*"Our shared **Vision** for Lombard is a community of excellence exemplified by its government working together with residents and businesses to create a distinctive sense of spirit and an outstanding quality of life."*

*"The **Mission** of the Village of Lombard is to provide superior and responsive governmental services to the people of Lombard."*

Downtown Residents/Businesses:

RE: Downtown Sidewalk Rehabilitation Project

As part of the Village's 2023 Capital Projects Program, the Village will be rehabilitating the sidewalks along St. Charles Road between Charlotte Street and Elizabeth Street. The scope of the project includes removing and replacing the existing brick pavers with a concrete sidewalk between the building and tree vaults with decorative pavers set between the tree vaults and curb, removal and replanting of trees and landscape elements, as well as revisions to the streetscape elements.

The work is being conducted to improve the walking surface, address issues related to compliance with the Americans with Disability Act (ADA) requirements regarding slope and cross slope of sidewalks, and improve the general aesthetics in the downtown corridor.

The Village has contracted with Robinson Engineering Ltd. to prepare plans and specifications for the project. The work is anticipated to begin in April 2023 and extend through the summer. The project will be carried out in phases to minimize the impact on events conducted in downtown through the summer months.

The Village will conduct a public Open House on October 3, 2022, from 6:00 p.m. and 8:00 p.m. in the Auditorium on the lower level of the Helen Plum Library, 110 W Maple St. The meeting will feature a presentation on the project and allow attendees to review the preliminary plans and ask questions. Should you have any questions in advance of the meeting, please contact the Village.

The primary contact for this project will be Mike Barbier, Civil Engineer II, with the Village of Lombard. Mike may be reached at (630) 620-5740 or at barbiern@villageoflombard.org. In addition, the Village will establish a specific webpage for the project on the Village website and will provide frequent communications before and during the construction period.

Thank you in advance for your assistance as we undertake this important improvement project.

Sincerely,

Carl Goldsmith

Director of Public Works
