APPROVED: Sept. 7, 1937

Village Clerk

PUBLISHED: Sept. 9, 1937

A letter under date of August 14, 1937 was received from the Department of Public Works, Division of Highways, Springfield, Illinois and signed by Geo. H. Baker, Engineer of County Roads and City Streets advising that plans, specifications and estimates for the improvement of Section 6-C.S., (See bids, page 20, this meeting) were approved by his department August 14, 1937. Several changes had been made however and these were listed. A motion was made by Trustee Potwin and seconded by Trustee Fleege that this letter be received and referred to the Streets and Alleys Committee. Motion carried.

Committee Reports:

Trustee Potwin, Chairman of the Finance Committee reported that he had received a letter from the Great American Indemnity Company of New York City, which carries the Bond of Auditor-Collector Spellerberg, requesting a statement of the village finances as of June 1, 1937. A motion was made by Trustee Potwin and seconded by Trustee Lucas that the Village Clerk be authorized to send a letter to the Great American Indemnity Company advising that the accounts of the village were audited by the Accounting Firm of Gauger & Diehl, Rockford, Illinois, as of May 31, 1937 and no irregularities were reported. Motion carried.

Trustee Lucas, Chairman of the Fire & Police Committee, reported that the Fire Department was hindered in the performance of their duties during fires by fire fans and trucks following them. In fact it had reached a point where this trouble was becoming a menace to people and property. He suggested that the Ordinance Committee draw up an ordinance prohibiting this practice. Trustee Smith, Chairman of the Ordinance Committee advised that the matter would be investigated.

Trustee Fleege, Chairman of the Light & Water Committee, brought up the matter of repairing or taking down the old water tower on East St. Charles Road. Engineer Deuehler advised the Board that if the tower were taken down the village would lose 40 points in the underwriters fire insurance grading which would keep the village out of the 6th class and that the tower could be used if repaired. The matter was held over for further consideration and report at next meeting.

Trustee Smith, Chairman of the Ordinance Committee, advised that his committee was still working up information to prepare an ordinance licensing all contractors coming in the village to work and one for the Forestry Situation. Also that they were still working on changes on the vehicle truck licensing ordinance.

Trustee Lucas, Chairman of the Fire and Police Committee, informed the Board that an inspection of the National Board of Underwriters would soon be made and that by placing two men in the fire house with permanent quarters, to look after the department he felt certain the village could come within the 6th fire insurance class.

Village Attorney McCoy reported that the Great Western Railroad wished to reopen the case of the subway and that it would like to back out, but that he had quashed their petition and advised that only an enforcement order was now required.

Village Engineer Deuchler informed the Board that the Public Service Company would put another line in the transformer bank and this will help the village to get in the 6th fire insurance class.

Trustee Fleege, Chairman of the Light & Water Committee reported that a fire hydrant should be placed on the north side of St. Charles Road opposite the Bowman Dairy Company but that the Bowman Dairy Company wanted it on the south side of the street. A steamer connection would be used. The Trustees were of the opinion that if a fire plug could be placed on the Bowman property, which would be much better for them, one would not be needed on the school property. Trustee Fleege agreed to take this matter up with the Dairy Company. He also recommended that the old water tower be left standing.

Regular Meeting of Lombard Village Board, cont. September 20, 1937.

Committee Reports, consluded.

Trustee Dieterich, Chairman of the Sewers Committee, advised that according to an estimate furnished him by Village Engineer Deuchler it would cost $560.00 to convert the storm water to the old Imhoff tank. It was suggested that help might be obtained from the State and that the digger that was now being used on route 53 close to this location might be borrowed. A motion was made by Trustee Potwin and seconded by Trustee Smith that a plan for this work be sent to Springfield for approval and that Village Superintendent Oetke find out if he can get the digging done with the digger. Trustee Dieterich also reported that the addition to the Pump House would cost $500.00 according to a preliminary estimate and that this addition would do away with one man and make some saving in labor. It was decided to hold tnis up until next Spring.

Trustee Smith, Chairman of the Ordinance Committee, presented an Ordinance for licensing vehicles in Lombard, but in that the Trustees were not familiar with the details it was suggested that each be presented with a copy which could be taken up at the next Board meeting.

Trustee Smith, Chairman of the Health Committee, informed the Board that he was planning a conference with the Village Health Officer, Woodworth, and would discuss village health at the next meeting.

Trustee Fleege, Chairman of the Village Property Committee, reported that people were complaining of the large steel posts lying around on the soft ball grounds. It was the intention of the Soft Ball League to replace the wooden poles with the steel, but this had never been done. The clerk was requested to write Mr. Flint, President of the Soft Ball League, to have these posts removed.

Trustee Fleege, also informed the Board that with reference to the sidewalk on the west side of Elizabeth Street from St. Charles Road to the C & N W Railroad, Mr. Marquardt had stated that it would be impossible for him to lay this walk this year.

Committee reports, continued.

that $500.00 in cash would be turned over by the defendants next week. It was suggested that Trustee Potwin again see Mr. Arthur Marriott regarding the balance due the village.

Trustee Potwin also suggested that Ordinances be considered for licensing Lombard Business firms, a Waymasters Ordinance and a Fire Prevention Ordinance. These would be a help to the business men of Lombard, would add around $1,500.00 to the village funds and reduce the fire insurance rates. Trustee Smith, Chairman of the Ordinance Committee, agreed to take these suggestions under consideration.

Trustee Lucas, Chairman of the Fire and Police Committee, informed the Board that Lombard Police Station was not suitable nor adequate for taking care of prisoners and that Chief of Police Groote had informed him that Wheaton would take care of our prisoners at the rate of $1.00 a day. A motion was made by Trustee Lucas and seconded by Trustee Schermerhorn that the proper authority be empowered to enter into negotiations with the DuPage County authorities for cell arrangements. The purpose of this arrangement is to lower fire insurance rates in Lombard by keeping in the 6th class.

Trustee Fleege reported that as yet the Bowman Dairy Company was not ready to decide where it wished a fire hydrant placed but that he would be ready to report at the next meeting.

Trustee Schermerhorn, Chairman of the Streets and Alleys Committee reported on activities all of which is covered in the report of Village Superintendent Oetke.

Trustee Smith, Chairman of the Ordinance Committee reported that he has under consideration an ordinance in connection with the beautification of Lombard which he is working out with the Beautification Committe. Trustee Lucas, in this connection, advised that he knew where about 500 elm trees of from 2" to 5" in diameter could be obtained for about $500.00, but that they would have to be moved yet this year. This was thought to be a very generous offer and Mr. Menz, the Village Forester, was instructed to talk the matter over with Trustee Lucas.

On the Zoning Board of Appeals Mr. Fred Marquardt's term expired in May 1936 and Mr. Frank Baker's in May 1937. A communication was received from Miss Anna M. Stafford, of 4746 Woodlawn Avenue, Chicago, dated September 13, 1937, objecting to the storing of paints in a garage owned by Mr. Karl Rask and from which place he is conducting his business as a painter, which is located next to her property at 445 West Ash Street, Lombard. The matter had already been investigated ~~by~~

by several of the Trustees and by the Fire Inspection Bureau, all of whom reported that Mr. Rask was within his legal rights and that there was no fire hazard. Mr. Rask, however, under a gentleman's agreement with the previous owner was using part of Miss Stafford's property for a drive way to his garage. He reported that he was removing part of his porch and would build a drive on his own land. The Clerk was instructed to write Miss Stafford of these investigations.

A

Communications dated October 7th and 14th, 1937 were received from the Division of Highways, Elgin, Illinois, over the signature of C.H. Apple, District Engineer, advising that final inspections were made of Sections 5-C.S. and 6-C.S. and the work found to be satisfactorily completed. Final papers were requested. A letter was received from the Bowman Dairy Company, located in Lombard, under date of October 9, 1937 and signed by Division Manager A.E. Block, advising the Board that his company was not agreeable to having a fire plug placed on the south west corner of its plant, part of the expense of which they would

have to stand but did wish a fire plug in front of their office building, maintaining that it would be more conveniently located for the firemen and cost the village less to install. Village Engineer Deuchler advised the Board that according to the Illinois Fire Inspection Bureau, a fire plug placed in front of the Bowman Office would be of no benefit to the Village so far as obtaining a better fire insurance rating, but that one placed at the south west corner of the Bowman property would assist materially. A motion was made by Trustee Fleege and seconded by Trustee Potwin that the matter be referred to Engineer Deuchler and the Water Department to discuss further with the Bowman Company. Motion carried.

Committee Reports:

Trustee Schermerhorn, Chairman of the Streets and Alleys Committee reported that in connection with the building of a cement side walk in front of the property owned by the Village, at West Maple and Edison, he did not believe it advisable to do this in that the village might wish to continue Edison through under the C & N W Railroad and the walk would then have to be torn up. He recommended a good cinder walk and stated that this would be acceptable to Mr. F.W. Kirchnoff, whose letter of September 26th, started the investigation. (Page 36, 3rd Par.) He was instructed to proceed with the cinder path.

With reference to four tires for the Grader, Trustee Schermerhorn stated that these would cost approximately $165.00 and in that the grading season was about over recommended the matter be held over until next Spring.

Trustee Dieterich, Chairman of the Sewers Committee, reported that in connection with the convertion of storm water into the old Imhoff Tank (See page 31, 2nd Par.) approval had not as yet been received from the State.

Trustee Smith, Chairman of the Ordinance Committee, reported that his committee was working on Ordinances covering Vehicle Licenses, Fire Prevention and Forestry and that these would soon be ready for submission to the Board. As Chairman of the Health Committee Trustee Smith informed the Board that there had been considerable complaint of the stench coming out of the chimney of the shoe shop located just off of Main Street on the North side of St. Charles Road, and that this had been corrected. With reference to the Ordinance for Licensing Business Firms in Lombard, Trustee Smith stated that there was considerable work to do and much study required before the matter could be drawn up but that his committee was also working on it.

Trustee Fleege, Chairman of the Village Property Committee reported that the gas heater had been installed in the Pump House.

Trustee Schermerhorn, a member of the Public Relations Committee thought it advisable to send notices to all the civic groups in Lombard requesting them to have a representative present at all Board Meetings of the Village so that there would not be so many misunderstandings as to what the Trustees were doing.

Trustee Lucas at this time wished to commend the Fire Department for its efficient operation and its action in maintaining two extra men in charge at the station during the night at no extra cost to the Village. He also expressed his appreciation of the other village departments in that they were all cooperating with one another and doing excellent work.

Mr. Cogan, a representative of the C A & E Railway was present, to find out from the Board the nature of several recent complaints regarding gates at Main Street and lights at Elizabeth Street. He agreed to take the matter up with the Engineers at once.

The Village Forester, Richard Menz, reported that he had been able to obtain state aid in finishing out the tree planting program on North Main Street and now there were trees along both sides of the street completing Memory Lane, to North Avenue. Through the assistance of Mr. Robert Kingery, 75 trees were set out by the State on North Main, gratis. He also suggested that the trees around the Village Hall should be trimmed as an example to the rest of the village. He thought it would cost around $40.00 to do this right. He furthermore stated that he had made a survey of the village and had earmarked with brown paint about 30 or 40 trees which should be taken out. He was advised that there were several men in town who would remove these trees for the wood and was given their names. Mr. Menz was commended for his very fine work, especially since he had not been in the best of health but was performing village duties regardless.

A motion was made by Trustee Lucas and seconded by Trustee Schermerhorn that an appropriation not to exceed $40.00 be allowed Mr. Menz to have the trees trimmed around the Village Hall. Roll call:

ORDINANCE NO. 385

An Ordinance Providing for Fire Prevention and Protection in the Village of Lombard, Illinois.

BE IT ORDAINED by the President and Board of Trustees of the Village of Lombard in regular meeting assembled, as follows:

ARTICLE 1.

INSPECTIONS AND PERMITS

SECTION 101. Authority to Enter Premises. The Fire Marshal or any member of the fire department designated by him as an inspector may, at all reasonable hours, enter any building or premises for the purpose of making any inspection, which under the provision of this ordinance he or they deem necessary to be made.

SECTION 102. Inspection of Premises. It shall be the duty of the Fire Marshal to inspect or cause to be inspected by fire department officers or members, as often as may be necessary, but not less than twice a year in outlying districts and four times a year in the closely built portions of the village, all buildings, premises and public thoroughfares, except the interiors of private dwellings, for the purpose of ascertaining and causing to be corrected any conditions liable to cause fire, or any violations of the provisions or intent of any ordinance affecting the fire hazard.

SECTION 103. Whenever any such officer or member shall find in any building or upon any premises or other place, combustible or explosive matter or dangerous accumulation of rubbish or unnecessary accumulation of waste paper, boxes, shavings, or any highly flammable materials, and so situated as to endanger property, or shall find obstructions to or on fire escapes, stairs, passageways, doors or windows, liable to interfere with the operation of the fire department, or egress of occupants, in case of fire, he shall order the same to be removed or remedied.

SECTION 104. Such order shall forthwith be complied with by the owner or occupant of such premises or buildings, subject to appeal within twenty-four hours to the President, who shall within ten days review such order and file his decision thereon, and unless the order is revoked or modified it shall remain in full force and be obeyed by such owner or occupant. Any owner or occupant failing to comply with such order within ten days after said appeal shall have been determined, or if no appeal is taken, then within ten days after the service of the said order, shall be liable to a penalty as hereinafter stated.

The service of any such order shall be made upon the occupant of the premises to whom it is directed by either delivering a true copy of same to such occupant personally or by delivering the same to and leaving it with any person in charge of the premises, or in case no such person is found upon the premises by affixing a copy thereof in a conspicuous place on the door to the entrance of the said premises. Whenever it may be necessary to serve such an order upon the owner of premises, such order may be served either by delivering to and leaving with the said person a true copy of said order, or if such owner is absent from the jurisdiction of the officer making the order, by mailing such copy to the owner's last known post-office address.

SECTION 105. Permits. Permits required by the provisions of this ordinance shall be obtained in writing from the Fire Marshal. Permits shall be for such period as the Fire Marshal may specify but not exceeding one year. They shall be kept on the premises designated therein and shall be subject to inspection by any officer of the fire or police departments.

SECTION 106. In addition to the specific requirements elsewhere required in this ordinance a permit shall be obtained from the Fire Marshal for:

SECTION 107. Before permits are issued the Fire Marshal shall make or cause to be made such inspections or tests as are necessary to assure that the provisions of this ordinance are complied with.

SECTION 108. The Fire Marshal is hereby authorized to revoke any permit whenever in his judgment any violation of this ordinance warrants

ORDINANCE NO, 385, continued.

such revocation, but only after a fair and impartial hearing shall have ben accorded the holder of the permit.

SECTION 109. Appeal from any decision of the Fire Marshal in refusing to grant or in revoking any permit, may be made to the President as outlined in Section 104.

SECTION 110. Modifications. The Fire Marshal shall have power to modify any of the provisions of this ordinance upon application in writing by the owner or lessee, or his duly authorized agent, when there are practical difficulties in the way of carrying out the strict letter of this ordinance, provided that the spirit of this ordinance shall be observed, public safety secured, and substantial justice done. The particulars of such modification when granted or allowed and the decision of the Fire Marshal thereon shall be entered upon the records of the department and a signed copy shall be furnished the applicant.

SECTION 111. Approved Devices and Materials. As used in this ordinance, the word "approved" as applied to devices or materials means acceptable to the Fire Marshal by reason of having been tested and examined by him or by some recognized testing laboratory and found to be properly safeguarded against fire hazard.

ARTICLE 2.
GARAGES

SECTION 201. Definitions. The word "garage" as used in this ordinance means a building, shed or enclosure, or a part thereof, in which a motor vehicle containing volatile flammable oil in its fuel storage tank is stored, housed or kept and shall include repair shops;

"Private garage" means a garage for not more than three motor vehicles, in which no business or industry connected directly or indirectly with motor vehicles is carried on;

"Public garage" means a garage not included within the term private garage.

SECTION 202. Approval of Plans, and Permits. Before constructing or altering any garage, complete plans of such proposed work shall be filed with and approved by the Fire Marshal and the Building Official. No public garage shall be used as such without a permit from the Fire Marshal.

SECTION 203. Private Garages. (a) A private garage located in or attached to a building also occupied for some other purpose shall be separated from such other occupancy by walls, floors and ceilings having a fire resistance rating of not less than 1 hour. Walls and partitions which effect such separations and all floors and ceilings shall be continuous and unpierced by openings, provided that in dwellings a door opening equipped with an approved self-closing fire door and having its sill raised not less than 1 foot above the garage floor shall not be prohibited.

(b) There shall be no stove or other open flame heating device in a private garage except in a room completely separated from the garage by construction having a fire resistance rating of not less than 1 hour. One door opening from this room into the garage may be provided if equipped with an approved self-closing fire door and having a sill raised not less than 1 foot above the garage floor.

(c) Artificial light shall be by incandescent electric light only.

(d) Not more than 5 gallons of gasoline, exclusive of that in the tanks of vehicles, shall be kept in a private garage; which gasoline shall be kept only in approved safety cans.

SECTION 204. Public Garages. (a) Public garages shall be of fireproof, semi-fireproof or heavy timber construction and in compliance with all the provisions of the building code. One-story garages and higher garages of heavy timber construction may have a roof of built-up wood truss construction with no wooden member less than 2 inches in minimum dimensions. Roofs of 1-story garages may also be made of wood sheathing on unprotected steel trusses.

(b) A public garage located in or attached to a building occupied for any other purpose shall be separated from such other occupancy by walls, floors and ceilings having a fire resistance rating of not less than 2 hours. Walls, floors and ceiling which effect such separation shall be continuous and unpierced by openings, provided that door openings equipped with self-closing fire doors leading to salesrooms or offices operated in connection with such garages shall not be prohibited, and provided also that the use of elevators and stairways to other stories accessible only by vestibules or balconies constructed and arranged as required for fire towers, shall not be prohibited. Public garages in which carbon and lead burning, welding, or other processes involving open flame or spark emitting devices or the use of machine tools, or in which automobile engine fuel is sold shall not be connected with any residence building.

(c) Garages located in buildings with parts above the garage used for other purposes shall be protected by automatic sprinklers when such garages have a capacity of 20 or more passenger automobiles or are used as bus terminals with a capacity of more

accepted good practice and shall be approved by the Fire Marshal. Tanks labeled by Underwriters' Laboratories and tanks conforming to the standards of the American Petroleum Institute shall be deemed to conform to generally accepted good practice.

SECTION 316. Setting of Tanks. (a) Tanks shall be set on firm foundations. Tanks located inside buildings and exceeding 2,500 gallons capacity shall be supported independently of the floor construction. Outside aboveground tanks more than one foot above the ground shall have foundations and supports of masonry or protected steel, except that wooden cushions may be used.

(b) No combustible material shall be permitted under or within ten feet of any outside aboveground storage tank. Electric motors, unless of approved explosion-proof type, and internal combustion engines shall not be placed beneath tanks or elsewhere within the line of vapor travel.

SECTION 317. Venting of Tanks. (a) An open galvanized iron vent pipe arranged for proper draining, or an automatically operated vent, shall be provided for every tank which may contain flammable vapor. The lower end of the vent pipe shall not extend through the top into the tank for a distance of more than one inch.

(b) Vent openings for Class I and II liquids, and vent openings or vent pipes exceeding 2 inches for Class III liquids, shall be provided with approved flame arresters and shall be of sufficient area to permit escape of air or vapor during the filling operation. Vent openings, except those automatically operated, shall not be less than one inch in diameter. Arrest[illegible]ible for examination and repair. Vent pipes shall be provided with weatherproof hoods and terminate outside of building 12 feet above top of fill pipe, or if tight connection is made in filling line, to a point one foot above the level of the top of the highest reservoir from which the tanks may be filled, and if possible not less than three feet, measured horizontally and vertically, from any window or other building openings. Where a power pump is used in filling storage tanks and a tight connection is made to the fill pipe, the vent pipe shall be not smaller than the fill pipe.

SECTION 318. Emergency Pressure Reliefs. With the exception of vertical, cone-roof tanks having a roof slope less than 2½ inches in 12 inches and in which the strength of the joint between roof and shell is no greater than that of the weakest vertical joint in the shell, all aboveground tanks shall have some form of relief for preventing the development of excessive internal pressure in case of exposure fire surrounding the tank. The method of relief shall be acceptable to the Fire Marshal.

SECTION 319. Dikes. (a) Tanks containing crude oil or other liquids which have a tendency to boil over, and tanks exceeding 50,000 gallons capacity shall be surrounded with a dike having a capacity not less than that of the tank or tanks surrounded; minimum height of earth dikes to be 3 feet and of masonry dikes 30 inches.

(b) Tanks of less than 50,000 gallons capacity and of other than vertical type mounted on proper foundations and with attached piping protected against mechanical injury shall, when deemed necessary by the Fire Marshal on account of proximity to streams, character of topography or nearness to buildings of high value, be diked or the entire yard provided with a curb or retaining wall or other suitable means taken to prevent the discharge of liquids on to other property in case of a rupture in tank or piping.

(c) Dikes or walls required by the preceding paragraphs shall be earth or masonry so constructed as to afford adequate protection. When dikes surround tanks containing crude oil, they shall have a suitable coping or deflector projecting inward properly constructed to minimize the effect of a "boil over" wave. Dikes surrounding crude oil tanks shall be not less than 50 feet from the shell of the tank or tanks surrounded.

SECTION 320. Distinctive Markings. (a) Portable containers for Class I and II liquids shall be painted red (entire container or conspicuous band or stripe) and be conspicuously lettered in black, "DANGEROUS—KEEP LIGHTS AND FIRE AWAY."

SECTION 321. Piping. (a) Piping used for flammable liquids shall be standard full weight wrought iron, steel or brass pipe or approved copper tubing; for working pressures in excess of 100 pounds per square inch extra heavy fittings shall be used. No pipe or tubing less than one-half inch internal diameter shall be used. Outside piping shall be protected against mechanical injury.

(b) Piping carrying Class I and II liquids, unless without joints or connections, shall not extend through any room which contains any open light or fire.

SECTION 322. Valves at Tanks and Pumps. (a) Where tanks are aboveground there shall be a valve located near the tank in each pipe. In case two or more tanks are cross-connected there shall be a valve near each tank in each cross-section.

(b) Pumps delivering to or taking supply from above ground storage tanks shall be provided with valves on both suction and discharge of pump, and in delivering to tanks a check valve to prevent flow of liquid from tank to pump.

(c) In systems using pumps to supply auxiliary tanks or header systems, which feed internal combus-

tion engines or fuel oil burners, a pressure relief valve shall be installed to return surplus oil to the supply tank.

SECTION 323. Tank Filling, and Filling Connections. (a) Deliveries of flammable liquids of Class I and II, shall be made directly to the storage tank through the filling pipe by means of a hose of pipe between the filling pipe and barrel, tank wagon or tank car from which such liquid is being drawn.

(b) The end of the filling pipe for underground storage tanks for Class I and II liquids shall be carried to a location outside of any buildings, but not within 5 feet of any entrance door, or cellar opening; this filling pipe shall be closed by a screw cap.

SECTION 324. Fire Extinguishers. Where flammable liquids are kept, used or handled a quantity of loose non-combustible absorbents, such as dry sand or ashes, together with pails or scoops, and chemical extinguishers or other extinguishing devices or materials shall be provided in such quantities as may be directed by the Fire Marshal.

SECTION 325. Liquefied Petroleum Gas Containers. Non-portable containers for the storage of liquefied petroleum gases (propane and butane are the principal constituents) shall be constructed in accordance with Section 8 of the Boiler Code of the American Society of Mechanical Engineers. Such containers, when aboveground, shall be located not less than 50 feet from the nearest building other than those devoted exclusively to gas manufacturing and distributing operations, and not less than 50 feet to the line of adjoining property which may be built upon.

ARTICLE 4

NITROCELLULOSE MOTION PICTURE FILM

SECTION 401. Application. This article applies to motion picture film having a cellulose nitrate base. The word "film" wherever used in this article refers to such film. Cellulose acetate film, marked safety film, is exempt from these provisions.

SECTION 402. Permits. No person shall store, keep or have on hand more than 25 pounds (about 5,000 feet of 1⅜-inch film) of nitro-cellulose motion picture film without a permit from the Fire Marshal.

No person shall sell any toy or miniature motion picture machine containing nitrocellulose motion picture film, or sell, lease or otherwise dispose of any nitrocellulose motion picture film to any person not having a permit to handle, use or display such film.

SECTION 403. Enclosures for Motion Picture Projectors. (a) Motion picture projectors using nitrocellulose film shall be operated or set up for operation only within an approved enclosure, not less than 48 square feet in size and 7 feet high. If more than one machine is to be operated an additional 24 square feet shall be provided for each additional machine.

(b) The enclosure shall be built of brick, tile, or plaster blocks, plastered on both sides, or of concrete, or of a rigid metal frame, properly braced, and sheathed and roofed with sheet iron of not less than No. 20 U. S. gauge metal, or with ¼ inch hard asbestos board, securely riveted or bolted to the frame, or 2 inches of solid metal lath and cement or gypsum plaster. All joints shall be sufficiently tight to prevent the discharge of smoke.

(c) The entrance door into the enclosure shall be at least 2 feet by 5 feet, of construction equivalent to the sheathing permitted above for rigid frame construction, and shall be so arranged as to close automatically, and shall be kept closed at all times when not used for egress or ingress.

(d) Two orifices or openings for each picture machine may be provided; one for the operator's view shall be not larger than 10 inches by 20 inches, and the other through which the picture is projected shall be not larger than 8 inches in greatest dimension. Where separate stereopticon, spot or flood light machines are installed in the same enclosure with picture machines, not more than one opening for each such machine shall be provided for both the operator's view and for the projection of the light, but two or more machines may be operated through the same opening; such openings shall be as small as practicable and shall be capable of being protected by approved automatic shutters.

(e) Each opening shall be provided with a gravity shutter of approved fireproof material. Shutters shall be suspended, arranged and inter-connected so that all opening will close upon the operating of some suitable fusible or mechanical releasing device, designed to operate automatically in case of fire or other contingency requiring the immediate and complete isolation of the contents of the enclosure from other portions of the building. There shall also be provided suitable means for manually closing all shutters simultaneously from a point near the door. Shutters on openings not in use shall be kept closed.

(f) All shelves, furniture and fixtures within the enclosure shall be constructed of incombustible material, and no combustible material of any sort whatever shall be permitted or allowed to be within such enclosure, except the films used in the operation of the machine, and film cement.

(g) Ventilation shall be provided by means of a vent pipe having inlets at one or more points in the ceiling and also connecting to each

than 2 buses or are used for the storage and loading of 2 or more trucks.

(d) Basements used as public garages shall be continuously ventilated by mechanical ventilating systems so designed as to assure suitable dilution and removal of gasoline vapors and motor exhaust fumes.

(e) Carbon and lead burning, welding and other processes involving direct application of flame shall be carried on in the open air not less than 10 feet from any building or in a special room separated from the rest of the garage by 2-hour partitions.

(f) Volatile flammable liquids shall not be used for cleaning purposes in a garage unless in a special closed machine of approved type or in a special room separated from the rest of the garage by 2-hour partitions.

Gasoline and other volatile flammable liquids shall not be allowed to run upon the floor or to fall or pass into the drainage system of the premises. Self-closing metal cans shall be used for all oily waste or wasted oils.

Garages shall be swept frequently and kept clean.

(g) Exclusive of that in the tanks of vehicles, gasoline shall be kept at a public garage only in underground tanks, in approved safety cans, or in approved portable wheeled tanks not exceeding a capacity of 60 gallons in each. The tanks of vehicles shall be filled directly through hose from pumps attached to portable tanks or to permanent filling stations connected to underground storage tanks. Gasoline shall not be handled in any open container.

(h) In every public garage two or more approved chemical fire extinguishers and four or more pails of sand shall be kept convenient for quick use in case of fire.

ARTICLE 3.

Report of the Village Superintendent, Charles Oetke, for period December 6, 1937 to December 20, 1937:

Street Department

Cinders mixed with calcium chloride have been placed at slippery street corners. To date thirty yards of cinders have been placed on the streets. The cinder spreader has been completed.

Street Light Department

Ornamental street lights in the central business district have been removed, colored and replaced for the Holiday Season. A large Christmas Tree has been placed at the intersection of Park and St. Charles Road and decorated with colored lights.

Sewer Department

The baffle plates in the vault at the sewer plant have been made and installed. The connections to the old Imhoff tanks have been completed and the system is now in working order.

Ice had to be removed from the filter beds and No. 2 agitator.

Two electric motors at the sewer plant for pumping sewage to the filter beds are badly in need of grease retainers. This will be attended to.

Water Department

The old storage tank has been put in service.

Tests on water are being sent to the Sanitary Water Board and Public Health Board monthly.

Cleaning of pipes, lines and motor is being done.

Out of twenty-five stopped water meters which were checked and replaced, two were Trident and 23 Worthing-Gamon Water Meters.

Police Department

The police car is beginning to require excessive attention. All village trucks and equipment has been checked, oil changed and greased.

A motion was made by Trustee Lucas and seconded by Trustee Schermerhorn that the report of the Village Superintendent be received and placed on file. Motion carried.

P R O C L A M A T I O N

Communications:

A reply to a letter from the Village of Lombard dated October 28, 1937, with reference to a light at the C A & E Railroad crossing at Highland Avenue, was received from this company, under date of December 4, 1937, over the signature of Mr. E.B. Ander, Electrical Engineer for the Receiver, stating that the lighting could be improved if the village would install more street lights in that section as there was a scarcety of lamps installed. A motion was made by Trustee Potwin and seconed by Trustee Lucas that this letter be referred to the Light and Water Committee for investigation and report. Motion carried.

Report of the Department of Public Health, Sanitary Engineering Laboratories, Springfield, Illinois, on samples of water sent the Department from the Lombard Public Supply, taken November 30, 1937. The analyses show that the water being pumped into the distribution system is safe to drink. The sample representing water from the reservoir showed a higher iron content than should be obtained. Possibly this sample was not representative for the fourth sample, taken from a tap on the distribution system, was free from turbidity. However, no analysis for iron compounds which might have been in solution in the water was completed on this sample. Of the samples sent the department there were no "Coli-Aerogenes" (colon bacteria) present. A motion was made by Trustee Potwin and seconded by Trustee Smith that this report be received and placed on file. Motion carried.

A communication under date of December 7, 1937, with illustrative photographs and news items was received from Miss Grace Ward, 100 North Summit Avenue, Villa Park, Illinois, requesting permission to establish a sun bathing institute on her Lombard property at North Avenue. A motion was made by Trustee Lucas and seconded by Trustee Fleege that Mrs. Ward be advised that there is no Village Ordinance prohibiting such an institution but that she take the matter up with the Village Attorney, Mr. McCoy. Also return photos and news clippings as requested. Motion carried.

A letter was received from Mr. Charles J. Wood, 318 West St. Charles Road, Lombard, under date of November 15, 1937, advising that there was a very bad crack in the cement pavement between 310 and 318 West St. Charles Road, which should be repaired. A motion was made by Trustee Lucas and seconded by Trustee Smith that the letter be received and referred to the Village Superintendent, Charles Oetke, to acknowledge and investigate. Motion carried.

A sign bond was presented by the Illinois Bell Telephone, or rather an agreement to hold the Village not responsible for damages in case the sign at 26 West St. Charles Road, Lombard, fell on any one, for approval by the Board. The agreement was satisfactory to the Village Attorney, McCoy. A motion was made by Trustee Potwin and seconded by Trustee Lucas that the agreement be approved and a copy of same certified by the Village Clerk as having been approved be sent to the Telephone Company. Roll call:

Roll call:

AYES: Trustee Lucas
Trustee Smith
Trustee Schermerhorn

Trustee Potwin.

Motion carried.

Note: A summons signed by Robert M. Haenisch, Clerk of the Court had previously been served on the Village of Lombard through the Village Clerk, Hubert E. Mogle, December 15, 1937, with reference to the above suit. This was turned over to Mr. McCoy at this meeting.

Committee reports:

Trustee Lucas, Chairman of the Fire and Police Committee, reported that the police bicycle registration had proved very satisfactory and was heartily endorsed by the children. Eighty bicycles had been registered to date. With reference to men staying at the Fire House during nights to help make insurance rates cheaper for Lombard, there were several objections filed by the men of the Department, the principal one being that they should be paid for this extra service. The matter will be gone into further.

With reference to the delinquent tax situation in Lombard Trustee Potwin reported around $75,000.00 outstanding in back taxes, which accounts for the low collection returns to all taxing bodies. The situation has arisen necessitating the uniting of all the Lombard taxing bodies to enforce payment from these delinquent property owners, a large number of whom live in other cities. The school and park boards have agreed to assist financially the village board in taking legal steps to make these collections. A motion was made by Trustee Lucas and seconded by Trustee Schermerhorn that the Finance Committee be empowered to take the necessary steps to prosecute these delinquents in the collection of back taxes and to employ John McCoy, Village attorney, to handle the suits. Regular Meeting of Lombard Village Board, concluded Dec. 20, 1937.

With reference to the crack in the pavement on St. Charles Road between 310 and 318 West St. Charles Road, a letter was received from Mr. E.L. Gates, County Superintendent of Highways, with whom the Village Superintendent, Charles Oetke had been in touch, advising that the County had no funds with which to make such repairs, in that the street was not built entirely by the State and that it would be the duty of the village to take care of it. Mr. Oetke reported that as soon as possible, weather permitting, the crack would be filled.

Lombard, Illinois,
January 4, 1936.

To the Police Committee of the Village of Lombard:

The following is a resume and report of my actions as the acting Police Magistrate and covers the period about the first week in September up to and including the last day of December 1935.

It was unfortunate that I was unable to take hold of my duties immediately after Mr. Barth's illness because I was out of town and busy on the particular days that cases were set for me by the Police Department. The drive on dogs, vehicle tags and parking in non parking areas was started just prior to Mr. Barth's illness and when two or three weeks had elapsed before I could take hold and Mr. Barth too ill to be questioned it left me with a mass of tickets on my hands and in most cases I did not know who appeared and who did not; whether some were granted continuances or time in which to procure tags and if so far how long and to whom, etc, etc.

Eighty-three cases were heard pertaining to dog tags. Nineteen letters were sent out where it was presumed police tickets were ignored. Four people had obtained tags and their names had not been placed on our records. Five second letters were sent of which two and possibly a third were ignored. As soon as I can clean up my unfinished business, warrants will go out for them and they will be made to realize that you and I mean business and it is going to cost them money to ignore police tickets and my letters.

83 cases on dogs:

44 Purchased tags outright
13 Purchased tags after being assigned to work.
11 Dogs were killed or given away.
77 Families moved from town.
22 Were let go- one an elderly widow, the dog is about all she has in life. The other case a woman whose husband is an invalid.

77 Cases cleaned up.
6 Cases pending of which two are permitted to make payments. Two ignore us. One is supposed to have started on W.P.A. work and one case in which the dog belongs to the housekeeper and not to the party to which ticket or letter was issued.

83

20 Cases of no vehicle tag.

11 Purchased tags outright.
2 Purchased tags after being assigned to work.
2 Cars dismantled or wrecked.
2 Told not to use car until both state and village tags were purchased.

17 Cases cleaned up.
3 Cases pending of which I have just been granted more time and one of them to be permitted to work it out.

20

1 Case, no trailer tag. Party just loaned it and owner informed it was not to be used or loaned again before a tag is purchased.

3 Cases of fictitious license plates. High school boys with $25.00 cars recently purchased who borrow some one's plates when they take car out or just use one plate. One set of plates confiscated by Chief Groote and other cases were made to procure 1936 plates before being let off.

5 Cases of reckless driving. A three car collission and a two car collission in which the parties involved affected a settlement

2 Cases of shooting or hunting in the village lilits. Two young lads from the gas station at St. Charles Road and Grace Street who thought they were out of the village limits because the station happens to be out of the limits.

25 Cases of parking in a no parking area.

24 Cases were dismissed with a warning and their promise of future co-operation.
1 Case pending

2 Cases of speeding were dismissed because they were not flagrant and because of the uncertainty of procedure in regard to the newly enacted state statutes.

Defendants---------- Warrants issued:

Richard Kloth- Petit Larceny. Dismissed on motion of plaintiff and after father was informed of every thing I and the police could tell him that his son was accused of on other occassions and given a good lecture. Received from complainent for warrant ----- $2.00

John Bauer- Disorderly conduct	5.00	2.00

The Village received the fines and the judge the costs.

I fully realize that were I built that way, this was a golden opportunity to get more for the village and myself but sincerely believe the manner in which I conducted the office reflects credit upon myself and contributes to a more friendly feeling towards the police, village officials and the Town of Lombard as a good place to live.

The work performed in addition to my justice of the peace work and my daily work at Wheaton was quite a strain but I am always ready to give my time for anything that will contribute to making Lombard a better town.

The combined alphabetical lists and numerical lists for both dog tags and vehicle tags will in the future aid materially in making things easier for the clerical and police force in their 1936 drive and the only other thing that I can see or recommend is that some thought be given to better markings for our non parking areas.

Respectfully submitted,

Theodore Stass, J.P.
Acting Police Magsitrate.

A motion was made by Trustee Potwin and seconded by Trustee Randolph that the report of Acting Police Magistrate Stass be made a part of these minutes, be received and referred to the Fire and Police Committee, and Mr. Spellerberg for checking. Committee Reports:

Trustee Schermerhorn of the Streets & Alleys Committee reported that the streets of Lombard had been cleaned of snow by the new plows at a cost of $40.00, the men working eight hours.

Trustee Lucas, Chairman of the Health Committee, reported about three months ago the School Board of Lombard requested the Village Board to assist in paying the salary of the school nurse. The committe had asked the school board at that time to furnish information as to what salary the nurse received and what part of the salary the Village Board would have to stand. No information had been supplied by the School Board to date yet the members were complaining of the lack of co-operation of the Village Board. Furthermore Trustee Lucas and Trustee Randolph took the matter up with the Health Officer, Dr. Woodworth, and he in-

formed them that he had supposed that the School Board had furnished this information some time ago. However, he would call the matter to the attention of the School Board at the next meeting. This was a month ago and still the Village Board has had no data from the School Board.

DEPARTMENT OF PUBLIC HEALTH
Springfield, Ill.

January 16, 1936.

Village of Lombard,
Att: Emil R. Becic, Supt. of Water,
Lombard, Illinois.

Gentlemen:

Enclosed herewith is a report on sanitary analysis of samples submitted January 7th from the Lombard public water supply. These analyses show that the water was safe to drink.

Another sample submitted on the same date, in a half-gallon bottle, for microscopic analysis (No. 100279) showed that there were no "iron bacteria" present such as crenothrix and similar filamentous types. Although such growths were not present in that particular part of the distribution system it does not preclude their growth in other sections. The examination of this sample showed that it had a very high iron content, namely 4.0 parts per million which was considerably higher than that found in the sample of November 12, 1935. Apparently the previous sample was not representative of the iron content of the water supply. This iron content would cause marked staining of plumbing fixtures and difficulty with laundered material, and might result in disagreable tastes and odors where the iron deposits may collect and bacterial growths and decomposition may occur. As pointed out in previous correspondence, this iron sediment and consequent bacterial growth do not affect the safety of the water for drinking.

In view of the high iron content and the hardness of the supply, it would be advantageous for the village to install an iron removal and softening plant at the source of the supply. The sanitary quality of the public water supply from the standpoint of physical characteristics and palatability would be markedly improved and perhaps prevent many persons from using drinking water from some private unprotected source which, altho clearer, may be contaminated and unsafe to drink. Economically the saving in soap consumption to the consumers, as well as other advantages of a soft water are important considerations.

Very truly yours,

Clarence W. Klassen.
Acting Chief Sanitary Engineer

A motion was made by Trustee Tronvig and seconded by Trustee Randolph that this communication be received, referred to the Light and Water Committee and made a part of the minutes. Motion carried.

Trustee Lucas, Chairman of the Health Committee reported that he had conferred with the School Board of Lombard with reference to the Village assuming part of the expense relative to the salary of the school nurse. He reported that the salary of the school nurse was $1,200 per year; that she looked after the health of approximately 650 children in the public schools and 280 in the parocial schools; that the school board desired that the village assume 50% of her salary and that the village pay the school board the difference of $600 after deducting $150 for the salary of the health officer and the water bill for the public schools. A motion was made by Trustee Lucas and seconded by Trustee Randolph that the matter be referred to the Finance Committee for recommendation and report at the next meeting of the Village Board. Motion carried.

JOHN E. McCOY

Chicago, Illinois,
January 29, 1936.

Hon. Henry A. Potwin,
Lombard, Illinois.

My Dear Mr. Potwin:

As per your request I am writing you regarding the payment of the Public Utility tax by the Village of Lombard, which I have advised the Board not to pay, and which until further notice is still my advice to the Board. Under the injunction issued by the Circuit Court of Cook County November 12, 1935 we find the following, among other matters, and the injunction ends in this manner:

"The defendants Knowlton L. Ames, Director of Finance of the State of Illinois, and John Stelle, Treasurer of the State of Illinois, their agents etc. are restrained from taking any further acts or steps to enforce against any of the respective plaintiffs herein the provisions of the said Public Utility Act until the further order of the Court."

The Village of Lombard is one of the complainants under this action and I do not believe, unless the State Department can show me where they are not bound by the injunction, that we should pay our funds over to the State -- at least not until after the hearing of the matter in the local court.

Yours very truly,

John E. McCoy.

A motion was made by Trustee Tronvig and seconded by Trustee Schermerhorn that the above letter be referred to the Finance Committee with power to act. Roll call:

A motion was made by Trustee Schermerhorn and seconded by Trustee Tronvig that the supervision of the Slide erected on Garfield Street between St. Charles Road and Windsor Street in this Village be turned over to the Streets and Alleys Committee. Motion carried.

Resolution

"WHEREAS, under a contract between the County of DuPage, Illinois, and the Village of Lombard, Illinois, the County of DuPage has paid over to the Village of Lombard the sum of $18,672.20, and

"WHEREAS, under the contract between the County of DuPage and the Village of Lombard, the money so paid over to the Village of Lombard was to be used and expended for the benefit of the real estate owners whose real estate was assessed for the payment of Special Assessment No. 123 which Special Assessment was spread for the paving of Meyers Road, and

"WHEREAS, the Village Board of the Village of Lombard, after due consideration, has come to the conclusion that the owners of the real estate whose property was assessed for the payment of the paving on Meyers Road will be benefited by reducing the costs of paving Meyers Road by applying the said sum of $18,672.20 toward the payment of the costs spread against the real estate assessed under Special Assessment No. 123, and

"WHEREAS, some of the property owners of Meyers Road have paid up their proportionate share of the special assessment spread for the paving of Meyers Road and would receive no benefit from this money if the total of the fund of $18,672.20 is paid directly into the Special Assessment fund arising out of the spread of the before-mentioned Special Assessment 123,

"BE IT HEREBY RESOLVED that the Treasurer and Auditor-Collector of the Village of Lombard apply the sum set out in Schedule 'A' as the amount of the rebate on each lot to the payment of the costs, penalties, interest and principal, in the order set forth, starting with the payment longest due on each lot, said money to be applied as before-mentioned in payment of the amount assessed against each lot and a receipted bill of said payment be forwarded to the owner of said lot.

"BE IT FURTHER RESOLVED that in the event of the total assessment having been paid on any individual lot that a check be issued by the Village Auditor-Collector to the record owner of said lot in the amount that is set forth as rebate due and owing to the said lot in Schedule 'A,' said Schedule 'A' being attached hereto and made a part of this Resolution.

"BE IT FURTHER RESOLVED that the actual payments made to the owners of said lot, whether made in payment of assessments due and owing on said lot or in cash to the owner, be made as set forth in Schedule 'B' hereto attached and made a part of this Resolution. Cont. below

BE IT FURTHER RESOLVED that where the Special Assessment has

been totally paid up on any lot as spread under Special Assessment No. 123 that before the payment in cash is made to the actual owner of said lot, satisfactory proof of the ownership of said lot shall be made to the Village Auditor-Collector prior to the owner receiving said payment for his pro rata reduction of costs under Special Assessment No. 123 as provided for in this Resolution.

BE IT FURTHER RESOLVED that the public benefit fund under Special Assessment No. 123 of the Village of Lombard receive from the Village Auditor-Collector and the Village Treasurer the sum of money set forth in Schedule "A" as rebate of the Village of Lombard's pro rata share of the costs of $6,500.00 spread against the Village of Lombard as public benefit.

It is hereby ORDERED that the Village Auditor-Collector and Village Treasurer carry out this Resolution immediately upon the passage hereof.

RESOLUTION

WHEREAS, it is the policy of the President and Board of Trustees of the Village of Lombard to recognize meritorious public service, and

WHEREAS, many meritorious acts are performed by citizens of this community without credit of any kind or character, and

WHEREAS, the President and Board of Trustees of the Village of Lombard are especially desirous of acknowledging meritorious acts performed by employees of the village,

BE IT RESOLVED by the President and Board of Trustees of the Village of Lombard in regular meeting assembled that the President and Board of Trustees of the Village of Lombard do hereby especially recognize and commend the acts of heroism performed and carried forth to a successful conclusion by Mr. George Assmann, Fire Chief of the Village of Lombard, Mr. William Fleege Fire Captain of the Village of Lombard, Mr. Charles Oetke, Fireman of the Village of Lombard and Thomas Buckel, a Boy Scout of the Village of Lombard, who by quick thinking and unhesitating action saved the life of Conrad Schmidt, 841 Charlotte Street, Lombard, Illinois, on February 18, 1936. Mr. Schmidt had been overcome by carbon mon-oxide gas and would have undoubtedly departed this life except for the fact that Thomas Buckel, a Boy Scout, hearing of the predicament of Mr. Schmidt, informed Mrs. Schmidt that the Village of Lombard had a pulmotor squad for the purpose of resuscitating people overcome by gas; where upon Mrs. Schmidt called the Lombard Fire Department and the said Fire Squad under the direction of Chief Assmann, immediately repaired to the scene, and after two hours of work succeeded in saving the life of Mr. Schmidt.

Boy Scout Thomas Buckel, is especially commended for his clear thinking in remembering what he had learned regarding the Pulmotor Squad for the purpose of resuscitating gas victims, he being one of the members of the Boy Scouts who acted as officials of the Village on the Saturday preceding the 18th, where he had been informed of the purpose of the pulmotor and the Pulmotor Squad.

BE IT FURTHER RESOLVED that a copy of this resolution be mailed to each one of the persons taking part in the saving of Mr. Schmidt's life, and that a copy of this resolution be mailed to the Scoutmaster in charge of the troupe to which Thomas Buckel belongs, and that a copy of this resolution be spread on the minutes of the Board of Trustees of the Village of Lombard.

A motion was made by Trustee Tronvig and seconded by Trustee Potwin that the above resolution be adopted. Motion carried.

March 14, 1936.

To the President
and Board of Trustees,
Village of Lombard.

Gentlemen:

After receiving an analysis report from the State Department of Health regarding the excessive iron content in Lombard water in some locations, the Light and Water Committee have, on the suggestion of the Health Department investigated prices, etc., and means of installing a water softner which would remedy this iron condition.

While the purity of the water is not effected and the cost of such apparatus is so great, the Village is in no position to make such an expenditure at this time. However, the Committee has instructed this department to continue its systematic flushing of hydrants as was recommended by the Health Department.

There being no alternative, it was decided to carry on as above until a later date at which time the matter will be brought forth for further consideration.

Light & Water Committee

Wm. P. Tronvig, Chairman
E.C. Randolph, Member
H.A. Potwin, Member.

A motion was made by Trustee Potwin and seconded by Trustee Fleege that this recommendation be received and placed on file. Motion carried.

Harman, 2156 W. 23rd Street, Chicago, Illinois, requesting a rebate of penalties on past due assessments on lot 23, Robertson Subdivision, Lombard, Illinois. The assessments amount to over $2,000.00. In that Mr. Harman does not live in Lombard, a motion was made by Trustee Randolph and seconded by Trustee Schermerhorn that the request be denied, following the usual procedure and that Mr. Harman be so advised by the Village Clerk. Motion carried.

A release was requested by Seth Mayer, representative of the Glen Falls Indemnity Company, on the bond covering a sign suspended above the Lombard Tire & Battery place of business, owned by Gains and Anderson. The Standard Oil Company of Illinois now operates the place and has furnished their own bond. A motion was made by Trustee Randolph and seconded by Trustee Potwin that the request be granted. Mr. J. Alderman,
Lombard, Illinois.

Dear Mr. Alderman:

In regard to Elaine Lowe, on March 11, 1936 we X-rayed Elane's finger and gave her a final examination. The X-ray showed a complete healing of the bone and at present, I feel she is completely cured and should not have any further trouble.

She has one slight remaining permanent disabil-

ity which is a clubbing of the tip of the finger and finger nail. As she matures this probably will also improve considerably.

Very truly yours,

E.W. Gutzmer, M.D.

Gutzmer in the case of Elane Lowe for injuries suffered by an accident there was no legal liability on the part of the Village to pay this bill. Miss Lowe could sue but he was certain the case would be beaten. However he would discuss it further with Judge Thoma.

Attorney McCoy further reported that the resolution passed at the meeting of April 6, 1936 (see page 240) regarding the adoption of Eastern Standard Time could not be held as valid.

With reference to the detatchment petition of land along North Avenue Attorney McCoy reported that a similar case was before the Supreme Court and until Judge Knox received this decision he recommended that the matter be held in abeyance.

A PETITION FOR REAPPORTIONMENT on Warrant No. 88 was presented by Joseph W. Harmon and V.J. Palonis consisting of Sewers in Martha and other Streets and Avenues on Lot No. 23 of County Clerk's Assessment Division. The parties concerned however wish to have the forfeitures cancelled and everything reapportioned but plans only to pay a part of the original portion. The petition was approved as to form by Village Attorney McCoy and Village Engineer Deutchler. A motion was made by Trustee Lucas and seconded by Trustee Tronvig that the Petition be referred to the Special Assessment and Finance Committees for recommendation. Motion carried.

President and Board of Trustees:

Gentlemen:

When the Light and Water Committee started its campaign to liquidate delinquent water accounts last May, there was an amount of $23,161.67 to be collected. Since that time this amount has been reduced by $6,808.00 in collections leaving a balance of $16,353.67 of which $9,582.05 are final readings of accounts who have moved from town.

As it is assumed that very little of this latter amount will be collected it was the decision of this committee to turn these accounts over to an agency for collection on a percentage basis.

The remaining $6,771.62 in accounts are practically all under agreement for payment and will be disposed of within the year.

Very Truly Yours,

LIGHT AND WATER COMMITTEE

Wm. P. Tronvig, Chairman
Henry A. Potwin
E.W. Randolph

June 2, 1936.

Village President and Board of Trustees,
Lombard, Illinois.

Gentlemen:

We have jus finished reviewing plans for the water

supply improvements in your village and in this connection wondered whether the municipal officials have given any serious consideration to the possible softening and removal of the iron from the supply. According to our records the hardness of the Lombard public water supply is approximately 200 parts per million and the iron contents .6 parts per million, both of which are sufficiently high to warrant treatment. This is especially true of the iron content for whenever a water has more than .3 parts per million of iron there generally occurs staining of plumbing fixtures, laundered fabrics and in many instances objectionable conditions in the distribution system, especially at dead ends where this iron precipitates and where very often growths of iron bacteria called crenothrix occur.(kren-o-thrix)

Many municipalities in Illinois are now giving consideration to softening the supply and removing the iron.

If you are interested in such a project feel free to call upon us for any information or any assistance which we can render in this connection.

Very trulu yours,

C.W. Klassen
Chief Sanitary Engineer.

A motion was made by Trustee Schermerhorn and seconded by Trustee Randolph that the above communication be referred to the Light and Water Committee. Motion carried.

"Pin Games" illegal.

June 15, 1936.

To the President and Board of Trustees,
Village of Lombard, Illinois.

Gentlemen:

There has been a current report about the County that the County is about to license "pin games" and that it could do it legally owing to the fact that there was a decision of the Appellate Court which held that they were games of skill and not of chance. Inasmuch as it was and is my opinion that "pin games" are illegal according to the cases in Illinois, I have checked into rumors to find out if there had been a decision holding them to be legal by any court in Illinois.

In order to start right I took the matter up with the States Attorney, of DuPage County, Mr. Russell Keeney, and he informed me that there had been no decision and that in his opinion "pin games" are illegal and that it is mere rumor that there was a decision making them legal, that he informed the County Board that "pin games" are illegal and could not be licensed, and that there was no decision of the Appellate Court or any other Court that is to the effect that "pin games" are legal.

Having some friends in the corporation council's office in the City of Chicago I checked with them as to their conclusions and opinions, and they also are of the opinion that pin games are illegal. In fact, every authority holds them to be illegal, all Court decisions to date have held them to be illegal and I am still of the opinion that pin games in the Village of Lombard cannot be licensed legally.

The reason for this letter is that I wish to reassure the Board that all legal opinions to date have held that pin games are illegal and that the Board acted in a proper manner in disposing of the matter as has been done in the Village of

Lombard, and to lay to rest wrongful rumors which have been circulated.

Very truly yours,

John E. McCoy,
Village Attorney,
Lombard, Illinois.

A motion was made by Trustee Lucas and seconded by Trustee Tronvig that the above opinion of Mr. McCoy regarding "pin games" be received, posted on the bulletin board, published in the "Lombard Spectator" spread on the minutes in full and then filed. Motion carried.

A communication was received from Joyce & Company, Chicage, dated June 5, 1936, in connection with the Village Treasurer's Bank account, requesting that the Village Board designate depositories. A motion was made by Trustee Tronvig and seconded by Trustee Lucas that the matter be referred to the Finance Committee, with power to act. Motion carried.

A petition for reapportionment on Warrant No. 68, was received from Mr. L.H. Hedstrom and Mr. John L. Arnold, consisting of water main special assessments for local improvements on Lot 27 of Home Acres. However as the petitioners wished the forfeitures cancelled and then reapportioned which is not the regular procedure of the Village Board, a motion was made by Trustee Tronvig and seconded by Trustee Potwin that the matter be referred to the Special Assessment Committee for recommendation. Motion carried.

DIVISION OF HIGHWAYS
Office of District Engineer
Elgin, Illinois.

June 26, 1936.

City Streets
Lombard
Section 1-CS and 2-CS

Mr. Charles Oetke
Superintendent of Streets
Lombard, Illinois.

Dear Sir:

Confirming your conversation of June 25, 1936 with Mr. Vranek relative to Section 1-CS, 2-CS and 4-CS, it is satisfactory to the Department that the construction of the bituminous surfacing on Section 1-CS and 2-CS be postponed until next year.

However it must be expressly understood that all other work on these two sections must be completed in accordance with the approved plans, at the earliest possible date.

In order that our records as well as yours be correct, the following procedure will be followed:

1. Your engineer should submit three copies each of revised estimates and proposals for Section 1G-CS and 2G-CS for approval. These estimates will include all work called for on the original approved plans with the exception of the bituminous surfacing.

2. Since the bituminous surfacing is to be constructed by contract it will be necessary to submit new resolutions for this work appropriating MFT funds for contract construction.

At that time specifications, estimates and proposals for Section 1-CS and 2-CS should be submitted for approval. These estimates will include only the blacktop work.

It will also be satisfactory to improve Washington Street east of Myers Road as Section 4-CS. However, in view of the progress obtained by Day Labor on Section 1-CS and 2-CS it is my suggestion that possibly Section 4-CS should be set up as a contract job through out.

Very truly yours,

C.H. Apple
District Engineer.

A motion was made by Trustee Lucas and seconded by Trustee Potwin that in accordance with the above instructions from the District Engineer, 4-CS - Washington Boulevard east of Meyers Road - be set up as a contract job and the engineers be so advised. Motion carried.

A motion was made by Trustee Lucas and seconded by Trustee Potwin that the Board advertise for materials for 1-CS, 2-CS and Arterial 47-8, on provision the resolution recently submitted to the State is approved, in the Lombard Spectator, issue of July 9th, 1936, and if not approved by

then to publish in the next issue, the bids to be opened July 27th, 1936 at the discretion of the Board. Motion carried.

Excerpt from a letter dated June 29, 1936 written by Village Attorney McCoy to Collector Spellerberg:

In reply to your letter regarding Mr. R.C. Kelly as Commissioner of SA-119 wil state that the records at Wheaton show that Mr. Kelly was authorized by the County Judge to spread this assessment and there is no question but that he is entitled to payment, although the records do not set up any specific amount.

A motion was made by Trustee Potwin and seconded by Trustee Fleege that $15.00 be paid Mr. Kelly for his services. Roll call:

A communication was received from the Westmore Improvment Club wishing to be advised why Washington Boulevard between Edgewood and Grace Streets is uncompleted; that the dust was most annoying and that it was there understanding that funds had been appropriated to take care of this section. As soon as this was obtained application would be made to the State for funds from our portion of the gas tax money. Letter ordered placed on file.

The Hon. President and Board of Trustees,
Village of Lombard, Illinois.

Gentlemen:

Owing to several requests to respond to fire calls outside the Village limits, we would suggest the consideration of passing an ordinance or resolution affixing the charge and granting permission to the Lombard Fire Department to answer such calls. A motion was made by Trustee Schermerhorn and seconded by Trustee Potwin that the matter be referred to the Fire and Police Committee and Village Attorney to make a recommendation at the next Board Meeting. Mr. Carl F. Kleck and Albin O. Horn appeared before the Board to suggest that the Trustees might want to do something about getting Lombard mentioned on road markers of newly opened parts of highway 53. All the markers north of Lombard read so many miles to Glen Ellyn and Glen Ellyn would not have the high way run through their town. It was also suggested that more adequately lighted as well as official markers be placed at Roosevelt Road and Main and North Avenue and Main.

DU PAGE COUNTY ZONING DEPARTMENT

Court House

WHEATON, ILLINOIS

September 30, 1936.

To The President and Members of
The Board of Trustees of the
Village of Lombard.

Gentlemen:

In an endeavor to more efficiently administer the DuPage County Zoning Ordinance which as you know regulates and restricts the location and use of buildings outside the limits of cities, villages and incorporated towns in this county, I am addressing this communication to the administrative body of the various cities and villages.

It would greatly facilitate the efforts of the county if your board would define the boundaries of the Village of Lombard by erecting suitable markers at various places, preferably on the highways designating your corporate limits. This would enable the enforcing officer of the County Zoning Department to more accurately know the limits of the jurisdiction of the county in its proper enforcement of the ordinance.

An expression from your board as to its intention to carry out this suggestion would be appreciated.

Yours very truly,

Harold P. Dunton

Chairman of Plats, Subdivisions and
Zoning Committee of Board of Supervisors of DuPage County.

A motion was made by Trustee Lucas and seconded by Trustee Randolph that the above letter be referred to the Streets and Alleys Committee. Motion carried.

Adjourned Meeting of Lombard Village Board. October 14, 1936.

An adjourned meeting of the President and Board of Trustees of the Village of Lombard, Illinois, was held in the Village Hall at Lombard, Illinois, pursuant to adjournment from October 12th, 1936, to October 14th, 1936, at the hour of 8.00 P.M. The meeting was called to order by President Alderman and upon roll call being taken the following were present:

Hubert E. Mogle, Clerk
Henry A. Potwin, Trustee
H.B. Lucas "
E.C. Randolph "
H.D. Fleege "
Wm. P. Tronvig "
C.T. Schermerhorn "

After discussion of all the bids received for the elevated storage tank and ground water reservoir and after discussing the question of the various prices, the length of time specified in various bids, and in view of the fact that the Board decided that it was in favor of the earliest possible date of completion and that it was in favor of providing work for men during the winter session and in view of the fact that the lowest bidder required fifty-five days more than the second lowest bidder, bringing the time of completion beyond June 1, 1937, which date is later than the final date of completion according to the P W A Rules and Regulations, and owing to the fact that the difference in price between the two lowest bidders under Contract "B" was only $217.98, and after discussing certain deductions from items bid upon, which the Village Engineer recommended, upon the Village Engineer's recommendation, the following resolution was offered by Trustee Randolph, seconded by Trustee Tronvig, which resolution is as follows:

RESOLUTION

BE IT HEREBY RESOLVED that after due consideration of all bids received, by the President and Board of Trustees of the Village of Lombard, on October 12, 1936, that it is the recommendation of the Village Engineer which recommendation is accepted and concurred in by this Board, that the President and Board of Trustees of the Village of Lombard, Illinois, recommend to the Federal Emergency Administration of Public Works that Contract "A" be awarded to the Chicago Bridge and Iron Works, 37 West Van Buren Street, Chicago, Illinois, for the sum of $24,910.00, less items 4, 5, and 6, which the Village Engineer and this Board of Trustees recommends be deducted from the contract, leaving a contract price of $22,750.00 for Contract "A". Said contract to be carried through to completion within 150 calender days from the date of award of the contract.

And that it is the recommendation of the Village Engineer which recommendation is concurred in by the President and Board of Trustees of the Village of Lombard, that Contract "B" be awarded to Charles B. Johnson & Son, 6 North Michigan Avenue, Chicago, Illinois, for the sum of $41,719.48, less the bid price of $691.00 for furnishing in place one 8 inch cone valve and reducing the length of 12 inch cast iron pipe connections at the cone valve in an amount approximately 4 feet 9 inches, which at their bid price of $6.63, amounts to $31.49, making a net contract of $40,996.90. The time of completion of said contract to be 175 days from the date of award of this work.

BE IT FURTHER RESOLVED that three copies of this resolution be transmitted to the Federal Emergency Administration of Public Works, through its State Director, 20 North Wacker Drive, Chicago, Illinois, for his approval.

However several changes had been made by the department and the total estimated cost of this section would exceed the amount appropriated, necessitating a sup-

plemental resolution increasing the appropriation. The approved plan was returned to the Engineering Service Company, Aurora, Illinois; the village copy would be returned also. A motion was made by Trustee Lucas and seconded by Trustee Randolph that the communication be referred to the Streets and Alleys Committee. Motion carried.

Lombard, Illinois,
December 3, 1936.

Mr. A.F. Spellerberg,
Village Collector,
Lombard, Illinois.

Dear Mr. Spellerberg: (Excerpt)

As soon as possible I would like to have the bills for special assessments as reapportioned on the various parcels in Lombard Estates. It is our immediate intention to pay up these special assessments on Lot A and Lot 3 of the new subdivision. This is the property on which my house and garage are located, and it is my understanding that the Village Board has from time to time permitted local residents of Lombard to pay past due special assessments such as this on a 6% basis instead of the usual penalty basis. I should greatly appreciate your requesting the Board to extend this courtesy to me in connection with the payment of special assessments on my property as aforesaid.

Very truly yours,

Chas. H. Cress.

With reference to the Fire Department answering calls outside the village limits the Fire and Police Committee wished to know whether the men would be covered by the village compensation insurance. Village attorney McCoy stated that he would look into the matter and advise.

It was also the understanding of the Fire and Police Committee that the pensioning of the Police Officers was compul-

sory but the committee did not know whether the officers could be covered by compensation insurance at the same time. Village attorney McCoy advised that they could not.

Trustee Tronvig, chairman of the Light and Water Committee stated that he could purchase a used gas heater for the Pump house at a cost of $125.00 which would enable the village to take advantage of the free franchise gas. A new heater would cost around $145.00 and this used one was almost new. A motion was made by Trustee Tronvig and seconded by Trustee Randolph that this heater be purchased and installed. Roll call:

Albue stating that he would furnish labor and material for painting and relettering four signs at the village entrances as follows: even up all rough spots with Swedish putty and paint with silver bronze on both sides one coat and two coats of pure outside paint on front side for the sum of $95.00. The following letter was written by Auditor-Collector Spellerberg to

Charles Tuckbreiter
406 South Meyers Road
Lombard, Illinois.

Dear Sir:

Will you please advise if you have under your control as agent the home which is the first door south of 125 North Ahrens Avenue. If such is the case, we believe it would be a good idea if the doors and windows were boarded up as complaints have come to this office as children play therein, and some residents feel it may be used as a refuge by unwelcome persons.

Will you kindly acknowledge receipt of this letter and oblige.

Yours very truly,

Mr. Tuckbreiter called and advised that he would take the matter up with the owner if the Village would take the necessary legal action condemning the property. It is now a hazzard.

A motion was made by Trustee Tronvig and seconded by Trustee Lucas that the matter be referred to the Fire and Police Committee consisting of Trustees Randolph, Tronvig and Fleege, with power to act. Motion carried.

Trustee Schermerhorn, Chairman of the Streets and Alleys Committee reported that the V shaped snow plow attachment ordered at the meeting of December 7, 1936 (See page 115, paragraph 3) had arrived. He also reported that it was possible to obtain funds from the State Motor Fuel Taxes to remove snow from certain arterial highways in the village if the proper resolution was passed and sent to the State Division of Highways. It was thought that about $400.00 would be required. A motion was made by Trustee Schermerhorn and seconded by Trustee Potwin that such a resolution be prepared at once by Village Engineer Deuchler. Mrs. Kimball who has charge of the sewing project for the W.P.A. which uses the Council Chambers of the Village Hall in Lombard was present to explain what use was made of the room by this project. No rental charge is made by the village although people from Wheaton, Elmhurst and Downers Grove meet with the Lombard people to use these quarters. Mrs. Kimball stated that she thought that if a rental charge was made the Government would abandon the project and thus throw the people out of work. Chairman Flint thought that a simpler way could be worked out in cashing the village pay roll checks by carrying funds in a Glen Ellyn or Elmhurst Bank. It now costs $1.00 a payroll. There was some doubt as to the advisability of doing this so it was suggested that Trustee Flint and Treasurer Whiteley look into the matter and report later.

Committee Reports:

The Light and Water Committee presented the following report:

January 21, 1935.

To the President and Board of Trustees,
Village of Lombard.

Gentlemen:

Subject: Communication dated November 19, 1934 from the Lombard Floral Company referred to the Light & Water Committee.

With reference to the above subject please be advised that the Light and Water Committee has thoroughly investigated this matter and advises as follows:

That there is a 4" water connection to the Lombard Floral Company property having been installed some six or seven years ago.

That a conservative estimate of the proposed water consumption is figured at 1,000,000 gallons annually and that said water will be drawn almost exclusively at an off-peak period (2 o' clock to 5 o'clock A.M.)

That the Lombard Floral Company has agreed to discontinue the use of water at any time the fire whistle alarm is sounded, and when requested the Lombard Floral Company will put their private wells and pumping facilities at our disposal.

The Light and Water Committee recommends at this time that the Lombard Floral Company be permitted to complete the connection making a deposit of $25.00 in accordance with the provisions of the ordinance on that subject. It is also recommended that an industrial rate be permitted being 16¢ per thousand gallons up to 300,000 gallons per quarter; 15¢ from 300,000 to 400,000; and 14¢ from 400,000 to 500,000.

Respectfully submitted,

January 21, 1935.

To the President & Board of Trustees
Village of Lombard.

Gentlemen:

The Sewers and Drains Committee beg to report that a break-down occurred at the sewage treatment plant necessitating immediate attention, for that reason the Superintendent of Operations was instructed to order the necessary replacement parts, being a new worm gear and thrust bearing for the digestor equipment. One side of the ring gear is badly worn, however, it is thought that this gear may be reversed and that the wear applied to the opposite edge of the gear thread. This subject is being investigated by the installing engineers and it is planned to follow their suggestion on the subject.

Respectfully submitted,

Committee Reports. Light and Water.

March 2, 1935.

President and Board of Trustees,
Village of Lombard.

Gentlemen:

The Light and Water Committee beg to report that it was necessary on February 27th to take immediate steps to repair the riser pipe to the elevated storage tank. From 12 o'clock February 27th to 10.30 P.M. March 1st it was necessary to pump directly from the shallow wells to the mains, a consistent pressure being maintained by the use of a pressure regulator being attached to a hydrant.

In the course of doing this repair work it was found that the top section of the riser pipe had deteriorated to a point where there was one rust hole and several bad rust pits, and the sleeve packing had also deteriorated so badly that it also was leaking.

The actual work consists of one new section of 12" flange coupled pipe, 13½' of three-ply frost jacket with new bolts and packing. There was also found upon inspection that there were eight additional rust pits in the bowl of the tank, these were welded and the tank bowl was thoroughly cleaned and flushed.

The labor cost for this work amounts to $210.00; the cost of the frost jacket being $45.00; and the cost of the new pipe being $60.46 which amounts to a total of $315.46.

It is the opinion of this committee that while this work is only intended as a temporary repair some thought should be given in the near future to the requirements of the Village of Lombard with respect to water supply and storage capacity.

Respectfully submitted,

W.P. Tronvig
C. Schermerhorn

A complaint was presented by Mr. Bolton with reference to police protection to school children at the Lincoln School between the hours of 11 and 12 o'clock when they cross the streets, stating that the children received very little. President Morgan appointed a committee consisting of Trustee Tronvig, Chairman and Trustees Alderman and Groote to take this matter up with Mrs. Manning and find out when police were needed.

A motion was made by Trustee Flint and seconded by Trustee Tronvig that the meeting adjourn. Carried.

Meeting adjourned at 10.15 o'clock P.M.

Hubert E. Mogle
Village Clerk.

After the meeting members of the Village Board remained to listen further to a report from the New Deal Relief Committee as presented by Chairman, Mr. Lindelsee. The Board was informed that medical attention and clothing were the most difficult to obtain by relief dependents. President Morgan advised this committee that Lombard had plenty relief work to do but could not obtain workers to handle all of it. He further suggested that there was not much this Board could do to help them but that if the committee would see Representative Lottie O'Neal and have her call a meeting of all the Village Presidents in DuPage County to look into the matter and take it up as a body of Village Presidents with the Relief Officials in Chicago he would personally attend such a meeting and do all possible to help. The New Deal Committee agreed to do this.

SANITARY ANALYSIS OF SAMPLES OF WATER FROM Lombard Public Supply.

Tap, 1123, Woodrow Avenue
Laboratory No. 89048
Date Collected March 13, 1935.
Collected by Emil Becic.

Turbidity	50
Odor	Faintly aromatic
Bacteria	Per ml 1
Confirmatory	5-

The water was safe to drink at the time of sampling. The turbidity was apparently due to the presence of iron which may cause an unpleasant appearance or a taste and odor at times, but which does not affect the safety of the supply for drinking. Periodic flushing of the mains, especially at dead ends, will be helpful.

E.S. Clark,
Bacteriologist.

A motion was made by Trustee Tronvig and seconded by Trustee Potwin that the above report be received and placed on file. Motion carried.

A request was received from Auxiliary No. 70 United Spanish War Veterans to conduct a Tag Day in Lombard to sell carnations from 6 o'clock A.M. on May 11, 1935, and one from the American Legion Auxiliary, Lombard Post No. 391, to sell poppies on May 25, 1935. To The President & Trustees,

Gentlemen:

The undersigned respectfully recommends that catch-basins be installed at the following locations: first, on Harrison Street approximately 150 feet East of Edson, at this point there is a pocket in the road where water gathers, catch basins on either side being too far distant and too high to render any aid whatsoever in the disposal of the water; the second is on Maple Street about 150 feet East of the intersection of Maple and Lincoln, here the road has settled leaving a hollow which collects and holds water, it being cheaper to install a catch basin that to raise the pavement, the former is being suggested.

The following is the estimated cost of installing a catch basin:

36 Ft. 8" tile @ 32¢ per foot	$11.52
½ Barrel cement	1.50

36 Catch-basin blocks @ 25¢ each $9.00

Gentlemen:

The undersigned begs to report tnat the necessary repairs to put South Norbury in a passable condition have beenn taken care of with a minimum of expenditure. This was done by placing a culvert under the road to the East side of the street where a catch basin takes care of the water that heretofore swamped the road, besides this three loads of gravel were spread on the road, filling holes and ruts.

Respectfully submitted,

Joseph A. Ott.
Foreman.

A motion was made by Trustee Alderman and seconded by Trustee Tronvig that the above report be received and placed on file. Carried.

Trustee Schermerhorn added to the report of Foreman Ott that these repairs on South Norbury were only of a temporary nature and would have to be given more attention later.

With reference to the matter of the Village employees joining the Illinois League of Municipal Public Employees, the Constitution and By-laws of which were referred to the Finance Committee for recommendations, it was decided that none of our employees fitted into this plan and the Clerk was instructed to inform the league that at this time the Village was not interested. Motion covering this which was carried, was made by Trustee Alderman, seconded by Trustee Tronvig.

Trustee Groote interviewed Mrs. Manning with reference to Police protection on St. Charles Road and was informed that between the hours of 11 o'clock A.M. to 1 o'clock P.M. police protection was needed very much from Main to Elizabeth Streets on St. Charles Road. Trustee Groote explained to Mrs. Manning that due to the number of police and the many calls on their time it was quite difficult to keep such a schedule but that he would see what could be done by using relief employment. A motion was made by Trustee Tronvig and seconded by Trustee Alderman that ahwork relief project be established to keep men on this work and that the matter be referred to the Police Committee with power to act. Motion carried.

A further inspection of garages was made by Trustee Groote regarding the dumping of oil and waste into the sewers and it was found that only four used grease traps; the others were dumping the waste directly into the sewers. A motion was made by Trustee Groote and seconded by Trustee Alderman that the matter be referred to the Sewers Committee with power to act and that the Building Commissioner be instructed to serve notice on all garages that they comply with the village ordinance and where there were no grease traps that these be installed. Motion carried.

The special committee consisting of Trustees Potwin, chairman, Schermerhorn, Tronvig and Attorney McCoy to report on the school in the Lumbard Property advised that it had looked into the question of zoning and found that this property had been zoned for high class residences and that under that section of the zoning law it could only be used for residences, schools and churches. That being the case the question came up whether this is a school such as was meant by the zoning law when it was passed, the zoning law not being specific as to just what was meant be schools. It was the opinion of the Village Attorney that such a school as is being maintained in this case is not such as to be designated a school under the zoning laws of the village. A motion was made by Trustee Alderman and seconded by Trustee Schermerhorn that the matter be referred to the Zoning Board of Appeals to act promptly and report at the next meeting.

Regarding an old trenching machine which has only a junk value and which is abandoned on vacant property in the North-East part of Lombard a motion was made by Trustee Alderman and seconded by Trustee Tronvig that Joe Ott find the owner and have him dispose of the machine. Carried.

The Great Western advised that the crossing on North Main had been repaired and that the one at Meyers Road would be attended to at once. The C A & E Co. stated that the crossing at South Main would be repaired just as soon as the weather permitted as it was necessary to raise and resurface the crossing with plank and black top. A motion was made by Trustee Alderman and seconded by Trustee Schermerhorn that the letters be received and placed on file and that the Streets and Alley Committee follow up on the work. Carried.

Trustee Groote suggested that the Fire Department have firemen stationed at the exits on the nights when there were large

crowds at the DuPage Theatre and keep it under surveilance at all times to make sure no fire ever broke out. May 31, 1935.

Messrs. Schumacher, Marriott & Associates,
Lombard, Illinois.

Gentlemen:

After you, with the assistance of Mr. Esser, Receiver of the Lombard State Bank, had presented the very fair

picture of the Lombard State Bank to the members of our Board Wednesday night, we discussed the question of the lawsuit pro and con, from all angles.

We wish to express our appreciation of your kindness in coming over and having Mr. Esser come over to give us the facts pertaining to the bank and we were lead to believe by what you said that the bank would pay out one hundred cents on the dollar in due time. We appreciated Mr. Henry Schumacher's appinion regarding these things because it is an undoubted fact that he is the leading banker in DuPage County and has had much experience and knows how receiverships should be conducted, and each and every one of us realize that Mr. Marriott, being Vice President of the Chicago Title and Trust Company, is a good co-associate with Mr. Schumacher in sizing up the conditions of the bank and the efficiency of the Receiver.

We also know that you gentlemen, being men of responsibility, expect to live up to your obligations once your word has been given, as it has and was given in this case when you signed the bond, and we feel that you do not care to be embarrassed by having the Village sustain a loss if the bank should unexpectedly fail to pay out.

As you know we have been subject to a good deal of criticism because of the delay in action in this case, all other bondsmen who were under liability to the Village having been called to account, or judgments having been entered against them some little time ago.

All of these suits, including this suit, were filed over two and one-half years ago.

This suit has been delayed by the Board on your representations of the past and has not even been brought to issue as yet. It would cause unfair criticism of the Board (to say nothing of legal liability) to delay the suit at this time and keep it from going to issue, especially, as you and your counsel stated so clearly, the suit could not be tried before Fall at best, because it will take that long to iron out the various legal points.

Meanwhile, as you stated there will undoubtedly be a dividend declared which will reduce your liability considerably.

In light of all these facts, as brought out by you in our conference, it is not such a tremendous task for each one of you gentlemen to individually produce enough collateral to protect the Board, and to stop this litigation until the bank can work its way out so as to pay all the depositors.

Meanwhile, all expense of litigation has thus been saved, the Village protected, the officials are not subject to criticism or legal liability, you yourselves run no risk (unless the bank fails to pay out) because your collateral will be surrendered to you immediately upon the Village having received dividends in full, and no one is injured.

In the event that you do not see fit to accept this very fair offer, as Village officials we feel that the matter must go forward to issue, but knowing that the getting to issue will take several months, we feel that you are not being hurt by the proceeding and perhaps the bank will pay out in full before this case is tried or shortly thereafter.

Hoping that this is the case anyway, and thanking you for your courtesy in coming over and explaining the matter to the Board, I remain,

Yours very truly,

Jerome C. Alderman
President of the Board of Trustees,
Lombard, Illinois.

The following letter was received from the Division of Highways, Springfield, Illinois:

May 28, 1935.

Mr. Hubert E. Mogle,
Village Clerk,
Lombard, Illinois.

Dear Sir:

The Resolution for Section 1-C S as passed by the Board of Trustees May 20, 1935, was approved today. It provides for the improvement of approximately 1415 feet of Arterial Street #1, with a gravel base oil bound having either a 20 foot retread road mix or a 20 foot plant mix asphalt surface course. Construction is to be performed by day labor with a Motor Fuel tax appropriation of $5,489.81.

A copy of a resolution passed by the Illinois Commerce Commission, Department of Public Works and Buildings, Division of Highways, State of Illinois, vs Chicago Great Western Railroad Company, May 7, 1935, regarding application for permission to install, maintain and operate automatic flashlight signals as new protection at crossing where Route 53 crosses this railroad was presented for the information of the Board. The following report was presented by the Sewers Committee over the signature of Charles Oetke, with the recommendation that the Village Attorney go over the contract with Dowdle Brothers and ascertain if they are not responsible for the seem-

ing neglect of their work.

June 1, 1935.

Chairman and Members,
Sewer Committee,
Lombard, Illinois.

Gentlemen:

Under date of May 21st and 22nd a section of LaLonde Avenue which joins Washington Boulevard was dug to a depth of 9 feet to discover the cause of water persistently boiling up whenever there was a heavy rain.

It was discovered that about 12 feet of pipe was lacking to complete the connection between the small sewer pipe on LaLonde and #88 on Washington Boulevard. This is due to the lack of the proper inspection at the time this sewer, #88 was built, and necessitated the work being done before the paving on Washington Boulevard by the Motor Fuel Tax Fund.

Respectfully,

Charles F. Oetke.

A motion was made by Trustee Randolph and seconded by Trustee Tronvig that the report of the Sewer Committee be received and placed on file and that Village Attorney McCoy be instructed to look over the contract of Dowdle Brothers. Motion carried.

The following written report of the Ordinance Committee was presented for action:

June 3, 1935.

President & Board of Trustees,
Village of Lombard, Ill.

Gentlemen:

The Ordinance Committee begs to report the following in regard to parking on south Main Street between Ash and the Chicago Aurora Elgin Station:

1. Upon investigation among the merchants located in that block it was discovered that they were all very much in favor of a two hour parking limit.

2. Contact with these merchants also verified Mr. Deicke's report that a number of people going to Chicago, park their cars in this block for the day, thus inconveniencing the patrons of the various merchants in this block.

3. Further investigation of this matter disclosed plenty of parking room in the immediate vicinity there being the west side of Main Street, room for about twenty cars on the Aurora Elgin property, and space for 150 cars south of the Aurora Elgin on the east side of Main Street.

It is therefore the recommendation of this Committee since commuters would not be inconvenienced by such an order, and since it would be very much to the benefit and convenience of merchants and their customers in the section, that the Board instruct the Chief of Police to issue orders that two hours parking only be allowed on the East side of Main Street between Ash Street and the Chicago Aurora Elgin Station and that signs to this effect be placed in this block.

Ordinance Committee.

A motion was made by Trustee Schermerhorn and seconded by Trustee Lucas that the above report of the Ordinance Committee be concurred in. Motion carried.

A motion was made by Trustee Potwin and seconded by Trustee Randolph that the request of Cheney & Evans, Conservator for the Estate of Blanch V.B. Huleatt for rebate of penalties be denied in that the party interested was not a resident of Lombard. (See next to last paragraph, page 73, this minute book, for summary of petition) Motion carried.

A motion was made by Trustee Randolph and seconded by Trustee Lucas that letters of appreciation be written to the Lombard Post American Legion and the Lombard Fire Department for their assistance as Special Police during the Lilac Pageant. Motion carried.

Committee reports:

Light & Water Committee:

Chairman Tronvig presented the following report from the Superintendent of the Water Department, Emil R. Becic:

The Water Department began its campaign for the collection of outstanding delinquent water bills by concentrating on a list of wy accounts known as List # 1, totaling $1,725.94.

Since May 24, 1935 the results have been:

1. Cash collected $184.55

2. 2 accounts paid in full.

3. Balance contracted for in monthly installments of not less than $5.00 except 3 accounts which are still under investigation .

4. Comparison of cash:

June 1934, first 15 days	$1,033.56
June 1935, first 15 days	1,164.32

In line with the departmental efficiency several instances have been found where consumers have been using water for some years and have never had an account with the village. They have been entered in the records and are being billed for the water used.

Chairman Schermerhorn of the Streets and Alleys Committee stated it was necessary to have 12 or 15 men to cut weeds in the village, suggesting that this be done with regular hired help at 60¢ an hour and not by relief help. He was advised to go ahead with this work.

Communication from The Light & Water Committee:

June 26, 1935.

To the Hon. President & Board of Trustees,

Village of Lombard, Illinois.

The Light & Water Committee is of the opinion that the Water Department should, as a municipally owned utility, be placed on a more business-like basis and therefore, if the bills are to be paid, some inducement be offered to bring in payments promptly.

Not being in a position to increase or decrease the water rates it is felt that such a discount penalty plan as presented below, will automatically please and reimburse those who will take advantage of same, and penalize those accounts not paid within the required time.

THEREFORE, it is recommended by the Light & Water Committee that the following change in water billings be put into effect (if possible to begin with the August first billings):

A 5% discount be allowed if a bill is paid on or before the 15th of the month issued.

A 5% penalty be added after the 15th of the month.

Yours very truly,

The Light & Water Committee.

Emil R. Becic.
Superintendent of the
Water Department.

W.P. Tronvig, Chairman
E.C. Randolph, Member
H.A. Potwin, Member.

A motion was made by Trustee Potwin and seconded by Trustee Randolph that this recommendation be referred to the Finance Committee. Motion carried.

Or if she wished a wider field to apply to the County Board of Commissioners.

A motion was made by Trustee Potwin and seconded by Trustee Schermerhorn that this Club be advised by the Clerk that there were no ordinances against them picking up passemgers at one central point but that if they started to do this at various places in the village they would be asked to purchase a vehicle tag. Communicatio from John E. McCoy:

June 29, 1935.

President & Board of Trustees,
Lombard,
Illinois.

Gentlemen: RE: ANDERSON VS. VILLAGE OF LOMBARD,
Circuit Court No. 21633.

You are hereby notified that on Friday, June 28th, 1935 the Village succeeded in having the case of Anderson vs, the Village dismissed.

This was a suit by Andrew C. Anderson vs, Village of

Lombard brought some considerable time ago wherein he has claimed that he had commissions coming at the rate of 2% on all moneys collected by him and that after making allowance for all moneys paid to him he still had a balance of $6,660.00 coming. The Village filed answers and denied the liability, and Mr. Anderson's attorney filed demurrers and other pleas to the pleadings of the Village.

But the Village has been fortunate in being sustained as to its side of the issue and for this reason the case was disposed of in favor of the Village last Friday, June 28th.

Yours very truly,

John E. McCoy.
Village Atty.

A motion was made by Trustee Schermerhorn and seconded by Trustee Potwin that the communication be received and placed on file. Motion carried.

A communication under date of June 28, 1935 was received from Arthur T. McIntosh & Company, Chicago, stating that the house located on Lots 5 & 6 in Block 1 in their Home Addition was sold to Mr. L.F. Spangler, Lombard, Illinois, and that he would wreck the building at once, and cave in the basement walls. Although no permit is required to raise a building still the Board requested that the Building Inspector see that the building in question was demolished.

With reference to incomplete work in the construction of the sewer on Wasnington Boulevard, by Dowdle Brothers, Attorney McCoy reported to the Board that nothing could be done with this matter so far as to making Dowdle Brothers take care of the repairs at their expense.

Regarding repairs on the elevated water supply tank, the Light & Water Committee had the Chicago Bridge & Iron Works look the tank over and in a communication under date of June 28th, this company reported that the tank was in good condition with the exception of the bottom or saucer part. To replace this plate the Chicago Bridge & Iron Works estimated the cost at $540.00. They further stated that their own men would be used and that the Village would be responsible for any additional expense caused by strikes or delays by other organizations and that they were operating on an open-shop plan. This proposal did not appeal to the Board and on motion by Trustee Lucas, seconded by Trustee Tronvig and carried it was moved to refer the matter to the Water and Light Committee for further consideration.

Mr. A.J. D'Ambrose, Village Forester, in a letter dated June 3, 1935 requested that the Village allow him $25.00 a year for car usage from the time he was employed, June 16, 1931 to date. As there was very little work done by him in this connection from June 16, 1934 to date a motion was made by Trustee Fleege and seconded by Trustee Potwin that Mr. D'Ambrose be allowed $75.00 which would be considered full payment to date. A motion was made by Trustee Potwin and seconded by Trustee Fleege that Mr. Feltch be advised that the Village Board could see no occassion to reduce the Lombard Cab rates. Carried.

A request under date of July 15, 1935 was received from Mr. L.H. Hedstrom requesting permission to erect a building on lot at the corner of Second and Emerson Streets, for the purpose of housing goats. In that there had been complaint to the building commissioner regarding this matter he had refused to grant a permit until passed on by the Village Board. The Zoning Board of Appeals reported that there appeared to be no ordinance excluding goats in the village; that if kept for commercial purposes it constitutes a business and must be conducted on commercial property and that if milk is sold in the village the State Health Department has jurisdiction. A motion was made by Trustee Tronvig and seconded by Trustee Schermerhorn that the matter be referred to the Ordinance Committee with power to act. Carried.

Committee Recommendations

July 15, 1935.

To the President & Trustee,

Gentlemen:

The recommendation of the Light & Water Committee covering discounts and penalties on water bills was referred to the

Finance Committee for their consideration and recommendation. It is the recommendation of your Finance Committee that a 5 per cent discount be allowed if a bill is paid on or before the 10th of the month issued.

Respectfully submitted,

Finance Committee.

H.A. Potwin, Chairman
H.D. Fleege, Member
H.B. Lucas, Member.

A motion was made by Trustee Lucas and seconded by Trustee Tronvig that this recommendation be concurred in by the Board but that the discount be allowed until the 15th of the month and that the matter be referred to the Ordinance Committee to amend the present Ordinance governing water collections. Carried.

July 6, 1935.

To the President & Board of Trustees,
Village of Lombard,

Gentlemen:

Your Finance Committee has investigated the question of costs of garbage disposal for the Village of Lombard, and it is estimated that said costs might run from $3,000 to $7,000 a year depending upon the service rendered. That is whether the collection would be of garbage only or whether it would include cans and bottles, also whether collections would be made from the curb or from the rear of premises.

The total assessed valuation for the Village of Lombard last year amounted to $3,850,000, the tax levy permitted by law for this purpose being 10% per $100.00 valuation would permit the total levy for our village of $3,850. As our tax collection at the present time is slightly under 60% this would mean an income on this levy of about $2,310. It would, therefore, be necessary for the balance of the costs to be made up from the corporate income, and would necessitate the financing of such service out of the corporate income for one year before funds would be available from any levy which might be made.

It is the opinion of the Finance Committee that the Finances of the Village at this time will not permit such expenditure, and it is therefore recommended that the consideration of this service be postponed until a later date.

Respectfully submitted,

Finance Committee,

H.A. Potwin, Chairman.

A motion was made by Trustee Schermerhorn and seconded by Trustee Lucas that the above recommendation of the Finance Committee with reference to Garbage Disposal, be concurred in by the Board. Carried.

July 15, 1935.

President & Board of Trustees,
Village of Lombard.

Gentlemen:

It is hereby recommended by your Finance Committee that the only applications for rebate of penalties to be considered are to be those wherein the assessments were paid in cash, or are to be paid in cash.

Respectfully submittes,

Finance Committee,

H.A. Potwin, Chairman

A motion was made by Trustee Schermerhorn and seconded by Trus-Fleege that the recommendation of the Finance Committee with reference to the payment of penalties be concurred in. Carried.

July 15, 1935.

To the President & Trustees,
Village of Lombard.

Gentlemen:

It is the recommendation of the Finance Committee that this Board decline to rebate the penalties on the several invoices covering warrant #79, paid by the Lombard Building and Loan Association on June 12, 1935 in as much as these invoices were paid with bonds and coupons.

It is the recommendation of the Finance Committee that this Board decline to rebate the penalties on several invoices of warrant #88 paid by the Lombard Building & Loan Association under date of December 12, 1934, as these invoices were paid with coupons.

It is the recommendation of the Finance Committee that this Board decline to rebate the penalties on the several invoices covering warrant 88 paid by the Lombard Building & Loan Association on May 10, 1935 in as much as these were paid with bonds and coupons. H.A. Potwin, Chairman Finance Committee.

Separate motions were made on each of the above recommendations by Trustees Tronvig, Lucas and Schermerhorn respectively and seconded by Trustees Potwin, Tronvig and Fleege that these be concurred in by the Board. Motions carried.

The Fire & Police Committee reported $1,097.58 collected to date from the 2% insurance refund.

The Water Committee reported that water collections were coming in favorably at present.

The Streets & Alleys Committee reported it would soon be able to furnish relief labor again.

The Supt. of Sewers, Joseph Ott, reported through the Sewers & Drains Committee, a cave in along the north side of the sewer running between Fairfield and Edgewood on Emerson Avenue due to faulty connection of service stubs, and recommended immediate repairs. The Sewers & Drains Committee intend to make a more definite check and take action at once.

A communication under date of July 3, 1935 was received from the Board of Education requesting a contribution of $500 from the Village towards the salary of the School Nurse, this to be partially met by rebating the School District Water Bill amounting to $239.99. In that there was no definite information from the School Board as to just what services the School Nurse rendered the Village no action was taken. The School Board will present this information at a later meeting.

Chairman Tronvig, of the Village Property Committee stated that his committee was receiving bids on the installation of stokers for the Village Hall and would report on these at a later meeting.

Mr. Tronvig, Chairman of the
Light & Water Committee.

In order to better our service in the Water Department in way of meter repairs, meter tests, etc., I have considered moving our repair department to the Disposal Plant where Mr. Zielske, being quite familiar with this line of work, will be in position to handle same in satisfactory manner.

To accomplish this a water service line is to be laid from a point on Vance Street direct to the plant. The approximate distance between these two points is 1,058 feet. Price quoted by Clow Company is $9.96 per 100 foot for 1" pipe;

$16.11 for 1½", per 100 feet. Labor on this job is to be furnished by Mr. Ott. No cash outlay will be required other that for the pipe itself.

Hoping the above meets with your approval, I remain,

Yours very truly,

EMIL R. BECIC
Supt. of the Water Department.

O.K. W.P. Tronvig
Chairman, Light & Water Committee

A motion was made by Trustee Randolph and seconded by Trustee Tronvig that the Light & Water and Sewers Committees go ahead with this project, decide on the size and kind of pipe to use and also have a telephone installed at the Disposal Plant. Roll call:

To the President and Board
of Trustees, Village of Lombard.

Gentlemen:

As a result of the resignation of special officef, Greinke, the Chief of Police has suggested a change in the personnel of the Police Force.

The recommendation made to the Police Committee by the Chief of Police provides for the following personnel:

Police Chief
Sergeant
Three Regular Patrolmen
Night Desk Officer

The above suggested arrangement has had the consideration of the Committee and is now recommended to the Board for approval for the following reasons.

First, it will permit of allowing each member of the force one day off per week. Second, it will provide for having two regular men being on duty on the streets between the hours of 11.00 P.M. and 3.00 A.M. every night. Third, it will meet normal requirements of time out of the regular force due to illness, likewise vacations, without the necessity of employing any special officers.

Inso far as the Committee has observed, the foregoing arrangement has only one disadvantage: it increases the monthly pay roll in an amount of $50.00. However, in view of the advantages to be gained, the Committee recommends this plan be given the Board's approval.

Approved:

Police Committee

E.C. Randolph, Chairman
Wm.P. Tronvig, Member
Harry D. Fleege, Member.

A motion was made by Trustee Potwin and seconded by Trustee Lucas that the above recommendations of the Police Committee be concurred in. Roll call:

To the President and Board of Trustees
of the Village of Lombard, Lombard, Ill.

Gentlemen:

The Police Committee, in conjunction with the Chief of Police, has been giving consideration to the matter of side arms equipment for the entire Village Poilce force.

Officers now on the force, including special officers,

are all owners of revolvers they carry including holsters. A number of these guns are not in the best of working order and there are two calibers represented in the group. As a matter of fact one of the guns being carried does not have a manufacturer's number.

To provide for standardized equipment in this respect the Committee recommends that six guns with holsters, of the same caliber and type, be purchased for the force. At the present time the force constitutes six men, including the night desk man,and the above would provide for guns for each man.

The cost of providing guns for the above men, determined as a result of quotations, will be approximately $184.50. The above figure includes each gun being stamped, "Police Department, Village of Lombard".

It is suggested that the foregoing recommendation be discussed in open Board Meeting, as it has a number of advantages and disadvantages which the Police Committee desires be given attention.

Approved:

Police Committee.

E.C. Randolph, Chairman
Wm. P. Tronvig, Member
Harry D. Fleege, Member.

A motion was made by Trustee Schermerhorn and seconded by Trustee Potwin that police revolvers and holsters be purchased as recommended above by the Police Committee. Roll call:

In accordance with a communication received from the Village Board of Lombard by the Zoning Board of Appeals of Lombard to the effect that there would be a meeting of the County Zoning Committee on Wednesday, October 2, 1935, at Wheaton to consider the adoption of a County Zoning Ordinance, members of that Board attended the meeting and after a formal discussion of the proposed County Zoning Ordinance and maps at a meeting called by the President Mr. C.N. Bainbridge, on Monday October 7, 1935 to consider this ordinance as it effects the Village of Lombard, make the following recommendations:

The Lombard Planning Board called attention to the fact that the State is contemplating the construction of new highway #53 through Lombard on Columbine Avenue, crossing Glenbard Avenue or Crescent Boulevard at grade, then passing under the Chicago and Northwestern Railroad and crossing Glen Oak Road at grade, stating that these two grade crossing would be very dangerous in that they would be heavily traveled and the views of traffic obstructed by the Northwestern Railroad. Their full report is given on pages 112 and 113 of the Zoning Board of Appeals minute book. A motion was made by Trustee Potwin and seconded by Trustee Randolph that this matter be referred to the Streets and Alleys Committee to meet with the Zoning Board and give the Village Attorney information with which to make a report at the next meeting of the Village Board. Motion carried.

It was recommended by the Light and Water Committee that Emil Becic, Superintendent of Water, be given a $25.00 petty cash fund with which to make change when making collections. A motion was made by Trustee Lucas and seconded by Trustee Fleege that this recommendation be concurred in. Motion carried.

The Light and Water Committee recommended that changes be made in the heating plant at the new pump house and the installation of additional heating at the sewer plant. The radiator at the new pump house could be heated from the boiler in the old pump house. The cost of this change would be about $150.00 for material and plumbers, common labor to be used would be extra. This change would save about 3 tons of hard coal per year and eliminate keeping two fires. The present heating plant in the new pump house should be installed at the sewer plant as there is insufficient heat there. It would cost about $25.00 to install the heater from the pumphouse in the sewer plant. A motion was made by Trustee Randolph and seconded by Trustee Lucas that the matter be referred to the Sewers Committee with reference to the latter recommendation costing $25.00 and the other to the Light and Water Committee. Chairman Potwin of the Finance Committee recommended the refunding of $39,000 Fire Equipment & Water Bonds to extend over a period of 20 years at less interest. The matter was referred to the Finance Committee to make a study of the proposition and make a report to the Board.

Chairman Schermerhorn of the Streets and Alleys Committee in formed the Board that on September 30, 1935, while towing the grader which had a broken sprocket, around the corner of Main Street and St. Charles Road, enroute to the pumphouse the tow chain from the truck towing caught on the steering rod of the grader throwing it out of control and hitting a car parked at the curb belonging to Mr. Kemp of S.G. Hayes & Co, cutting the fender and tire. It was agreed to purchase a new tire for Mr. Kemp and he would attempt to purchase a second hand fender for his car at the expense of the Village. The tire was purchased at once. The drive sprocket on the grader was brought out from Chicago and installed the same day.

A complaint was also made to the Streets & Alleys Committee in writing by Mr. Kakuska with reference to the weeds being uncut on his street and the need of several loads of gravel in front of his home. The gravel was promised but at present there was no money to have the weeds cut. His letter was ordered placed on file.

(Communication, Division of Highways.) Elgin, Illinois,
October 25, 1935.

Mr. J.C. Alderman,
President of the Village Board,
Lombard, Illinois.

Dear Sir:

We are now finishing up the approach plans for the grade separation between the Chicago and Great Western Railroad, the Chicago and Northwestern Railroad, and the Chicago, Aurora and Elgin Railroad, where our proposed Route #53 crosses these railroads.

These plans provide for the construction of a pavement 40 feet in width, through, over and between these grade separations.

Along Columbine Avenue I understand there is a water main where the connections have been made to existing dwellings. There are several vacant lots where we do not know whether connections have been made or not. We are interested in finding out what policy has been considered in making such connections in your Village.

If it is the policy to have the property owner make this installation at his expense before paving, we will appreciate the assistance of the village in notifying those owners who must yet make these connections.

I am told that Columbine Avenue is not included in an active drainage district and that there are no sewers at present along Columbine Avenue. Undoubtedly it will be necessary to construct a sewer line along each side of our new pavement when the sewer requirements of this area are taken care of.

As soon as convenient, please notify me regarding the Board's reaction to these problems since our plans must be completed very soon.

Very truly yours,

C.H. Apple
District Engineer

A motion was made by Trustee Randolph and seconded by Trustee Potwin that this letter be referred to Village Collector Spellerberg to notify the property owners concerned and to send each a copy of the above letter, advising that the cost now would only be nominal where later it would be quite expensive. Carried.

Three letters were received from the following in reply to one sent each of these parties by Village Clerk Mogle with reference to the dangerous crossing which will be created on Crescent Boulevard when the new State Route # 53 is completed.

Robert Kingery, Director Dept. of Public Works and Buildings, Springfield,
Eugene L. Gates, Supt. of Highways, Wheaton, Illinois.
The Chicago Motor Club, Chicagp.

All promised to consider the matter seriously before the cross-

ing is completed and the Chicago Motor Club suggested that a count be taken along Crescent Boulevard to find out how heavy the traffic is, the count to extend over a week and reported in half hour periods. A motion was made by Trustee Schermerhorn and seconded by Trustee Lucas that the matter of a count be referred to the Streets and Alleys Committee and that all three letters be received and placed on file. Motion carried.

Communication from Works Progress Administration:

Chicago, Illinois,
October 28, 1935.

Mr. J.C. Alderman,
Village President,
Lombard, Illinois.

Dear Sir:

Your Project Proposal No. 10 for the construction of relief sewers, has been returned to us by the State office with the request that you or your representative call and see the Analyst in the State Office before the project is approved, bringing with him full data and plans. I would suggest that it will probably be well to have the engineer who is representing you on this work call with this data.

Very truly yours,

H.M. McCullen, Director
District No. 2.

By Edwin Hancock, Supervisor of
Construction Projects, District No. 2.

A motion was made by Trustee Potwin and seconded by Trustee Lucas that the above letter be referred to the W.P.A. Committee, consisting of Trustees Lucas, Randolph and Potwin, to the Sewers Committee and a copy sent to Village Engineer Deutchler with instructions to call on Mr. H.M. McCullen. Motion carried.

The following communication addressed to Trustee Lucas under date of November 4, 1935 and signed by Joseph A. Ott, Supt. of Sewers, Lombard, was presented to the Board by Trustee Lucas, Chairman of the Sewers Committee:

There is a very unsanitary condition existing on Vance Street south of the A.E. & C. Ry. Here there are four houses connected to the sludge line of the big sewer. This line is taken off at the corner of Finley and Hickory, running down Hickory to Vance Street thence north on Vance to Willow and down Willow to the Sewer Plant.

This line is level and when there is a heavy rain the basements are flooded, due to the fact that there is very little fall between the basements and the clarifier where this line empties.

It is believed that if the floor drains were disconnected from the sludge line and a line laid to the 9 foot sewer on Hickory with back water traps on the line outside of each building, these traps to be in manholes, the condition now existing would be relieved.

A motion was made by Trustee Potwin and seconded by Trustee Fleege that this matter be referred to the Sewer Committee to estimate costs and report back to the Board. Motion carried.

Communication from Westmore Improvement Club:

Lombard, Illinois,
November 2, 1935.

President of Village Board,
Lombard, Illinois.

Dear Sir:

According to contract it was stated that four years after the paving of Meyer's Road the State would refund 25% of the total cost to the property owners.

In as much as the four years are up we would like to know if any plans have been made for refunding the money.

Yours truly,

Earl Simpson, Secretary
Westmore Improvement Club.

A communication was received from the Illinois Municipal League, dated October 22, 1935, to give information to the Board as to the status of the public utility tax case and to request information which would help the League Attorneys in filing suit against payment of this tax. The C.W. McNear & Company contract referred to above reads as follows:

Chicago, Illinois,
October 31, 1935.

Honorable Board of Trustees,
Village of Lombard, Illinois.

Gentlemen:

It has come to our attention that the Village of Lombard, DuPage County, Illinois, is contemplating additions and improvements to the municipally owned and operated water system, and that in this connection the Village has applied for a Federal grant from the P.W.A. to provide funds covering part of the cost of these improvements.

We further understand that it will be necessary for the Village of Lombard to issue its WATER REVENUE bonds to finance the balance of the project. To enable the Village to take advantage of the P.W.A. grant and to start work upon this project at the earliest possible date, we hereby agree to purchase the above mentioned WATER REVENUE bonds upon the following terms:

For legally issued WATER REVENUE bonds of the Village of Lombard, DuPage County, Illinois, to be issued in an amount not to exceed $55,000, to bear semi-annual interest at the rate of 4% per annum and to mature serially over a period not to exceed 40 years, in such a manner that the total requirements each year for both principal and interest shall be approximately equal, we will pay you $950.00 per $1,000.00 bond together with accrued interest from date of bonds to date of delivery to us. These bonds shall be issued under the provisions of an Act of the 1931 Regular Session of the General Assembly of the State of Illinois, commonly known as House Bill #899 and all legislation amendatory and supplemental thereto.

The legality of any proceedings passed or to be passed by your Board of Trustees and the security for the payment of these bonds shall be subject to the approval of Chapman and Cutler, Attorneys, Chicago, Illinois, and you agree to take such further action and furnish such further papers as these attorneys may consider necessary to establish the legality of

the bonds to their entire satisfaction. We agree to furnish the blank bonds and to pay the cost of the approving legal opinion of the above attorneys.

We assume that the proposed project will be placed under construction within the next sixty (60) days from the date hereof. Consequently, consistent with good banking practice regarding open commitments, we reserve the opinion of withdrawing from our obligations and undertakings under the terms of this agreement, at any time thereafter if the bonds have not been delivered to us.

It is understood and agreed, in the event the Village of Lombard is unsuccessful in its efforts to secure the aforementioned grant from the P.W.A., that neither party to this agreement shall be bound by the terms thereof unless it is the desire of the Board of Trustees to finance the entire project through the issuance of WATER REVENUE bonds - in which event we agree to purchase and you agree to deliver to us such an amount of bonds as will be sufficient to pay all costs of the proposed improvements, subject to the terms hereinbefore set forth in this agreement.

It is mutually understood and agreed that your acceptance of this proposal by resolution shall constitute a contract for the purchase and sale of the bonds above described.

Respectfully submitted,

C.W. McNEAR & COMPANY

By R.L. Robinson.

Way, Pastor of the Methodist Church, Lombard, requested the Village Board to have several trees trimmed in front of the church which needed attention. It was reported that at present there were no funds to take care of this work but that there was a W.P.A. project before the government to take care of tree trimming and as soon as this was approved the trees would be taken care of. A motion was made by Trustee Randolph and seconded by Trustee Potwin that the letter be referred to the W.P.A. Committee and Mr. Way advised of the situation. Motion carried.

To the People of Lombard

President and Board of Trustees Issue Statement on Proposed PWA Water Project

Elsewhere in this edition of the Lombard Spectator will be found an ordinance which was passed by the president and the board of trustees of the village of Lombard on Monday, November 18, 1935, authorizing a bond issue for the purpose of building a water reservoir and ground storage tank for the village of Lombard.

The first thing noticeable about this bond issue is that it is not paid out of general taxes or by special assessments, but rather out of the water revenue derived from the sale of water to the water users of Lombard, and that the present rate for water will pay for the improvements without any additional cost to the taxpayers.

The ordinance fails to state the fact that the president and village board of trustees hope that they will be able to get the government to furnish 45% of the costs of the improvement, in which event the amount of the bond issue will be reduced by that amount so as to cut the cost of this improvement greatly, leaving a balance of approximately Twenty-eight or Twenty-nine Thousand Dollars to be paid by the water department of the village of Lombard. The opportunity of getting the government to pay part of the costs is one which will expire on December 15 of this year, and if we fail to get the money there will never be another chance, so the president and the board of trustees feel that this is an opportunity which they must grasp if possible.

The improvement contemplated is one that has long been needed and will consist of an elevated water storage tank to give pressure to the water mains and a ground reservoir which will act as a storing tank, and which will improve the water of the village, besides furnishing a reserve for emergencies and fires.

The several presidents and boards of trustees for a long time past labored under a great handicap in the water department in that their reserve water supply was totally inadequate to meet any sudden demand. There was a period during the dry season of a year ago when there was no reserve supply of water whatever, and the pressure was furnished by pumping directly into the mains. At the height of the dry season, the old water tank had from eighteen to twenty holes in it and had to be emptied out, and cleaned so that the welder could work on the repairing of the same, and, of course this happened right at the time when water was greatly needed.

The president and the board of trustees at that time failed to sleep nights because of the fact that if a big fire had broken out it was questionable whether they could have controlled the same, having no pressure tank and having only the supply that could be pumped by the pumps directly into the main, and in the event one of the pumps had broken down, which happens occasionally, the village of Lombard would have been in a bad condition.

The improvement contemplated will reduce the fire insurance rate enough to more than pay for the costs in reducing rates on the homes and business blocks in Lombard. The cost of pumping the water will be greatly reduced because it will be done during th off-peak hours so that a cheaper rate for electric charges may be had and thus reduce the cost of our water supply.

The new ground reservoir tank will serve as a settling tank which will give the Lombard water user clear and better water, in addition to serving as a reservoir supply so that we may always have plenty of water in case of necessity.

Again, the cost of financing this project under the contract that the president and board of t rustees have, will be aproximately four per cent on the money invested which is the cheapest financial cost that may be had in many years.

It seems to be the concensus of opinion after considering all the facts in the case, that since the improvement will be paid for out of income without additional cost to the village, and will not be added to the general taxes and special assessments and since it will reduce the fire insurance premiums to that extent, which will more than pay for the improvement, and as the safety of the vil- will be greatly enhanced thereby, and danger of fire or some such emergency is greatly lessened, and the users will receive a finer, better grade of water, because it will be clearer and easier to use, that the improvement should be made.

A motion was made by Trustee Randolph and seconded by Trustee Schermerhorn, that Ordinance No. 371, authorizing and providing for the issuance of Water Revenue Bonds of the Village of Lombard, DuPage County, Illinois, for the purpose of defraying the cost of improving and extending the present waterworks system of said Village, etc. be adopted. President and Board of Trustees,
Lombard, Illinois.

Gentlemen:

In reply to your request for information as to remission of penalties on special assessments after the same have been paid up, I fail to find in the statutes anywhere any provisions setting forth and giving the Village President and Board of Trustees the right to remit penalties. The nearest approach to such permission is found in Paragraph 196, Chapter 24 of Cahill's Illinois Revised Statutes, 1935, that says that the Board of Trustees or Council of a city having a population of over 500,000 may authorize the municipal officer to waive the penalties for the first year in excess of seven per cent, but in my opinion this provision of the statute does not apply to the Village of Lombard.

As I read the statutes, before this provision can be applied, the city must be in excess of 500,000 population. Therefore I believe that the safer thing to do is to refuse to waive penalties.

Respectfully submitted,

John E. McCoy,
Village Attorney, Lombard, Ill.

A motion was made by Trustee Lucas and seconded by Trustee Randolph that the above letter from Mr. McCoy be received and placed on file. Motion carried.

Lombard, Illinois,
December 2, 1935.

Board of Trustees,
Village of Lombard.

Gentlemen:

On the 9th of May, 1929, a fee was paid to the Village of Lombard for water service. However, at this time the water main on the west side of south Main Street had to be reached by digging a tunnel under the entire pavement. The water service was reached 13 feet west of the center of the pavement at a cost of 75¢ per foot.

I am therefor asking that I be granted an allowance for $9.75 to reimburse me in this matter, allowance to be credited to my water account.

Trusting this meets with your approval, I remain,

Yours very truly,

J.W. Swihart,
801 South Main Street.

Special Meeting of Lombard Village Board. December 9, 1935.

A special meeting of the President and Board of Trustees of the Village of Lombard, was held in the Village Hall at Lombard, Illinois, on December 9, 1935. The meeting was called to order at 8.00 P.M.,pursuant to notice given, by the President, with the following members present:

President,	J.C. Alderman
Trustee	Clifford Schermerhorn
"	Harvey Lucas
"	Earl Randolph
"	Henry A. Potwin
"	Harry Fleege

On motion made by Trustee Potwin and seconded by Trustee Lucas the following proposition made by C.W. McNEAR & COMPANY was authorized to be accepted, and the President and Clerk were authorized to sign same.

President and Members of the Board of Trustees,
Village of Lombard, Illinois.

Gentlemen:

We understand that you have outstanding $39,000 general obligation bonds, approximately $6,000 of which are in default at the present time.

We have sold a considerable number of these bonds to our customers and conducted on behalf of the Village of Lombard in 1933 a refunding program which placed the village in a current position at that time. We regret that this condition has again arisen and it appears to us, upon a survey of the situation, that it would be adviseable for the Village of Lombard to reduce its interest charges on these outstanding bonds and to spread the maturities more thinly over a longer period of time so that the principal and interest may be met promptly in the future.

Having sold and handled the bonds previously, as well as to have conducted your last refunding program, we feel obligated to do every thing in our power to assist the bondholders and the Village in this present instance. We, therefore, offer to purchase new refunding bonds for the purpose of refunding the entire bonded indebtedness of the Village of Lombard to an interest rate of 4¾%, maturities to be spread over a period of 20 years as may best be adapted to the ability of the Village to pay.

As your outstanding bonds are not callable, we will also approach the present holders of the bonds and endeavor to induce them to exchange their present holdings for the new Refunding Bonds or to accept cash. We are in touch with all the bonds at present. In the event that holders of present outstanding obligations should desire new bonds rather than cash, we agree to make such an exchange at par.

We will furnish and pay for the legal opinion of some recognized firm of municipal bond attorneys, and will also furnish the blank bonds.

In consideration of our services in this connection you are to pay us upon the consumation of this transaction, the sum of $390.00. In the event that the transaction cannot be consumated, the Village of Lombard will not be liable for any expense. This contract to be carried out within ninety days after signing.

Respectfully submitted,

C.W. McNEAR & COMPANY

By R.L. Robinson

The above proposal is hereby accepted in its entirety

for and on behalf of the Village of Lombard, Illinois, by resolution passed this 9th day of December, 1935.

J.C. Alderman, President.

ATTEST:

Hubert E. Mogle, Village Clerk.

The expense on this project to be met by the Village of Lombard amounts to $123.25 which represents the purchase of shovels, scoops, wheelbarrows, picks, mattocks, rakes, files and miscellaneous items which are shown in detail on our accounts. These tools and equipment provide for 50 laborers.

Project #20

This project provides for tree-trimming, landscaping public properties and a general beautification program. The application was described in a very general way to permit a change of work as needed. The wisdom of this move has been demonstrated by the use of C.W.A. #20 to provide skating ponds and slides for the children of Lombard.

This project provides for the employment of 30 men for 11,700 man-hours. The men were assigned as follows:

November 20, 1933 16 men
December 15, 1933 14 "

The man-hours consumed to December 31 total 3768 which represents a payroll of $1884.00. The work accomplished to date can be described as: beautification and landscaping Village Hall property; trimming trees on South Main Street, south of Hickory to Wilsom Road; planting some shrubbery at sewage plant; const constructing skating ponds at Village Hall, South Main Street and and Westmore School; cleaning out Lilac Grove on Lodge Lane to provide picnic grounds; cleaning up Lilac Pageant grounds.

This project is under the direct supervision of C.J. Hudson, Park Superintendent who is very ably carrying on.

Project #1884

This project provides for the interior decoration of the Village Hall, the Fire House and the repair and painting of the Water tank. It provides for the employment of 4 painters and 1 steeplejack and painter for a total of 1820 man-hours @ $1.20, the agreed scale for skilled labor. These men were assigned as follows:

" 15, 1933 1 steeplejack
" 22, 1933 1 painter

The man-hours consumed total 321¢ which represents a $385.80 payroll. Material bills to date are $99.86 for that portion to be paid by the C. W. A. and $48.90 to be paid by the Village of Lombard.

The work completed to December 31 consists of about 40% of the total work to be done on the Village Hall and about 30 % of the work has been completed on the water tank.

This project is under the direct supervision of Rollin Hall, janitor.

Project #2061

This project provides for the leveling of all parkways by hand-grading and the graveling of the roadway through the Disposal Plant property. Providing for 23,400 man-hours with 60 men and one foreman. These men were assigned on the following dates:

December 15, 1933 20 men & 1 foreman
" 22, 1933 35 men
" 30, 1933 5 men

The man-hours consumed to December 31 total 2471 which represents a $1235.50 payroll. The work accomplished consists of approximately 2,400 lineal feet of shoulder graded and properly drained. This work is shown on South Main Street and is the first step towards improving the entrances to Lombard.

The Village expense on this project as recorded is $104.55 which represents shovels, picks, and mattocks adequate to equip 60 men. There is an added item of $69.00 for wheelbarrows which is to be paid by the C. W. A.

All of these projects are being generally supervised by the undersigned with the assistance of Joe Ott on project #19, H. J. Zbaren on project #2061, C. J. Hudson on project #20, four timekeepers, one inside office man, and one draftsman who does the planning and layout work for all projects.

The activities of all projects and the progress made together with man hours consumed and recommendations are reported daily by the project Engineer, Frank G. Dillard, who reports to the C. W. A. In this way the C.W.A. maintains the proper control on these activities.

With reference to the items shown above as Village expense there will be additional minor items that have not been recorded as yet.

Additional reports will be submitted monthly, but will be in the form of statistical reports rather than descriptive.

It has been suggested by President Morgan that we submit additional projects providing for skilled labor namely electricians to check all existing electrical wiring owned by the Village and the ornamental street lighting system. Secondly plumbers to inspect and repair and properly record the location of all water service boxes and valves. Third the possibility of employing at least three accountants to assist in auditing all Village of Lombard special assessments.

If these proposed projects meet with your approval will you kindly so indicate by motion so that the applications may be submitted at an early date?

May I also suggest that the Village of Lombard be prepared to submit supplemental projects to carry on the present work on projects #20, 19 and 2061 ad the C.W.A. in all probability intends to extend this program beyond the original schedule.

Respectfully submitted,

R. G. Clarke

Carried.

The clerk then presented reapportionment petitions in the name of H. A. Hover and Others on lot 14, E. A. Zander's Addition to Lombard on warrant #95. The clerk then read the following communication from G. H. Deuchler, Village Engineer,

Honorable President & Board of Trustees
Village of Lombard, Illinois

Gentlemen:

I have examined the reapportionment petition of H. A. Hover and Others, for lot 14 E. W. Zander and Co's Addition to Lombard, Warrant Number 95 and do not wish to approve it for the following reasons:

1. I do not believe the descriptions properly describe the parcels as shown on the enclosed maps, since the southwest corner of the block as originally laid out is in the street.

2. This property was assessed from the frontage records as paid in Wheaton, and I do not believe that the Village of Lombard can legally assume the $33.00 mentioned in the petition, although I am now convinced that there is but 186 feet of frontage, instead of 202.5 feet upon which general taxes were paid.

Respectfully submitted,

G. H. Deuchler
(signed)

It was then moved by Trustee Sedgwick seconded by Trustee Flint that the Village Clerk be requested to advise Mr. Hover of the foregoing communication.
Carried.

The Village Board then participated in a general discussion on the undesirable condition existing on east St. Charles Road due to the fact that an automobile junk yard was being operated on a portion of land outside the corporate limits. It was moved by Trustee Sedgwick seconded by Trustee Alderman that the Village Clerk be requested to report this matter to the State Fire Marshall's office asking that the office attempt to regulate the conditions under which this business is operated.

Carried.

R. H. Menz then addressed the Board on this subject in behalf of the Lombard Beautification Committee and urged that all available means be exerted in an effort to eliminate this unsightly condition.

John E. McCoy, Village Attorney, then brought out the fact that this business could be restrained by adjoining property owners who might possibly obtain an injunction on the premises that the business conducted was a public nuisance and a detrament to the immediate community.

It was then moved by Trustee Alderman seconded by Trustee Flint that Trustee Groote act as a committee of one to prepare a petition and contact the owners of property adjacent to this junk yard in an effort to obtain a court order restraining future business.

Carried.

John Longmore then addressed the Board stating that he had been advised that the Village of Lombard was responsible for the delay in the construction of State Route #53. After assurances to the contrary by the Village Board it was moved by Trustee Groote seconded by Trustee Alderman that the Village Clerk write E. L. Gates, County Supt of Highways asking him what was responsible for the delay in the construction of State Route #53.

Carried.

It was then moved by Trustee Alderman seconded by Trustee Flint that the Village Clerk be requested to write R. T. Cash, Division Engineer for the State Department of Highways asking for information concerning the One-One-One gas tax distribution and the supposed submission of certain resolutions to be adopted by the Village Board of Lombard in relation thereto. Carried.

John E. McCoy, Village Attorney, then inquired as to the use of C.W.A. accountants in the auditing of certain special assessment rolls and upon being advised that an estimate on the number of man hours and men was needed he volunteered to submit that information to the Village Clerk at an early date.

R. H. Menz, Chairman of the Lombard Beautification Committee then presented the following communication:

Dear Mr. Menz:

At our Green Valley Club meeting last Tuesday evening we decided we would like to keep beautiy here in the neighborhood instead of someplace farther away. We would like to have the right of way along the Aurora & Elgin tracks and around the Green Valley Station as our spot to sponsor.

It was suggested from Elizabeth Street to Finley Road be put in better condition and any thing possible done to the station itself.

A number of shrubs have been offered.

Is there anything that you could do to help in this matter or any suggestions you could make?

Very sincerely

Gertrude Hildreth
Margaret Stretch

Committee from Green Valley Club.

It was then moved by Trustee Flint seconded by Trustee Alderman that this communication be received and placed on file with the understanding that the work referred to be consummated at the earliest opportunity.

Mr. Younger, living on Maple Street west of Highland Avenue then lodged a complaint as to the condition of Maple Street from Highland Avenue to his home and asked that gravel be spread at this point. The clerk then read the following communication:

Mr. R. G. Clarke
Village Clerk
Lombard, Illinois

Dear Sir:

Answering your letter of January 17th regarding the status of S.B.I. Route #53 through Lombard, the State of Illinois, about three weeks ago, turned right-of-way plats over to me for the securing of right-of-way to build this route near and through Lombard.

The road will follow Columbine Avenue and south along the township line.

As the county does not have money to pay for right-of-way and have requested the State of Illinois for this money, we have not made agreements with any of the property owners as yet.

In taking this up with my road committee it was voted to ask the states' attorneys office to draw up an agreement whereby we might secure right-of-way with an option or put it in escrow and doing this work while waiting for a decision by the state as to whether they will pay for the right-of-way or not.

Yours very truly,

E. L. Gates
Supt. of Highways.

It was then moved by Trustee Sedgwick seconded by Trustee Schermerhorn that this communication be received and placed on file. Carried.

Dear Sir:

In re: Junk yard property, East St. Charles Road just East of Chicago Great Western Grade Crossing, Lombard, Illinois.

I just have a report from Deputy Hoffman on the above. He advises that he went over the entire building as well as the premises and could find no special fire hazards which would justify an order under the Fire Marshal Law. He did advise the owner to clean up the lot somewhat and leave aisles between the different groups of automobile bodies, which the owner promised to do.

The deputy states that the premises are no doubt a nuisance and are unsightly, but this department has no jurisdiction except over fire hazards. The deputy states that this property is surrounded on all sides by incorporated territory of the Village of Lombard, but is itself not a part of the corporation of Lombard.

Very truly yours,

DEPARTMENT OF INSURANCE

Sherman V. Coultas

Mr. Clark
Village Clerk,
Lombard, Illinois

Dear Sir:

On July 1, 1931, I bought from Mary A. Crimmins the property described as the West half of Lot 55 Homeacres Subdivision, located at 217 South Third Avenue, Lombard.

This transaction was handled by Geo. M. Smith & Son as selling agents who had the sewer and water assessments re-apportioned and paid the necessary fee of $5.00 for so doing. However, in making this division, it was impossible to take care of supplementary assessment on the sewer for the reason that no Board Meeting had been held between the time of spreading this assessment and the sale of the property to me.

This matter was neglected by Geo. M. Smith & Son, and in April 1933 I discovered the reapportionment of this special assessment had not been made, and called Mr. Smith's Attention to it. Another petition was drawn up at that time and signed by Miss Crimmins and myself, and I paid Mr. Smith $ .75 for registering it at the Village Hall.

I have recently been informed that this petition was merely left at the Village Hall and no fee paid. I am now informed that it will be necessary to pay $5.75 to have this matter taken care of, and I consider this charge exhorbitant inasmuch as the original $5.00 fee has been paid once, and should not be collected again.

I would appreciate your taking this matter up with the Board at their next meeting, and inform me of what action is taken, as I am very anxious to pay my portion of the assessment without any further delay.

Yours very truly,

Tena Cody
217 South Third Avenue

Dear Sirs:

Dear Sir:

On January 7th, 1930 the second installment on sidewalks, in the Kiantone Addition, Lot 4, Block 4, was paid, to the sum of $47.17.

No doubt I was charged for ten years interest instead of five. Kindly investigate and let me hear from you.

Warrant #93, page #3.

I bought this place from George Stott in 1928, so the Assessment Bill is in his name, but paid by me, so please send information to me.

Yours truly,

Wm. Jordan

It was then moved by Trustee Mayer seconded by Trustee Groote that this matter be referred to the Special Assessment Committee for their recommendation.

Mr. R. G. Clarke
Village Clerk
Lombard, Illinois

Dear Sir:

Replying to your letter of February 10, in which you state that the Board would like to determine what the annual franchise allowance in therms represents in dollars, I might state that I am attaching to this letter a bill showing the more commonly used rates under which gas is sold.

You will note that the first step in our domestic gas rate is 24½¢ per therm and were the annual allowance under the franchise agreement, namely 1200 therms, computed on this rate it would amount to an equivalent of $294.00. Were the Village considering, for example, the heating of the Village Hall, the gas used there would be billed on the house heating rate applicable to that type of service, and the rates for that service would be the governing feature on any excess over the annual allowance.

We are working with several communities on this basis or rather they are using their franchise allowance for heating purposes and the monthly consumptions are computed on the basis of the regular rate and if the franchise allowance completely covers it no bill is rendered. If the allowance does not cover them the regular rates for that class of service are billed to the Village for any excess.

The Board has in mind, I presume, some specific use for this gas and I believe that with that in mind and with the residential rate, the house heating and the small commercial and industrial rates, as shown on the attached enclosure, that you or the board would be in a position to estimate in dollars the equivalent of the annual allowance of 1200 therms.

For the purpose of clarifying the matter I mentioned the highest rate per therm in our rates which would bring a figure of $294.00. If you would care for any further information at this time, before taking this information to the Board, I would be only too glad to run over to your office at any time and go over the matter in more detail with you.

Very truly yours,

Daniel Garrity
District Manager

The clerk then read the following report of the Light and Water Committee:

To the President and Board of Trustees
Village of Lombard

Gentlemen:

At the last Board meeting there was referred to this Committee complaints regarding the disconnection of certain Ornamental Street Lamps on the east side of Grace Street between St. Charles Road and the C.A. & E. This section together with various other sections adjacent to uninhabited property was disconnected in June 1933 upon the recommendation of this Committee which recommendation was concurred in by all members of the Board as shown by a roll call at the meeting of June 5, 1933.

The following is an excerpt of the recommendation made at that time:

> "A survey of the Ornamental Street Lighting System shows, that 12 - 2500 lumen lamps, and 22 - 1000 lumen lamps can be removed. These lamps are all in sections adjacent to uninhabited property. As the reduction in load is all in one circuit it was deemed advisable to obtain the opinion of the manufacturer of the regulating equipment. This opinion was favorable to the removal and we have, therefore, ordered the Superintendent of Water and Light to remove the lamps in question. Proper steps will be taken to record this change in the Village records."

In order to indicate the savings effected by the general plan which was adopted at that time the following is a comparative statement showing the costs of Ornamental Street lighting expenses for the period June 1932 to December 1932, against the same period in 1933.

June, 1933	$151.49	1932 -	$204.95
July	153.00		245.69
August	152.76		241.38
September	157.92		281.54
October	166.32		259.97
November	121.70		204.42
December	207.95		301.53

With reference to the complaint registered regarding the removal of bracket type lamps on Meyers Road, your Light and Water Committee authorized this, feeling that these lights could better be utilized in sections that were entirely without light, for that reason one light has been installed at Lewis and South Brewster and another has been ordered installed at Edgewood and Washington Boulevard in compliance with the request made by the Westmore Improvement Club.

Respectfully submitted

The clerk then read the following report of the Fire and Police Committee:

Lombard, Illinois, March 5, 1934.

TO THE PRESIDENT AND TRUSTEES OF
THE VILLAGE OF LOMBARD, ILLINOIS.

Gentlemen:

The undersigned, the members of the Fire & Police Committee of the Village of Lombard, after conference with the Chief of the Fire Department, do report and recommend as follows, to wit:

1. The Fire Department owns two cartridge or Canister type Gas Masks. The Canisters to these two masks need to be immediately replaced. The cost is approximately $10.00 each. We, therefore, respectfully solicit approval by this Board to purchase said two replacement Canisters. This should be done at once.

2. The Chief of the Fire Department reports that these Bas Masks are insufficient. It is, therefore, requested that this board approve the purchase of 6 Fireman's Safety Gas Masks with Eye Shields, costing approximately $3.50 each for a total of $21.00. This purchase should also be made at once.

3. The Fire Chief and all members of the Fire Department request the privilege of having a Kiddie Conversion Cylinder costing approximately $95.00 attached to the compression tanks now carried on the Fire Truck, which can be done at no cost to the village for the labor of attaching, and which when accomplished will enable the department to use compressed carbon dioxide gas as an extinguisher instead of using the soda and acid mixture now provided for. It is claimed that the compressed carbon dioxide gas is 25 % cheaper to use, and useing the same eliminates all danger from the distructive corrosion and eating qualities of the acid. It is claimed furthurmore that the use of the gas expedites the extinguishing of fires and eliminates the distruction to clothing hose and other materials caused when the Soda-acid compound is used. The manufacturers of the Kiddie Conversion equipment guarantee the same and one year is granted to test out the equipment, after which the company will either remove it at no cost to the village, or the village can pay for the same.

4. The Fire Department has had some recent diffuculty with Fire Hydrant Valve Stems. It therefore is recommended to the Water and Light Committee that provision be immediately made for all Fire Hydrant Valve Stems to be cleaned and thoroughly greased to eliminate rust, corrosion and the sticking or freezing of valve stems. When this job is done, it is also recommended that each hydrant be carefully examined for valve leaks, and if any appear that the valves be carefully repacked.

5. It is further recommended that it be the policy of the Village Board and the Fire Department of this village to answer all fire alarms caused by fire to any and all property located within the limits of the said village inclusive of calls for assistance from the Fire Departments of neighboring villages and towns; that in case of a call caused by fire to property located without the limits of the village of Lombard, or any other village, then in order for the owner of said property to be afforded protection by the Fire Department of this village, he shall execute a joint agreement with other property owners of such property located outside the limits of the said village whereby a payment of a minimum of $75.00 for each such call shall be assured. It is further recommended that such blanket agreement be drawn by the attorney of said village, providing for such joint signature by property owners of property located outside of the limits of this or any other near-by village, the same to be placed into the hands of the Chief of the Fire Department to be signed under his supervision. It is further recommended that a letter be prepared by the Village Clerk and executed by the President of this village, which shall clearly reveal this policy of the village and its Fire Department, the said letter to be placed in the possession of the Chief of the Fire Department and made of record in the minutes of a regular meeting of the said Fire Department. It is further recommended that a statement of this policy be published in the local press. It is further recommended that under the supervision of the Chief of the Fire Department each property owner who signs the said joint agreement be given a code number, a chart to be prepared revealing the name of the owner, the location of the

property and the code number and hung in a conspicious place in the Fire House in order that under this policy there shall be no delay in answering any fire alarm caused by fire in or to the property of such owners.

The undersigned, your special Committee on Civil Works, under the Civil Works Administration of the Federal Government, desire to report and recommend as follows:

1. Local CWA Project Number 19, involving 56 men, expires in a very short time. This project involves grading and graveling of unimproved and unsurfaced streets. In view of this fact it is recommended that the President and Clerk of this Village file with the local County Civil Works Administration, for subsequent approval by the State Administration, a continuation of this project up to May 1, 1934 inclusive. This would mean, if said continuation is approved, inclusive. This would mean, if said continuation is approved sustained employment for the aforesaid 56 men and the total wages, involved is $13,006.50. Such continuation also involves $300.00 for additional gravel. Under the interpretation of the latest regulations on materials, said interpretation being pronounced by local CWA engineer C.W. Bainbridge, a former member of this board, the Federal Government will meet only one-half this cost. This therefore involves an appropriation by this Board of $150.00 for gravel, and this constitutes the only cost to the village of this continuation. We recommend that this appropriation be made.

2. Local CWA Project Number 20 also expires in a very short time. This project involves tree trimming and general beautification, inclusive of the planting of trees and shrubs. It therefore is recommended that the President and Clerk of the village be authorized to file with the County CWA another project which would would provide for a continuation of the work now being carried on under project number 20. This involves continued labor for 30 men until May 1, 1934.

Dear Sir:

The President and Board of Trustees of the Village of Lombard at a meeting held March 5th, 1934 passed a resolution designating an Arterial Street. This resolution was approved todayand is described as follows:

Arterial Street No. 1. Beginning at the east village limits and extending in a westerly direction along Washington Boulevard and Home Avenue to an intersection with Main St. (S.A. Route 9 Ext.)

In the above we have included both of the streets that the village requested as Arterial Streets. We have combined them into Arterial Street No. 1 as we feel this will be more satisfactory and will simplify future records. If this does not meet with your approval please inform us promptly.

Very truly yours,

It was then moved by Trustee Groote seconded by Trustee Schermerhorn that this communication be referred to the Streets & Alleys Committee. Carried.

The clerk then read the following report of the Sewers Committee:

To the President and Board of Trustees
Village of Lombard

Gentlemen:

The Sewer Committee has investigated the request of Mr. William Albers for a connection for surface drainage from his farm land into the Village sewer at the intersection of the alley adjacent to the CNW RR right of way at Chase Avenue.

We find that the Village Sewer on Chase Avenue is thirty inches in diameter and Mr. Albers only requests a small connection. This Committee, therefore, recommends Mr. Albers be allowed to make such a connection upon the following conditions:

That the connection into the Village sewer be made under the supervision of Mr. Ott and that only the surface drainage from the low area in the Alber's farm be allowed to drain into the sewer. Should Mr. Albers use this land for any purpose other than farm land the Village reserves the right to disconnect the same from the Village Sewer, or should the property change hands the Village also reserves the right to remove the drain connection.

Since Mr. Albers is now draining a portion of his farm into the Village sewer in Grace Street we advise that Mr. Albers be charged a fee of $25.00 per year for this service and also save the Village harmless from all damages arising from such construction work within Village Streets.

Respectfully submitted,

Richard Groote

BE IT ORDAINED BY THE President and Board of Trustees of the Village of Lombard in regular meeting assembled:

SECTION 1. That Section II of Ordinance No. 343 be amended by adding to said Section II the following provisions in addition to those set out in Ordinance No. 343:

That on and after the passage of this ordinance every applicant for water service of the Village of Lombard shall deposit with the Water Department of the Village of Lombard the sum of Five Dollars ($5.00), said deposit to be credited on the books of the Water Department of the Village of Lombard to the credit of the applicant, and that in the event of the applicant becoming a user of water in the Village of Lombard and becoming delinquent in the payment of his water account as specified by ordinance heretofore passed, the Amount of the delinquent account shall be deducted from the Five Dollar deposit and credited at the time of the applicant making application for water service, and the water service to said water user shall be ordered discontinued until the said water user has paid his delinquent account and deposited enought money with the Village of Lombard so that he will again have a credit of Five Dollars ($5.00) to his account, it being the purpose of this ordinance that every water user who becomes a water user on or after this date shall at all times have a credit on the books of the Water Department of the Village of Lombard of Five Dollars ($5.00) for the protection of the Village, EXCEPT water users whose bills average a larger sum than Five Dollars ($5.00) in which case the amount of deposit required shall be a sum equal to twice the amount of the average water bill, said deposit to be credited and used in the exact manner as hereto fore outlined for Five Dollar depositors.

52 No. Lincoln St.
Lombard, Illinois.

April 14, 1934.

Mr. A. F. Spellerberg
Village Collector
Lombard, Illinois

Dear Sir:

Your letter of April 9 regarding the delinquent water bill of $41.51 has been received.

During the early part of 1931 I was appointed to spread Special Assessment No. 122 (Supplemental 88) by the President of the Village Board. The fee as fixed for this service, according to the records at Wheaton, was $150.00. This amount or any part of it has never been received up to the present time.

It has never been my contention that the Services rendered by myself in this matter were worth the amount of the fee fixed. However, it is my belief that I should be reimbursed for the service rendered and the expense incurred in handling the spreading of this assessment.

A satisfactory arrangement as far as I am concerned would be a receipted bill for the water account you have charged to me.

Yours very truly,

E. C. Claflin

It was then moved by Trustee Schermerhorn seconded by Trustee Sedgwick that this request be denied and the Village Clerk be requested to write Mr. Claflin explaining that while the Board did not recognize nor admit this claim as an obligation of the special assessment fund it did feel that were the claim to be paid it must be paid from the special assessment account and not the corporate fund of the Village of Lombard.

Mr. Hummel, 212 South Brewster then addressed the Board asking that the Village ordinances be observed in connection with the moving of a barn and remodeling as a garage at the southeast corner of Brewster and Maple Streets. It was explained to Mr. Hummel's satisfaction that the regulating ordinances were to be enforced by the Superintendent of Building Construction.

L. S. Whitbeck representing the Lombard Lion's Club then addressed the Board and conveyed the sentiment of the organization in regard to the automobile junk yard conducted on the East end of St. Charles Road, it being their opinion that the conduct of this business on a main artery was detrimental to the civic health of the community.

Trustee Groote reported that he had recently become title holder of a piece of property directly adjacent to this junk yard and following the thought of this board expressed at an earlier meeting he would investigate the possibility of obtaining an injunction or restraining order that would remedy this undesirable business.

It was then moved by Trustee Schermerhorn seconded by Trustee Sedgwick that this meeting adjourn till Wednesday, April 18, 8 p.m. So ordered.

Mr. R. G. Clarke
Lombard,
Illinois

Dear Sir:

I am writing you concerning the matter of opening a boarding school at the property known as the Lumbard Estate, in Lombard. There is some question as to whether the zoning of Lombard will admit of this. If it is within the power of the Village Board to grant this permit, I sincerely hope that it may go thru, for I am sure that my venture would attain success in so wonderful a location, referring both to the house itself and to the beautiful Village of Lombard.

I have had eight years' experience in this work, am recommended by the Chicago Board of Education, the Educational Aid Society, Marshall Field Bureau of Schools, also the Chicago Daily News, Herald Examiner, Tribune, and shall become at once affiliated with the American School Ass'n. My School is known as the Elizabeth B. Hull Academy.

My intention is to conduct a school for girls with an enrollment of about thirty pupils. If I succeed in obtaining this lease, I assure you that I shall co-operate with the Village in every way.

Thanking you for any consideration that you may show me.

I remain sincerely,

Daisy L. Hull

The clerk then read the following communication:

Mr. R. G. Clarke
Village Clerk
Village of Lombard
Lombard, Illinois

Dear Mr. Clarke:

Sometime ago you asked that we investigate the costs of heating the Village Hall with gas. We spent considerable time in making this investigation inasmuch as it is somewhat difficult to state the consumption of a public building with more varying conditions than experienced in the average residence.

We find that the estimated cost of heating the building to a temperature of seventy degrees, would be $900.00 per year. From checks which we have made in preparing the figures from which this estimate is made, we believe temperatures in excess of seventy are being maintained in the Village Hall at the present time and were the present temperature, which in our opinion is approximately seventy-five degrees, being maintained with gas, it would be necessary to add 15% to the above estimate.

The burner equipment necessary would represent a cost to the Village of $570.00, or if this equipment were taken on the rental basis, $11.70 per month for the nine heating months.

The credit which the Village would receive due to franchise gas amounts to 1200 therms annually, and naturally the dollars and cents equivalent of this amount of gas depends upon that block of the rate in which one might arbitrarily assign this gas you have been allowed. On the initial step of the house heating rate gas is between 16 and 17¢ per therm and the equivalent in dollars would be approximately $190.00. On the low step of the rate, however, of 7½¢ per therm the equivalent would be $90.00.

I believe that for purposes of comparison, it might be best to estimate that the annual therm consumption represented by the annual cost of about $900.00, would be 11,250 therms, and the allowance being 1200 therms, would be approximately 10% of the requirements.

From the above information I have attempted to give you a brief outline of the situation, not with the thought in mind at all of giving you the complete data, but merely sufficient information to determine whether or not there is sufficient interest in the matter to go into it more in detail.

If that is the case I will be only too glad to meet with you or the Board and go into every angle of the matter carefully so that it will be fully understood with reference to all points in connection with a possible installation.

Very truly yours,

Daniel Garrity
District Manager
WESTERN UNITED GAS & ELECTIC COMPANY

Mr. R. G. Clarke, Village Clerk
48 North Park Avenue
Lombard, Illinois

Dear Sir:

Answering your letter of April the 21st, I fully appreciate the feeling of the Members of the Council relative to crossing protection and I am serious when I say to you that I would like to install automatic gates at all crossings over our lines if it were so possible to do. You realize our property is in the hands of Receivers and unable to secure additional capital, and our earnings being so curtailed, it makes it impossible at this time to give you any assurance of when we will be able to add any further protection to these crossings than what we have at the present time, and which we feel should be adequate when those using same give any consideration to warnings of any nature.

We certainly appreciate the splendid cooperation you have extended to us and I assure you that when conditions are such that we can contemplate any further improvements, the Village of Lombard will be given every consideration.

Respectfully yours,

J. S. Egolf
Manager of Receivers
Chgo, Aurora & Elgin Railroad Company

Report of Standing Committees:

Chairman Flint of the Finance Committee presented the following written statement from his committee:

Lombard, Illinois.
June 18, 1934.

TO THE PRESIDENT AND TRUSTEES
OF THE VILLAGE OF LOMBARD, ILLINOIS.

Gentlemen:

We the undersigned members of the Finance Committee of the said Board desire to report and recommend as follows, to wit:

1. Progress is being made in compiling a complete report on the principal and interest status of the Bonds and Warrants

held by the General Corporate Fund of the Village which were purchased from the South Lombard Trust and Savings Bank as per check dated June 8, 1932.

2. No progress has as yet been further made in the survey of the insurance of the Village, and we hope to have a report and recommendations on this subject at the next meeting of this Board.

3. After conference with and the advice of the Village Attorney the Chairman of your Committee as such executed the certificate demanded by the National Surity Co., certifying to the performance of an audit of the accounts of the Village Collector and Treasurer and the same has been filed with the Chicago representatives of the said surity company. It therefore is anticipated that no further difficulty will be encountered in procuring the extension on the surity bond of the two village officers above named.

4. Last year the Village of Lombard paid the Northern Trust Company of Chicago the sum of $17.25 as a fee for safe keeping the bonds and warrants held by the General Corporate Fund of the Village. In addition to these securities there are certain receipts, Tax Anticipation Warrants, etc. held by the Village Treasurer. In order to keep these additional valuable papers and documents in a safe place, the said Treasurer has procured at his own expense a Safety Deposit Box in a vault in one of the Glen Ellyn Banks. It seems to your committee that thus is presented an expensive duplication of safe keeping costs. Your committee therefore recommends the adoption of a resolution as follows, to wit:

BE IT RESOLVED by the President and Trustees of the Village of Lombard, DuPage County, Illinois that the Village Treasurer of the said Village be and is hereby authorized to procure in the name of "THE VILLAGE TREASURER OF LOMBARD, ILLINOIS" a safety deposit box in a bank vault the rent on the same to be paid by the said Village.

BE IT FURTHER RESOLVED that the said Treasurer of the said Village be and he is hereby authorized to place in the said Safety Deposit Box all the Bonds, Warrants, Receipts and other securities belonging to the General Corporate and Special Assessment Funds of the said Village, including those now held by the Northern Trust Company of Chicago, Illinois.

5. As the result of receipts from the County Treasurer and collections by the Village Collector, practically all accounts of local business men as of May 30th nave been paid, with substantial payments made on accounts due firms located outside the Village of Lombard. As the result the accounts payable of the Village have been considerably reduced in both numbers and amounts and a substantial cash balance remains with which to meet pay rolls and to take care of anticipated purchases, including those for the Fire Department.

6. Your Committee has seriously considered the proposal of other Committees of this Board with reference to increasing the compensation of Village Officers and Employees. As the result we recommend increases as follows:

Collector - from $1620.00 to $1800.00 - Increase of $120.00 per annum.

Treasurer - from $400.00 to $480.00 - Increase of $80.00 per annum

Chief of Police - from $1500.00 to $1680.00 - Increase of $180.00 per annum.

Sergent of Police - from $1320.00 to $1440.00 - Increase of $120.00 per annum.

Patrolmen - from $1200.00 to $1320.00 - Increase of $120.00 per annum.

Night Police Desk Man - from $600.00 to $720.00 - Increase of $120.00 per annum.

Your Committee further recommends that these salary increases take effect only at the time of appointment, said increase to apply from and after the date of said appointment.

Respectfully submitted,

FINANCE COMMITTEE

H.A. Potwin, Member

Mr. Barta objected to the present scale on which the farmers were paid for their milk stating that they were not paid in proportion to the raise by the dairy companies and suggested that this Board should draft a resolution to that effect and send it to The Hon. Henry A. Wallace, Secretary of Agriculture, Washington, D.C. The following resolution was drafted and passed, a copy of which was to be sent to the Secretary of Agriculture:

My client wishes to conduct an Undertaking establishment on these premises, but before signing up a lease with the owners of the property, my client wishes to inquire if there is anything in your zoning ordinance to conduct such business there.

This will acknowledge receipt of your communication in the form of a Resolution in regard to the retail price of milk in the Village of Lombard, Illinois.

You are perhaps familiar with the fact that under the present policy governing milk marketing agreements and licenses, the Administration refrains from any attempt to fix and enforce retail prices of milk. Where occasion necessitates, minimum resale prices are established in order to protect the producer's price in the licenses. The administration has also declared itself to be at liberty to establish maximum resale prices in the event that the lack of a schedule of retail prices would result in exorbitant prices to consumers. It has not as yet been found necessary to take such action in any of the markets operating under a Federal license.

We are referring your communication to the Consumers Counsel, Agricultural Adjustment Administration who may desire to discuss the matter further with you.

Very truly yours,

A. H. Lauterbach,
Chief, Dairy Section

It was then moved by Trustee Flint seconded by Trustee Potwin that this communication be received and placed on file and a copy of same submitted to D. D. Barta.

The following report was submitted by the LIGHT & WATER COMMITTEE:

August 3, 1934.

President & Board of Trustees,
Village Board of Lombard.

Gentlemen:

The Light & Water Committee wish to recommend certain changes in the operation of our water department in an effort to expedite the efficient and economic functioning of same. Therefor this Committee recommends that the duties of water department maintenance, meter reading and delinquent account collections be combined and said duties be performed by E.R. Becic under the direct supervision of the Superintendent of Operations.

It is further recommended tnat all telephone calls and clients of tne Village Hall be handled by one person who shall in addition to that, handle the cashier's work at the collector's office or that portion of same to be determined by and at the discretion of the Village Collector.

It is the opinion of this Committee that the added efficiency will more than offset the small cost of approximately $25.00 per year telephone expense.

It is further the recommendation of this Committee that R.B. McCombe be requested to assume the duties before mentioned.

Respectfully submitted,
LIGHT & WATER COMMITTEE

Dear Mr. Clarke,:

With further reference to the subject matter in my letter of August 8th, the company has approved the use by the Community Canning Project of Lombard of Franchise gas due the Village of Lombard under the terms of our franchise.

In previous years the amount of gas used has been less than than the franchise allowance, and I assume that it will be this year also. However, if the consumption should exceed the allowance we will bill the Village for the excess gas so consumed.

If this Project is carried out, I would appreciate your advising me as to where the gas is to be used so that we may have a record of it for both our use and that of the Village Board.

Very truly yours,

Daniel Garrity (signed)
District Manager
Western United Gas & Electric

Mr. R. G. Clarke
Village Supt.

Dear Sir:

I am the owner of lots 3 & 4 in Hall's Resubdivision of the village of Lombard.

When I bought these lots from Mr. Hover there were stakes in showing the corners of the lots.

The parties who put in the water pipes in this subdivision removed the markers, so that now it is not possible for me to find the location of the corners of my lots. I expect shortly to need this information with accuracy and do not feel that I should be put to the expense of a survey through no fault of my own.

Will you be good enough to see what can be done to replace these markers so that I may not infringe on other peoples property. Thanking you for any assistance you may be able to give me, I am

Yours very truly,

Mrs. M. A. Weisman
230 Vance Street
Lombard, Illinois

Mr. R. G. Clarke
Village Superintendent
Lombard, Illinois

Dear Sir:

In your letter of September 5, 1934, you requested signs at Roosevelt Road and Main Street but since we already have direction boards at this location I am at a loss to know what you mean. The two present boards are made in accordance with our present standards and are smaller than the old ones.

You possibly have noticed some of these old boards at roads leading to other towns and this has prompted you to request similar signs. It is our intention to replace all of these old signs with the new standard which is smaller and therefore less likely to be an obstruction to the motorists view.

Very truly yours,

R. T. Cash (signed)
District Engineer

Village of Lombard, Ill.

Gentlemen:

During the past several years I have been unable to pay the assessments against my home property at 135 East Ash St. all because of too well known conditions.

I am now in the course of a refinancing of the homestead and expect to be able to clean these delinquencies in the near future. Some of the assessments date back as far as 1928, and the penalties are "Bad", many being more than the original installment.

The total of the unpaid installments plus interest and costs amounts to approximately $925.00 and the penalties of approximately $290.00.

I am hereby petitioning your honorable body to allow me to clean up these delinquent assessments together with the interest and costs thereon, but with the penalties remanded. I understand that your body has taken similar action in other worthy cases.

Thanking you for your consideration, I am as ever

Yours very respectfully,

J. L. Shane

DOWNERS GROVE MOTOR SALES

Gentlemen:

In submitting a bid on a Ford Tudor for police work we wish to call your attention to the remarkable speed and pick up of the Ford car, which make it an ideal car for police work. The Ford has won all recent road races for stock cars and on labor day won the annual Pikes Peak climb. The first three cars to finish were Ford V-8s, breaking all previous records. The City of Chicago is buying Ford cars exclusively for squad work in as much as most of the "hoodlums" are using Fords and "it takes a Ford to catch a Ford".

Aside from its wonderfull performance it is also an economical car on gas, oil and repairs. It also demands a very high resale and at the end of forty or fifty thousand miles a factory reconditioned motor can be installed at a nominal cost of about $50.00 which includes labor and material.

Our agency is very conveniently located for service and we have a very complete service and parts department, capable of handling any kind of mechanical work, body work, paint work etc. We can also offer you 24 hour service and in the event of anything serious we will furnish you another car to use at no charge.

I would also probably be adviseable to have a high speed rear axle which will give the car increased gasoline mileage and higher speed. This can be furnished at no extra charge.

In any event that the Village of Lombard may not care to pay for the car in full at the time of delivery we will be willing to take one half in cash and extend credit to you for 30 days on the balance without any interest charges.

Mr. Clarke further informed the Board that the pavement

The Assessor, Arthur Long, has agreed to make a survey of delinquent taxes in the county for the benefit of the various tax collecting bodies, if funds can be raised to pay for this. His suggestion was that each town pay a certain amount according to its

size and population. Lombard would be required to pay $25.00. A motion was made by Trustee Flint and seconded by Trustee Schermerhorn that the sum of $25.00 be appropriated for this service on condition that the other taxing bodies join and pay their proportionate share. Roll call:

The following communication from the Lombard Floral Company was read by the Clerk:

Lombard, Illinois,
November 19, 1934.

To the President & Board of Trustees,
Village of Lombard.

Gentlemen:

After discussing with Trustee Tronvig, Chairman of the Light and Water Committee, the possibility of securing an adjusted water rate for a proposed consumption which would amount to perhaps one million gallons annually, the undersigned was advised to compile certain information in the form of a formal request for the attention of your body.

The Lombard Floral Company property is assessed approximately $330.00 for water main installation which is not at the present time connected, however, there is installed on our property a connection by way of a four inch main with gate valve. The reason this connection was made several years ago is because it was thought by the administration at that time that the Village of Lombard could very advantageously secure the added water protection by the use of our well and pumps and of course, the thirty-two thousand gallon reservoir which we maintain at capacity.

The undersigned will appreciate an opportunity to meet with the Light and Water Committee and go into this subject in greater detail and doubtless developing the fact that this proposal will be of mutual benefit.

Respectfully yours,

Arthur W. Asman.

A motion was made by Trustee Schermerhorn and seconded by Trustee Potwin that this letter be referred to the Light & Water Committee, with instructions to Trustee Tronvig to get in touch with Mr. Asman. Motion carried.

A check in the amount of $4.00 covering rental of ground leased from the Village for the period of July 14, 1931 to July 14, 1935, as specified in lease dated May 15, 1930 was received from the Lombard Park District. The lease calls for a yearly rental of $1.00. President Morgan had requested that the matter of accepting this check be held up until the complete Board of Trustees could be in session. A motion was made by Trustee Groote and seconded by Trustee Potwin that the matter be handled as requested by President Morgan. Motion carried.

A mimeographed circular from the Lombard Beautification Committee requesting support of all organizations in Lombard of a proposed "Memory Lane" as explained in the Lombard Spectator of October 18, 1934, and signed by, R.H. Menz, Mrs. W.T. Schiel and Mrs. W.E. Brophy, Committee, was read by the Clerk. A motion was made by Trustee Groote and seconded by Trustee Schermerhorn that the matter be tabled until a complete membership of the Board was present and in the meantime it be referred to the Building and Grounds Committee. Motion carried.

A statement from the District Manager of the Western United Gas and Electric Company, Daniel Garrity, of Wheaton, Illinois, dated November 14th, 1934, shows that the Village of Lombard used 164.80 therms of gas during the period of December 4, 1933 through October 3, 1934, and leaves a balance of 1,035.20 therms. A letter was received from Scott-Egerman & Lambe, Agents of the Hartford Fire Insurance Company in Lombard and dated November 17, 1934, stating that this firm had paid insurance tax in two checks- $6.02 and $2.58. One of these only should have been retained by the Village (the two checks were sent in from different offices.) They therefor ask for a refund of $2.58, because of duplication of payment. Village Superintendent of Operations, Clarke, had approached Chairman Flint as to the amount of money that would be available or required for Work Relief this winter. Chairman Flint informed Mr. Clarke that he could not at the present time give such an estimate. However he did wish to correct the impression that the men working on the village streets at present were not being paid from relief funds of the village but were working out their water debts.

Finance Committee, concl: In connection with the collection of water bills, R.B. McCombe had submitted to the finance committee the following information:

> "Checks have been issued totaling $649.15 for 963 hours work completed by 35 men working off tneir delinquent water bills."
>
> "Eleven more men have recently completed 432 hours necessary to offset their delinquent accounts. Checks totaling $259.20 will be issued."

Chairman Flint further reported that the Lombard State Bank would soon declare another dividend and suggested that some arrangement be made so that these checks could be cashed in Lombard. Names of the merchants who would cash these checks could be enclosed on a card with all the checks sent out and the police department could collect these from tne merchants daily, cash them at Elmhurst and return the funds. There was no objection to this plan by the Village Board members, but there was some discussion as to who would be responsible in case of robbery.

There were no other committee reports. Mr. Galen Sedgwick, a former member of the Village Board and Chairman of the Finance Committee at tnat time was present and welcomed by the present trustees.

Mr. Leonhardt of Westmore appeared before the Board to present a claim of $25.00 which he claimed was due him for spreading an assessment roll for the Village, several years ago. In

that he could present no definite facts concerning his appointment it was suggested that he see the former village President Mr. Maisel, and Mr. Snyder and obtain a written statement to the effect that he had been appointed to do that work. By presenting such a statement to the present Board some definite action could then be nad.

Sewers Committee: The following written report was read from this Committee:

December 3, 1934.

To the President & Board of Trustees
Village of Lombard.

Gentlemen:

The Sewers Committee begs to report that due to heavy rain fall during the past three weeks the filter bed and the secondary clarifier at the sewage treatment plant has been disconnected with the result that our final effuent discharging into the DuPage River tests a satisfactory stability, and it is the thought of this Committee that this method of treatment be continued as long as a satisfactory result is obtained and, of course, meeting the requirements of the State Sanitary Water Board.

On November 26th it was necessary to open the street at 309 South Lombard Avenue and replace two sections of sewer tile where a stoppage had occured due to roots and broken tile.

Respectfully submitted,

Sewers Committee,

Richard Groote,
Chairman.

Committee reports:

Finance: Trustee Potwin reported that all bills due local merchants by the Village up to December 1, 1934 had been approved by the Finance Committee for payment; that the tax collections up to December 1, 1934 amounted to $25,253.95 as compared to $23,072.58 last year up to February 28, 1934.

Light and Water: Trustee Tronvig reported that he had inspected the lighting situation at the corner of Vance and Glen Oak Road and found that a light was needed, suggesting on of the bracket type. Trustee Potwin thought this a rather expensive type to start installing in the village as no doubt other parts of town needed light also. Chairman Alderman suggested that the Water and Light Committee make a tour of the Village and find out how many other places might require lighting and then make recommendations. This suggestion was agreed upon. Trustee Tronvig also reported that the water collections were coming in much better. For the thirteen days of December $1,900.00 had been received against $1,290.00 for the entire month of December 1933.

Fire and Police Committee: The following report was presented to the Village Board:

December 17, 1934.

To the President & Board of Trustees,
Village of Lombard, Illinois.

Gentlemen:

The Fire and Police Committee wish to report that on Sunday, December 16th a meeting was held with a committee from the Lombard Fire Department for the purpose of determining ways and means of collecting the delinquent 2 per cent Foreign Fire Insurance premium tax.

We are advised that this delinquency is payable by the Insurance Companies and reflects no added cost to the property owners, local agents or insurance companies.

The Ordinance providing for this tax in the Village of Lombard has been in effect since 1921 with a small percentage of the

accrued tax being paid for the subsequent years. An effort on the part of the Village of Lombard during the past two years has resulted in a substantial portion of this tax being remitted, however, the period in question dates from 1921 to 1931. This committee recommends that the President and Board of Trustees authorize the complete investigation of this subject by this committee, the results of which shall be reported at an early meeting.

This committee also wishes to recommend the purchase of four heavy duty tires with tubes for installation on the LaFrance pumper at a cost of $181.84, the unit price being $37.56 for each tire and $7.90 for tubes.

This Committee also recommends that authority be delegated to obtain prices on the purchase of additional fire hose to fulfill the requirements of our fire department.

Respectfully submitted,

J.C. Alderman

It was then moved by Trustee Schneider seconded by Trustee Sedgwick that this communication be received and placed on file.

Carried.

The clerk then read the report of the grand jury for the October term of court, 1932, calling attention to violations of the law wherein public officials have been engaged in contracting with municipalities which they represent for materials and for their own labor. This report denounced such a practice, and advised the immediate discontinuance in all communities in DuPage County. It was then moved by Trustee Buchholz seconded by Trustee Schneider that this communication be received and placed on file.

Carried.

The clerk then read the following communication from Carl Kleck, Superintendent of Water and Light:

January 16, 1933

To the Board of Trustees:

A breakdown in one of the pumps in the new pump house completely flooded this room the water rising to three feet above the sills of the door. The exact cause has not been located as yet. The shutdown occured at approximately 6 o'clock, the water was shut off until 10 o'clock, it was necessary to call in the Public Service Company to run a temporary feed from the 440 volt transformer to the underground line leading to the old pump house so that we could put this equipment in service.

I request that the Village Board authorize the Village Clerk to take the following steps for placing the new pump house equipment in operating condition: notify the General Electric Company to test the main line oil switch, and approve same for operation; have the Westinghouse Electric Company bake out the rotor and armature of the booster pump motor and give approval on its operation; have the Sundh Electric Company check the automatic panel equipment with authority to replace any defective parts; also have the

Public Service Company make a ground test on the feed from the transformer bank to the new pump house to make certain that the water did not cause any damage in this cable.

It is impossible to estimate the cost of this work on account of the difficulty in determining the damage done to the various coil windings by their submersion in the water, in the meanwhile Mr. Ott has been instructed to keep a man in the pump house both day and night to prevent a further shutdown of the only remaining source of supply for the Village.

Very truly,
Carl F. Kleck
Superintendent of Water
and Light

Carried.

The clerk then read a communication and questionaire from Robert M. LaFollette, Jr. This questionaire pertained to matters concerning unemployment relief, and in as much as the Village of Lombard as a political body does not participate in relief work it was moved by Trustee Sedgwick seconded by Trustee Groote that the clerk write Senator LaFollette advising him that the township of York handles this work in this village.

Carried.

The clerk then read the following proposed letter to be sent to individuals inquiring as to the payment of 1932 maturing special assessment bonds and coupons:

Subject: Village of Lombard
Special Assessment
Bonds & Coupons

Dear Sir:

The Special Assessment Bond issues of the Village of Lombard are in default for 1932 and a portion of 1931. This default is due to the fact that in addition to very heavy delinquencies,

all of the Treasurer's special assessment funds are involved in two closed banks.

At the present time Village Officials are endeavoring to establish these funds as a preferred claim, thus making it possible to prorate these funds on outstanding bonds and coupons past due.

Until such time as the Treasurer's funds are reimbursed to the extent ot these balances it will be impossible to make any payment on these items.

However, at the present time collections are being made on 1933 assessments and each collection is properly identified and allocated for the purpose of paying on the 1933 maturing bonds and coupons.

Your inquiry to this office is on file and when any further developments occur pertaining to this matter you will be so informed promptly.

Very truly yours,

R. G. Clarke

Village Clerk

After a short discussion it was agreed by all members present that some such steps should be taken immediately. It was then moved by Trustee Schneider seconded by Trustee Sedgwick that this letter be approved and sent out in response to inquiries.

After a satisfactory explanation having been made it was moved by Trustee Schneider seconded by Trustee Buchholz that the collector write to Mrs. Johnson explaining why this interest charge was made.

The clerk then reported that he had not notified the sureties on the bond of E. A. Logan that the turn over of funds in Mr. Logan's custody had not been made, and reported that this had not been done upon the advise of John E. McCoy, Village Attorney, it was then moved by Trustee Groote seconded by Trustee Buchholz that this matter be referred to McCoy who shall send these notices and comply with all legal requirements. Upon the clerk calling the roll the following vote was cast:

Sedgwick	aye	Buchholz	aye
Groote	aye	Schneider	aye

Carried.

Mr. Deuchler, Village Engineer, then reported that Mr. McCoy had requested authority to withdraw delinquent special assessments of 1932 on the George Duffie property and the Hahne Groot property, after a discussion during which it was brought out that the Village Board could not grant this authority to the Village Attorney it was decided to table this matter until the next regular meeting at which time Mr. McCoy could be present.

Trustee Buchholz then addressed the Board and objected to an apparent condition where department heads and committee chairmen were not consulted in discharging J. W. Dale as Police Officer. Trustee Buchholz asked that he be relieved of his membership on the Police Committee. No action was taken.

President Palmer then repeated the statement of Chief Carlson that the services of R. M. Hall were practically worthless to the Village under the present arrangement whereby there is no one on duty in the Police Department to receive calls at night and Mr. Hall being on patrol duty at night without means of transportation. After a discussion regarding workable plans whereby Police calls might be taken by a telephone operator, Chief Carlson was called upon to explain his attitude or opinion in the matter and verified Mr. Palmer previous statement. Upon the question being directed to him by Trustee Sedgwick as to whether the services of one officer could be dispensed with providing Mr. Hall was retained as Desk Sergeant Chief Carlson answered in the affirmative and reported the result of a discussion on this subject with F. D. Tarr district manager of the Illinois Bell Telephone Company stating that the telephone company did not wish to assume the responsibility of accepting Police calls. Mr. Tarr being present was called upon to explain the attitude of the telephone company in this matter and verified Chief Carlson's statement, and further cited several cases where difficulty would be encountered in rendering the proper police protection. Mr. Tarr stated, however, that a silent transfer could be made from Lombard 1000 to any number designated to receive such calls during specified hours. President Palmer then thanked Mr. Tarr for his assistance and ventured the opinion that perhaps the Village of Lombard would be liable in case a prisoner suffered while incarcerated and no attendent being on duty.

Trustee Schneider then inquired as to why he was not consulted in this matter as chairman of the Police Committee.

President Palmer then expressed his regret that J. W. Dale was discharged and stated that in his opinion Mr. Dale was one of the best Police Officers ever serving in the Village of Lombard.

President Palmer then suggested that R. M. Hall be put back on duty as night desk sergeant until the Police Committee could fully consider this matter. It was then moved by Trustee Schneider seconded by Trustee Buchholz that R. M. Hall be put back on duty as night desk sergeant until this matter has been satisfactorily settled by the Police Committee who shall report back at the next regular meeting. Upon the clerk calling the roll the following vote was cast:

Sedgwick	aye	Buchholz	aye
Groote	aye	Schneider	aye

Carried.

It was then moved by Trustee Schneider that J. W. Dale be put back on duty, this motion lacking a second was declared no motion.

It was then moved by Trustee Buchholz seconded by Trustee Sedgwick that this meeting adjourn. So ordered.

To the Honorable President & Board of Trustees

Cash Receipts as Recorded on the Records were traced to the Bank Statements or otherwise accounted for as shown in the Exhibits and Schedules attached. Substantial tests were made to ascertain if receipts were properly recorded on the records. A detailed statement of Cash Receipts for the period will be found in Exhibit "B".

Cash Disbursements as recorded on the records were checked in detail.

We were unable to locate voucher #8234 issued to McFayden & Company under date of August 18, 1932 in the amount of $1,060.00. This check to McFayden & Company issued in payment of a $1,000.00 bond and a $60.00 interest coupon was cashed thru the Central Republic Bank of Chicago and cancelled August 22, 1932 by the South Lombard Trust & Savings Bank.

We were also unable to locate voucher #8377 issued to the Lombard Legion Lion Band under date of October 25, 1932. This check has not been paid and is carried as an outstanding check as at the close of business, December 5, 1932.

We found it necessary to make a part of our examination of the Treasurer's records at the South Lombard Trust & Savings Bank as the Receiver for the Bank had not yet released the records of the Village found at the Bank at date of closing. During our examination of the Treasurer's records we found certain irregularities, which may be summarized as follows:

Remittances to the Village Treasurer, E. A. Logan, by the Village Collectors per Duplicate Deposit Slip - Remittances not recognized in the Village Treasurer's Report.

Village Collector - A. C. Anderson	$ 20.13

Records at the bank were examined from which we were able to substantiate remittances to the Village Treasurer, E. A. Logan by the Village Collectors. A detailed summary of these remittances amounting to $3,350.27 as found at the Bank as at the date the Bank closed will be found in Schedule "II".

We note where Village of Lombard checks #8552 for $20.13 and #8495 for $5.40 are included as part of the items making up the remittances held at the bank and which are also carried as outstanding checks on bank reconciliation as at the close of business, December 5, 1932.

The Withdrawals from the Village of Lombard Bank Account, not authorized by the Village Board amounting to $19,940. are summarized in greater detail in Schedule "III". The information submitted in this schedule was secured from photostatic copies of bank records made available for our inspection thru the office of the Auditor of Public Accounts.

Cash in Banks, On Han, or to be accounted for by the Village Collectors and the Village Treasurer as at the close of business December 5, 1932 may be summarized as follows:

	Collectors		Treasurer	Combined
	Anderson	O'Meara	Logan	Total

Mr. G. H. Deuchler
The Engineering Service Company
Aurora, Illinois

Dear Sir:

Answering your letter of April 4th regarding Meyers Road in Lombard, I am enclosing copy of a letter from the State accepting this road.

The road is acceptable to DuPage County although we have not made out final papers for the state for the reason that there are several things that will have to be done before we can take care of these. However, I see no reason why the Village of Lombard cannot go ahead with their completion of the road.

Yours very truly,

E. L. Gates

GENERAL COMMENTS

We wish to call your attention to our special reports under date of August 29, 1932 and February 27, 1933, the comments of which are considered as a part of the audit report for the Ten Months Ending February 28, 1933.

We wish to advise that we found all bonds and coupons recorded paid to have been properly cancelled and recorded in the bond and coupon register. Bonds and Coupons on which partial payment had been made were recorded in a special register.

We note that the collector A. F. Spellerberg has been furnished with a $100.00 petty cash fund, which is to be used for making change, thereby permitting total receipts to be remitted to the Village Treasurer every day.

In consideration of the status of your Special Assessments we are of the opinion that you should build up and keep an accurate record of Cash Collections by installments. Should this be done, you could more intelligently determine whether funds are available for payment of bonds and interest accruing against that installment.

We further believe the Village should take steps to determine the status of forfeitures. No control is carried on the Village records in respect to forfeitures prior to 1930.

We hereby Certify that in our opinion the attached statements and schedules, subject to the comments above, correctly set forth the financial transactions of your Village for the Ten Months Ending February 28, 1933.

Respectfully submitted,

IN RE:
RECODIFICATION OF THE ORDINANCE OF THE VILLAGE OF LOMBARD, ILLINOIS.

TO THE PRESIDENT AND TRUSTEES:

Gentlemen:

The undersigned, your Committee on Ordinances, after having investigated the condition of the ordinances of the village in accordance with the instructions of the village President do hereby respectfully report and recommend, as follows to-wit:

I That the ordinances on proceedure, inclusive of those involving penalties, have not been codified and published since the year 1915.

II That there is a real need for the recodification of these ordinances in particular.

III That the consummation of this task involves considerable clerical work and legal counsel tantemount to the adoption of a complete new code.

IV That this task should be accomplished as follows:

A. That the Village Clerk should inclusively survey all ordinances culling those involving proceedure and penalties.

B. That the Village Clerk, with the assistance of a stenographer, classify and codify these particular ordinances according to proper chapters and section.

C. That such classification and codification be then referred to the Village Attorney for careful study and approval so as to assure legal competence, proper jurisdiction and logical sequence.

D. That the work thus accomplished through the coordination of the Village Clerk and the Village Attorney be referred to the Committee on Ordinances for thorough consideration, with subsequent reference by this committee to the Village Board with recommendations.

V That when this work shall have been accomplished, which, in our judgement, should be started at the earliest possible time, the new code thus compiled and adopted, be published and hence made available as follows:

A. By printing in book form, the contract for such printing to be let on the basis of competitive bidding, or

B. If the cost of such printing be considered inadvisable or prohibitive, then the job be done

using the mimeograph equipment of the Village.

Your committee desires furthur to report that a group of competent women citizens, who have had considerable office and general business experience, have volunteered their services without cost to aid in this important task. The proffer of such service is commendable. We recommend that this service be used in every way possible, whether in cooperating with the clerk in the survey and codification that must be made, or in accomplishing the not inconsiderable task of mimeographing.

Respectfully submitted:

Signed: Ordinance Committee

Under this plan it will be possible for the Village to do certain maintenance work and improving paying for same and being reiimbursed by the Illinois Relief Commission. Itwas then moved by Trustee Sedgwick seconded by Trustee Alderman that this report be accepted and placed on file with the Village Clerk and that this Board concur in the recommendations embodied therein with the provision that the report of the Village Clerk of work recommended by the various Operating Committees be submitted to the Finance Committee for their approval before presentation to the Village Board.

President Morgan then asked if anyone in the audience had any matter they desired to bring before the Board whereupon Mr. Bolton requested that some steps be taken to have a ditch digging machine removed from the premises at Glenview and Eugenia Avenues. After a brief discussion it was learned that James B. Clow & Sons owned a mortage on this particular machine and the clerk was requested to write to them and ask that the present nuisance be abated by removing this machine.

J. H. Sidwell, Thistle Commissioner then addressed the Board suggesting that the Village plan on starting an annual weed cutting on or about June 20, after a brief discussion this matter was referred to the Streets and Alleys Committee.

C. F. Kleck then addressed the Board calling their attention to a bush at the northeast corner of Main and Parkside obstructing traffic vision. Trustee Groote then called the attention of the Board to a similar condition at the northeast corner of Edson and the C. A. & E. crossing. Mr. Wm. E. Dettmer then called the attention of the Board to a similar condition at the southwest corner of Meyers and St. Charles Roads. By agreement these matters were then referred to the Streets and Alleys Committee.

Mr. Dettmer then suggested that the unemployed be hired to deliver water bills in the Village of Lombard. It was explained that this matter had been considered by the Light & Water Committee and rejected in the past, however, the matter was again referred to that Committee for a report at the next meeting.

President Morgan then asked for reports from the Standing Committees. Whereupon Trustee Sedgwick reporting for the Finance Committee stated that it was the opinion of the Finance Committee that the request of the Lombard Board of Education, District #44, for an off-set against their present water bill be allowed. It was then moved by Trustee Sedgwick seconded by Trustee Flint that the two obligations of the Village of Lombard to the Lombard Board of Education District #44, being $300 voted in 1931 by the Village Board toward the employment of the School Nurse and $25.00 voted in1932 for the same purpose be allowed to off-set against the present water bill of the Lombard Board of Education, District #44, Upon the clerk calling the roll the following vote was cast:

Mayer	aye	Schermerhorn	aye
Alderman	aye	Sedgwick	aye

It was then moved by Trustee Sedgwick seconded by Trustee Flint that the request of the Lombard Board of Education, District #44, asking for the free use of water for the year 1933 or an off-set against their water consumption to the extent of $300.00 which would approximate the appropriation of $300.00 requested to help defray the expenses of the employ of the School Nurse, be referred to the Light and Water Committee for their recommendation.

Carried.

It was then moved by Trustee Sedgwick seconded by Trustee Mayer that no further action or appeal be taken on the case of the Village of Lombard vs. T. C. Hull, Receiver of the Lombard State Bank before the Appellate Court of Illinois, 2nd District, being docket #8613. Carried.

The clerk then read the following report of the Light and Water Committee:

To the President and Board of Trustees
Village of Lombard

Gentlemen:

Your water and light committee wishes to report that, in a meeting, held May 31 the following actions were taken and recommendations presented, subject to your approval.

A review of adjustments in disputed water accounts, as presented by the Superintendent of Water & Light indicates the necessity of considerable deliberation and investigation before approving or disapproving claims. At present it is necessary for the Board of Trustees to approve the adjustments recommended from time to time and as this entails considerable detail work the Committee recommends that the Authority to adjust accounts be delegated to the Water and Light Committee in accordance with the attached resolution.

A survey of the Ornamental Street Lighting System shows, that 12 - 2500 lumen lamps, and 22 - 1000 lumen lamps can be removed. These lamps are all in sections adjacent to uninhabited property. As the reduction in load is all in one circuit it was deemed advisable to obtain the opinion of the manufacturer of the regulating equipment. This opinion was favorable to the removal and we have, therefore, ordered the Superintendent of Water and Light to remove the lamps in question. Proper steps will be taken to record this change in the Village records.

Further investigation will be carried on to determine whether any saving can be made in the operation of those street lights now under contract with the Public Service Company of Northern Illinois.

In order to improve the condition of the water served to the outlying sections of the Village we approved the plan outlined by the Superintendent of Water and Light to so adjust the valves in our piping system that the velocity of flow will be increased to these sections. The extent of this improvement can only be determined by trial and some experimenting will be necessary before its efficiency is demonstrated. Those valves closed during this operation will be duly noted and recorded in the minutes of the Board with copies on file in the Water and Fire Departments.

A survey of the fire hydrant shows same in fair condition and painting of these can be postponed for at least a year or two. A check of the condition of the valve stems and caps will be made during the next flushing period.

We have approved the purchase of an automatic oiler for the deep well pump turbine. The cost of this will be returned in oil saving in slightly more than one year's operation.

Respectfully submitted,

The clerk then read the following resolution:

RESOLUTION

WHEREAS it is necessary to demand payment of all delinquent water accounts in order to continue the operation of the Water Department, and

WHEREAS this collection involves many matters requiring the decision of the members of the Board of Trustees, and

WHEREAS considerable time is required to properly investigate and pass judgement on these matters,

BE IT THEREFORE RESOLVED that the Water and Light Committee is hereby delegated the authority to act for the Board of Trustees in the settlement of all water accounts, adjustments of accounts, adjustment of disputed meter readings, and other matters pertaining to the settlement of such accounts both current and in arrears, subject to such ordinances of the Village of Lombard as may apply to the questions in dispute.

It was then moved by Trustee Flint seconded by Trustee Schermerhorn that this resolution be adopted. Upon the clerk calling the roll the following vote was cast:

Mayer	aye	Schermerhorn	aye
Alderman	aye	Sedgwick	aye

Trustee Flint then reported for the Ordinance Committee stating that the Committee was working on a milk ordinance and a beer sales ordinance in conjunction with the License Committee and would make recommendations at an early date.

The clerk then read the following report of the Sewer and Drains Committee:

TO THE PRESIDENT AND MEMBERS OF THE
BOARD OF TRUSTEES
LOMBARD, ILLINOIS

Gentlemen:

Pursuant to the instructions of the President, your Committee on Sewers has investigated the condition of the sewer plants, their maintenance and repair, and beg leave to report as follows, to-wit:

1. Certain equipment, including machinery supports, and the like of the new sewage disposal plant needs to be scraped and painted. It is understood relief labor can be used to do this work, the cost of which is estimated as follows:

A.	Paint, paint and wire brushes	$35.55
B.	Labor required 16 days or 138 hrs. @ 75¢ per hour,	96.00
	Total	$ 131.55

2. The old sewage disposal plant is in deplorable condition and must have immediate attention. At the present time the filter beds of this plant are not being used and the sewage water, without being airiated, is being bu-passed into the Du Page River. During years gone by various complaints have been registered concerning the inefficiency of this plant, and we therefore recommend that these conditions be adjusted at once. We have consulted the village engineer on this matter and it is recommended that all sludge tanks of the old plant be immediately emptied, cleaned and repaired. That the east bi-pass line, which involves the installation of an additional man-hole, be completely reconstructed. Only by completing this work, can Lombard be given adequate disposal within the requirements of good engineering practice and the regulation of the state Board of Health. The estimates of the Village Engineer, inclusive of labor and materials, the labor to be furnished under the plan of relief labor adopted at the last meeting of this Board, covering the cost of these operations are as follows:

A. Cleaning, cementing and calking the joints and tanks L. & M.	$150.00
B. Construction of man-hole L. & M.	20.00
C. Reconstruction of Eastern bi-pass line L. & M.	545.00
Total	$715.00

3. Practically all spray nozzels involved in airiating the sewage water at the new sewer plant hve either been broken or broken or stolen. If this part of the process involved in the efficient operation of the new plant is to be effective these nozzels should be replaced. One hundred and forty nozzels are required. The total cost approximates $182.00.

In conclusion we cannot impress too strongly that this work should be undertaken at once. We have furnished the Village Clerk with the estimated number of men required to accomplish this job, and we hope that approval of this recommendation cam be had at this meeting so the work can proceed.

Respectfully submitted,

signed (Richard Groote, chairman
(J. C. Alderman
(C. T. Schermerhorn

It was then moved by Trustee Flint seconded by Trustee Mayer that this report be referred bact to the Committee for revision on estimated cost of work to be done.

Carried.

Trustee Schermerhorn then reported for the Streets and Alleys Committee that $340 had been spent in connection with the completion of Meyers Road and that a more detailed report would be submitted at an early date covering the repair and maintenance proposed for the unimproved streets.

Trustee Schermerhorn also reported having received verbal complaints about speeding on South Grace Street which was referred to the Police Committee.

The clerk then read the following report of the Health Committee:

TO THE PRESIDENT AND MEMBERS OF THE VILLAGE BOARD OF THE VILLAGE OF LOMBARD

Greetings:

The Committee, to whom was referred the matter of an Ordinance regulating the sale, distribution and examination of milk in the Village of Lombard, recommends that the entire

matter be submitted to the Board of Health for investigation and recommendations to the Board before the Committee proceeds with this important subject.

Respectfully submitted

Chairman, Health Committee

It was then moved by Trustee Mayer seconded by Trustee Alderman that the recommendations in this report be concurred in and the report received and placed on file.
Carried.

Trustee Flint then presented the following report of the Fire and Police Committee:

REPORT OF THE FIRE AND POLICE COMMITTEE

Lombard, Illinois
June 1, 1933

TO THE PRESIDENT AND MEMBERS OF
THE VILLAGE BOARD, LOMBARD, ILLINOIS

Gentlemen:

In accordance with the request of the President, the undersigned members of the Fire & Police Committee, have surveyed the condition and personnel of the Fire and Police Departments, with results and recommendations as follows,

Part I
Finances

A. Fire Department

According to the report of Gauger & Diehl, Certified Public Accountants, the cost of operating the Fire Department for the ten months ending February 28, was $134.77 per month, totalling $1,347.73 for the period.

According to careful computations and known factors, provided recommendations hereinafter set forth are adopted, the cost of operating the Fire Department, inclusive of the purchase of new equipment, for the twelve months period ending February 28, 1934, is itemized as follows:

Item	Average per Month	Total
Compensation to Firemen	$ 110.00	$ 1 320.00
Gas, Oil and Truck Repairs	5.00	60.00
Telephone and Light	3.00	36.00
New Equipment	38.42	461.00
Rewinding Siren Motor	7.09	85.00
Miscellaneous Expense	10.00	120.00
	$ 173.51	$ 2 082.00

These figures reveal an anticipated cost of the Fire Department $734.27 more for the current twelve months period than for the previous ten months period. $461.00 of this amount, or 63 per cent, is represented by the cost of new equipment, to be hereinafter mentioned. The Appropriation Ordinance provides a total of $2,200.00 for the operation and maintenance of this department, a margin of $118.00 over the estimated total cost.

B. Police Department

According to the same report of Gauger & Diehl, the cost of operating the Police Department for the ten months

period ending Feburary 28, 1933 was $835.88 per month, totalling $8,358.87 for the period.

According to careful computation and known factors, provided recommendations hereinafter set forth are adopted, the cost of operating the Police Department, inclusive of the purchase of new equipment, for the twelve months period ending February 28, 1934 is itemized as follows:

ITEM	AVERAGE PER MONTH	TOTAL
Salaries:		
Chief	$125.00	$1 500.00
One Sergeant	110.00	1 320.00
Two full timed patrolmen, one night operator and two special police	280.00	3 360.00
Other Expense:		
Gas, Oil and Automotive Repairs	75.00	900.00
Telephone and Telegraph	40.00	480.00
Uniforms and Badges	16.66	200.00
Legal Forms and Stationery	.50	6.00
Insurance	4.16	50.00
Radio Repairs	1.66	20.00
Ammunition	.83	10.00
Automotive Equipment	29.16	350.00
Miscellaneous	4.16	50.00
Totals	$ 687.13	$8 246.00

These figures reveal that the operation of the Police Department is anticipated to cost $112.87 less for the current twelve months than for the previous ten months. This is due principally to the fact that the previous administration of the Village affected certain economies in salaries. These figures are inclusive of the purchase of new equipment to be hereinafter mentioned. The estimated cost of the Police Department to the Village is $437.00 less than the total of $8,680.00 provided in the Appropriation Ordinance.

It is of course recognized that in the operation of both these departments, many contingencies arise that must be met, the cost of which cannot be anticipated. It is believed however, that the above estimates, inclusive of new equipment and repairs to old equipment, are adequate to cover all operations of these departments.

C. SPECIAL FUND.

Attention is called to the fact that frequently, members of the Police Department are called to other places in pursuit of duty. Heretofore the meninvolved have spent their own money in order to meet the expense of such trips. Due to the absence of local banking facilities, the Village Collector now carries on hand a Petty Cash fund of $100.00. It is therefore recommended that the Chief of Police be empowered to secure from the Collector sufficient cash out of the Petty Cash fund to meet the expense of such trips, and to render an itemized accounting to the Collector for the sums thus spent, immediately after each trip is taken.

Part II
Fire Department

A. Personnel The Lombard Fire Department is a self-perpetuating, volunteer organization, with its own officers and regulations. The members elect the Fire Marshall, who is confirmed by this Board. Pursuant to this custom, George Assmannn was recently confirmed as the chief of this department. Martin Meyer, who just finished one year of service as Chief, is now second in command. The members are faithful, loyal and efficient. The Department itself, is economically operated. Your committee takes pride in honestly approving

the organization as now constituted. We therefore, have no recommendations to make in this behalf.

B. Equipment

1. Fire Siren Two weeks ago the fire siren motor burned out. Assisted by the leadership of the Fire Department, your committee made a thorough investigation of this whole matter. The first thing to be done was to secure a substitute siren until a decision could be made. Accordingly the old siren was immediately taken to The Federal Electric Company, its manufacturer, and a new siren brought out and installed. Thorough trial of the new siren, revealed that it would cost $85.00 to rewind the motor of the old siren; $145.00 for a new motor, and $210.00 plus the trad-in value of the old siren for the new one which had been temporarially installed. For reasons of economy the Committee has directed the Federal Company to rewind the old motor at a cost of $85.00. The committee asks approval of this action.

2. Hose and Connections. Accidental acid leakage from the Chemical Extinguisher unfortunately damaged the jacketing to a number of lengths of the present fire hose so that it will not withstand water pressure. The fire marshal and his men have worked with your committee in appraising this situation, with the result that it is recommended that 250 lineal feet of 2-½ inch, and 300 lineal feet of 1½ inch wax and gum treated double jacketed fire hose; one valved Simese and two shut-off nozzels for the 1½ inch hose be immediately purchased. A number of dealers in this equipment were asked by the Village Clerk to submit prices and samples, with the following result:

Equipment	Darley & Co.		General Fire Hose		Fabric Fire Hose
250 Ft. 2½" hose	@92¢	$232.00	@1.05	$262.50	This
300 Ft. 1½" hose	@$.424	127.50	@ .50	150.00	Firm
2 Nickel Nozzels	@10.25	20.50	@15.00	30.00	Presented
1 Valved Simese Couplings	11 @ 3.50	38.50		18.50	A total Price only
Totals		$438.00		$461.00	$495.00

American La France	
@$1.05	$262.50
@ .75	225.00
@11.50	23.00
	19.50
	$530.00

After examining the samples of hose submitted and inquiring into the quality and reputation of the products offered, inclusive of the experience and responsibility of the Firms submitting prices, your committee recommends, with the written approval of the Fire Marshal and his Assistant, the purchase of this equipment from The General Fire Hose Company of St Louis, Missouri. The samples furnished by this firm reveal a product second to none. The core is made of five ply laminated rubber of very best quality, carefully vulcanized to the fabric of the inner jacket. Both inner and outer jackets are woven from long fibered cotton strands, thoroughly treated before being twisted into yarn from which the jackets are made. The terms offered by this firm are 5 per cent discount July 1; 3 per cent discount August 1; 2 per cent discount September 1; net October 1, 1933. This particular hose is guaranteed for six years and approximately two weeks are required for delivery. The prices quoted are F.O.B. Lombard. Your committee seeks approval to order this hose at once.

Part III
Police Department

Your committee has thoroughly surveyed the personnel, equipment, organization and conduct of the Police Department, with the following results and recommendations:

A. Personel

1. Frequently the Chief of Police is summoned from the city in the line of duty. In order that there might be a second in command of the Department during such absences, your committee recommends that a position be created to be known as Sergeant of Police.

2. The committee has confidence in the honesty, efficiency and capabilities of the present Chief of Police. Based upon his record we, therefore, unreservedly recommend that he be reappointed Chief of the Department for the ensuing year. For the same reasons we also unreservedly recommend that Chief Carlson be given complete charge of the men and equipment of the Department, the same to be subject to his commands alone. For the same reasons we furthur recommend that the Chief hire and discharge the men of the Department under him, subject only to the approval of the Board with the understanding that in no case shall he employ more men for the Department, nor agree to pay them any greater wage than is provided in the estimate of the cost of operating the Department for the current year as above referred to in this report. As the inclusions of this particular recommendation indicate, and for the same reasons, it is expressly understood that by giving the Chief complete command over the men and equipment of the Department, he is to be responsible to this board through the Fire & Police Committee, for the efficiency and the economical administration thereof. We trust it is made absolutely clear that it is the recommendation of the Committee that the Chief hire and dispense with the services of the men of the Department under him, subject to the approval of the Board. We, therefore, make no further recommendations for appointments to this Department.

3. Special Police Stars and Commissions

During past administrations of the village, twenty-six citizens have been granted special police stars and commissions. These are:

Joseph Buckley, 70 Glenview Ave.
William Schroeder, 305 Stewart
Otto Kerstowski, 560 S. Edson
Charles Eglin, 416 S. Lombard
Mrs. J. J. Zbaren, 735 S. Main

A. J.D'Ambrose, 303 N. Park St.
James Kapa, DuPage Theatre
H. D. Schindler, DuPage Theatre
Mrs. H. Carlson, 329 S. Stewart
August Felch, 134 W. St. Charles
H. A. Haberstich, Lincoln School
J. P. Wolff (moved away)
Matt Mueller, Ward Building

Frank Neiman, Hahne Bldg.
Glenn Swihart, 801 Main
Herbert Shackley, 356 Maple
C. Kellogg, 127 S. Highland
Joe Seilheimer, Merchant Night Watchman
Joseph Ott, 101 E. Ash
C. W. Leist, DuPage Theatre
C. F. Oetke, 112 N. Main
Fred Marquardt, 225 St. Charl
John D. Biehl, 635 S. Finley
E. F. Gumz (moved away)
Wm. Boede (moved away)
Henry Merz, Night Police

Your committee recommends that all such special police commissions be nullified; that all these persons be notified to return their stars and commissions, and that the Chief of the Department be empowered to commission, subject to the approval of the Fire & Police Committee, such persons as may be necesaary and are qualified to be of aid to the Department in case of emergency.

B. Equipment

1. Uniforms. It has been the policy of previous village administrations to supply the members of the Department with uniforms, excepting belts, holster, puttees and rain coats. The present uniforms are worn out. It is recommended that new light weight uniforms be secured for summer wear and that this fall uniforms of heavier material be purchased for the winter months. This explains the $200.00 item included for uniforms

in the summary of the cost of operating the Department above referred to. Your committee asks approval to procure the light weight uniforms at once.

2. Automotive. The Motor cycle is in excellent mechanical condition. A new pair of tires are all that this machine requires. These should be procured at once and the cost will not exceed a total of $12.00. Your committee asks approval of this purchase.

The Pontiac Police Car, purchased in March 1932, has been driven approximately fifty thousand miles. It is now in such mechanical condition as to render it very unwise to subject it to sudden stress and strain. Furthermore a complete new set of tires are immediately necessary and the upholstery must be repaired if this car is to be retained in the service. A number of estimates were secured from local repair mento place the car in proper mechanical condition. Exclusive of tires these estimates average approximately $75.00. In view of these facts your committee is of the opinion that the car should be replaced. To this end bids have been asked and received, as follows:

Name of Dealer	Make of Car	Allowanceon present car	Total Cost	Additional Cash needed
Lombard Auto Repair	Essex Terraplane 8 coach	$225.00	$782.00	$557.00
Borman Motor Co. Lowners Grove	Chrysler 6 coach	358.00	858.00	500.00
Lombard Auto Repair	Essex Terraplane 6 coach	225.00	675.00	450.00
"	" 106" wheel base	225.00	629.00	405.00
Herman V. Miller	Plymouth DeLuxe Coach	234.50	627.50	393.00
Elmhurst Motor Co.	Ford 8 Tudor	260.00	594.00	334.00
Johnson Motor Co.	"	260.00	594.00	334.00
Herman V. Miller	Plymouth 6 Standard Coach	224.50	554.50	330.00
Borman Motor Co.	Plymouth 6 DeLuxe Coach	320.00	621.00	301.00
Carlson Chevrolet	Chevrolet Master 6 Coach	308.00	608.00	300.00
Borman Motor Co.	Plymouth 6 Standard Coach	310.00	552.00	242.00

Because of the power, speed and stamina of the Ford, the Committee unanimously recommend, with the approval of the Chief of the Department, the purchase of a Ford V 8 Tudor which involves a cash outlay of $334.00. Furthermore the Ford Motor Company recently adopted a policy, which makes it possible to trade the old motor for a new, the cash outlay being only $40.00 for a complete new power and transmission installation.

3. Police Lights The present call lights are operated by the switch board operators of the Telephone Company. Extra calls are therefore required to turn these lights on and off. The Telephone Company makes no charge for this service, although it requires the employees of the telephone central office to leave their places at the switch board and walk to the light switch, several steps away. The local management of the company is anxious to be relieved of this chore. Since one or more employees are now constantly on duty at the Village Hall, we recommend that the switch to these lights be transferred to the Hall. An estimate of the cost of such transfer is now being made and will be submitted at the next meeting of this board.

This report with its recommendations, is based upon complete surveys made with the assistance of the Fire Marshal and the Chief of Police. For their helpful cooperation your committee desires to express sincere thanks.

Respectfully submitted

TO THE PRESIDENT AND MEMBERS OF THE VILLAGE BOARD OF THE VILLAGE OF LOMBARD

Gentlemen:

The committee consisting of Flint, Sedgwick and the undersigned, to whom was referred request for an electric sign to be installed in the residence of Mrs. A. M. Hopkins 132 South Stewart Avenue, together with a sign to be erected at some street intersection, submit herewith the following report:

That the committee is of the opinion that it cannot recommend the installation of a sign on a residence or adjacent thereto in the residential district which is zoned solely for that purpose and in order for authority to be given for the installation of the same, it would be necessary that the entire district be re-zoned for business, which in the opinion of the committee is impractical and should not be considered.

Accordingly the committee recommends that the request in regard to that part of the application be denied.

The committee further reports that it cannot recommend the installation of any sign directing people to the residence of Mrs. A. M. Hopkins, 132 S. Steward Avenue advertising a Tea Room, inasmuch as it is in the residential district and further that it has no right to allow the installation of any signs on any property of the Village and cannot authorize the installation of any signs on private property.

Accordingly the request of this petition must be denied.

Respectfully submitted,

L. E. Mayer

Chairman, Special Committee

It was then moved by Trustee Mayer seconded by Trustee Flint that this report be concurred in.

Trustee Schermerhorn then submitted the following report:

REPORT ON DUPAGE COUNTY MUNICIPAL LEAGUE

To the President and Members of the Board of Trustees:

In April a movement was launched to form a DuPage County Municipal League composed of the municipalities of this

County.

On May 10 a committee composed of Messrs:

Jennings of Glen Ellyn	Keller of Wooddale
Lytel of Hinsdale	Piper of Naperville
Saurs of Wheaton	Schermerhorn of Lombard

met at Glen Ellyn and drew up a constitution and by-laws for such an organization.

On May 17 this constitution, with some minor changes was adopted at a meeting in Wheaton Court House. Present were representatives of West Chicago, Glen Ellyn, Elmhurst, Hinsdale, Wheaton, Lombard, Wooddlae, Downers Grove, Winfield, Villa Park, Bloomingdale, Clarendon Hills and Naperville.

Every municipality in DuPage County is eligible to membership upon payment of the annual dues which are $10.00 to towns over 1000 population and $5.00 to towns under 1000 population.

Membership entitles all members of City Councils, Boards of Trustees and their officers to attend meetings of the League and enter into the discussions and deliberations of the League, but each municipality shall have but one vote regardless of how many of its officers are present.

If any municipality shall not choose to be a member of the League, any member of the Board of Trustees or City Council may become an associate member upon payment of the annual d dues of $2.00, but will not have a vote.

The object of this League is to promote good fellowship and understanding among and between the officers of the various municipalities in DuPage County:

To provide tabulated and other information of the ordinance provisions of the different municipalities of this County:

To exchange ideas and present new ideas on the various problems and to unitedly work for the best interests of the municipalities of DuPage County:

T To promote and support favorable legislation at Springfield and with a united front such as afforded to us by this League, DuPage County will be in a position to demand consideration. This is something we could not do heretofore because of lack of a good organization and because we were overshadowed by Cook County.

It is my opinion that membership in the DuPage County Municipal League would be a real benefit to Lombard and that Lombard would be a real asset to the League.

Although the by-laws of the League do not require it I would suggest that one member of this Board be appointed, if we become a member, whose duty it would be to attend all meetings of the League or see that some other member attends in his place. Of course, to obtain full benefit of this organization, the whole Board should attend the meetings of the DuPage County Municipla League.

Respectfully yours,

C. T. Schermerhorn

It was then moved by Trustee Flint seconded by Trustee Alderman that the Village of Lombard become a member of this Organization and the Village President appoint a member of this Board as a delegate to attend all meetings of this Organization. Carried.

President Morgan then announced that the Board of Health for the ensuing year as provided by Ordinance would consist of himself with the assistance of Dr. P. R. Woodworth and C. H. Kehnroth. It was then moved by Trustee Flint seconded by Trustee Alderman that these appointments be concurred in by the Village Board. Upon the clerk calling the roll the following vote was cast:

Morgan	aye		
Mayer	aye	Schermerhorn	aye
Alderman	aye	Sedgwick	aye
Groote	aye	Flint	aye

Carried.

President Morgan then announced that J. H. Sidwell is hereby appointed to the Zoning Board of Appeals for the term of five years to fill the vacancy of T. E. Meyer, retiring member. It was moved by Trustee Flint seconded by Trustee Mayer that this appointment be concurrec in. Upon the clerk calling the roll the following vote was cast:

The clerk then read the following report:

TO THE PRESIDENT AND MEMBERS OF THE BOARD OF TRUSTEES
OF THE VILLAGE OF LOMBARD, ILLINOIS

Gentlemen:

Pursuant to the instructions of the President, your Committee on Sewers has investigated the condition of the sewer plants, their maintenance and repair, and beg leave to report as follows, to wit:

Part I - New Sewer Plant

1. PAINTING:

Certain equipment, including machinery, machinery supports, and the like of this sewerage disposal plant, needs to be scraped and painted. Emergency Relief Labor can be used to do this work, the cost of which is estimated as follows:

A.	Paint, wire brushes, paint brushes and other materials	$ 35.55
B.	Labor -- 16 days, or a total of 128 hours @ $.75 per hour	96.00
	Total Cost	$131.55

2. REPLACEMENTS:

Practically all spray nozzels involved in airiating the sewage water at this plant have either been broken or stolen. If this part of the process involved in the efficient operation of the new plant is to be effective these nozzels should be replaced. One hundred and forty nozzels are required. The total cost approximates . . . . . $ 182.00

Total cost of repairs and replacements to new plant 313.55

We recommend that as soon as the Emergency Relief Labor program is complete, and such labor available, this work be done and solicit the approval of the Board of Trustees of the Village of Lombard, Illinois for immediate action.

Part II - Old Sewer Plant

The old sewerage disposla plant is in deplorable condition and must have immediate attention. At the present time the filter beds of this plant are not used and the sewage water, without being airiated, is by-passed into the DuPage River. During years gone by various complaints have been registered concerning the inefficiency of this plant and we therefore recommend that these conditions be remedied at once. We have consulted the Village Engineer on this matter and it is recommended that all sludge tanks of this plant be immediately emptied, cleaned and repaired; that the east by-pass line which involves the installation of an additional man-hole, be completely reconstructed. Only by completing this work can Lombard be given adequate disposal within the requirements of good engineer-

ing practice and the regulations of the State Board of Health Based upon estimates of the Village Engineer, inclusive of labor and materials, the labor to be furnished under the plan of Emergency Relief Labor, above referred to, your Committee recommends as follows:

1. Repairs:

   A. Cleaning, cementing and calking the joints and tanks, labor and materials $220.00

2. Reconstruction:

   A. Construction of new man-hole on eastern by-pass line, labor and materials . . . . $ 20.00

   B. Reconstruction of eastern by-pass line -- labor and materials 475.00

   Total $ 495.00

In conclusion we cannot impress too strongly that this maintenance should be undertaken at once. We have furnished the Village Clerk with the estimated number of men required to accomplish this job and we also solicit the approval of these particular recommendations in order that this work can proceed as soon as the Emergency Relief Labor is available.

Respectfully submitted,

The clerk then read the following report of the Sewer Committee:

Honorable President and Board of Trustees
Village of Lombard

Gentlemen:

We have investigated the request made by Mr. T. F. Hammerschmidt, in his letter of June 9, for a permit to install water and sewer service to the property owned by the Hammerschmidt Oil Company at the east end of East Willow Street.

Your Committee would recommend that due to the Hammerschmidt Oil Company having been billed benefit on both sewer and water on special assessment for this property, they be granted a permit to make sewer and water connection to this property in the following manner:

SEWER Place sewer tile in East Willow Street from the property line at dead end of street to Main Street and connect this new tile with the 8" tile connecting the catch basin at this corner to the sewer. The connection must be made between the trap of the catch basin and the Main Street sewer. Your Committee is of the opinion that this will not create further objectionable odor from the catch basin, for with the drying out of the trap the catch basin acts as an outlet for sewer gas even without this additional connection. The Committee would also recommend that the permit be granted only on the condition that no other property owners or persons be permitted to connect to this tile for which permit is granted.

WATER That at least one inch lead pipe of weight specified by ordinance be used between the street main and the meter, and that a concrete meter box of adequate size for housing the meter, equipped with cast iron ring and cover be constructed in a location near the parkway. This location to be approved by the Superintendent of Water and Light. This meter box is to be equipped with a drain to the sewer so that meter will not be operating under water. Iron pipe can be used from the meter to the property.

All of the work is to be performed in accordance with existing ordinances of the Village of Lombard.

The experience to date with iron pipe in this locality indicates that petitioner would do well to follow the example set by the Aurora Elgin R. R. and insulate this pipe with pitch and provide a thorough ground connection for dissipating the electric currents from the third rail.

Respectfully submitted,
Sewer Committee

It was then moved by Trustee Alderman seconded by Trustee Flint that the recommendations of this report be concurred in and the necessary permission granted as requested and outlined in the above report. Upon the clerk calling the roll the following vote was cast:

Alderman	aye	Sedgwick	aye
Groote	aye	Flint	aye

Carried.

The clerk then read the following report of the Streets and Alleys Committee:

REPORT OF STREETS AND ALLEYS COMMITTEE

To the President and Trustees of Lombard:

Attached to this report is a complete inventroy of Village property in the Street and Alley Department.

The following items were assigned to this committee at the regular meeting of June 5:

Complaint of obstruction of traffic vision at Main and Parkside.

Through the cooperation of the Lombard Park Board a considerable portion of the shrubbery was trimmed back resulting in a considerable, but only temporary improvement of vision.

* * * *

Complaint of obstruction of traffic vision at Edson and C. A. E. crossing.

There is some controversy between the owner of this property and the C. A. & E. road which may be amicably settled at another conference.

****

Complaint of obstruction of traffic vision at Meyers and St. Charles Roads.

Owner of this property will do some trimming of bushes that will help considerable to aid vision both ways.

****

Several other complaints on condition of roads were investigated. These roads were found to be already slated for improvement under our Relief Labor Plan. A large map has been prepared in detail showing the proposed street oiling and graveling that we hope to complete with the aid of the Relief Commission. This map is now hung in the Village Hall office ready for the inspection and suggestions of our Lombard citizens.

****

Weed and thistle cutting started on June 14, and will be carried right through to completion.

The clerk then read the following report of the Ordinance Committee:

In Re:

REPORT OF ORDINANCE COMMITTEE

To the President and Board of Trustees
of the Village of Lombard, Illinois.

Gentlemen:

Pursuant to the will of the President and the directions of the Village Board the undersigned, members of the Ordinance Committee. present two ordinances, as follows:

1. An Ordinance creating a Sergeant of Police.

2. An Ordinance to Regulate and License the sale of Malt Beverages.

The first of these ordinances was referred to your Committee by a resolution of the Village Board adopted at the meeting there of held June 5, 1933. It was compiled by the Village Attorney.

The second ordinance becomes imperative under the laws of the State of Illinois, in accordance with the vote of the people of Lombard on the Repeal of the Eighteenth Amendment of the Constitution of the United States, which vote was registered as approximately four to one in favor of such repeal on Tuesday, June 6, 1933. Accordingly it is assumed that the people of Lombard are decidedly in favor of the sale of the so-called 3.2 centum beer. The ordinamce submitted on this subject is very largely the result of study and investigation of Trustee Leo E. Mayer.

These ordinances are as follows: #346

BE IT ORDAINED by the President and Board of Trustees of the Village of Lombard in regular meeting assembled:

1. That Section 56, Chapter 11 of the Ordinances of the Village of Lombard passed November 1, 1915, published November 24, 1915, be hereby amended, and that the amendment to said Section 56 of said Ordinance be as follows:

2. The office of Sergeant of Police is hereby created. The duties of the Sergeant of Police shall be to give his attention to the affairs of said Village, preserve the peace order, safety, and cleanliness, and in the absence of the Chief of Police, for any cause whatsoever, the Sergeant of Police shall have the same powers, rights, duties, and privileges as the Chief would have were he present.

3. The salary of the said Sergeant of Police is hereby fixed at the sum of $110.00 per month. The Sergeant of Police shall give bond payable to the Village of Lombard in the sum of $500.00, conditioned according to law and with sureties to be approved by the President and Board of Trustees.

4. Any Ordinance, or parts of Ordinance, in conflict with this amendment are hereby revoked.

5. This Ordinance shall be in full force and effect from and after its passage, publication and approval according to law.

Approved:
C. W. Morgan
President, signed

Attest:
R. G. Clarke

REPORT OF SPECIAL ASSESSMENT COMMITTEE

To the President and Members of the Village Board of Lombard, Illinois

Greetings:

The committee to whom was referred the matter of special assessments in connection with Mr. Johnson's property on East St. Charles Road, submits herewith the following report:

That upon investigation, we find that the only charge that was made in connection with the assessment billing on the sidewalk fronting his property was for the Engineering services, legal fees, etc., which were nominal and Mr. Johnson agrees that no complaint is justified in this improvement.

The committee further made an investigation in regard to the special assessment levied for the paving fronting Mr. Johnson's property on East St. Charles Road and after taking up the matter with Mr. Johnson, he is now satisfied that the improvement charges were proper and the expense charged against him was fair and reasonable and accordingly, has no complaint to make in regard to this improvement.

To the President and Board of Trustees

Gentlemen:

We, of the Zoning Board of Appeals, find upon investigating the matter of a proposed building on the property known as West Maple Street, and our interpretation of the Zoning Ordinance is that the area of this lot in question is sufficient to meet with requirements of class "A" residential property as defined in the zoning Ordinance, providing for the erection of two buildings, and we find that there is nothing contained in this ordinance which would prohibit occupancy of this property for two single family residences.

Respectfully submitted,

Zoning Boardof Appeals

To the President and Board of Trustees

Gentlemen:

Referring to the occupancy of the property known as 360 West Maple Street it appears that the present occupance is a two family dwelling in violation of the classification for this lot.

If this is so, this is a matter under the jurisdiction of the Village Board as the Zoning Board of Appeals has no police Authority,

While the Zoning Board of Appeals has no authority to authorize the issuance or revokal of a building permit, it is the opinion of this Board that the proposed occupancy is not in conformity with the best planning of the Village.

Respectfully submitted,
Zoning Board of Appeals

The clerk then presented the following report of the Light and Water Committee:

To the President and Members

Village of Lombard, Ill.

Gentlemen:

Your Water & Light Committee wishes to report on the activities of this department as follows:

The deep well pump motor was mounted, balanced and placed in service by July 6th. This equipment is again in perfect operating condition.

The storm on the morning of July 3rd, caused an interruption in power service from three to six o'clock in the morning. The water supply was not affected.

One leaky service at Meyer Road and Maple Street and one at Finley and Willow Streets were repaired. Work was completed July 13th.

Checked valves in water main in district between Loy street and St. Charles Road and Main street and West Road, Found one valve at Grove and Lincoln partly open, and one at St. Charles and Lincoln, and one at Park Avenue just north of Grove Street entirely closed.

Checked valves in water mains in district between Main street and Grace street and Parkside and Madison Streets. Found valve at Main and Park streets partly closed, one at Parkside and Charlotte streets and one at Grace street south of Aurora & Elgin tracks closed tight.

Hydrants were opened in various sections of the Village for flushing of mains. The meter readings were taken as usual and a number of meters were tested and repaired.

Very truly yours,
Water and Light Committee

It was tehn moved by Trustee Flint seconded by Trustee Schermerhorn that this report be received and placed on file.

The clerk then read the following report of the Sewer Committee:

To the President and Members of the Board of Trustees
Village of Lombard, Illinois

Gentlemen:

Your Sewer Committee has thoroughly investigated the standing of the temporary sewer permit granted to William Albers, owner of the property designated as the Alber's Farm, and recommends that this permit be permitted to stand at this time. Same can be revoked by the President and Members of the Board of Trustees whenever, in their judgement, such action would be justified.

Very truly yours,
Committee on Sewers

It was then moved by Trustee Mayer seconded by Trustee Flint that this report be received and the permit referred to be granted subject to revokation by this Village Board.
Carried.

The clerk then read the following report of the Streets and Alleys Committee:

To the President and Board of Trustees

Gentlemen:

The Streets and Alleys Committee Begs to report as follows:

1. The scarifying and grading of West Road and St. Charles Road.

2. The oiling of the following streets showing lineal feet, width, square yards, and gallons of oil used in computing the gallonage, a basic unit of ½ gallon to one square yard was used. However, it will be noted that the spread was lighter, actually figuring 1464 gallons to one square yard.

Road	Length	Width	Yards	Gallons
West Road	1600'	12'	4977	2488
	1600	16		
St. Charles Road	1900	20	4222	2111
Edson Avenue	500	16	888	444
Willow Street	400	8	356	178
Harding Road	1700	12	2266	1133
Madison Street	1400	12	1866	933
	1000	8	888	444
Washington Blvd.	800	12	1066	533
	400	12	532	266
Highland Avenue	2500	8	2222	1111
Ahrens Avenue	700	12	933	466
Kenilworth Avenue	150	8	134	67
Division Street	750	12	1000	500
			21350	10674

It will be noted from the above that 21,350 square yards of

hat drastic steps must be taken to bring the income total up to least a par with the budget figure or the reduction of the budfigure. After a very careful and thorough analysis of the fiancial conditions it is believed that both methods will have to used, that of increasing our income and reducing our outgo.

In analyzing the items of expense, one method of relief was to endeavor to work out a funding of Waterworks and Fire Fighting Equipment Bonds. We have been in communication with the holders of the Waterworks bonds and have obtained their approval to the acceptance of new maturities in lieu of those bonds which matured July 1, 1932 and July 1, 1933 unpaid, and also those maturing July 1, 1934, to become due in the three subsequent years following the final maturity of the bond issue. With this in mind we have prepared and there will be submitted tonight an Ordinance which is drawn in form having the approval of Chapman & Cutler, attorneys, who will issue the legal opinion to the holder of the present bonds. We are requesting an approval to the same plan of refunding the Fire Fighting Equipment and Building Bonds and have assurance from the Elmhurst State Bank that the holders will acquiesce to such a plan. However, until such time as we have definite approval of all the holders we will not be able to proceed with the issuance of new Fire Fighting Equipment and Building Bonds. With the refunding of these bonds there will be an approximate reduction on this year's expenditures of about $5000.00. The cost involved is not expected to exceed $250.00.

The Finance Committee at the next meeting will give a further report showing detailed analysis and conclusion based upon the report that will be issued at that time for the month ending July 31, 1933.

C. Galen Sedgwick

It was then moved by Trustee Flint seconded by Trustee Groote that this report be received and placed on file.

Carried.

The clerk then read the following report of the Chairman of the Sewer Committee and Chairman of the Light & Water Committee:

To the President & Board of Trustees

Gentlemen:

The Sewer Committee and the Light & Water Committee reports and recommends the denial of the request of Frank Fritsch for annexation of lot 7, block 5, Sunnyside Subdivision, and connection to sewer and water service, as an investigation discloses that the property in question is too far from the present Village Limits and it would require the annexation of undesirable property at considerable expense.

J. C. Alderman

It was then moved by Trustee Mayer seconded by Trustee Alderman that this resolution be adopted.

Carried Unanimously.

The clerk then read the following communication:

Honorable C. W. Morgan
President of the Board of Trustees
and the Esteemed Members of the
Village Board of Lombard,

Gentlemen:

Due to the prolongation of the depressed economic conditions and the relief situation in this the York Township and especially in the Village of Lombard the members of the NIRA club of Lombard, an organization of men on work relief, pray to call your attention to the following causes and facts:

The present economic situation cannot improve unless everybody concerned acts in a spirit of understanding and cooperation in performing their official or private duties as set forth in President Roosevelt's National Recovery Act.

You will do a great deal of good for your community towards accomplishing the President's purpose by turning your attention to the Public Works program advocated and financed by the Federal Government for the sole purpose of creating work for idle men:

Such Public Works that can be started here in Lombard are: "The building of a water reservoir system" and "The cleaning and deepening of the DuPage River." Other works about the Town that will give the men work are such as cutting the weeks on parkways where the sidewalks are covered in many places; cleaning of catch basins, and leveling of unpaved streets so the rain water will run to the sewers and not flood the streets.

We are aware of the fact that the village is short of money for these undertakings but a water reservoir is badly needed due to the condition of the water at present. To drink pure and clear water is not a luxury it is a necessity.

There are many good reasons why you ought to start work on this project immediately. First: You will do just what the community needs most of all "giving them clear water." Second: You will be doing exactly what the National Government wants you to do and is calling upon you to do it as part of your duty. Third: By such action you will promote the interest of your business community by giving work and pay to your fellow men who will spend their meager earnings for long needed clothing and food and be able to pay taxes which otherwise cannot be paid and it happens that unless taxes are paid you cannot run the village affairs efficiently, Which is to start first the engine or the wheel? You are the engine, we are the wheels.

We call your attention to the fact that there are 250 families on the relief roll in Lombard. About one fourth of the population. This fact alone ought to make you think and ponder.

Respectfully submitted,
E. Lock, Secretary
NIRA CLUB OF LOMBARD

Before opening a general discussion on this communication President Morgan stated that in his opinion the many and varied problems confronting the community with respect to unemployment warranted the appointment of a special committee from the Village Board to deal with these various questions that arise from time to time in connection with Village affairs and accordingly appointed the following committee: Trustee Flint, Chairman, Trustees Alderman and Mayer, members. It was then moved by Trustee

Groote seconded by Trustee Schermerhorn that the foregoing communication be referred to the above Committee.
Carried.

The following report and resolution was then introduced by Trustee Flint as chairman of the Ordinance Committee:

REPORT OF THE ORDINANCE COMMITTEE

TO THE PRESIDENT AND TRUSEES OF
THE VILLAGE OF LOMBARD, ILLINOIS.

Gentlemen:

WHEREAS, Pursuant to the instructions of the Village President, and after thorough investigation of the condition of the Ordinances of the said Village, the Village Board, at its regular meeting on the fifteenth day of May, 1933, adopted a report of the Ordinance Committee recommending that the ordinances on proceedure, inclusive of those involving penalties, be carefully surveyed, coördinated, revised and recodified, and

WHEREAS, pursuant to the adoption of said report, and under the supervision of the Village Clerk, said ordinances were carefully surveyed and coördinated by Mrs. E. M. Schnoeker, Mrs. Ralph C. March, and Miss Estell Truby, and

WHEREAS, this work required several weeks of intensive study and labor, voluntarily contributed by these thorough and competent women citizens at no expense to the said Village, now therefore

BE IT RESOLVED by the President and Board of Trustees of the said Village that due and fitting appreciation be expressed to these worthy citizens and friends for the outstanding service they have rendered.

BE IT FURTHER RESOLVED that the Village Clerk prepare, or have prepared under his supervision, a suitable attestation of such appreciation to be signed by the President and attested by the Clerk and, bearing the corporate seal of said village, a copy presented to each of the three citizens who have rendered this lasting and beneficial service.

BE IT FURTHER RESOLVED that the chairman of the Ordinance Committee of the said Board schedule a series of evening conferences, at least two in each month, when the President Clerk and Attorney, together with the members of the Ordinance Committee of said village, shall continue this work by completing the revision and recodification of siad ordinances, whereupon the said Village Board shall determine whether said completed work shall be printed or mimeographed for the use of the officials and citizens of said village.

BE IT FURTHER RESOLVED that these resolutions be spread upon the minutes of a regular meeting of the Board of said village and a copy of the same mailed by the Village Clerk to each of the three women citizens above named.

RESPECTFULLY SUBMITTED on this the ninth day of October, 1933

ORDINANCE COMMITTEE
Schermerhorn.
H. P. Flint

It was then moved by Trustee Flint seconded by Trustee Groote that the foregoing resolution be adopted.
Carried Unanimously.

The clerk then read the following report of the Special Assessment Committee:

PRESIDENT AND MEMBERS OF THE VILLAGE BOARD OF THE VILLAGE OF LOMBARD

GREETINGS:

The committee to whom was referred the petition of Mr. P. M. League, a resident of Lombard that certain unpaid special assessment charges be withheld from the Village Collector's delinquent list.

Wish to submit that the committee has given this matter due consideration and owing to the fact that the matter in question is one that involves a legal condition which would put the Village in jeopardy if the request of the petitioner was granted, accordingly recommend that the request of the petitioner be denied.

The committee is aware of the fact that the petitioner has a special assessment bond maturing in July 1932, but inasmuch as the bond is not covered by the same assessment as that involved in the collection, the committee can only state that they regret the condition but it is beyond their control, as the funds available for the payment of the bond would have to be set up for that specific purpose.

The committee does feel, however, that upon the payment of the special assessment that at such time as the same shall be paid that it recommend to the Village Board that any penalties which may be added be remitted to the said Mr. P. M. League in accordance with the law.

Respectfully submitted

L. E. Mayer
J. C. Alderman

The President and Board of Trustees
Village of Lombard
Illinois

Gentlemen:

The undersigned respectfully petitions your honorable body to grant a much needed relief by enacting an ordinance which will disconnect from the Corporation of The Village of Lombard the following described property to which I hold title:

Pt. N. E. ¼ Sec. 1, Twp. 39, Range 10 described in Bk 121 of Deeds on page 20 thereof, comprising 60.93 acres. It is further described as follows: situated in the extreme northwest corner of the Corporation commencing at the Township cornerstone in North Avenue, it extends west along North Avenue a distance of 40.40 chains to the western limits of the Corporation and from said Township cornerstone it extends south along the York-Milton line for a distance of 14.63 chains, thence west in a line parallel with the Milton-Bloomingdale line for a distance of 40.40 chains to the Western limits of the Corporation.

It is represented that this property is used exclusively for farming purposes and that the land therein has been tilled by the undersigned for more than 40 years. It is encumbered with a mortgage held by the Federal Land Bank of St. Louis, the payments on which, together with the taxes are becoming increasingly burdensome and because of the fact that the land is taxed by the Corporation without the return of any benefits whatsoever I feel justified in petitioning your honorable body for the relief as specified above.

Receipted tax bills for both installments of the 1932 real estate taxes are enclosed and at the present time there are no taxes or assessments of any kind or nature due or owing on this property.

Very truly yours,

Chas. Wimpress

Mr. R. G. Clark, Village Clerk
Lombard, Illinois

Dear Sir:

Re: The Sandwich State Bank, Sandwich, Illinois
Item #6

On July 10, 1933 a robbery occurred at the Sandwich State Bank and in that robbery one (1) Village of Lombard, 6% Improvement Bond, Special Assessment #68, Series 68I, dated June 20, 1927, due September 20, 1937, for $1000.00, numbered 16, was stolen.

We have taken the matter up with the Village Attorney, Mr. John E. McCoy, 7 South Dearborn Street, Chicago, and he advised that we should secure an affidavit from an officer of the bank showing the loss of the bond, how the bond was acquired by the bank, and trace the history of the bond from the time of its issuance. We have obtained such an affidavit and the same is attached.

We were advised to prepare an indemnity bond and submit the same to the Village for approval. A form of indemnity bond is attached. We feel that the bond has been properly described in the indemnity bond, but in case there is any discrepancy as to the description we will be glad to be so advised so that before the indemnity bond is executed the same will be accurate in all details.

The Sandwich State Bank does not wish to go to any expense in connection with the issuance of a new or duplicate bond, and for that reason they ask that they merely be given some statement to the effect that the Village of Lombard has notice of the loss of the bond and that any payment due on this bond will be turned over to the bank. They do not feel justified in going to more expense than the indemnity bond in this matter, but they must have some evidence of the bond to satisfy the bank examiner.

It is our understanding that the Village of Lombard was notified of this loss by the bank immediately after the loss did occur.

Very truly yours,

P. A. Finske
(signed)

It was then moved by Trustee Sedgwick seconded by Trustee Mayer that the affadavite and forms of indemnity bond above referred to together with the communication be referred to John E. McCoy, Village Attorney, for investigation and recommendation at the next meeting.

The clerk then read the following communication:

Gentlemen:

Re: Plat of Lombard Terrace, being a Resubdivision of Part of Elmore's North View Subdivision.

It is important that the final approval of this Plat be made at once so that we can complete certain business matters which make it possible to pay the taxes in full on the Resubdivision, and the forfeited special assessments in full, and with that idea in view I suggest that if you will approve this Plat, taking all the necessary legal action at the present time, to become effective when the Plat is offered for record together with the County Treasurer's receipt showing all taxes andforfeited special assessments paid in full it will make the immediate payment of the taxes and forfeited special assessments possible.

Mr. Cress advises me that he has all arrangements made to do this and a check in his possession for that purpose but is not empowered to use it until these preliminary steps are taken.

Hoping you will be able to complete the matter at your Board meeting to be held this evening, November 20, 1933, I am,

President Morgan then called for reports from Standing Committees whereupon Trustee Sedgwick, chairman of the Finance Committee made a verbal report calling the attention of the Village Board members to the statement recently submitted by A. F. Spellerberg, Village Collector with respect to accounts payable of this Village. Trustee Sedgwick further offered to answer any questions that any of the Board members might hawe on the subject.

Trustee Flint, chairman of the Fire and Police Committee then stated that due to the press of other official duties he was unable to call a meeting of his Committee for the purpose of considering recommendations made by the Chief of Police in his October report. Trustee Flint stated further, however, that he would attempt to have this committee meet within a very short time and present the results of this conference at the next regular meeting of this Board.

Trustee Flint then presented the following written report as Chairman of the Committee on Unemployment as appointed by President Morgan on October 9, 1933.

TO THE PRESIDENT AND MEMBERS OF THE BOARD OF TRUSTEES,
VILLAGE OF LOMBARD, ILLINOIS

IN RE:
REPORT OF COMMITTEE ON UNEMPLOYMENT RELIEF

Gentlemen:

At the regular meeting of this Board held on Monday October, 9, 1933,. the President appointed the undersigned to constitute a special committee on Unemployment Relief, the purpose of which was two fold: First, to keep informed concerning the effort and determinations of County, State and National authorities in meeting the problem of unemployment; Secondly, to devise ways and means by which such efforts and determinations could be applied in this village.

Sufficient accomplishments have been made which, combined with recent developments, warrant the presentation of this report. We therefore respectfully draw your attention to the following:

1. It is known that a plan of Work Relief has been quite generally in use, That plan involved the development of projects by Taxing Bodies which, upon approval by the County and State Work Relief Authorities, were to be accomplished by unemployed men on relief, working the number of days per week at a wage of 50¢ per hour which would earn the allottment received on direct relief. The men who worked on these projects received cash from State and Federal governmental appropriations for their work, substituted for the so-called "bean ticket". In accordance with this plan, and under the supervision of our Village Clerk, much work has been done and many improvements made in the village which could not have otherwise been accomplished. Reference is made specifically to the graveling of unimproved streets more comprehensively referred to in a recent report to this Board by the Streets & Alleys Committee; to the Construction of the By-Pass Line at the Sewer Plant; to the calking of joints and cracks in hard surfaced streets; to the raising of sunken curbing; to the grading of park-ways; to the painting and general renovation of the Fire Station, Pump House, and to other general

accomplishments of a similar nature. The men employed on this various projects have worked faithfully and loyally, and their services have placed much of the property which, under the law, is administered by this Board in proper condition compatable with their conservation and use. Your committee regrets that in a report of this kind, the names of these men cannot appear, because the community owes them a debt of gratitude for their faithful and effective cooperation. Further, in this behalf, we would be remiss if we did not mention the project which involves the beautification of the Village Hall Grounds. While this particular project has not been entirely completed, it has progressed sufficiently to enable one with the slightest of imagination to appreciate just what the hundreds of native bushes, trees and shrubs will mean in added natural beauty to this otherwise almost barren spot when Spring and Summer come once again. This work has been done under the direct supervision of Superintendent Hudson of the Lombard Park District, assisted by men assigned to work relief projects of the Lombard Park District. Many of the plants and shrubs have been donated by Lombard Citizens. Others have been procured from the woods on West St. Charles Road with the permission of Seth C. Mayer, who is the receiver for this property. The Park Boardservice truck has been used in transporting the necessary shrubs and trees, and the only cost to the Village has been the gasoline consumed. For this cooperation on the part of the Park Board, its Superintendent, inclusive of the use of equipment and tools belonging to the Park District this Board, and the community generally is also indebted. We, therefore, sincerely and unreservedly commend these cooperative accomplishments to your attention. Finally, in this behalf, do we acknowledge the cooperation of County and State Authorities. Naturally these projects could not have been accomplished without their help. Chairman Baethke, and his County Central Committee on Unemployment Relief, inclusive of the employees of the Relief Office, has been all that could be desired. We believe, therefore, that our Village Clerk should be directed to express to these authorities in a proper letter the gratitude and appreciation to rightfully due them.

2. On Friday afternoon, November 10, 1933 the Chairman of your committee received a telegram from the District Director of the Park Service, Department of the Interior of the United States, calling attention to a letter mailed to the President of the Village the day previous, and requesting that the admonitions of the letter be carried out and delivered in person to the headquartersin this district at Forrest Park, Illinois. That night a conversation was had with the President concerning the letter, which had been delivered to his home during the same day (November 10th) which resulted in a meeting held in the office of your committee Chairman, beginning at 9 A.M. Saturday, November 11, 1933 (Armistice Day) attended by the Presidents of the Village, Park and Shcool Boards, the Village Clerk, the Park Superintendent, and your Chairman, inclusive of two or three other interested citizens. With only a brief half hour for lunch, these men worked until three o'clock that afternoon developing and codifying projects to be approved by the Federal Government in accordance with the plans of President Roosevelt to put four million men back to work. In all, 26 different projects were agreed upon, involving employment for approximately 120 men for a maximum of 130 hours per month for three months at a wage of 50¢ per hour. These projects were then taken to Forrest Park, and there delivered into the hands of one Mr. Heinrichs, assistant director of this Park Service area. Mr. Heinrichs, in turn, took them to Indianapolis, Indiana, the general headquarters for the 2nd District of the Federal Park Service, who returned work to us on the following Tuesday, November 14, 1933, that projects involving 100 men and a total payroll of $20 200.00, with equipment and supplies totaling $4 600.00 had been approved by the Indianapolis Office, and in turn sent on to Washington for approval

there by the Indianapolis Office, and in turn sent on to Washington for approval there by the higher authorities of the Federal Government. This was of course, most heartening information. We therefore felt that there was little doubt but what these projects would ultimately be approved with the result that at least 100 men could be put to work in Lombard during the next three months.

Two days later, however, a telegram was received from Washington stating in substance, that there was probability that all such projects as had been submitted through the National Park Service would be assigned to the Civil Works Administration, recently set up by President Roosevelt, and advising that we file these same projects with the Illinois state Civil Works Administrator. Upon receipt of this information, Mr. Heinrichs was again called upon by our Village Clerk, who confirmed this information and made a similar suggestion.

In the meantime notice was sent to all County Work Relief Chairman, asking them to attend a meeting at the Congress Hotel, Chicago, beginning at 10 A.M. Saturday, November 18, 1933 where a Field Representative would appear and explain in detail the Civil Works Administration program, and informing the County Chairman that this program was to be prosecuted through the County Work Relief Organizations, already in existance. Supervisor Baethke, Chairman of the County Relief Organization, the President and Clerk of this village, together with the chairman of your committee attended that meeting. Here the following pertinent information was disseminated:

- A. That 187 000 men were to be put to work in the State of Illinois, 1/2 of whom were to be taken from those on relief rolls and the other half from those who were unemployed, but who had not yet applied for Relief.

B. That these 187 000 men were allocated to the different counties on an allotment basis in which the total population was 75% and the total number of families on relief was the remaining 25 % of the determining factor.

C. That upon this basis 2 169 men were to be put to work in DuPage County, and employed at a wage scale of 50¢ per hour for unskilled and 75¢ per hour for skilled labor, the maximum number of hours per man per month to be 130 on the basis of a 5 day week, 6 hour day.

D. That projects upon which these men were to be employed were to be submitted by the different taxing bodies, Village School, Park Library Boards and the like, to the Chairman of the County Central Relief Committee for approval on forms to be immediately distributed. That upon approval of the said County Chairman these projects were to then be forwarded to the State Civil Works Administrator for approval, and from thence forwarded to Washington.

E. That as soon as such projects were approved by the State Administrator, then men were to be put to work on such projects.

F. That projects involving up to but not in excess of 10% for tools, material and equipment were be the first to be approved, and that the men first to be employed would be those who had been on Work Relief.

G. That wages thus paid were not to be subjected to garnishment, and that such wages were to be paid weekly from money appropriated by the Federal Government for that purpose and distributed by the agents of the Taxing Body which had furnished the project upon which the wage earners were employed.

H. That all men working on Work Relief Projects were to be automatically transferred to the Civil Works Administration as of 8 o'clock A. M. Monday, November 20, 1933.

I. That since there has been no county-wide registration of unemployed other than those on relief, that probably during the current week, but in all events prior to December 1, 1933, there would be established a Federal Unemployed Registration Office in this County and that the men to be employed from among those not on relief would be assigned to the different projects by said office.

When all this information was made available, the Village Clerk, with the cooperation of the Village President and your committee Chairman, immediately proceeded to compile two immediate projects and to file the same on the forms procured for that purpose. These projects are as follows:

A. Drainage improvement on all unimproved streets; grading by hand all shoulders on unimproved streets; leveling and hand-grading the Sewer Plant property, and spreading gravel on all unimproved streets not previously improved during the past Summer.

50 men	19 500 hours @ 50¢	Total wages	$9 750.00
2 000 years Pit-run gravel @ 20¢			$400.00
2 trucks of 3 yeard capacity @ $5.00 per d.			660.00
		Total material and equipment	$1 060.00

Remaining tools and equipment and all supervisory services to be furnished by the village of Lombard.

B. General beautification work to consist of Tree-trimming, landscaping all public properties inclusive of school grounds, public highways and right-of-way properties belonging to the Village.

30 men	11 700 hours	@ 50¢	Total wages $5 850.00

Foreman and truck to be furnished by the Village of Lombard Park District and all additional tools to be furnished by the Village of Lombard.

These projects were immediately approved by County Chairman Baethke on Sunday afternoon, November 19, 1933. As soon as this approval was received the Village Clerk and your committee chairman proceeded with the approved projects to the office of the State Civil Work Administrator, 10 South LaSalle Street, Chicago and there delivered them in person. Here we were assured, after a conference fo officials of that office, that these projects would be approved by the state and that the Village of Lombard could proceed upon that basis.

In accordance with this information, 28 men were allotted to begin work at 8 A.M. Monday, November 20, 1933, under the supervision of the Village Clerk, while 8 additional were immediately transferred to the Civil Works Administration program because of working on the Village Hall Grounds beautification project under the Supervision of Superintendent Hudson of the Park Board. It

is alos understood that 43 additional Lombard Work Relief men were put to work at the same time by the County Highway Department. Other men will be added to the work as quickly as they can be assigned.

It is believed the whole community will immeasurable benefit from this program and effort. Unquestionably it will go a long way to elimiate deprivation and suffering during the winter months immediately before us. And while these facts are undoubtedly true, yet your committee feels that a warning should be issued least those responsible for the orgainization and function of direct relief and general welfare orgainization relax in their efforts, because of the Civil Works Administration Program. There will still be suffering and deprivation inspite of all that this program means. We hope, therefore, that there will be no relazation of efforts in this community to assemble and dispense the necessities of life by our welfare and relief agencies.

In closing this report it is fitting that state that in this room on the very morning when the Civil Works Administration program went into effect, the President of this village met and addressed the men who had been transferred to that Administration. In that address these men were welcomed as fellow employees of the village and an appeal was made that they spend their wages in Lombard so that local business men might get some benefit from this program in our community.

They were furthur told that they were not only now removed from the rolls but that as employees of the Village of Lombard under the Civil Works Administration of the Federal Goverment they would be expected to loyally and faithfully serve to the best of their ability the same as though working for any private or corporate business concern.

It is both a privilege and a pleasure to be able to return this report. We hope the time is immediately at hand when at least 100 unemployed men can be put to work on worth while projects in this village alone.

Respectfully submitted

Mr. Ronald Clarke
Village Clerk
Lombard, Illinois

Dear Ron:

The insurance company carrying the compensation policy for the Village has complained about the number of accidents reported since the policy was written, which to be

exact totals seven cases. Also this same company has a rather serious case resulting from the automobile accident, involving the police car, with which you are familiar.

I don't know how you are going to correct this situation, or what steps you can take to improve it. One thing is certain, unless there is a material improvement in the history of this policy, the company will undoubtedly withdraw, and in view of the stringency now existing, and which has existed during the past four years, in the compensation market, I doubt very much if the Village could buy compensation insurance at less than excess rates.

I feel the matter is of such importance that it should be called to the attention of the Board, and corrective measures be adopted immediately.

Very truly yours,

Carried.

It was then moved by Trustee Mayer seconded by Trustee Flint that this meeting adjourn. So ordered.

* The clerk then read the following communication:

To the President and Members of the Village Board
Lombard, Illinois

Gentlemen:

It is of course appreciated that these are momentous days. It is likewise appreciated that it has been a task of no inconsiderable magnitude to compile and codify projects, secure the approval of the same, and at the same time have men assigned to and properly supervised while working upon the Civil Works Administration program in this village. When additional projects now being compiled are finally approved, it is contemplated that at least 120 men will be working on projects of the Village Board alone, with the necessity that adequate supervision be supplied and materials and equipment sustainedly afforded in order that the maximum in accomplishments may be attained.

It has been commonly agreed, but without formal action by this Board, that Village Clerk, Ronald G. Clarke, shall act as General Superintendent and as such see to it that the workers are properly supervised and materials promptly delivered. Naturally our Village Clerk will of necessity have two or more field superintendents working under his direct charge; naturally the preparation of time sheets and the certification of pay rolls will be his direct responsibility. If this work is to progress with maximum efficiency it is evident that the Village Clerk will of necessity require some means of transportation. Considerable thought has been placed upon this particular matter; as the result the following alternatives are proposed for discussion:

1. That a used automobile be purchased for this purpose.

2. That some one of those employed under the C. W. A. program, and who has an automobile, be designated to serve as chauffeur for and conveyer of Mr. Clarke in supervis-

ing these projects, and to receive in addition to the regular C. W. A. wage an agreed upon sum per mile for the use of the automobile.

3. That the squad car of the Lombard Police Department be placed at the disposal of the Village Clerk During the hours from 7:30 until 9:30 each morning and from 1:00 until 3:00 o'clock each afternoon during the first 5 days of the week. Necessary police patroling to be done during these hours by using the police motorcycle.

It is apparent that the financial condition of the Village is such as to make it not only difficult, but unwise, to invest any more of the taxpayers' money in machinery of this kind. If this were done there unquestionably would be justifiable criticism.

It is the view of the undersigned that all of the departments and equipment now owned by the village should be used upon a cooperative basis in order that the C. W. A. program can function with maximum efficiency. It is further the opinion of the undersigned that the efficiency of the Police Department would not be seriously diminished by the proposal to use the squad car as suggested.

Respectfully submitted,

Harrold P. Flint
Chairman Work Relief Projects Committee

Report to the President and Board of Trustees

Gentlemen:

With reference to complaints registered before this Board some time ago and subsequently referredto the undersigned as Chairman of the Sewer Committee, may I report as follows:

In the matter of the complaint of William Mareneck at Columbine Avenue and Crescent Blvd regarding a farm tile draining in an open ditch adjacent to his property, please be advised that the property in question is on the right- of-way of Crescent Blvd and lies within the corporation of Milton Township. For that reason Milton Township has agreed to install, and is now progressing with this work, some 500 feet of 6" drain tile, assuming this undesignable sewage to the

DuPage River under ground. This obviously does not entail any expense to the Village of Lombard.

Regarding the complaint as to the drainage condition on the Jacob Ankley property on Columbine Avenue, please be advised that the undersigned has investigated this condition and has recommended to the Village Clerk a temporary means of correcting the condition.

The reason we only desire to correct this condition temporarily is that this property lies adjacent to the proposed route of State Highway #53 and adequate drainage facilities must of necessity be taken care of by the State at the time this work is done.

There are 26 men engaged in this work and in addition to spreading the gravel they are grading parkways and digging by hand to provide proper drainage conditions.

Your committee is confident that with the continued cooperation of all concerned it will be possible to improve by graveling all of the streets needing same which were not previously taken care of during the past summer.

Your committee will report further from time to time the progress of this work.

Mr. Johnson was informed that the Village Clerk would assist him in preparing the proper petition to be presented requesting a hearing before the Zoning Board of Appeals.

Mr. Bolton then addressed the Board requesting that Woodland Avenue be graveled at an early date.

The clerk then read the following communication:

Village Board of Lombard

Gentlemen:

Acting on the suggestion of your Mr. H. P. Flint that the Lombard Beautification Committee submit constructive ideas to the Village Board for projects on Beautification of Lombard in connection with the C. W. A. a small committee was appointed to investigate present conditions.

We therefore suggest that St. Charles Road west of Edson Avenue be cleaned of all underbrush between edge of pavement and sidewalks all trees trimmed to at least nine feet from the ground and small shade trees planted at proper intervals.

We further suggest at this junction that a very large number of fine thorn and crab trees, growing in rank profusion in the adjacent woods, can be, with the owners consent, thinned out to everybody's advantage and transplanted where they will show to better advantage. If possible the culvert on St. Charles Road a few yards west of Edson Avenue should be widened to avoid the now dangerous bottleneck.

Edson Avenue near North Avenue looks pretty "seedy", ditches should be cleaned out, slews filled in and trees trimmed thoroughly. Both sides of the approach to the great Western are dangerous. As we proceed south we can find room for improve-

ment on the viaduct of the A.E. RR. Still further south we suggest improvement of the shoulder of the roadway, trimming of Chinese Elms and Crab trees.

One of the poor approaches is South Main Street, here again we find the shoulders of the road in only a fair condition. Box Elders, the scrubbiest kind of a tree, in a run down condition. At least half of them should be cut down and sturdier trees planted in between to lay the foundation for a fine approach from Roosevelt Road to the A.E. tracks.

Let us also continue the planting of good trees on North Main Street at "charles Michaels" to North Avenue. Lets find out why we cannot have trees on North Avenue, between Edson and Grace Street. We certainly need them. The embankments can be planted with Sumachs to stop erosion.

North Grace Street is sporting a beautiful dumping ground that ought to be removed. It is just north of the Great Western Viaduct. We have notified the RR. people before and they refuse to act, stating it is our own Lombard people who dump. If that be so, let us clean up at once and prosecute all offenders, no matter who they are or what political pull they profess they have. To us all offenders look alike. They are a nuisance in the community.

We enjoyed seeing the fine work that is being done on East St. Charles Road near Bierman's Garage. Let us carry out this idea on all our entrances grading the shoulders, planting the banks in suitable shrubs and fine shade trees so that the next 10 years will find us enjoying a more beautiful Lombard.

Our Committee made this trip of inspection Sunday December 3 and it is physically impossible to have a complete, detailed report on every rod of ground covered, but rest assured that this committee made up of men and women who are really familiar with Beautification because of a profound study, will be glad to give their hearty cooperation for planting plans.

Lombard Beautification
Committee

P. S. In the Lilac Lodge Subdivision we suggest that Broadway be planted in trees and shrubs to take away that barren effect one gets from the A. E. RR. Also that the owner of the tumble down foundation next door to the Muellers be compelled to tear it down to the lot level.

It was then moved by Trustee Flint seconded by Trustee Alderman that this communication be received and placed on file and the Village Clerk be requested to write a letter of thanks to the Lombard Beautification Committee.

Carried.

It was then moved by Trustee Flint seconded by Trustee Alderman that this meeting adjourn. So Ordered.

Gentlemen:- The directors of the Lombard Free Library herewith submit the budget of expenses for the library for 1933 as follows:-

Salaries	$3,500.00
Fuel	270.00
Light, phone etc	220.00
Insurance	270.00
Maintenance	220.00

In times like the present, the public library is of special value in a community and it is very extensively used.

The clerk then read the following communication:

Lombard, Illinois
June 6, 1932

To the Chairman & Members of the
Water & Light Committee of the
Village of Lombard, Illinois

Gentlemen:-

On November 20, 1930 I presented a report covering in detail the conditions existing in our municipal water supply, and making certain recommendations on improvements necessary to assure our village a supply of water adequate for its present needs and also permit limited growth in population. Since that date two of these recommendations, a new deep well pump for the shallow well and a new pump at a deeper level for the deep well, have been acted upon. The third recommendation, for the construction of a 250,000 gallon reservoir, remains to be acted upon. I therefore, again wish to call the attention of the members of the committee to this much needed improvement, in order that they may bring it before the Board of Trustees for consideration.

It is becoming of increasing importance that we increase the pumping capacity of the village. With our present wells and equipment we are limited to the delivery of between 1000 and 1100 gals. per minute, and demand in excess of this is supplied from the 50,000 gallon storage tank, and as soon as this supply is drawn upon the delivery pressure begins to drop. During dry weather in hot months our consumption exceeds 1000 galls. per min. and we must therefore provide additional pumping capacity. This can be accomplished in two ways, a new well with boosterpump, or a storage reservoir with booster pump. The reservoir will cost less than a new well and offer additional advantages, all of which can be enumerated as follows,-

1.-Act as a storage for water pumped from wells during the time of the day or night when the demand is less t than our pumping capacity.

2.-Permit an economical method of meeting the daily peaks by the addition of low cost surface pumps, instead of deep wells and equipment.

3.-Act as a settling chamber for the sand and silt now discharged direct into the mains, thereby reducing our meter maintenance charges.

4.-Permit aeration of the water, oxidizing the iron now present in large quantities and settling it in the storage reservoir thereby reducing the present discoloration in the mains.

5.-Provide a future storage place for softened water should the village ever find itself in position to develope this ~~more~~ more costly improvement.

In general this reservoir will act as a safe guard on our water supply in case of failure of one well, and in case of failure of both wells it will supply water for essential needs until repairs can be made, it will improve the quality of the water, and will reduce our meter and house service maintenance costs.

It has been estimated that this reservoir with a new booster pump of 800 Gals. min. capacity, electrical changes, and other auxiliary equipment, could be constructed and installed on the present property for $23,000. I would recommend that steps be taken to determine the possibility of financing this improvement this coming summer, so that it will be ready to go into operation during the summer of 1933.

Respectfully submitted,

Carl F. Kleck

The clerk then read a petition addressed to the President and Board of Trustees of the Village of Lombard as follows:

PETITION TO THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF LOMBARD.

Gentlemen:

We, the undersigned, hereby make petition that you appropriate on behalf of the Village of Lombard such a sum, not exceeding $5000., as is required for the Village of Lombard's proportion of the cost of constructing St. Charles Road through a viaduct under the Great Western Railroad, as per the plans which have been heretofore passed on by the Commerce Commission, the Highway Commissioner, and such other authorities as are concerned in the construction, including previous boards of trustees of the Village of Lombard, in which body a resolution or resolutions have been previously passed endorsing this project.

We believe that the proposed project should be constructed immediately and not be allowed to be shelved or sidetracked either temporarily or permanently, because,

We believe that the cost of construction will be a great deal less than will be required for the proposed alternative project of passing under the Great Western Railroad at or about Grane Street through a viaduct and over the Chicago & North Western Railroad by

an overhead bridge; and further, that the project which has been considered from all angles for a number of years past ~~should not~~ should not longer be delayed pending the outcome of various conferences between the necessary bodies including the Commerce Commission which would have to pass on a new project.

It is our understanding that the assessed valuation of property in the Village of Lombard which would be taxed for this purpose is approximately $4,500,000.; this being the case and basing the expectation of collections on the percentage of taxes collected by the Village of Lombard in 1931, a levy of 1½ mills, meaning only 15¢ per hundred dollars of assessed valuation, would be sufficient to construct this viaduct as already approved.

Yours respectfully,

O. J. Roath (Signed)

Mr. William A. Palmer
Village President
Lombard, Illinois

Dear Mr. Palmer:

As you know, we have been attempting since last October to collect all the coupons that were due at that time on Lombard S.A. #88. I believe that the Village has collected sufficient funds to pay these coupons, but thus far has not paid them in full.

I think there is grave responsibility on the part of the Village in the withholding of payments, and some of our customers who own these bonds are insisting that we do something to enforce their legal rights in connection with this matter.

The last thing that I would want to see would be some action

which would result in these coupons being an obligation of the Village of Lombard payable out of its Corporate Funds, but I believe that this result could be accomplished, if our attorneys were instructed to take such steps as necesary along this line.

I must earnestly request that we be advised as to the policy of the Village in regard to definite dates of payment of the coupons which were due last October, and which are still unpaid.

Yours very truly,

J. B. Van Vleck

St. Charles Road Grade Separation, Lombard

File 12.40

Mr. L. E. Mayer, Chairman,
Street Committee, Lombard
14 North Franklin Street
Chicago, Illinois

Dear Sir:

Replying to your letter of August 23rd, in regard to grade separation on St. Charles Road, east of Lombard:

The present financial situation is such that our Management feels the Company should not be required to make this installation at the present time. Furthermore, it is getting late in the season and I doubt if the installation could be completed before freezing weather would stop the work and compell us to operate over a temporary structure during the winter months at reduced speed.

We realize that this grade separation project has draged along for a considerable time since the Illinois Commerce Commission approved it, but the Railroad Company has not been altogether responsible. When the project was first authorized we were prepared to go along with it but the county had not secured the right of way nor had they agreed upon the exact plan to be used.

In regard to the second paragraph of your letter: under date of June 25 we advised the Village Clerk of Lombard as follows:

"I am of the opinion that you have been misinformed in regard to the installation of additional signs at these crossings, and you are probably aware of the fact that this matter was settled by the Illinois Commerce Commission on June 14, at which time an order was entered to the effect that the facts in this case do not justify additional protection at the present time."

I do not understand that there was an agreement to install jewelled signs at these crossings in Lombard.

Yours truly,

(Signed)

Delo
Chief Engineer.

A general discussion was then participated in and it was moved by Trustee Mayer, seconded by Trustee Buchholz that a resolution be drafted and forwarded to the County of DuPage and the Chicago Great Western Railroad requesting immediate action in the matter of the construction of a subway under the Chicago Great Western right of way at st. Yours truly,

Rockford, Illinois
August 29, 1932

To the Honorable President & Board of Trustees
Village of Lombard, Illinois.

Gentlemen:

We have made an examination of the Cash Receipts and Cash Disbursement Records of the Village of Lombard, Illinois for the period from May 1, 1932 to August 15, 1932 inclusive, the results of which we wish to submit herewith together with the attached Exhibits and Schedules as follows:

Cash Receipts as recorded on the Records were traced to the Bank Statements. Substantial tests were made to ascertain if receipts were propertly recorded on the records.

Cash Disbursements as recorded on the records were checked in detail. We found a few checks which had not been cancelled by the bank. We also noted a considerable number of instances where the Treasurer had issued checks altho the voucher authorizing the issuance had not been properly signed. A considerable number of instances were found where either the Clerk or the President had not signed the vouchers and a few instances were noted where neither had signed.

Cash in Banks in the custody of the Village Collector A. C. Anderson was verified by direct communication with the depository and reconciled with the records which was found to be as follows:

Lombard State Bank (Bank Closed	$3,838.07
So. Lombard Trust & Saving Bank	45.60
Total	$3,883.67

A dividend check in the amount of $427.49 was issued on the Collector's account which was subsequently

deposited in the South Lombard Trust & Savings Bank.

Cash on Hand under the control of the Village Collector A. C. Anderson as at the close of business August 15, 1932 was found to be as follows:

Currency	$ 102.37
Checks	382.90
Cash Items	20.13
Total (Per Schedule I)	505.40
Less: Excess - Unaccounted for	82.83
Balance - Cash on Hand per Records	422.57

Cash on Hand was counted at 8 A.M. August 16, 1932 and we found the cash drawer to be long $82.83 over the amount necessary to reconcile with the collection records.

We are unable to determine whether Mr. Anderson had withdrawn the $80.00 on his payroll check from the Village dated August 15, 1932, which we found in the cash drawer.

Funds withdrawn as referred to in our audit ending April 30, 1932, totalling $1,582.41, have every appearance of having been returned as there is no evidence of any cash in the hands of any Village employees, not properly the custodian thereof, except as set forth in Schedule I.

We further noted the issuance of vehicle tax numbers to George Schmidt and A. G. Carlson for two dollars and fifty cents each for which no cash has been recorded.

Cash in Banks in the Custody of the Treasurer, E. O. Logan was verified by direct communication with the depository. Cash in the Custody of the Treasurer as at August 15, 1932 was found to be as follows:

Lombard State Bank (Bank Closed)	$36,907.66
South Lombard Trust & Savings Bank	71,456.27
Total	$108,363.93

The Receiver for the Lombard State Bank advises us that the Village has accumulated interest on their certificate of Deposit amounting to $229.17. This interest has not been re recorded on the records of the Village.

Total Cash Receipts for the period were found to be as follows:

General Fund	$37,564.20	$ 27.66	$37,536.54
Vehicle Tax fund	994.00	59.64	934.36
Water Fund	4,398.85	262.93	4,135.92
Special Assessment Fund	30,691.09	505.59	30,185.50
Total	$73,648.14	$ 855.82	$72,792.32

A detailed statement of Cash Receipts for the period will be found in Exhibit B.

A detailed statement of Cash Disbursements will be found in Exhibit C.

Village of Lombard Bonds amounting to $23,300.00 and coupons amounting to $2,877.00 in the custody of the Village Clerk, R. G. Clarke, were counted by us. We are advised that these bonds and coupons were sent in for collection and would be paid as funds are available.

Dear Sir:-

I am sorry that I was not in the city when your letter arrived, but I have been away for a short time and could not

answer your letter before September 5.

I reported our conference with Mr. Delo to our Road Committee and they have taken no action regarding it.

As the County has all of its money appropriated for this year I do not see how it is possible to do anything unless the railroad company can be persuaded to go ahead without waiting for the county.

I will again call this matter to the attention of our road committee at their meeting on Thursday of this week to see if they want to do anything about it.

Yours very truly,

We are submitting our proposals on the monthly, quarterly, and semi-annual basis. This service will furnish a statement of Cash Receipts and Disbursements for the period under review similar to the audit report rendered under date of August 29. We will likewise furnish you with cumulative statement of Cash Receipts and Disbursements as we proceed with the work. Trustee Dempers then read the following majority report and recommendation of the Finance Committee signed by P. H. Dempers, Chairman and L. E. Mayer, Member:

TO THE PRESIDENT AND BOARD OF TRUSTEES
Village of Lombard, Illinois.

The Finance Committee, to whom was referred the Auditors' report by Gauger & Diehl, covering a period of May 1st, 1932 to August 15 1932, submits herewith their recommendations on the said report:

In the letter addressed to the President and Board of Trustees dated August 29, 1932, from Guager & Diehl, the following comments are made:

(Quote) "WE FOUND A FEW CHECKS WHICH HAD NOT BEEN CANCELLED BY THE BANK." Your committee submits that this is not regular and that a practice of this kind should be immediately discontinued. Accordingly, we recommend that the Clerk write a letter to the bank, advising them that in the future all checks cleared by the bank, covering vouchers of the Village of Lombard shall be cancelled upon payment.

(Quote) "WE ALSO NOTED A CONSIDERABLE NUMBER OF INSTANCES WHERE THE TREASURER HAD ISSUED CHECKS ALTHO THE VOUCHER AUTHORIZING THE ISSUANCE HAD NOT BEEN PROPERLY SIGNED. A CONSIDERABLE NUMBER OF INSTANCES WERE FOUND WHERE EITHER THE CLERK OR THE PRESIDENT HAD NOT SIGNED THE VOUCHERS AND A FEW INSTANCES WERE NOTED WHERE NEITHER HAD SIGNED." The Finance Committee recommends that this is an indication of undue carelessness or negligence and accordingly, recommends that the Clerk write a letter to the Treasurer, advising him that no further payments should be made on any vouchers of any kind or nature which have not been properly signed and authorized by the officials, whose signatures are required on all such papers.

In accordance with the Auditors' report on page two, reference is made to that part of the report (quote) "CASH ON HAND UNDER THE CNTROL OF THE VILLAGE C LLECTOR A. C. ANDERSON AS AT THE CLOSE OF BUSINESS AUGUST 15, 1932 WAS FOUND TO BE AS FOLLOWS:

Currency	$ 102.37
Checks	382.90
Cash Items	20.13
Total)Per Schedule I)	505.40
Less: Excess-Unaccounted for	82.83
Balance-Cash on Hand per Records	$422.57

CASH ON HAND WAS COUNTED AT 8 A. M. AUGUST 16, 1932 AND WE FOUND THE CASH DRAWER TO BE LONG $82.83 OVER THE AMOUNT NECESSARY TO RECONCILE WITH THE COLLECTION RECORDS." The Finance Committee

submits that the report as stated above, showing Mr. Anderson's account being $82.83 over the amount necessary to reconcile with the collection records, believes the reason for this excess sum is represented by the payroll check amounting to $80.00, paid to Mr. Anderson under date of August 15, 1932, leaving the excess sum $2.83 instead of $82.83 as reported. If, however, this is not the case and the amount is correct then it is the opinion of the Finance Committee that there is evidence of collections being made that have not been properly recorded to the account under which they should be credited and evidences an indication of carelessness and inaccuracy inasmuch as no account should be in excess of the amount received anymore than they should be short any amount in accordance with the records.

In accordance with schedule I, the Finance Committee finds that there has been several checks cashed for Mr. John C. Weiner as follows:

7/6/32	$118.00
7/7/32	5.00
7/7/32	5.00
7/7/32	15.00

all of these checks in accordance with the Auditor's report were returned back from the bank not sufficient funds, both on July 25 and also on July 30. There are several other checks which have been cashed by the Collector that the Finance Committee does not believe is necessary nor allowable. It is further recommended that the practice of cashing checks of this nature be discontinued in the future as there is no reason why the funds of the Village should be tied up in checks that are cashed for individuals and when presented at the bank, are not good for collection. The finance committee further submits that in accordance with page two of the letter as written by the Auditors referring to the paragraph as follows:

(Quote) "WE FURTHER NOTED THE ISSUANCE OF VEHICLE TAX NUMBERS TO GEO. SCHMIDT AND A. G. CARLSON FOR TWO DOLLARS AND FIFTY CENTS EACH FOR WHICH NO CASH HAS BEEN RECORDED." We cannot understand why a condition like this should exist and accordingly believe that the amount of $5.00 representing these two sums should be charged to Mr. Anderson and covered in his remittance to the Village.

The Finance Committee further wishes to advise the Board that the amount of $1,091.23 in accordance with the schedule as submitted in the Auditor's report, covering the 14 months, ending April 30, 1932, is chargable to the Collector, having been funds collected on special assessments as indicated in the said page 83, and as referred in the Auditor's letter, dated July 25, addressed to the Village Board, which is as follows:

(Quote) "WE NOTED CERTAIN SPECIAL ASSESSMENTS WHICH WERE RECORDED PAID ON THE ASSESSMENT ROLLS BUT NO EVIDENCE IS SHOWN OF HAVING BEEN RECORDED ON THE CASH RECEIPTS RECORDS. THESE ITEMS AMOUNT TO $1,091.23, THE DETAILS OF WHICH WILL BE FOUND ON PAGE 83, HAVE EVERY APPEARANCE OF HAVING BEEN COLLECTED AND THE CASH WITHHELD. WE HAVE BEEN ADVISED THAT CERTAIN WATER BILLS AMOUNT TO $6.93 HAVE BEEN COLLECTED, THE PROCEEDS OF WHICH WERE WITHHELD." We submit that all of these items are the responsibility of the Village Collector, Mr. A. C. Anderson, who was in office at the time of these collections and accordingly, a demand is made upon mr. A. C. Anderson that the sums of money now in his possession or which have been collected should be immediately paid over to the Treasurer, taking his receipt therefore and file with the Village Clerk. We further submit, that none of these items are represented by commission accounts and that there is no commission to be

considered in this matter inasmuch as Mr. Anderson was paid a salary of $200.00 a month for his services up to and including July 30, 1932, and $80.00 for the first half of August, 1932. His compensation of $200.00 a month is in accordance with an Ordinance passed by the Board.

Respectfully submitted,

P. H. Dempers, Chairman

L. E. Mayer Member

Member

It was then moved by Trustee Dempers seconded by Trustee Groote that this report be spread in the minutes of this meeting and the recommendations contained therein be concurred in. Upon the clerk calling the roll the following vote was cast:

Mayer	aye	Dempers	aye
Sedgwick	aye	Buchholz	nay
Groote	aye	Schneider	nay

Carried.

Trustee Buchholz as Chairman of the Light and Water Committee then brought up the matter of a proposed new contract with the Public Service Company for the power used by the Village of Lombard together with the report and recommendation from Carl Kleck Superintendent of Light and Water, recommending the execution of this new contract and scheduling the saving in power cost over a past period as a basis of comparison. After a general discussion with F. P. Elliott, District Manager of the Public Service Company it was moved by Trustee Mayer, seconded by Trustee Schneider that the matter of this contract be referred to the Light and Water Committee and the Village Attorney for their recommendations.

Carried.

The clerk then read the following ordinance:

Mr. Schneider, Street Commissioner, called at my office on June 3 to find out what the railroad company was going to do about installing crossing protection at West Road, Charlotte Street

and Highland Avenue. At that time, we had not heard from the Illinois Commission as to their decision from a hearing held April 27, and I informed him that we would do nothing in this matter until it had been finally decided by the Illinois Commission, and on June 14, an order was entered to the effect that while there is an element of hazard at these grade crossings, they, the Commission, do not believe that the facts in this case justified additional protection at the present time.

I did discuss with Mr. Schneider the possibilities of the jeweled reflector sign, but I believe he was under the wrong impression that we would make such an installation at Lombard, and in view of the order entered by the Illinois Commerce Commission, we could not make this installation at Lombard.

Yours truly,

T. H. Kearton

Supt. Signals

It was then moved by Trustee Schneider seconded by Trustee Buchholz that this communication be received and placed on file.

Carried.

The clerk then read the following communication:

Yours very truly,

District Manager

It was then moved by Trustee Buchholz seconded by Trustee Schneider that this communciation be received and placed on file. Upon the clerk calling the roll the following vote was cast:

The clerk then read an ordinance entitled: "AN ORDINANCE REGULATING TAXI CABS IN THE VILLAGE OF LOMBARD." It was then moved by Trustee Mayer, seconded by Trustee Sedgwick that this ordinance be referred to the ordinance Committee and the Village Attorney for their joint recommendation.

Carried.

The subject of the completion of the construction on the Meyers Road paving was then discussed and by general consent it was agreed that the Village would complete enough of the work to protect the concrete from damage which might be suffered during the coming winter months, this work to consist of cleaning and pouring asphalt in the expansion joints. President Palmer asked Mr. McCoy's opinion as to whether the expense of this work could be assumed by and paid for with the funds on hand from special assessment No. 123, and was advised that the money could not be used, and upon Mr. Deuchler's statement that this work could be completed at a cost of $300.00 to $400.00 it was moved by Trustee Buchholz seconded by Trustee Groote that the Streets and Alleys Committee be authorized to have this work done by the present maintenance crew, and the expense of same be charged to the available funds in the first installment of Special Assessment 123. Upon the clerk calling the roll the the following vote was cast:

Mayer	aye	Dempers	aye
Sedgwick	aye	Buchholz	aye
Groote	aye	Schneider	aye

Carried.

The clerk then read the following report and recommendation from the Light and Water Committee:

The Light and Water Committee has given the entire Water Department a very careful analysis and is of the opinion that at this time no action should be taken to incur any additional burden of expense upon the Department or Village in the authorizing of any extensions or improvements. The Committee recognizing the value and need of the proposed water reservoir, arrived at this conclusion due to the demand for reduction of public expenditures, the present unsettled financial condition

of the Village and the increased cost of such improvements due to the large discount figured in the acceptance of payment through water revenue bonds.

It is therefore recommended that the bids received for this improvement be rejected and the respective checks be returned to the bidders and the proposed building of the water reservoir be held in abeyance until general conditions improve sufficently to warrant its construction.

W. C. Buchholz
(Chairman)

C. Galen Sedgwick

Fred Schneider

It was then moved by Trustee Buchholz seconded by Trustee Sedgwick that this report be received and the recommendations embodied in this report be concurred in. The question was then open for discussion and Trustee Meyer discoursed at length upon the merits of the reservoir and expressed his desire that the project be completed. Trustee Buchholz qualified the action of the Light and Water Committee by explaining in detail that the action was taken due to the general financial condition existing and the fact that it was becoming late in the season for the successful installation of this project. Trustee Groote then addressed the Board and in a general way concurred with Trustee Mayer. Trustee Dempers then expressed himself as not favoring the construction of the Water Reservoir at the present time and based his decision on the fact that the Village was having difficulty in meeting its financial obligations and stated that he as Chairman of the Finance Committee could not approve the expenditure of funds for this improvement. Trustee Sedgwick then stated that his concurring in the recommendation of the Light and Water Committee was due largely to the fact that he could not approve the expenditure of present funds or anticipated funds while the present financial difficulties were confronting the Village. Mr. Deuchler, Village Engineer, and Carl Kleck, Sup't of Water, each addressed the Board in turn and recommended the installation of this reservoir. The original question was then called for and upon the clerk reading the motion a roll call was ordered and the following vote was cast:

Mayer	nay	Dempers	aye
Sedgwick	aye	Buchholz	aye
Groote	nay	Schneider	aye

Carried.

It was then moved by Trustee Mayer seconded by Trustee Buchholz that the Clerk be instructed to return the checks of the three bidders thanking them for their bids.

Carried.

It was moved by Trustee Buchholz seconded by Trustee Sedgwick that this meeting adjourn. So ordered.

Trustee Groote was absent.

The clerk then read the unapproved minutes of the regular meeting of September 19 and the adjourned meetng of September 26 and Trustee Schneider asked that where reference was made to the employment of W. A. Haberstick to conduct the school children accross down town street intersections that the minutes show that it was unreasonable to expect the Safety Patrol Boys to miss their studies in order to do this work.

Trustee Sedgwick then asked that the records of the proceedings in the matter of the employment of additional help to assist in the making out of Special Assessment bills show that the remuneration to be paid this help shall be $15.00 each per week. It was then moved by Trustee Dempers seconded by Trustee Sedgwick that these minutes be approved as corrected.

Carried.

Mr. Johnson of East St. Charles Road then addressed the Board regarding his financial difficulties and in an indirect way asked that the Board assist him by way of employment. It was explained that the Village was not in a position financially to spend money for additional help at this time.

A citizen living on Ahrens Avenue north of St. Charles Road then addressed the Board stating that a group of residents living on that street were contributing a sufficient amount to pay the freight on a car-load of cinders to be used or spread on their street and asked that the Village assume the cost of unloading and spreading these cinders. After a general discussion it was moved by Trustee Dempers Seconded by Trustee Schneider that this matter be referred to the Streets and Alleys Committee authorizing and allowing them the authority to proceed with this work as outlined above. The clerk then called the roll and the following vote was cast:

Gentlemen:

Is there a possibility that your organization will in the near future need the services of a young electrician, a capable, thorough and careful workman?

I believe I am in a position to meet all requirements in the electrical field, having had a broad practical experience, as well as, being a graduate of a reputed electrical school.

I am 21 years of age, and would be very pleased to connect myself with your organization.

Should you have an opening now or in the future, may I ask you to consider my application?

Trustee Buchholz then addressed the Board in the matter of application for building permit as had been refused by the Superintendent of Building Construction due to the fact that the proposed building did not conform to the building ordinance, and the applicant did not propose to connect to the sewer, having in mind to use a cesspool for sewage. It was then moved by Trustee Dempers seconded by Trustee Schneider that this matter be referred to the Building Committee to investigate. President Palmer then addressed the Board saying that if an ~~evasion~~ exception was made in this case it would be necessary to revise or repeal the present building ordinance, and that the Village Board would be flooded with applicants to erect buildings of a similar nature. Trustee Mayer also addressed the Board and concurred in President Palmer's opinion. The clerk then read the original motion and upon a vote being cast the motion was carried.

Trustee Buchholz then presented the following report:

To the President and Trustees,

Village of Lombard, Illinois

The undersigned as the minority of the Finance Committee offers the following as a minority recommendation:

It is my opinion that the majority report as submitted to this board September 19 represents a prejudiced and unfair attitude on the part of the members of the Finance Committee who signatures appeared on that report.

I further represent that the Finance Committee has shown a lack of cooperation that is not conducive to the ultimate solution of the chaotic condition of the village finances and the present deplorable condition and the lack of planning can be corrected only by the application of sound financial planning by some members of the present board who are qualified in that respect and I firmly believe that we are fortunate in having available a man who's training and vocation would be a valuable asset on that committee.

Therefore I ask that two members of this board be appointed to the Finance Committee replacing the two present members or in case this is not done I ask that my resignation be accepted as a member of the Finance Committee.

Respectfully,
W. C. Buchholz

Mr. R. G. Clarke

Dear Sir:

I have been requested by the officers of this company to direct your attention to the unpaid balance due us from the Village of Lombard which now totals approximately $14,256.37.

I am inclined to the belief you will agree that we have indeed been patient in awaiting action. It is difficult to understand why the Village should not remit to us out of moneys received the proportion due us, and this is particularly true with reference to the power account.

November 22, 1932

To the Honorable President and
Board of Trustees of Lombard.

Gentlemen:

Since it is your pleasure to discontinue the work of cutting down trees which have proven a menace to the public and also have been destructive to our sidewalks and sewer system. I wish to make a general report as to the amount of work the village has received, for which they expended very little money. Before going on with this report, I would like to ask the Board in some way to relieve me of my promises to take down trees, made to folks living in east Lombard.

All of Lombard, with the exception of Green Valley and Elmore's Subdivision has been trimmed. Elmore's Subdivision and Green Valley are about half completed. There are a great number of beautiful young trees in Elmore's Subdivision which need attention very badly.

From September 7th to November 19th we removed eighty (80) trees, thirty six (36) of which were entirely dead or badly decayed. Forty four (44) were poplars, which, as is commonly known, are trees that attain great height and size. Therefore, with four men, it was a good days work to take down one tree, considering the fact that the trees had to be topped out and limb by limb let down to avoid destruction to other trees and the possibility of accident. Then too, the trees had to be sawed into Three foot lengths to facilitate handling.

If it is your wish that I give a detailed report as to where the trees were removed, or any other details, I will be very glad to do so..

As to rainy day, - I am sure it is appreciated that tools when used constantly need considerable attention.

Hoping that my efforts have proven satisfactory, I am

Yours very truly,

(signed) A. J. D'Ambrose
Forrestry Commissioner
of Lombard

The clerk then read the following communication:

December 3, 1932

To the President and Board of Trustees,
Village of Lombard, Illinois

Gentlemen:

I represent the owner of a first mortgage on Lombard property, described as Lot three in the subdivision of Lot 20 and the Easterly three feet of Lot 19 of E. W. Zander's Grove Addition to Lombard, on which there are forfeited special assessments for two years, amounting to about $440.00.

If these forfeitures are not redeemed now there will be no additional penalty until the tax sale in 1933, and the owner of the mortgage does not wish to make the redemption unless some concession is made to him by refunding the penalties to be paid. If you can assure me that a refund of the penalties will follow the payment to the County Collector I believe I can induce my client to provide the money for an immediate payment.

A foreclosure suit on the mortgage will probably be filed soon and rents collected during the redemption period by the receiver, who could be authorized by the Court to redeem from the special assessments next year after collecting rent sufficient for that purpose. This would avoid the burden of raising cash at the present time and my client is not in a position to make the payment without considerable sacrifice.

Kindly let me know what your attitude is in this matter, so that the payment, if made, can be taken care of without delay.

Yours very truly,

Willard Moffett

Carried.

The clerk then presented the matter of F. A. Village of Lombard,
Lombard, Illinois

Gentlemen:

In view of the fact that our water bill is running a little over $200.00 every quarter year, making a total for the year of approximately $800.00, we would like to know if the Village will grant us a permit to dig a well to supply our own water for our building, with a view of reducing the cost of water consumed in our building.

If, of course, some substantial reduction can be made on our water rate, then we would prefer that, but otherwise it will become necessary to drill our own well and furnish our own water.

We shall appreciate to have you take this matter up at your next Board meeting and advise us what we may expect.

Yours very truly,
Suburban Auto Insurance Company
C. F. Deicke

Dear Sir:

Answering your letter regarding the bridge over the East Branch of the DuPage River on St. Charles Road, we are making plans for the immediate construction of this bridge and did not want to go to the expense of putting in a temporary structure. We have a pedestrian bridge over this river and the cars certainly can go around for a short time.

We cannot advertise this as we expect to change the location and it will be necessary to acquire right - of-way which cannot be acquired until the title has been cleared. This was in Court and should have been settled as I understand it, on December 8.

Yours very truly,
