

## 2021 CONCRETE REHABILITATION PROGRAM

---

October 7, 2021

The Village's contractor G&M Cement began curb and street panel removal and replacement this week for the remaining half of the residential streets included in this year's program. The contractor intends to continue and complete removals tomorrow (October 8th). Concrete will follow removal, with pouring anticipated Tuesday and Wednesday (October 12 & 13). The concrete will then cure the balance of the week, with the roads expected to be open by the October 18<sup>th</sup> or earlier. Work is weather dependent, so specific operations may be delayed pending inclement weather.

One lane of the streets will remain open during construction. While the road will remain open to traffic, there will be times of potential delays/impacts during removal and pouring operations. The contractor will flag traffic. Due to the construction impact, parking will be restricted during construction. No street parking is allowed during working hours (7am – 6 pm). After work hours, parking will be allowed (as legally signed); however, for safety, vehicles should park away from construction operations areas. Vehicles will need to be removed at the start of the workday.

Passes should have been previously provided for residents impacted by the concrete panel work in front of driveways and/or apron work. However, additional passes will be provided as necessary. **All vehicles parked on the street overnight must display a parking permit issued by the Village.**

Please feel free to contact Public Works if you need additional passes or have any questions or concerns at (630) 620-5740 or [publicworks@villageoflombard.org](mailto:publicworks@villageoflombard.org). **Vehicles not displaying parking permits may be ticketed by Police.**

You will be notified if there are any changes to the schedule.

We apologize for any inconvenience this may cause.

Thank you,

*Village of Lombard*  
*Public Works Department*
