was originally billed or sent to; or who shall fail or refuse to have the load removed from the vehicle used in the delivery thereof; or who shall hinder or obstruct the purchaser or consignee from obtaining and ascertaining the net weight of the commodity, produce, article or articles of merchandise delivered or attempted to be delivered, shall be fined not less than twenty-five dollars nor more than two hundred dollars for each offense.

Section 22. **Fine for Delivery of False Weight Certificate, etc.** Any person, firm or corporation selling and delivering or attempting to deliver any load lot of any commodity, produce or other article or articles of merchandise sold in load lot by weight, delivered by wagon, truck or other vehicle within the village of a quantity less than that called for by the delivery ticket, or any public weighmaster or deputy who shall provide the driver or person in charge of the vehicle making delivery thereof, with a certificate, memorandum, or weight ticket which does not correctly state the information required to be given by virtue of Section 12, or with a certificate or memorandum which does not give the result of the actual weighing of such load lot and any driver or person in charge of such delivery who shall fail, neglect or refuse to deliver to the Village Clerk or to any of his deputies or to the purchaser or consignee, upon demand, the aforesaid, public weighmaster's certificate before such load or any part thereof is removed from the vehicle, or who shall refuse to comply with their or his request to re-weigh the same in order that the weights stated in such certificate may be verified, shall be fined not less than twenty-five dollars nor more than two hundred dollars for each such offense; the penalty provided in this section shall be in addition to any penalty that may be imposed under Section 15. Provided, that whenever the re-weighing is done on a scale other than the scale on which the weighing was originally done a variance of one per cent or less in the net weight of a load lot between the net weight as set forth in the public weighmaster's certificate and the net weight as ascertained by reweighing such load shall not be considered a violation of this ordinance.

Section 23. **Compliance.** It shall be unlawful for a person, firm or corporation to deliver within the Village of Lombard, solid fuel, crushed stone, sand, gravel, cinders or other commodity or commodities usually sold by weight in load lots or less than load lots without first having same weighed by and obtaining a weight certificate from a duly licensed weighmaster or deputy weighmaster and without complying with the provisions of this ordinance. Net weight, within the meaning of this article, shall be the actual weight of the commodity, produce, article or articles excluding the weight of the vehicle, if any, in which it is loaded, and excluding the weight of the horses and driver of such vehicle or either of them, as the case may be, if such horses and driver, or either of them, be weighed as part of the tare weight.

Special Meeting of Lombard Village Board. September 17, 1938.

The meeting was held pursuant to regular notice for the purpose of discussing whatever business might come before the Board. The Trustees met at the Village Hall and President Alderman called the meeting to order at 4.00 o'clock P.M. Present:

President Jerome C. Alderman
Trustee Harvey B. Lucas Trustee Harry D. Fleege
" Edwin F. Smith " Henry A. Potwin
Clerk Hubert E. Mogle

A proposition had been presented to the Board that the Village take advantage of a P.W.A. grant to build a west addition to the Village Hall for the purpose of a recreation center. Rather than add further indebtedness on the Village, for about half of the amount required to build this addition would have to be paid by the Village, the Trustees unanimously rejected the idea, in view of the present financial conditions.

A petition for reapportionment was presented by Lillian J. Daniel and Wm. C. Atten, Agent covering Lots 10, 11 and 12 of the Maple-Finley Addition of West Lombard in the North ½ of Section 7, Township 39 North, Range 11, East of the Third P.M., for approval of the Board. Warrants affected were 22, 88, 96, 113 and 122. All of Lot 11 and a small portion of Lots 10 and 12 had been purchased by Glen L. and Carmen McFarland. A motion was made by Trustee Potwin and seconded by Trustee Lucas that the petition be granted, the forfeitures cancelled and rebilled on a straight 6% basis. Roll call:

A motion was made by Trustee Fleege and seconded by Trustee Lucas that the Fleet Automobile Insurance carried by the Village be awarded to the Suburban Auto Insurance Company of Lombard for $674.57. Roll call:

AYES: Trustee Lucas
Trustee Smith
Trustee Fleege

NAYES: Trustee Potwin

Motion carried.

Trustee Potwin qualified his vote by the statement that this insurance could be obtained from the American Automobile Insurance Company of St. Louis, Missouri, for $567.47, which would be quite a savings. The other three Trustees explained their attitude by the statement that in the past the Suburban Auto Company had given the Village this coverage at a savings of around $400.00 and now that the State had required all the companies to file their rates and that of the Suburban Auto Company was somewhat higher they felt that still the insurance should go to the local company as the President, Mr. Edwin Deicke was a man of unimpeachable integrity, his company was sound and it was more satisfactory to deal with a local man and company than with one further away, especially outside the State.

Due to the fact that there had been several serious accidents to cars traveling East on St. Charles Road at the sharp turn of the street where it crossed the C & N W Railroad the Clerk was requested to write Mr. E.L. Gates of the County Highway Commission to place a warning signal close to this crossing advising of a sharp turn and end of street.

Meeting regularly adjourned at 5.10 o'clock P.M.

Hubert E. Mogle

Regular Meeting of Lombard Village Board. September 19, 1938.

Minutes of the Regular Meeting of September 6, 1938 were read by the Clerk. A motion was made by Trustee Potwin and seconded by Trustee Dieterich that these minutes be approved as corrected. Motion carried. Line 8, Page 225 was changed to read: "All Sub. Auto rates will therefore be increased."

Minutes of the Special Meeting of September 17, 1938 were read. A motion was made by Trustee Potwin and seconded by Trustee Fleege that these minutes be approved as corrected. Motion carried. [redacted]. Statement "of around $200.00" changed to $400.00 and typographical error of the word "impeachable" changed to unimpeachable, fourth paragraph, page 235.

Mr. Henry Dougherty of the State Highway Department who is supervising the construction of Route 53 was present to clarify the following matters:

Mr. Shapotkin who owns a home just south of the C A & E Railroad complained that he has no satisfactory outlet to Route 53 and asked the Highway Department to pay him cash to make a drive from his house to the highway. The highway department said it would gravel and grade an outlet from his garage to the highway but Mr. Shapotkin was not satisfied with this. Moreover he wants an outlet to the west of his property also. Mr. Dougherty stated that unless he permit the highway department to do this work there was nothing more he could do about the matter.

Superintendent of Maintenance, Charles Oetke informed the Board that the gravel the Highway Department had promised the Village of Lombard was being covered by clay from sewer excavations. Mr. Daugherty stated that the gravel covered by his men was not seriously spoiled as it was wash gravel and the clay covering it would not particularly damage it. However, he has advised his men not to cover any more.

Mr. Daugherty also informed the Board that the trees along the highway had not been damaged and in fact would be taken up and set out to better advantage. The buffalo boxes which had been covered would be brought up to a couple inches from the top of the ground; there would be considerable sodding along embankments, and the approach warning signs to the crossing near the C A & E Railroad would be set to better advantage if possible.

A communication was received from Mr. J.D. Mack, 1132 East Kenilworth Avenue, dated September 9, 1938, requesting that the Village repair Kenilworth Avenue and oil same from Third Avenue East to Villa Park limits. A motion was made by Trustee Dieterich and seconded by Trustee Potwin that this letter be referred to the Streets and Alleys Committee. Motion carried.

A "Public Weighmaster's Bond" was presented by Mr. B.G. Skemp, in the amount of $1,000.00, dated September 15, 1938, and carried by the London & Lancashire Indemnity Company of America, for approval. No. of Bond 2434433. Accompaning the bond was a check for $20.00 to cover fee to December 31, 1938. Bond was approved by Village Attorney John E. McCoy. A motion was made by Trustee Fleege and seconed by Trustee Dieterich that this bond be approved. Roll call: AYES: Trustees Dieterich, Fleege, Potwin and President Alderman. Motion carried.

Trustee Potwin, Chairman of the Finance Committee informed the Board that of the delinquent water accounts

turned over to Attorney Darley for collection, $8,617.34 still remained outstanding and was practically uncollectable. He therefore made a motion which was seconded by Trustee Fleege that this amount be charged off the books under the account of surplus, and the remaining list of names be made a part of the minutes for future collecting in case some of them could be located or came back to Lombard. Concerning the collection of back taxes, Trustee Potwin informed the Board that he had prepared a list of 143 income properties which were delinquent in taxes over $77,000.00. It is his intention to submit these names to the County Board of Supervisors who in turn will take the matter up with the States Attorney and eventually have a receiver appointed to see that the taxes are paid from the income. Mr. Tefft, the Finance Chairman of School District Board No. 44, assisted Trustee Potwin in preparing this list, the cost of which amounted to $82.84 and which District #44 will bear a propottionate share. Village Attorney McCoy said he would follow up the list after it was submitted to the County Board.

Trustee Fleege, of the Fire & Police Committee, stated that because of the Village having to keep police on the Landis Award Job at Martha and Ash Streets, the force had to work over time. To relieve this situation so that the police officers will only have to work six days each week, he suggested that Edward Marquardt be stationed on the street from 8.30 to 9.00 A.M., 11.00 to 1.00 P.M. and 3.30 to 4.00 P.M., to look after the school children. While he is away from the Village Hall, Mr. Moose of the W.P.A. Recreation Project, had informed Trustee Fleege that he could supply a man, gratis, during those hours. Trustee Fleege thought that Mr. Marquardt should receive $15.00 a month extra for this work. A motion was made by Trustee Potwin and seconded by Trustee Dieterich that Edward Marquardt be hired as a police officer during the hours designated above at a salary of $15.00 a month, which is in addition to his salary as caretaker of the Village Hall. Trustee Dieterich, Chairman of the Sewers Committee reported that new planks were required for the sides of the sludge beds and was advised to make the repairs.

Mr. Zitt wished to know what had become of the Boosters Club or plans for a business men's association started some eighteen months ago. No one seemed to know so he decided to investigate.

Trustee Potwin stated that he had a proposition presented him with reference to a delinquent water bill owed by School District #45, amounting to $55.00. The School Board offered to pay 50% of the bill at once if the Village would cancel the balance, or would pay 10% now and the balance later when funds were available. It was the opinion of the Board that the 10% offer was the better and authorized Trustee Potwin to so advise School Board # 45.

Dear Sir:

Due to the improvement which your city has made in the fire fighting facilities, our inspection of recent date has resulted in the establishing of a grading of 6th class for fire insurance rating purposes. All property at Lombard rated specifically by schedule on fire protection classification has been inspected and rerated on this new classification, and the new rates will be published immediately.

We are at present preparing a report on the fire protection of Lombard, which will contain, in addition to a description of existing conditions, a number of recommendations for further improvement of the fire protection of Lombard. PROCLAMATION OF NAVY DAY

Thursday, October 27, the birth of Theodore Roosevelt and the anniversary of the establishment of the American Navy by the Continental Congress in 1775, has been designated as NAVY DAY; and

In these times, it is of vital importance that the United States have not only a Navy of adequate strength to maintain our national policy of peace and security, but also a Merchant Marine commensurate with our national interests; and

This day will be observed by the citizens of this country as a tribute to the past and present services which the Navy of the United States has rendered to the Nation during one hundred and sixty three years, and to the men who have responded in time of peril to the call to arms, and who stand ready at all times to uphold and defend the ideals and institutions of this great country.

NOW, THEREFORE, I, Jerome C. Alderman, President of the Village of Lombard, by virtue of the authority vested in me by law, do designate Thursday, October 27, 1938, as NAVY DAY, and urge that our appreciation of the loyal services of the Navy be shown by a display of the National Colors, and that appropriate exercises be held to commemorate the occasion.

Regular Meeting of Lombard Village Board, cont. Oct. 17, 1938.

Committee Reports:

Trustee Potwin, Chairman of the Finance Committee advised the Board that Bills amounting to $11,000 were past due and suggested that tax anticipation warrants be sold to take care of them. It was the opinion of the Trustees that at present there was no particular necessity for this step and the matter was dropped for the time.

Trustee Fleege, Chairman of the Light & Water Committee brought up the matter of purchasing a bronze casting for the Turbine Pump which is being overhauled, instead of one of cast iron. The present casting is not worn out entirely and would probably last two or three years but then the well would have to again be pulled, and a cast iron turbine should at least hold up for six years. It was pointed out that a casting of bronze although much more expensive would easily last 25 or thirty years and perhaps longer. In the long run it would prove more economical to purchase the bronze casting. As the Light & Water Committee was given power to act when the bid to pull the well was approved, Trustee Fleege was told to purchase the bronze casting.

Trustee Lucas, Chairman of the Fire & Police Committee, informed the Board that there was a Firemen's convention being held at Peoria this week and four members of the Fire Department would like to attend. He thought the Village should advance these men $30.00 for expenses to be repaid to the Village when the account of the Fire Department had been straightened. He made a motion to this effect which was seconded by Trustee Dieterich. Roll call:

Report of the Village Forester, Richard Menz:

Mr. Menz and Trustee Fleege inspected the grounds at the disposal plant to see its condition with regard to planting trees or shrubs. It was found that plowing up the westerly section was not practical as debris would be uncovered, but discing would be satisfactory. The upper Eastern section could be plowed, sisced and harrowed and the weeds would be easily destroyed and turned under. Mr. Menz suggested renting a machine called a SIMAR ROTILLER which would do the work of ten men and do it much faster, instead of using horses and men. The cost to rent this machine was $3.00 per hour and it was thought that five hours work would do the job. A motion was made by Trustee Fleege and seconded by Trustee Potwin that $15.00 be allowed Village Forester Menz to hire this machine. Committee Reports:

Trustee Potwin, Chairman of the Finance Committee, reported that the Village was paying about $18.00 fire insurance covering the Sewing Project (W P A) which convenes four days each week in the Council Chambers. Of the thirty or so women employed about five are from Lombard. It was his thought that perhaps part of this expense might be carried by the Federal Government. The Trustees, however, were of the opinion that in that the amount was so small, the Village of Lombard should continue paying this coverage rather than run the chance of having the Project discontinued by the Government and throwing all the women out of work. It was not expected that this Project would continue very much longer anyway.

Trustee Potwin also reported on the Tax Collection Suits on which he expected the County Treasurer to appoint Receivers. Through some misunderstanding the list was not presented to the County Board of Supervisors for approval so the matter received no attention. District Attorney, Keeny, advised Trustee Potwin that the only means of continuing with this procedure was to start individual suits against each piece of property and that there

AAR074

Committee Reports, concluded.

would still be no cost to the Village of Lombard. 143 properties, all income bearing, are concerned in these suits. Trustee Potwin was of the opinion that the advise of District Attorney Keeney should be acted upon and was instructed to go into the matter with him.

Trustee Fleege reported that the shrubbery removal at Edson and C A & E crossing had made the crossing safer but that the flasher light was not satisfactory and that the Railroad officials should be notified of this defect and remedy same. The Clerk was requested to write a letter to this effect.

Village Attorney McCoy, reporting on the subway under the Great Western Railroad at Parkside, stated that the entire proceeding was at a standstill as the Railroad Company had requested another rehearing to arrange a different method of financing the work. He will still continue to follow the case, however.

With reference to the placing of gates at the C & N W crossing at Grace Street, Attorney McCoy informed the Board that this territory was in the Village limits and that the County Highway Department could not very well act on the matter, but would back any action the Village of Lombard would start. The Trustees requested Attorney McCoy to write the C & N W Railroad Company to ask it to install gates at this crossing.

Regarding the Great Western Crossing at West Road, Attorney McCoy informed the Board that the matter of proper flasher lights was still pending, but that he expected action before long.

Trustee Fleege reported that he had been approached by Mr. Fred Brewer of West Road as to the possibility of building a sewer along that street obtaining a W P A grant to help defray expenses and spreading a Special Assessment among the property owners to take care of the balance. Mr. Brewer further stated that he would get a petition signed by these property owners requesting such action if the Village were interested. It was decided to plan a meeting with these people before the next Village Board Meeting, in which the Village Engineer, Deuchler, would sit in to advise necessary steps of procedure.

Village Engineer Deuchler requested the Board to release a 10% payment to the Black Top Road Company of Chicago, on receipt of approval from the State Highway Department, for work done so far on Section 4-C S (Washington Boulevard). A motion was made by Trustee Lucas and seconded by Trustee Smith that this payment be authorized, subject to approval by the State Highway Department. Roll call:

OFFICE OF THE COUNTY CLERK

Wheaton, Illinois

November 16, 1938.

Mr. Hubert E. Mogle
Village Clerk
Lombard, Illinois.

Dear Sir:

At the meeting of the DuPage County Board of Supervisors the following motion was made and passed:

> "Supervisor Harner moved that the Clerk write the Village of Lombard asking that they submit a Resolution listing not more than fifteen pieces of property and their owners, relative to tax receiverships suits. On roll call all voted "Aye." Motion carried.

May we hear from you in regard to the above.

Very truly yours,

Clarence V. Wagemann
County Clerk.

Assistant Supervisor Harry B. Davies was present and informed the Board that the next meeting of the Board of Supervisors would be Friday, November 25, 1938, opening at 10 o'clock A.M. Trustee Potwin was advised to be present at this meeting and discuss the matter with the Supervisors.

Committee reports:

Trustee Lucas, Chairman of the Fire and Police Committee stated that the police were having some trouble with the bicycle situation as children were riding at night without proper tail or head lights. He informed the Board that he had instructed the police not to make any arrests but to obtain the names of those violating the ordinance and take the matter up with the parents.

With reference to the Landis Award Building contract at Martha and Ash Streets, it was reported that the work was going on very slowly and the village was being burdened with continued use of a special policeman. Trustee Potwin was of the opinion that the police could now be removed from this job, but the other Trustees thought differently as Mr. Wallace had informed President Alderman that it was his intention to delay the progress of the work as much as possible, since the injunction desired was held up indefinitely. Trustee Potwin was requested to take this matter up with the Insurance Company, advising that the Village would like to discontinue the use of Special Police, and if this was done would insurance still be given to Mr. Wallace.

Trustee Fleege, Chairman of the Light & Water Committee stated that the pump for the well repair would be delivered Tuesday November 22nd, and the work soon completed thereafter.

About fifty property owners and residents of property in Elmore's North View Subdivision were present to discuss the following petition which was submitted by their Attorney, Mr. V.L. Linderholm, 5 Madison Street, Oak Park, Illinois:

P E T I T I O N

To the President and Board of Trustees
of the Village of Lombard, DuPage County, Illinois.

The undersigned respectfully represent that they are owners and residents of property in Elmore's North View, being a subdivision in the North half of Section 6, Township 39 North, Range 11, East of the 3rd Principal Meridian, In Lombard, DuPage County, Illinois, according to the plat thereof recorded March 26, 1927 as Document 232,326, in DuPage County, Illinois.

That the said subdivision faces on the west side of Main Street and extends west to Elizabeth Street between Sunset Avenue and Pleasant Lane, in the Village of Lombard.

That certain restrictions contained in the plat of North View, recorded as aforesaid, and contained also in subsequent deeds of the several lots to your petitioners and others, provide among other things

"That no building shall be erected or maintained on any lot in said subdivision (except those fronting on North Avenue) to be used for anything other than a one family residence costing not less than $7,500.00"

P E T I T I O N, concluded

That your petitioners have built or purchased homes within said area, depending on the protection of the aforesaid restrictions, and will be materially damaged if it were not maintained.

Your petitioners are informed that this Board, sometime in August or September of 1938, on the petition of some building association or interests, approved the reduction of the building cost restriction in a portion of said subdivision to the sum of $4,500.00, as a result of which the said building interests are planning and offering to build for prospective purchasers, homes at a cost of $4,500.00, which, if carried out, is a direct violation of the deeded restriction hereinbefore set forth.

Your petitioners further represent that, under the law, the said deeded restriction cannot be removed or altered except by abandonment or by the specific consent of each and every owner of property witnin the area affected.

Your petitioners further represent that certain persons including Charles H. Cress have erected and maintained a structure for a sales office on the North west corner of Main Street and Potomac Avenue and have further erected and maintained divers sign structures along the East frontage of said subdivision between Potomac Avenue and Pleasant Lane, all of which are in violation of the deeded restrictions hereinbefore set forth.

Your petitioners therefore ask your Board of Trustees to enter an immediate order

First: Rescinding any previous order which purports or attempts to change or alter the deeded building cost restriction of $7,500.00 within the limits described, and

Second: To order the immediate removal of the said sales office and sign boards, so erected on Main Street, in violation of the said restriction.

Respectfully submitted this 28th day of November, A.D. 1938.

With reference to attorney's charges in following up the Great Western Sub-way, Trustee Potwin was of the opinion that these could be paid from the Motor Fuel Tax Funds. Village Attorney McCoy stated that he could see no reason why such a procedure could not be followed. He was urged to continue pushing the subway project and also the installation of flasher lights at West Road and C & G W tracks.

Mr. Newton Bean, representing residents along LaLonde Avenue, several of whom were present, requested that the Board have at least four bracket lights installed on this street as on dark nights it is almost impossible to keep in the road. Trustee Fleege said he would investigate the matter and discuss same with Mr. Lisenbee, the Public Service District Manager.

Mrs. George Robyler of 510 Phillips Court, Lombard, requested that the Board do something about an open trench that passed in front of her home. The odor arising from this ditch sometimes becomes very disagreable. She was advised that the matter would be investigated at once.

A motion was made by Trustee Fleege and seconded by Trustee Smith that the meeting adjourn. Motion carried.

Meeting adjourned at 9.15 o'clock P.M.

Committee Reports, concluded

With reference to the Crack Filling Resolution passed November 21, 1938 (see page 26) to be paid out of Motor Fuel Tax Funds, Village Engineer Deuchler reported that Springfield would not approve it as it was not the proper time of year to do such work. He suggested that this Resolution be submitted again in the Spring of 1939.

Village Engineer Deuchler also reported that the Snow Removal Resolution passed at the meeting of December 5, 1938 (see page 35) would be approved when the final papers on the Weed Cutting and surfacing and draining of Washington Boulevard Resolutions were received.

Trustee Smith, Chairman of the Ordinance Committee stated that a Tree Ordinance was being drawn up and would be presented to the Board in the near future.

Mr. George Goddard, of East Maple Street, Lombard, presented complete details of a plan to furnish garbage removal in the Village. He had been appointed by Lombard American Legion Post No. 391 to take up this matter with the Village Board and report back to the members. It was estimated that the cost of such service would be around $7,000.00 yearly, but when it was suggested that a tax of 1½ mills would take care of this it was soon proved that more would be necessary. The matter was finally referred to the Health Committee to investigate and confer with Auditor-collector Spellerberg, the American Legion, and Village Superintendent of Maintenance Oetke, who was requested to obtain details of the Villa Park disposal service.

Report of the Village Forester, Richard Menz:

With the help of Relief Workmen the entire east parkway on Park Street, opposite Lilacia Park is being leveled off, thus permitting pedestrians more than 32 inches for available sidewalk space.

The large vacant lot between Park and Main Street, opposite Lilacia Park was burned off and cleaned up. Mr. Menz suggested that the Village purchase this lot and convert it into a "Passing Through Park."

In clearing off the above mentioned parkway Mr. Menz had demonstrated the use of the John Deere tractor which Trustee Lucas recommended that the Village purchase.

Mr. Menz also stated that he had found out that Motor Fuel Tax Funds could be obtained for taking care of bad trees along arterial streets.

A motion was made by Trustee Lucas and seconded by Trustee Dieterich that the report of the Village Forester be received and placed on file. Motion carried.

Mr. Henry Heinberg was present to investigate the reason why the Village would not permit the raising of Minks by his tennant living at 318 Greenfield Avenue, Lombard. His tennant was forced to break a lease as a result of the action by the Village, and move out of the limits of Lombard. Mr. Heinberg complained that it was difficult now to obtain another tennant at this time of year. He was informed that there was no ordinance stating that minks could not be raised inside the Village limits but there was one against a nuisance, and minks were so considered.

Mr. F.J. Oldenberg of 206 West Road presented a petition signed by eleven residents in his district requesting the Village help them to obtain sewer services. He was informed that special assessment bonds had no market and it would not be feasable to proceed along that line. The Village Engineer, Deuchler was instructed to make an investigation of the district and recommend the best action.

Mr. Theo. Hammerschmidt, representing the Pure Oil Company with local office on East Willow Street, Lombard, asked the Board to open up this Street to the East of Main Street, as their present drive way was being encroached upon by cars parking around the C A & E Station, making it difficult for his trucks to enter off Main Street. The Village Engineer was instructed to investigate the matter and report his recommendation.

A motion was made by Trustee Potwin and seconded by Trustee Fleege that the meeting adjourn. Motion carried.

Re: P W A Docket Ill. 1222-R S
Waterworks Improvement Lombard, Illinois.

To the President and Board of Trustees,
Village of Lombard, Illinois.

Gentlemen:

Herewith is a report of the progress made on the above mentioned contract by the Chicago Bridge & Iron Company, who holds Contract "A", and George D. Hardin who holds Contract "B".

Contract "A"

This contract was started on November 16, 1936, and the contractor now has installed the foundations and completed the rough grading on the site. The elevated tank is now being assembled in the shops, and according to information received by us from Mr. Edward E. Alt, contracting engineer for this concern we have been advised that the tank will be shipped on January 11, 1937, at which time erection will begin immediately. According to this schedule the progress on this contract is well within the time specified. This tank should be erected in four to six weeks after starting the steel erection. The balance of their contract consists of a cast iron water supply pipe line, valves and appurtances which should require about two weeks under winter conditions, in addition it will be necessary to paint and sandblast the tank which should require approximately three weeks.

Contract "B"

This contract was started on November 16, 1936 and to date 125 lineal feet of 12" sewer has been installed. The excavation for the reservoir has been completed, and the floor steel for the southerly half of the reservoir is now in place, together with the drain line for this compartment. The contractor has installed a 1" skin coat at his own expense to facilitate construction operation. This contract has not progressed as rapidly as desired at the site. The recent activity indicates that more progress may be expected on this contract. We do believe, that unless this work is speeded up there may be a question as to this contractor completing his work on time.

Re: Ill. 1222-R S Waterworks
Improvement Lombard, Ill.

President and Board of Trustees
Village of Lombard, Illinois.

Gentlemen:

At the time of receiving bids on the above mentioned project it was decided to omit the repair of the existing elevated water storage tank, and use this tank only as a reserve storage in which event it will not be necessary to install the 8" altitude cone valve, and the two 8" x 12" reducers as indicated on page 1 of the plans for reinforced concrete reservoir on Contract "B".

We therefore recommend that the 8" cone valve, and the two 8" x 12" reducers be installed adjacent to the cone valve be omitted from the contract and that a resolution to the Federal Emergency Administration of Public Works be transmitted for permission to omit these two items from the work.

Respectfully submitted,

The Engineering Service Company,

By G.H. Deuchler, Engineer for
the Village of Lombard.

RESOLUTION

BE IT RESOLVED, by the President and Board of Trustees of the Village of Lombard, DuPage County, Illinois, that in lieu of the fact the existing elevated water storage tank is to be used for standby use only after the erection of the new 250,000 gallon elevated water storage tank, and upon recommendation of the engineer, we herewith deem it advisable to omit from Contract "B" the 8" altitude cone valve and the two 8" x 12" cast iron reducers adjacent thereto.

BE IT FURTHER RESOLVED, that request be made of the State Engineer, Federal Emergency Administration of Public Works that $700.00 the price bid by the contract for the installation of said above mentioned cone valve that the village of Lombard be allowed to transfer this said amount from the construction account of the Water Department to the operating account of said water Department of this Village.

President Alderman at this time turned the meeting over to the audience for suggestions as to the betterment and advancement of Lombard.

Mr. Benard Cogan, and Executive Officer of the Chicago, Aurora & Elgin Railroad stated that his company was willing and ready to install gutematic gates at the Main Street Crossing if it was the desire of the Trustees and Citizens of Lombard. Also that railroad warning signs would be placed at both approaches to the railroad. Mr. Charles Bainbridge, Chairman of the Zoning Board thought that gates were not the best protections and suggested a moving warning light in the center of the street. It was the opinion of every one else present however that the offer from Mr. Cogan should be accepted. A motion was made by Trustee Potwin and seconded by Trustee Lucas that Mr. Cogans offer be accepted, this to include gutematic gates, warning button signs at both approaches, and the present lighting system and bells to remain. Motion carried. Mr. Cogan requested that a letter be written to Mr. B.J. Fallon, Executive Officer of the C A & E Ry, 72 West Adams Street Chacago, and be mailed to himself - Mr. Cogan - to present to Mr. Fallon, through his office at Aurora, Illinois.

Father Gehrig, Pastor of the Sacred Heart Parish, Lombard, and representing the Lions' Club made a very interesting talk to advertise the Village and make it attractive to visitors. His idea was to form a central committee from representative organizations of Lombard to serve in an advisory capacity to the Village. His remarks were entnusiastically taken.

Mr. Harold E. Schaible, President of the Lombard Park District suggested the lighting of the Lilac Park during the blossoming season so that it would not be so crowded during the day and asked the Village for flood lights. Mr. Carlson, District Manager of the Public Service Company offered his services.

Mr. John Longmore requested that the Village do something about furnishing adequate lighting in the Zanderville Sub Division.

Mr. Roy Miller thought that a side walk and a cinder bicycle path should be put in between Lombard and Glen Ellyn for the High-school children. At present they must walk in the road and the motor traffic is quite dangerous.

Mr. Cresse, Manager of the Lumbard Sub Division, reiterated Father Gehrig's statements stating that although the real estate men would reap the first benefits it would ultimately help the Village.

Mr. Zitt presented a number of suggestions which he had written out:

1. A slogan for Lombard.
2. A pamphlet or descriptive letter heads which the citizens should send out and use when ever letters were written to friends or business concerns.
3. Monthly town meetings to which noted speakers would be invited.
4. Develop Fall flowers such as Dahlias and make the village noted at that season as well as the Spring and summer.
5. A new Post Office for Lombard.
6. Manufacturing Plants for Lombard.
7. Do away with the junk yard east of Lombard or at least have it cleaned up.
8. Beautify all streets and highways entering the Village.

Mr. Davies reported that the County could do nothing towards eliminating the junk yard but stated that the owner intended to purchase a cutting machine to get rid of the old motor bodies.

Mr. Vette thought that signs advertising other towns should not be placed at the entrances of the Village and that if placed on private property the owners should be made to feel that this was a very poor policy on their part. Also he condoned the scattering of bills and circulars by merchants of otner towns all over Lombard. His suggestions received very favorable comments.

Mrs. Smital, a Commissioner of the Lombard Park District thought that the Village should furnish a suitable place for the young people to meet and hold parties and dances under proper supervision and at no cost to them.

Mr. LeRoy Moe stated that skating ponds and playgrounds were being opened in a number of convenient places in the Village.

Mr. Carlton suggested that Willow Street be cleaned up as the people were making a dumping place of it.

Mrs. Ernest Schneeker commented on the suggestions of Mr. Roy Miller and thought his idea was a very good one.

This concluded a very interesting evening. A motion was made by Trustee Schermerhorn and seconded by Trustee Tronvig that the meeting adjourn. Carried. Adjourned at 10.20 o'clock P.M.

THE ENGINEERING SERVICE COMPANY
Aurora, Ill.

February 15, 1937.

To the Village Board,
Lombard, Illinois.

Gentlemen:

The State of Illinois has begun construction on Route 53 near the intersection of Glenbard Avenue and Columbine Street. A heavy fill of earth to be placed along Glenbard Avenue as an approach to an overhead at Columbine Street would cover the existing water main to a greater depth than is desirable. At the same time a proposed cut along Columbine Street would leave the existing water main with insufficient cover.

This matter has been taken up with the State Highway Department to the end that the State will move the existing mains and appurtances including maintaining existing house service, and will relocate the same in a location satisfactory to the Engineer for the Village.

We therefore request your permission for the State to change the location of the present water mains:

(1) On Columbine Street from Glenbard Avenue to a point approximately 240 feet north of the present main on Glenbard Avenue.

(2) On Glenbard Avenue from Columbine Street to a point approximately 330 feet East of the present main on Columbine Street.

This permit is recommended to be granted on condition that there be no expense to the Village, and that all materials and installation (including tests) as well as new location of mains, shall be subject to the approval of the Engineer of the Village.

Respectfully submitted,

The Engineering Service Company

APPLICATION RESOLUTION

A Resolution authorizing the President of the Board of Trustees to file an application to the United States of America through the Federal Emergency Administration of Public Works for an additional grant to aid in the financing construction of ground and elevated water storage, and designating J.C. Alderman, President, to furnish such information as the government may request.

BE IT RESOLVED by the President and Board of Trustees of the Village of Lombard:

SECTION I. That the President and Village Clerk be and are authorized to execute and file application on behalf of the Village of Lombard to the United States of America for an additional grant to aid in the construction of a ground and elevated water storage tank.

BE IT FURTHER RESOLVED:

SECTION II. That because of the fact that the ground reservoir and elevated water storage tank which is now being constructed by the aid of a grant from the Federal Emergency Administration of Public Works is costing in the neighborhood of $25,000 more than was anticipated at the time of the original request for a grant from the government of the United States for the purpose of erecting the ground reservoir and elevated water storage tank, and whereas the Village of Lombard has had to deprive itself of funds which should be used for additional improvements to the water works system because of the smallness of the grant obtained from the United States government, and whereas the Village of Lombard is in need of additional improvements to make a more perfect water works system and whereas additional improvements can only be made if a larger grant is granted by the Federal Emergency Administration of Public Works, the President of the Board of Trustees is hereby authorized to request from the United States of America through the Federal Emergency Administration of Public Works an additional grant large enough so that the total amount of the grant from the United States of America through the Federal Emergency Administration of Public Works would amount to forty-five per cent of the total cost of the ground and elevated water storage tank.

A motion was made by Trustee Tronvig and seconded by Trustee Randolph that the above resolution be adopted. Roll call:

" Randolph " Fleege

A group of four citizens living on Edgewood Avenue just south of the St. Charles Road were present to complain of the condition of this street. They were promised relief just as soon as the gravel pits could be opened and the street was in a dryer way.

A complaint was made concerning the unsanitary condition of the C A & E Station on south Main. The matter was referred to the Health Committee for investigation.

Mr. E.L. Gates advised the Board that the Department of Highways was ready to construct a subway under the Chicago & Great Western Railroad where it crossed St. Charles Road if it was agreeable to the Village and if funds could be provided from the Motor Fuel Tax Funds. He was advised that all the funds from this account were completely allocated for 1937. Mr. Gates suggested that plans be made to set aside around $5000.00 from the 1938 Motor Fuel Tax Funds for this purpose and then his department could make arrangements accordingly. A motion was made by Trustee Lucas and seconded by Trustee Schermerhorn that the village follow out such a plan the amount to be set aside in 1938 not to exceed $5000.00. Roll call:

PETITION

April 7, 1937

To the Village President and
Board of Trustees,
Lombard, Illinois.

Gentlemen:

We the undersigned, petition your honorable body to pass an ordinance providing for two hour parking on the south side of Ash Street from Main Street east to alley of the Deicke Building.

Our reason for desiring this parking ordinance is that we find a number of people park their car here all day while going to the city, which ties up valuable parking space for our customers.

Favorable action on the part of your honorable body will be appreciated by the undersigned.

At the Board Meeting of March 1, 1937, Mr. George Fabri made application for the replacement of two $100.00 paving bonds which were lost. (See page 155). He was advised that before they could be replaced he would have to furnish a surety bond equal to twice the amount of principal and coupons still unpaid. This amount was found to be $577.83. Mr. Fabri presented a letter from Joyce & Company of Chicago to whom he wrote for a surety bond asking if the Village would accept a bond for $500.00 which they thought would be sufficient coverage and would cost $1.56 less on the premium. A motion was made by Trustee Potwin and seconded by Trustee Fleege that this communication be referred to the Finance Committee for an opinion. Motion carried.

A communication was received from Hammerschmidt Lumber & Fuel Company under date of April 19, 1937, enclosing an invoice for $125.00 which represents the balance of the account of George D. Hardin in regard to the construction of the water reservoir on St. Charles Road, now past due. The village was asked to hold up any further payment until the Hammerschmidt Company was paid. Mr. Ernst Hammerschmidt, who was present, was informed that in that this project was a government contract the village could not with hold payments unless a lien was filed and that if this was done the Village could then act.

The Police Department wished to install an outdoor telephone at St. Charles Road and Park Avenue. The Illinois Bell Telephone submitted a contract for acceptance by the Village before installation. A motion was made by Trustee Lucas and seconded by Trustee Schermerhorn that this contract be referred to the Fire and Police Committee for recommendation. Motion carried.

Re: Illinois 1222-D
Waterworks Improvement
Lombard, Illinois.

Gentlemen:

The Chicago Bridge and Iron Company, 1305 West 105th Street, Chicago, Illinois, contractors for the elevated storage tank on the above mentioned docket have requested an extension of time on their contract from April 3, 1937 to May 15, 1937.

The testing of this tank was delayed due to the fact that changes were being made in the new well house for about thirty days time. In order to safeguard the continuous domestic service of the water department, we deemed it advisable not to attempt to fill the tank until both wells were in service. It is only recently that air temperature and weather conditions have been proper for painting.

In consideration of the above conditions we hereby recommend that the extension of time be granted.

Respectfully submitted,

The Engineering Service Co.
By G. H. Danahlen.

R E S O L U T I O N

WHEREAS, Chicago Bridge & Iron Company was heretofore awarded a contract known as contract "A" of P W A Project No. Ill. 1222-D by which contract it was specified that the work and services therein agreed to be performed were to be fully completed by the 3rd day of April A.D. 1937, except if such time were extended by the Village upon written request from the contractor based upon reason beyond the control of said contractor, and

WHEREAS, said Chicago Bridge & Iron Company did heretofore request the Engineering Service Company, engineers for the Village of Lombard, (copy of request on file) and did request the Village of Lombard that the time for completion of their contract be extended to May 15, 1937, due to the fact that the testing of the tank installed under said contract was delayed in order to safeguard and insure continuous domestic water service to the users of said service in the Village of Lombard, and also due to the fact that air temperature and weather conditions have been such that only recently has it been advisable or proper to perform any outside painting, and

WHEREAS, said The Engineering Service Company recommends this extension of time,

NOW, THEREFORE, BE IT RESOLVED by the Board of Trustees of the Village of Lombard, Illinois, that an extension of time for the completion of said contract be and is hereby granted to Chicago Bridge & Iron Company under and in accordance with Article 8 of said contract, such extension of time to be until the 15th day of May A.D. 1937, on the condition that no claim shall be made against the Village of Lombard by the said Chicago Bridge & Iron Company due to increased material and labor costs which may have been or will be incurred through such extension.

BE IT FURTHER RESOLVED that any claim for penalty or liquidated damages by reason of the failure of Chicago Bridge & Iron Company to complete the work in the time originally specified be and same is hereby waived.

BE IT FURTHER RESOLVED that G.H. Deuchler, of the Engineering Service Company, as engineer for the Village of Lombard be and he is hereby authorized to notify Chicago Bridge & Iron Company of the adoption of this resolution and to secure the approval thereof from the proper authorities of the Public Works Administration of the United States Government which approval is a condition precedent to the effectiveness of this resolution.

Committee Reports:

Trustee Randolph, Chairman of the Fire and Police Committee informed the Board that the Chief of the Fire Department, Mr. George Assmann, had advised his committee that the Fire Hydrants should be repacked, and the heads painted an orange color so that they could be seen more readily in tall grass and at night. He estimated the cost at around $350.00. A motion was made by Trustee Potwin and seconded by Trustee Schermerhorn that this project be authorized and done in accordance to the Fire Insurance specifications. Roll call:

Trustee Schermerhorn, Chairman of the Streets and Alleys Committee reported that the State had furnished ninety yards of gravel which the Village had spread on Glenview Court so that the residents on that street could conveniently get out to St. Charles Road. Crescent Boulevard has been shut off at that point due to the construction work on and around Route 53.

Trustee Lucas, Chairman of the Sewers Committee, who has been working with the Beautification Committee of Lombard recommended that a tree planting program should be started at once and that $100.00 be allowed to purchase trees to replace those taken out by the city and undesirable types. A motion was made by Trustee Potwin and seconded by Trustee Randolph that $100.00 be allowed for this purpose and that planting be started this week. Roll call:

It was understood that Mr. R. Menz of the Lombard Beautification Committee is to order the trees and the bill sent to the Village for payment.

There were quite a number of citizens present owning property in block bounded by Grove and Elizabeth Streets who desired that the Village do something to eliminate the large pond back of their homes. Trustee Lucas, as Chairman of the Sewers Committee had been investigating this matter and presented a very clear description of the situation to the Board. The citizens were informed that the village could not step in and drain this land without a condemnation suit which would require some time, but if the drains were brought out to the street line by the owners the village would connect them to the sewers, gratis. The cost to the property owners would be around $40.00 for tile and labor. A motion was made by Trustee Schermerhorn and seconded by Trustee Fleege that the matter be referred to the Sewers Committee with power to act. Roll call:

VILLAGE OF LOMBARD

April 6, 1937.

(See page 204 re answer to Hadley, Weaver and Woodward.)

Mr. Charles H. Cress,
125 E. Washington Boulevard,
Lombard, Illinois.

Dear Sir:

As per your request, an estimate of cost to you for graveling Potomac Avenue in the Village of Lombard is as follows:

From the West edge of Main Street paving to the West line of the Maack property will require 125 yards of gravel for a roadway 18 feet wide and 6 inches in depth.

From the West line of the said Maach property to 150 feet East of Ridge Avenue will require 244 cubic yards of gravel for a roadway 18 feet wide and 6 inches in depth.

The Village of Lombard through its Street Department will do the necessary grading of the existing road, and leveling the gravel; and apply one gallon per square yard of road oil over the upper 3 inches of the aforesaid roadway. The gravel to be paid for by you. Mr. Charles Oetke, Superintendent of the Streets for the Village, has obtained a price of 60¢ per yard for road gravel at the pit, and 90¢ per yard for hauling, making a total of $1.50 per cubic yard delivered on the street. The estimate of cost of the gravel to you for the whole stretch would then be $553.50 for the roadway, 18 feet wide and 6 inches in depth from Main Street paving to 150 feet East of the East line of Ridge Avenue.

The Village of Lombard is ready to do this work as soon as the weather permits.

Very truly yours,

G.H. Deuchler

Engineer for the Village.

A communication was received from Mr. Charles H. Cress & Company, Chicago, requesting the Village Board to pass a resolution approving the arrangement as set forth in the above letter of Mr. G.H. Deuchler. Letter dated May 1, 1937. Mr. Cress also states that ten homes are being built by the Lombard Terrace Homes Inc., who have purchased a total of 148 parcels of land in Lombard Terrace on which they expect to build that many homes within the next two years. Another problem which remains unsettled in connection with these homes is the extension of the city water system to them. Some time ago the Village authorities determined that any water main extensions to serve the property along Sunset Avenue would have to be of 6 inch pipe. The build-contractors will be able to furnish this pipe, but are wondering if it would be possible for the Village to obtain the W.P.A. or otherwise the necessary labor to install these mains.

A motion was made by Trustee Schermerhorn and seconded by Trustee Fleege that the matter of graveling Potomac Avenue be referred to the Streets & Alleys Committee and Finance Committee with power to act; that the matter of water mains be referred to the Light and Water Committee to make a study. Motion carried.

In order to satisfy the attorneys for the purchasers of lots on Potomac Avenue the above motion was written for the benefit of Mr. Cress in the form of the following resolution:

RESOLUTION

RESOLVED that Potomac Avenue be graveled from the West edge of Main Street to a point 150 feet East of Ridge Avenue in accordance with letter of G.H. Deuchler to Mr. Ghas. H. Cress dated April 6, 1937. (See above.)

(See page 162, meeting of March 15, 1937.) A motion was made by Trustee Randolph and seconded by Trustee Schermerhorn that the RESOLUTION passed March 15, 1937 (See page 162.) with reference to this matter be voided. Roll call:

Special Meeting of Lombard Village Board. May 10, 1937.

This meeting was called pursuant to notice for the purpose of discussing with the Village Engineer, G.H. Deuchler, and County Superintendent of Highways, E.L. Gates, plans for opening Phillips Court to Route No. 53 and the sub-way under the Great Western Railroad off of Parkside Avenue. It was held in the Village Offices and called to order at 8.20 o'clock P.M. by President Alderman. Present:

President Jerome C. Alderman

Trustee Harvey B. Lucas	Trustee C.T. Schermerhorn

" E.F. Smith	" H.A. Potwin

Clerk Hubert E. Mogle

Village Engineer G.H. Deuchler
County Superintendent of Highways, E.L. Gates.

Mr. Deuchler reported with reference to opening Phillips Court that Mr. Martin Hammerschmidt would give half of the road from his property for this street but that Mr. Ankley wanted $600.00 for his land. Mr. Ankley appeared before the Board and stated that his reason for setting this price was because the Government held a mortgage for that amount against his property and he could not give a release without settling with the Government. Mr. Deuchler stated that he would make a further investigation to see if the street could not be constructed without requiring Mr. Ankley's land.

Regarding the Great Western Sub-way, Mr. Gates advised that he had a petition or resolution to present to the County Board of Supervisors for approval permitting constructing and as soon as this was approved he would present it to the Village Board of Lombard for approval. The County Board meets May 11th and he thought he would have the resolution ready by the next Village Board meeting May 17th.

A letter was received from the Lombard American Legion Post No. 391, dated May 10th, 1937 and signed by the Commander Ross T. McClendon requesting the entire Village Board to participate in the Decoration Day parade and exercises. The Clerk was instructed to inform Mr. McClendon by letter that the Village Board would be glad to co-operate.

A motion was made by Trustee Schermerhorn and seconded by Trustee Dieterich that the meeting adjourn. Motion carried. Meeting adjourned at 10.00 o'clock P.M.

Ill. 1222-D

Honorable J.C. Alderman
Village President
Lombard, Illinois.

Re: Village of Lombard
Waterworks.

My Dear Mr. Alderman:

It is noted that the above project is nearing completion and we are writing to inquire whether or not you contemplate any dedication ceremonies.

The Public Works Administration was created by an act of Congress and approved by the President on June 16, 1933. This date offers an auspicious occasion to celebrate the fourth aniversary of the Public Works Administration. It is, therefore, desired that activities be planned for the week of June 13 - and particularly for June 16, the birthday date - that would be the

means of informing the public what the Federal Government, through the Public Works Administration, has done for it in the way of creating employment and building useful and permanent public works.

The coincidence of your dedication with the birthday of the Public Works Administration would furnish added interest to the ceremony, and with the co-operation of the local press, we are sure a very successful affair could be arranged. However, if you have already made plans for a dedication to take place on another date, please advise.

We shall be pleased to have your views on this subject.

Yours very truly,

D.R. Kennicott,
State Director
For the Administration.

President Alderman advised that he would personally answer the above letter.

There was considerable complaint with reference to dangerous tree limbs hanging over walks and streets. A motion was made by Trustee Lucas and seconded by Trustee Schermerhorn that the Streets and Alleys Committee be empowered to remove these hazards working in conjunction with the Village Forester. Motion carried.

With reference to payments being made from the Police Pension Funds, Collector-Auditor Spellerberg, who is also Secretary of the Police Pension Fund Committee, advised that he would have the lists ready for the next meeting.

President Alderman called for remarks from the audience: Mrs. Evelyn Smital thought Lombard should have a new Post Office and wished to know how other towns got them and Lombard could not. She was informed that the Village Board could not do anything about this as a Board but that the citizens might through their national representative and senators. Her suggestion was considered very good however.

At the meeting of January 18, 1937 (see page 138) Mr. Zitt presented a list of suggestions which the thought should be acted upon by the Village Board. He inquired why they had not been brought up for attention. Mr. Alderman informed him that his suggestions had not been forgotten nor any of those made by other citizens at that meeting. In fact most of the plans offered would be completed before the citizens were aware.

A suggestion was made that the grounds around the Village Hall could be made to look much better. Mrs. Smital, a Commissioner of the Park District to which these grounds have been leased by the Village stated that she would bring the matter to the attention of the Board at their next meeting. As to the terrace the Village would keep that in shape. Part of the grounds however on the south east corner are owned by Mr. Kruger of Elmhurst and he had given notice that he did not want any tresspassing.

A motion was made by Trustee Schermerhorn and seconded by Trustee Lucas that the meeting adjourn. Motion carried.

Meeting adjourned at 9.45 P.M.

COMMITTEE REPORTS:

Trustee Potwin, Chairman of the Finance Committee, reported that the yearly audit of the Village Books was completed and distributed copies to the Board members. The following general comment by the Auditors, Gauger and Diehl, is of interest:

> "The financial condition of your village shows improvement during the year. The cash position of the General Corporate and the Water Department shows an increase of $2,235.89, whereas the accounts payable of the same departments show an increase of only $297.69.
>
> The outstanding water bill accounts receivable have been reduced $3,853.79 during the year. The reduction during the past two years have been $10,371.87. This, in our opinion, is a very favorable showing.
>
> Special Assessment disbursements exceeded the receipts during the year by $6,891.79. This indicates a very definite intent to distribute special assessment monies to the bondholders as rapidly as sufficient funds become available."
>
> Gauger & Diehl,
> CERTIFIED PUBLIC ACCOUNTANTS.

Trustee Fleege, Chairman of the Light and Water Committee stated that he had advised Mr. Cress that an 8" water main would be necessary for the Lombard Terrace Sub-division. (See page 191, minutes of May 3, 1937.) With reference to the request of the MIDLAND DEVELOPMENT COMPANY (See their letter of May 14, 1937, page 202, minutes of May 17, 1937) to connect its sub-division of south west Lombard to the village water Trustee Fleege informed the representatives that 6, 8, or 10 inch mains should be laid but they wanted to put in only a 2 inch main. It was finally left open until

the Midland Company could obtain costs. It is of course understood that the village will not stand the cost of laying and supplying these mains in either subdivision.

Village Engineer G.H. Deuchler reported that Mr. Hardin would require an extension on his contract and as there was a $25.00 a day penalty for time beyond his contract completion date he wanted to know whether the Village Board intended to enforce it, as it would be necessary that he report this to the W.P.A. before an extension would be granted. He was told that the Board thought the penalty should be enforced. As to plates being placed on the water tower erected by the Chicago Bridge & Iron Company Mr. Deuchler stated that although this was not in the contract the Company would put them on but thought they were not really required to keep the children from climbing the supports. The Board advised Mr. Deuchler that the plates should be placed on the supports, and he agreed to so inform the Chicago Bridge & Iron Company.

Trustee Schermerhorn, Chairman of the Streets and Alleys Committee stated that Washington Boulevard would be completed in about two weeks.

Trustee Smith, Chairman of the Ordinance Committee stated that he had checked the Ordinance with reference to the repair of Village sidewalks and could find nothing that made it obligatory on the part of the property owners to do this at their expense once the sidewalk was laid.

R E S O L U T I O N

WHEREAS, The Engineering Service Company, Engineers for the Village of Lombard in connection with the Lombard Waterworks Project, Docket No. Ill. 1222-D, did recommend certain changes in the specifications relative to Contract No. 1 of the above Project, said changes being set forth as follows:

(1) Section 10.2 Paragraph C begins "The top of foundation piers shall extend not less than six (6) inches outside of metal bearing plates ....."

In order to use standard size base plates for this size tank Paragraph C to be changed to read, "The top of foundation pier shall extend not less than one (1) inch outside of metal bearing plates ....." This gives a 2'-6" by 3'-6" plate in stead of a 2'-10" square plate.

(2) Section 11.4b, Paragraph A includes the following sentence, "The vertical riser pipe shall be thoroughly braced laterally at all panel points of the tower," This is a general specification applicable to higher tanks with smaller diameter risers. The above mentioned sentence shall be changed to read as follows: "The Contractor shall furnish a set of radial tie rods to be installed just below the tank bottom. Said tie rods shall connect the vertical riser and the tower columns."

(3) Section 11.4d, Paragraph D includes the sentence, "The edges of the opening shall be adequately reinforced and a suitable crane shall be provided to hold the cover." Due to limited space inside the riser a change in the above sentence to read, "The edges of the opening shall be adequately reinforced."

(4) Section 11.4i, Paragraph A change last sentence, "..... spaced 15" apart,...." to read, "..... spaced 16¾" apart,..." This change allows side bars of ladders to fit tower posts for tnis tower tank.

(5) Section 11.5, paragraph A provides that "Steel for plates, rivets and rolled shapes shall conform to the Standard Specifications for Structural Steel for Bridges, of the American Society for testing Materials, A.S.T.M. Designation: A-7-33". The word "rivets" to be omitted and change the A.S.T.M. Designation to A-7-34 which is a later revision of that specification.

To cover "rivets", insert in the specifications the sentence,"Rivets shall conform to the Standard Specifications of the American Society for Testing Materials, A.S.T.M. Designation: A-31-34 for Boiler Rivet Steel and Rivets."

(6) Section 11.13, the first sentence reads, "The column shall be set to exact elevation and position on wedges, and while thus supported, the spaces beneath shall be thoroughly filled with Portland Cement grout." This sentence to be changed to read, "The columns shall be set to exact elevation and position; any necessary shimming being done by steel shims of base plate di-

mensions to eliminate the necessity for any grout under said base plates."

AND WHEREAS, The Chicago Bridge and Iron Works, Contractor under the aforesaid Contract 1, did accept these changes at no additional cost to the Contract,

NOW, THEREFORE, BE IT RESOLVED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF LOMBARD, ILLINOIS that these changes be approved.

BE IT FURTHER RESOLVED that the Engineering Service Company be and is hereby authorized to secure approval of this Resolution from the proper authorities of the Public Works Administration of the United States Government, which approval is a condition precedent to the effectiveness of this Resolution.

SPECIAL MEETING OF LOMBARD VILLAGE BOARD. July 9, 1937.

This meeting was called pursuant to notice of President Alderman for the purpose of transacting what ever business might come before the Board. It was held in the office of the Auditor-Collector and brought together at 8.20 O'clock P.M., President Alderman presiding. Present:

President Jerome C. Alderman

Trustee	Harvey B. Lucas	Trustee	C.T. Schermerhorn
"	Edwin F. Smith	"	Harry D. Fleege
Clerk	Hubert E. Mogle	"	Henry A. Potwin

The entire discussion at this meeting concerned the need of a side walk along the east side of the property of Mr. Theo. Marquardt on Elizabeth Street from St. Charles Road south to the Chicago & North Western Railroad. Mr. Marquardt and twenty or thirty complaining citizens were present with the Board to talk over the matter. The main argument of the complainants was that it was dangerous for their school children to have to use other walks and the street, going to and from school, on account of traffic. Mr. Marquardt said that his property had been zoned for business and he had never seen the need of a walk so long as no building had been erected but since those people present thought it was necessary for the protection of their children he would see that a cement walk was laid by Fall or by the time school was again opened.

On motion of Trustee Lucas seconded by Trustee Fleege and carried the meeting adjourned at 9 o'clock P.M.

Hubert E. Mogle
Village Clerk.

Committee Reports:

Trustee Potwin, Chairman of the Finance Committee made the suggestion that a notice for bids be published in the Lombard Spectator for gasoline to be sold the Village for a year, beginning August 15, 1937 and ending August 15, 1938. A motion was made by Trustee Lucas and seconded by Trustee Dieterich that this be referred to the Finance Committee with power to act. Roll call:

Committee reports, cont.

Trustee Lucas, Chairman of the Fire and Police Committee thought that another policeman should be hired to ride with the one on duty from 3 o'clock A.M. to 7 o'clock A.M. He suggested the name of Mr. Joe Seilheimer who works in Lombard as a private watchman and would be willing to work for the village during this time at $15.00 per month. A motion was made by Trustee Smith and seconded by Trustee Schermerhorn that Mr. Joe Seilheimer be hired as a regular policeman at $15.00 a month effective August 1, 1937, to serve during the hours from 3 A.M. to 7 A.M. to ride with the officer on duty at that time. Roll call:

AYES:	Trustee Lucas	Trustee	Schermerhorn
	" Dieterich	"	Fleege
	" Smith	"	Potwin

Motion carried.

Trustee Lucas, Chairman of the Fire and Police Committee, reported that 100 notices had been sent out to those people who lived outside the village limits offering them fire protection at about 40¢ additional per year to their fire insurance premium and only four were interested. He suggested that the leading Fire Insurance Companies be given the list of those affected and have them present the matter to these people. It costs around $75.00 to send the fire department out and people outside the limits of the village were requested to have this covered by insurance to be paid by the insurance company direct to the village and so shown in the policy.

With further reference to fires Trustee Lucas advised that there were too many prarie fires started which soon got beyond control and suggested that any one wishing to start such a fire should first obtain a permit. It was decided to make this a police order and mail notice of same with the next water notices. At the same time include a card with directions 'How to report a fire.'

Chief of the Fire Department Assmann reported that a coping on the fire house was loose and that the tower on top containing the fire whistle needed painting. He also stated that the fire plugs or hydrants had not been painted for three years and that they should be given a coat of orange paint. The Fire and Police Committee took these matters under consideration.

A public service contract for electricity was presented for approval of the Board but Trustee Fleege, Chairman of the Light and Water Committee advised that his committee wished to study the contract first before recommending approval. Will report at next meeting.

Trustee Schermerhorn, Chairman of the Streets and Alleys Committee suggested that a letter should be delivered by the police to those people whose sidewalks were in dangerous condition advising them to repair same and informing as to their liability in case any one was injured. Letters to be signed by Village Clerk. No definite action taken.

Trustee Schermerhorn, a member of the Sewers Committee, reported that Mr. Albert Shild, of 1144 East Kennilworth Avenue, Lombard, wished permission to install a septic tank on his property. A motion was made by Trustee Smith and seconded by Trustee Dieterich that this permission be given Mr. Shild but that it be built under the supervision of the Building Commissioner, Emil Birr. Motion carried.

Trustee Smith, Chairman of the Ordinance Committee submitted an ordinance with reference to the sale and use of fireworks in the village. As the matter was not very familiar to the other Trustees it was requested that they be given copies to study and the ordinance be submitted again at the next Board meeting.

Committee Reports, concluded:

Trustee Fleege, Chairman of Village Property Committee reported that a heater could be obtained to heat the old pump house and the fire department rooms for $290.00 if paid within thirty days, and that about 4,700 therms of gas per year would be required to operate the heater. The Board requested further investigation.

A motion was made by Trustee Potwin and seconded by Trustee Lucas that the Village Attorney, John McCoy, write Mr. Kross to this effect. Motion carried.

A communication from Mr. Sol Blum, Director General of the United States Constitutional Sesquicentennial Commission dated July 16, 1937, was read by the Clerk.
