Keeping You Informed

Traffic Access & Safety Precautions

Please be Advised

The Village's Contractor, G&M Cement Construction, is scheduled to perform road panel replacement work on Highland Ave. between Division St. and St. Charles Rd. Weather permitting, the project will start in early September and should be completed within 4 weeks.

Traffic will be maintained one-way northbound on Highland Ave. only for local traffic.

However, to facilitate the contractor's work, Highland Ave. (Division St. to St. Charles Rd.) will be closed fully during their working hours, 7:00am - 5:00pm.

The project will start with the removal of concrete panels in the southbound lane. Drainage structures will be adjusted as necessary. Concrete replacement will immediately follow removals. Upon sufficient cure time for the new concrete, typically 3-4 days, construction will "flip" to the northbound lane, following the same procedure.

Mail delivery and Waste Management services will be unaffected by the project. **Please have your bins out by 6:00am on your scheduled collection day.**

Upon completion of Highland Ave., the contractor will proceed with other concrete panel replacements throughout the Village.

Keeping You Informed

Individuals are encouraged to sign up for the free Notify Me® service through the Village Website www.villageoflombard.org/NotifyMe. Notify Me® provides timely email or text message project updates, and this information will not be shared or used for any other purpose.

Traffic Access & Safety Precautions

Various areas within the work zone will be signed for overnight street parking for residents if access to driveways is impacted. **All vehicles parked in the signed street locations or in driveways must have vehicles moved by 6:30 AM each work day.**

Driveway Access & Parking

Please note that some driveway access may be impeded for panel replacement. Driveways impacted by construction will be provided notification and parking passes. The parking zones within the work zone (seen on the back page) may be utilized for overnight parking, as well as side streets. **No parking will be permitted within the travel lane.**

If you have questions or concerns, please contact the Village using the information listed in the left sidebar of this page.
