

Highland Avenue Sewer Separation *Asphalt Paving*

October 3, 2025

Dear Resident:

PAVING OPERATIONS ARE SCHEDULED FOR MONDAY, OCTOBER 6th

Weather permitting, the final surface layer of asphalt will be placed on South Chase Avenue, Division Street, and at the Highland Avenue/Division Street intersection on Monday, October 6th. If paving is delayed, you will receive an updated notice through both another hand-delivered newsletter and through the "Notify Me" system.

The contractor will be preparing the roadway for paving by applying a **bituminous emulsion that will serve as a tack coat for the surface course**. **This work will begin at roughly 6:00 AM. Please do not mow or blow leaves onto the roadway after the emulsion is applied.**

Parking: Park on South Chase Avenue (south of Division) or South Highland Avenue (south of Division). Do not park on Division Street between South Chase and South Highland or on South Chase Avenue between South Broadway and Division Street.

Driving after spraying: Drive slowly. Avoid driving on concrete aprons and driveways. Remove any oil splatter from your vehicle as soon as possible.

The paving subcontractor will be resurfacing roadways for two separate residential improvement projects in Lombard on the same day.

- **Highland Project:** Paving is scheduled for Monday, October 6th.
- **Asphalt Surface Paving hours:** Tack coat at approximately 6:00 AM. Surface course from midday to early afternoon.
- **Parking:** As above and park at least 100 feet away from intersections to allow trucks carrying hot asphalt to safely enter and exit the job site.

Avoid driving on the fresh asphalt until dusk to allow it to cool and prevent tracking asphalt onto your driveway. Also, avoid sharp turns and hard or sudden braking, as these can leave marks or damage the new surface.

For any construction-related questions, comments, or administrative concerns, please contact the Department of Public Works at (630) 620-5740 or at publicworks@villageoflombard.org.

- **After hours:** Leave a message for Public Works Administration, and your call will be returned the next business day.
- **Emergency calls:** Press 0 to be connected directly to the Police Department.
