AN EXELON COMPANY

Incentives and Economic Development Support

ComEd's Economic and Workforce Development Department is focused on growing the Illinois economy and developing tomorrow's talent enabling a clean, inclusive, diverse and sustainable future for communities throughout Northern Illinois. Leveraging strategic partnerships with state and regional development stakeholders, we ensure customers can enjoy low power prices, industry-leading reliability performance, access to 100% renewable energy, and an extensive portfolio of energy efficiency programs and other incentives.

Energy Efficiency:

ComEd.com/BizIncentives

Extensive portfolio of programs for lighting, motors, HVAC, refrigeration, and more. Over \$170 million in incentives available; \$2 million annual customer participation cap. Plus an Emerging Technology Program to pilot innovative concepts!

Solar/Storage:

ComEd.com/Solar

Rebates of \$250/kW for up to 5MWs of installed capacity. Can also be paired with up to 5MWs of onsite energy storage. Total incentive of \$2.5 million!

Beneficial Electrification:

ComEd.com/EV

Resources to help make informed decisions about electric vehicles. A pending plan awaiting approval from the Illinois Commerce Commission in March.

Line Extensions (Rider DE):

Customers can receive large up-front credits for electric line extensions and can recoup deposits on an accelerated timeline.
