

## LOMBARD FIRE DEPARTMENT Junior Firefighter Academy

# Lombard Fire Department Junior Firefighter Academy

The Lombard Fire Department would like to invite Lombard high school students considering a career in the fire service or emergency medical services (EMS) to participate in the Junior Firefighter Academy, lead by fire personnel from the Lombard Fire Department.

The academy will be conducted on two consecutive Saturdays for 6 hours each day and will start at 9 a.m. and end at 3 p.m. Participants will come away from the academy with an understanding of how the Lombard Fire Department is structured, the responsibilities of personnel, the capabilities of each apparatus, and the teamwork required for the Fire Department to execute its duties. The academy will be a combination of lecture and hands-on drills. Participants will be asked to perform such physical activities as carry hose and tools, ascend stairs and crawl. All activities will be conducted under the close supervision of Fire Department personnel. Participants will be asked to sign a release at the beginning of the first class.

The class size is limited to 10 participants so students can get close personal attention from instructors. Participants will also be given information on colleges that specialize in fire science and emergency medical programs and what to expect when testing for a position on a fire department.
